The Harbortouch Elite® POS system delivers a high quality point-of-sale solution that is unmatched in both reliability and functionality.

Save time and money with Harbortouch POS for quick service and delivery restaurants. Efficiently manage your delivery or quick service restaurant so that you can focus on what's important: keeping your customers satisfied and spending!

BENEFIT FROM A WIDE RANGE OF USEFUL FEATURES

Driver Management: The delivery dashboard gives you a complete control of your delivery drivers. From the dashboard, you can see which drivers are available and who is out on delivery. You can easily assign drivers to specific orders and monitor how long the driver has been on delivery. You can also view order details and see how long each order has been waiting.

Directions & Mapping: The software offers advanced mapping functionality for delivery orders and allows you to print directions right on the receipt paper. You can even print directions with multiple stops to deliver more than one order in a single trip.

Caller ID Integration: The software features advanced caller ID integration to easily manage incoming calls. View each customer's contact information and order history as the call comes in and then assign each call to a new order in a single step.

Flexible Pricing: Easily set up and customize coupons, specials or other discounts. Discounts can be manually entered or can be automatically calculated based on day, time or items ordered.

Employee Management: Access a complete employee database, showing specific details on each staff member. Track hours worked, edit timesheets, calculate overtime, evaluate sales performance and manage security levels.

Customer Database: Quickly view customers' order history and personal information. Great for loyalty programs or for serving up the "regular".
