

# WHAT MERCHANTS ARE SAYING ABOUT HARBORTOUCH

"When I started my business, I knew that I was going to need a reliable POS system to help my restaurant run smoothly. After taking the time to research many systems, I came across Harbortouch. Everything about the Harbortouch system stood out to me. As soon as I placed my order, I knew that I had made the right decision. The installation and training process was flawless, fast and painless and my sales rep was there to help me every step of the way. It was quite simple to familiarize ourselves with the Harbortouch software. The trainer was very patient with the instructions and carefully went over all the features. The hardware, software, and Harbortouch team have been wonderful to work with and have made this whole experience a positive one. I am extremely satisfied with my decision to choose Harbortouch."

— Eduardo, Lobo De Mar Restaurant

"When we started searching for a point of sale, we knew our POS system needed to make our day-to-day much simpler and faster, and the Harbortouch POS does just that! Of all of the features our Harbortouch POS has to offer, we truly appreciate the speed at which we can ring up tickets and the simplicity of the software. In this industry, it is important that you are able to turn tables quickly. The Harbortouch point of sale system allows our servers to ring in orders and close tickets faster than ever before. The Harbortouch POS has provided a sense of relief in knowing that our day-to-day operations are running as smooth and efficiently as possible. We are turning tables faster, managing orders more accurately and increasing our daily revenues. Not to mention, the online management tool allows me to monitor business activity anytime, anywhere. I could not be happier with my choice in Harbortouch!"

— Marco, Stone Water

"After researching several POS systems, we decided that Harbortouch Bar & Restaurant would provide the best solution for our business. The software seemed much more intuitive than some of the other systems we looked at, and it offered much better functionality. After installing the Harbortouch system, we saw an immediate impact on our business. It has helped our entire operation run smoother and more efficiently. The software is very user-friendly so our servers were able to pick it up right away. Harbortouch has been there to help us every step of the way, from programming the system, to professional installation, to the 24/7 support they provide. Any time we have had any questions about the software, we have just called Harbortouch and their knowledgeable support representatives have quickly assisted us. Overall, I could not be happier with my Harbortouch system. The entire experience has been great, from the sales and setup process, to support, to the product itself."

— Robert, The Dubliner on the Delaware

"We were introduced to Harbortouch by a neighboring business who had a system and loved it. We wanted a POS system that would allow us to run our business more efficiently and would be simple to use. Once we got a demo of the system, we knew Harbortouch Echo would be the best fit for us. The installation and setup process was trouble-free. Harbortouch programmed the system with our menu before they sent it to us, so there was very little setup we had to do once the equipment arrived. One of our favorite things about the system is how easy it is to update the menu. Some of our flavors change daily and the Echo system makes it easy to manage these changes to keep the menu current. Our entire experience with Harbortouch has been great. We would definitely recommend the Harbortouch Echo system!"

— Raine, Turtle Tom's Ice Cream Shoppe

"Harbortouch was recommended to us by a colleague who has also been very happy with the company's product and service. After speaking with my sales rep, I was confident that Harbortouch had everything we needed with room for growth at a great value! The financial reporting is superb, but my favorite features are the time clock to manage our staff hours and the ability to easily customize our menu when we need to add, edit or delete items. Harbortouch Echo's sales reports have also helped us make better business decisions since we can see what our sales are at any time as well as our top-selling items. The system works, and it works well which is all we can ask for!"

— Steve, Donut Mania
