

### **Scavenger Hunt Missions**

Mission #1: Find something green and bring it back here.

Mission #2: Line up next to something that's taller than each of you.

Mission #3: Crawl across the room and find something with wheels. Then crawl back and wheel it along the floor.

Mission #4: Find a piece of paper and make a paper airplane (you'll need this later).

Mission #5: Tip-toe to the edge of the room without letting me hear your footsteps. Then line up against the wall.

Mission #6: Sneak over to another group's leader and see what # mission they're on. Don't let them catch you doing it! Then come back and report it to our group.

Mission #7: Find somebody you've never met before and give them a high five.

Mission #8: Choose one of you to close your eyes. The other person should lead him/her to a location of my (leader's) choice within the room without letting him/her run into anything.

Mission #9: See if you can find the smallest object in the room and bring it back here. (The pair with the smallest object wins.)

Mission #10: Fly your paper airplanes to see whose can go the furthest.
