

Focus *on Your* Innergram: Program Cover

Blank Cover

Create a quick-and-easy custom program cover for your "Focus on Your Innergram" event with this editable PDF.

INSTRUCTIONS

1. Open editable PDF in Adobe Reader or Adobe Acrobat Pro. (Download Adobe Reader for FREE at get.adobe.com/reader.) There are two PDF files for this project. This file has no logo and space for you to enter your own theme. The other file has a "Come Unto Christ" logo on the front and back covers. NOTE: If you want to add your own logo/fonts/artwork to either of these files, you will need to use the program cover JPEG files and a photo-editing program like Photoshop Elements, Word, or Gimp.
2. Page down to PAGE 2 (program cover outside) of the PDF and enter your information into the blue boxes. NOTE: All text colors, sizes and fonts are preselected and cannot be changed.
3. Page down to PAGE 3 (program cover inside) and enter your information into the blue boxes.
4. Save. (FILE>SAVE)
5. Print out PAGE 2 (FILE>PRINT, then click the PAGES radio button in the PAGES TO PRINT box and type 2 in the PAGES field). Use your printer's best-quality setting for best results.
6. Feed the printed pages back into your printer and print PAGE 3 (FILE>PRINT, then click the PAGES radio button in the PAGES TO PRINT box and type 3 in the PAGES field) on the back. Print a test page or two before printing a large quantity to ensure you put the paper in back the right way.
