

BRAVE

TAKE A NEW STEP

BRAVE Journey for Kids

**Kids can take new steps, too.*

Kids' Club Vision:

Kids' Club is for kids ages birth through 5th grade. Our vision is that kids understand God's story and recognize that they can be part of it and follow him right now, while they're young. For the BRAVE Journey, kids will hear the same part of God's story as adults so families can talk about it together on the way home from church, around the dinner table or wherever.

BRAVE Journey for Kids:

During the BRAVE Journey, kids will understand that God is calling them to follow him boldly, no matter where he leads. Kids, like adults, will practice hearing God's voice and consider areas in their lives where he is calling them to act bravely. Our hope is that families will be able to process similar concepts together and challenge one another to pursue bravery as they follow Jesus.

Materials include:

- Complete lesson plans for 70-minute experiences. Like adults, we'll unpack the life of Peter, focusing on a different aspect of his life each week.
 - Each lesson is divided into three parts: Connect Time, an initial activity to engage kids and prepare them for the day's story; Large Group, an interactive worship experience with videos, music and storytelling; and Small Group, a time for kids to process and apply what they heard.
 - Lessons include a comprehensive list of supplies needed.
- Original media support, including 6 episodes from our God's Story series (five 2-minute videos about Peter and one 4-minute video recap), several Kids' Club original music videos and other miscellaneous videos (or links to help you find anything that's not original). For examples of God's Story videos or other music videos, visit CrossroadsKidsClub.net.
- Weekly parent handouts called "Daily Talk Starters," which give parents ideas for how to talk to their kids about what they heard in Kids' Club.

Most materials will be available for download on April 1.
