### Expert Reviews:

Edmunds.com: When pitted against other stalwart pickups like the Chevy Silverado, Ford F-150 and Toyota Tundra in a recent comparison test we conducted, the new Ram edged-out the competition thanks to its all-around excellence. In nearly every ranking, including performance, comfort, design, function and build quality, the Ram consistently earned high marks.

newCarTestDrive.com: Antilock and stability functions are standard so all you need to do in evasive maneuvers is push the pedal and steer. In daily driving they deliver good feel and are easy to modulate

KBB.com: If you like your trucks big and bold, the Ram is right for you. The Ram retains its familiar "big-rig" styling, but looks even better thanks to a forward-canted grille and more chrome accents.

ConsumerReports.org: Ram has a steady, controlled ride with little of the sideways bump-stepping on washboard surfaces that traditional pickups are known for. Noise from most sources is well suppressed. Road noise is all but banished from the cabin, leaving just an unobjectionable engine burble.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
