

THE UNIVERSITY OF  
MELBOURNE

Mobile Learning Unit

Melbourne Medical School

# eLearning Made Easy

Our approach is to focus on your goals.  
We work with you to develop customised  
learning solutions that meet your objectives.

## Our Approach

Our team of project managers, visual designers, and technology specialists will work with you to shape your ideas and learning goals into an eLearning strategy.

We use proven learning methods and technology solutions, making them accessible to any organisation that wants to implement an eLearning program that is scalable, immersive and cross-platform.

## Benefits

- Project consultation
- Remote student support
- Optional blended learning programs
- Automated reporting and course evaluation
- Author management system

## Convenience

Mobile and desktop friendly  
course content

## Proven Learning Model

Logical structure of learning units  
to assimilate knowledge into practice

## End-to-end Project Management

Monitoring of project goals  
and objectives

## Ongoing Support

We provide technical assistance  
and student enquiry support

# eLearning Development

## What the Mobile Learning Unit offers:

We provide a customised plan tailored to your specific needs. This includes structured project systems, tools and templates to ensure that the content and information is delivered to the people that need it.

We outline the key aspects of the project development and delivery, as well as provide a breakdown of the services we offer during the life cycle of the project.
