- Attaching an Ear Wire
- Opening and Closing a Jump Ring
- Gluing Flat Back Rhinestones

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete “Dance All Night” earrings:

Step 1

Apply thin coats of 5 Minute Epoxy to the back side of the “spokes” near the center of one hot pink Lucite filigree flower. Adhere one silver plated filigree to the back of the Lucite flower. Apply a dot of adhesive to the back of one SS34 Olivine flat back rhinestone, and adhere it to the center of the Lucite filigree flower. Allow both to dry.

Step 2

Apply a small dot of adhesive to the outer edge of one “petal” of the filigree flower. Using a Jewel Setter or tweezers, place one SS9 Olivine flat back rhinestone onto the glue, and allow it to dry (see Gluing Flat Back Rhinestones Technique).

Step 3

Repeat Step 2 five times, one on each petal.

Step 4

In the same manner as in the previous steps, adhere one SS16 Indian Pink flat back rhinestone to the center of one olive Lucite filigree flower.

Step 5

In the same manner as in the previous steps, adhere six SS7 Indian Pink flat back rhinestones to the olive Lucite filigree flower, one just outside each “petal” near the center of the flower.

Step 6

Open one jump ring (see Opening and Closing a Jump Ring Technique). Use the jump ring to connect the two filigree flowers. The jump ring should be placed in a hole between two flat backs in each flower. Close the jump ring.

Step 7

Open the loop on one ear wire (see Attaching an Ear Wire Technique), and attach it to a hole in the olive flower filigree directly opposite the jump ring used in the previous step. Close the loop.

Step 8

Repeat Steps 1 – 7 for the second earring.
