**The Order of the Stick**

“Seriously, I’m not waiting for that book any longer. I’m outta here.”

Your book—which was totally ordered on time for the holiday by the person who gave you this card—arrived in the warehouse too late to be shipped in time for the holiday. It should be arriving in the next few days or weeks (depending on where you live).

Also, there might be a calendar, too.

Fog Cloud!

It didn't work—he seems to be using some sort of psionic elk to see through the fog!

Santa, come back! They're ready now!

Nnnngh! Why is this book so heavy?!?

Next time you duel a half-orc, try to keep it to twelve panels per page like the rest of us.
