Expert Reviews:

Edmunds.com: On twisting roads, the R8's preposterous power, quick reflexes and heroic grip conspire to make this 3,600-pound supercar feel as nimble as a lightweight roadster.

newCarTestDrive.com: All R8 models are brilliant machines to drive. They are track-munching animals, yet at the same time able to handle adverse weather conditions up snowy alpine passes in the Austrian Alps (believe me, I tried it).

KBB.com: ...the R8's driver-oriented cabin is as luxurious and accommodating as one of Audi's high-end sedans...the cabin remains quiet enough for easy conversations.

JDPower.com Power Circle Ratings

Power Circle Ratings (the Ratings) are developed by J.D. Power and Associates for JDPower.com. All Ratings are based on the opinions of consumers who have actually used or owned the product or service being rated. Since the Ratings are based on J.D. Power and Associates research studies that survey a representative sample of owners, they are indicative of what typical buyers may experience.

High ratings for a particular product/service/company do not necessarily mean that every customer will have a positive experience. It simply indicates that, on average, consumer perceptions of the product/service/company indicate that it stands out when compared with competitive products/services/companies.
