Getting Started

WITH YOUR RED CARPET COLLECTION

The Red Carpet Collection

Welcome to the Jabot family!

Thank you so much for purchasing Jabot. Formulated with proven ingredients and advanced technologies, your Red Carpet Collection features our exclusive Dermal Remodeling technology—the skincare-secret you've been dreaming about that instantly and temporarily makes your skin look and feel youthfully firm and radiant. This quick reference guide will help get you started using this amazing backstage secret!

Step 1: Crushed Diamond Facial Resurfacer

Massage over wet skin for 30 seconds gently and rinse with warm water. Use once a week at night!

Tip: Crushed Diamond Facial Resurfacer works best on very damp skin so splash the face thoroughly with warm water for truly glowing results!

Step 2: Photo Ready Face Lift

Recommend using in the morning!

Pat gently over the face until absorbed. Must follow with daytime moisturizer.

Tip: The lifting benefits of Photo Ready Face Lift are also ideal for the neck and décolleté area. Simply smooth over the upper chest area for skin that looks youthfully smooth and firm.

Step 3: Picture Perfect Eye Lift

Recommend using in the morning!

Apply a small amount around the eyes gently. Must follow with moisturizing eye cream.

Tip: Did you know that you can also use Picture Perfect Eye Lift around the lips to help smooth and lift the appearance of fine lines? Simply pat on lines and wrinkles until absorbed, apply your favorite Jabot Glamour Lip Gloss and you are ready to go!

What is Dermal Remodeling?

Over time, gravity kicks in and causes skin to sag and look less firm and youthful, very similar to a crumbling building. And like a crumbling building needs support, skin also needs an inner support structure to look its best. The Jabot Red Carpet Collection gives your skin this support structure with our Dermal Remodeling technology. This technology, an exclusive elastomer that acts like an invisible net, temporarily lifts up and firms the top layers of the skin, holding and maintaining youthful skin tension and tone to immediately give you a more youthful, radiant complexion.

The logo for 'jabot' features the word in a white, lowercase serif font. A vibrant red, thick ribbon-like graphic is intertwined with the letters, starting from the top left, looping around the 'j' and 'a', crossing over the 'b', and looping around the 'o' and 't' before ending at the bottom left.
