

Be the Light Notebook

These fun notebooks make a great gift or handout. Or, have the girls assemble them at a Mutual activity. These notebooks are designed for your girls to add their own thoughts, scriptures, testimonies, journaling and drawings to the pages.

I've designed a cover, fourteen pages and a bonus 2016 Mutual Theme page which can be put at the end or on the back of the notebook. The size of the notebook is a quarter page of a standard 8 1/2 x 11-inch page or 4 1/4 x 5 1/2 inches.

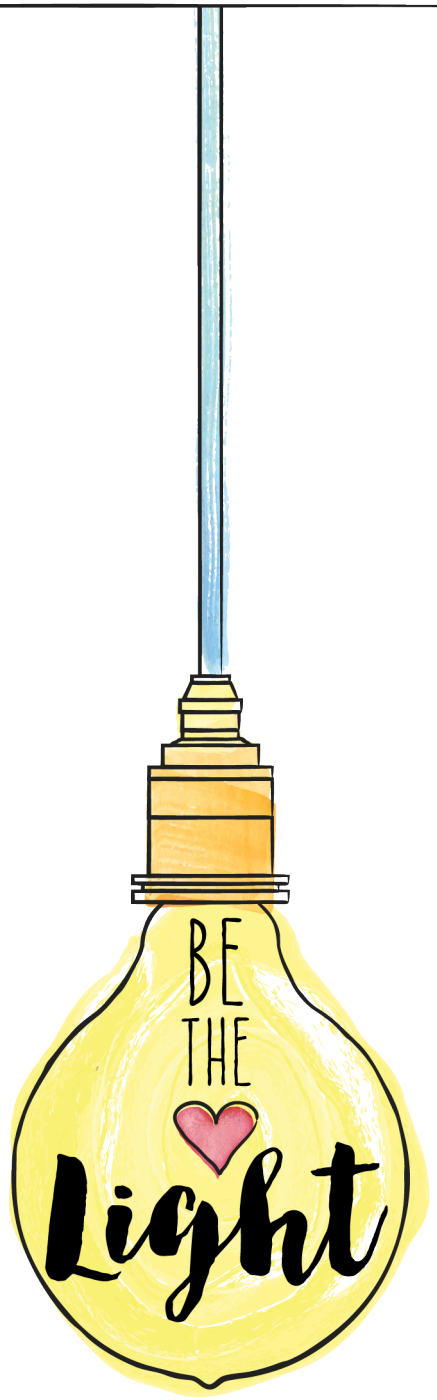

I bound my notebook using my Zutter Bind-It-All and Owire purchased from Amazon, but you can use staples, rings, Cerlox, ribbons and punched holes, or any other binding method.

SUPPLIES

- Be the Light Notebook PDF File (included in the download)
- Cardstock (four sheets per notebook)
- 1/2 Sheet Transparency Paper for Front & Back Covers (optional)
- 1 5 1/2 x 4 1/4-inch Chipboard Cover (optional)
- Printer
- Paper Cutter or Scissors
- Glue (optional)
- Supplies for Selected Binding Method

INSTRUCTIONS

1. Print the Be the Light Notebook pages PDF onto card stock using your printer's highest-quality setting.
2. Cut apart pages using a paper cutter or scissors.
3. Arrange pages in desired order, cover on top.
4. Prepare cover materials, if desired, by cutting transparency page into 5 1/2 by 4 1/4-inch pieces. These will be used to add a little durability to the notebook, one on top the cover, the other on the back. Cut chipboard cover to size, if needed. Since I purchase 6x6-inch chipboard covers, I cut them to size using my paper cutter.
5. Make back cover: Place 2016 Mutual Theme page or other page you desire on top of chipboard cover. Glue page to chipboard. Top with one piece of transparency paper. Place back cover and transparency on bottom of your stack of pages, making sure it faces the back.
6. Prepare front cover by placing one piece of transparency paper on top of cover page. And add to top of your stack of pages.
7. Punch and bind using your preferred method.
