Precious Metal Clay (PMC) contains particles of pure silver, water, and a binder. The clay can be modeled by hand, and with tools similar to modeling clay. The metal clay object is dried, finished, and fired in an electric kiln, transforming it into a solid silver (.999 Fine Silver) object. The fired piece can be soldered and otherwise treated similarly to manufactured metal.

Cancellation Policy: A full refund will be issued if cancelled up to 7 days in advance. Cancellations received less than 7 days in advance will receive a 50% refund.
