

Mini Flag Instructions

Use the mini flags in the download to create mini bunting for decorating cakes or centerpieces, stringing on backdrops, or for making cupcake toppers using birthday candles or treat sticks.

1. Print out mini flags PDF on plain paper using your printer's highest-quality setting.
2. Cut out desired number of individual mini flags.
3. Fold each mini flag along dotted line, unprinted sides together.
4. For Bunting: Cut desired length of string. Make sure to leave enough string at each end for tying bunting. Fold mini flag over string and glue unprinted sides together. Repeat for each mini flag, spacing evenly, until length of bunting is achieved.
5. For Cake Topper: Make mini bunting of desired length, leaving sufficient string on each end for tying. Attach ends of string of mini bunting to paper straws, treat sticks or skewers. Insert into cake or attach to centerpiece as desired.
6. For Cupcake Toppers: Fold mini flags over birthday candles or treat sticks and glue unprinted sides together. Insert each candle into a cupcake.
