**For the Evaluator:** Check the appropriate box according to the Clinician's ability to perform the defined skill: **S = Satisfactory** **U = Unsatisfactory** Place any comments if necessary and initial.

**Evaluator (print name):** \_\_\_\_\_

**Objective: To wash or sanitize hands according to the standard of care.**

Hand Washing	OBS	S	U	Comments	Initials
Removes rings if required by location; also removes watch and bracelets or wears them well above the wrist.					
With arms angled downward under the faucet, adjusts the water temperature until it is comfortably warm.					
Wets hands and wrists with warm water, and apply soap from a dispenser. Keeps below elbow level.					
Works up a generous lather by rubbing hands together vigorously for at least 20 seconds.					
Pays special attention to the areas under fingernails and around cuticles as well as to thumbs, knuckles, and sides of fingers and hands. If rings not removed, moves them up and down fingers to clean beneath them.					
Avoids splashing water on self and the floor.					
Avoids touching the sink and faucet.					
Rinses hands and wrists well.					
Pats hands and wrists dry with a paper towel.					
If the sink is not equipped with knee or foot controls, turns off the faucets by gripping them with a dry paper towel.					

Hand Sanitizing	OBS	S	U	Comments	Initials
Applies alcohol-based hand rub to the palm of one hand and then rubs hands together covering all surfaces of the hands.					
Continues rubbing hands together until all product has dried.
