

A checkerboard cake. A cork too nice to throw away. A one-sided conversation with a pet. A forgotten backpack. **A packed schedule.** A teenager peering into a fully loaded pantry, saying, "There's never anything to eat in here." A puffy omelet. A flawless air guitar solo on a wooden spoon. **A set-aside casserole pan to return to the neighbor.** A warm goat cheese spread with breadcrumb topping. A "Good morning!" A grumpy, pre-caffeinated reply. **A little. A lot. A life.**

2017/2018 Specifications

KraftMaid®

KITCHENS FOR THE **REAL** LIVING ROOM®

Specifications

©2017

KraftMaid® Cabinetry is proud to have earned the KCMA Certification Seal for all door styles.

KraftMaid® Cabinetry carries the seal of the Kitchen Cabinet Manufacturers Association (KCMA) Certification Program, which assures that our cabinets meet or exceed the rigorous standards set by the American National Standards Institute (ANSI). Our cabinets are also independently tested to ANSI/KCMA A161.1–2000 and paragraph 611.11, "HUD Minimum Property Standards–Housing 4910.1" 9-8-86.

KraftMaid® Cabinetry demonstrates its commitment to environmental sustainability through meeting or exceeding the requirements as outlined in the Environmental Stewardship Program certification, administered by KCMA.

All KraftMaid® facilities have also obtained ISO 14001 certificate of approval, demonstrating our commitment to reducing the impact of operations on the environment.

KraftMaid® Cabinetry took on 13 tough KCMA tests and passed them all...Beautifully.

- Shelves and bottoms are loaded at 15 pounds per square foot to help ensure no excessive deflection or visible sign of joint separation or failure.
- Mounted wall cabinets are loaded to help ensure that the cabinet will accept net loading in compliance with ANSI A161.1–2012 requirements.
- A load of up to 250 pounds, based on the type of cabinet, is applied against the inside of cabinet fronts to help ensure reliable front joints.
- A 3 pound steel ball is "drop tested" from a height of 6" against shelves, cabinet bottoms and drawer bottoms to help ensure cabinets will withstand dropping of cans and other items.
- Cabinets are impact tested by striking the center of a closed and open door from 12" with a 10 pound sand bag at a 90º angle.
- Cabinet doors are weighted with 65 pounds and operated 10 times to test the ability of the door and hinges to withstand loading.
- Doors are opened and closed for 25,000 cycles to help ensure durability under the stress of normal usage.
- Drawers and drawer mechanisms are tested at 15 pounds per square foot and operated through 25,000 opening and closing cycles to assure durability.
- A 3 pound weight is dropped 10 times against drawer assembly to help ensure that drawer front assembly will withstand the impact of closing.
- Cabinets are hot box tested at temperatures up to 120ºF for 24 hours to help ensure finish will withstand high heat.
- Cabinets are cycle tested at temperatures ranging from -5ºF to +120ºF to help ensure finish will withstand temperature changes.
- A 24-hour soap and water solution test checks finish ability to withstand exposure to detergents and moisture.
- Finish is exposed to vinegar, grape juice, olive oil, lemon juice, 100 proof alcohol and more to help ensure no appreciable discoloration, stain or whitening of the finish.

WARNING: This product can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Designer Support & Customer Care Guidelines

At KraftMaid Cabinetry, we're committed to providing you with the very best service from start to finish. We're always here to help.

Care and Contact

Contacting Customer Care:
Phone – (888) 562-3460
Fax – (888) 562-6493

Hours of Operation:
Monday through Friday – 8 a.m. to 8 p.m. EST
Saturday – 8 a.m. to 5 p.m. EST
Sunday – Closed

Contact Customer Care With Questions or Concerns Associated With:

- Product availability
- Warranty claims
- Order status
- Paperless Ordering support
- Technical issues

Contact Your KraftMaid Account Manager with Questions Concerning:

- Display Requests
- Literature Replenishment
- Service issue resolution
- Warranty claims outside of 90 days
- Design questions
- Promotional Inquiries

Ordering Process

Paperless Ordering:

- Paperless orders are submitted through **www.KraftMaidinfo.com**.
- The design must be converted to an MCE file before uploading through the Send an Order option in the Customer Care drop down potion of the website.
- Consult **www.KraftMaidinfo.com** for a video tutorial and documents on how to trouble shoot Paperless Ordering, or contact **paperlessorderingsupport@mascocabinetry.com**.

Faxed Orders:

- Must include: account number, Purchase Order number, door styles, wood species, finish, door profile, and any other details pertinent to your order. There should be only one door style and finish on each Purchase Order.
- Orders are first come, first served- most orders are entered within 48 business hours of receipt or less.
- Faxed orders require the use of our order form, which can be located on **www.KraftMaidinfo.com**.

KraftMaid®
KITCHENS FOR THE **REAL** LIVING ROOM®

Order Confirmation:

Paperless Ordering:

- You will immediately receive an order acknowledgment with the invoice number. Should we have a question or discrepancy with your order, you will receive a notification that we have received your order and request that you contact Customer Care at your earliest convenience to resolve.

Faxed Orders:

- Once an order has been received, a faxed or emailed confirmation will follow approximately 2 business days later.

Monitoring Your Order:

- Open Order Reports are faxed twice a week to all stores (Tuesday and Thursday evenings) detailing all open orders for that account, regardless of whether they are in production or not.
- You can check the status of an order at any time by logging into **www.KraftMaidinfo.com** and going to the **My Orders** portion of the **Customer Care** dropdown menu.

KMInfo User Name: _____

KMInfo Password: _____

Canceling an Order:

- Cancellations can be requested but are subject to approval from Customer Care.

How to Handle Warranty Claims:

- Damage – if you or a customer received the product and the packaging is visibly damaged, request that the driver open the package. If damage is discovered, you or your customer are then responsible for contacting Customer Care.
- Missing – if an item is on the bill of lading but was not delivered, you will need to process a replacement part order as soon as that shortage is noticed. If you have questions on the replacement part process for missing parts, please contact Customer Care.
- A faxed acknowledgement will be sent for replacement part orders.
- All damage, missing or error claims must be made within 90 days of receipt of the product.

Delivery

Delivery Process

Store or Warehouse Delivery:

- Within 48 hours of order entry, our scheduling team will arrange the delivery date. You can check your Open Order Report to confirm this timing, or visit www.KraftMaidinfo.com to access delivery and shipping information.

End Customer Delivery:

- A home delivery fee is applied to each invoice as an additional cost on all orders that go directly to a customer.
- The contact on the order will receive a phone call within 48 business hours of their order being entered to set up the delivery date. One to five days prior to the delivery date, a delivery time window will be provided.

As long as they own it, we warrant it. KraftMaid® cabinetry isn't just a purchase, it's an investment. We believe in quality craftsmanship. We also believe that quality craftsmanship should last a lifetime, not just a set number of years. Simply put, your customer's investment is protected as long as they own it. If you have a customer with a warranty issue, please direct them to Customer Care at (888) 562-7744.

Wood Species & Characteristics

Alder is softer than other hardwood species with a fine grain pattern. In its raw state, Alder's color can range from pale pink–brown to tan. Rustic Alder likely includes some combination of rustic characteristics such as open and closed knots, burls, worm holes, mineral streaks and sound cracks reflecting the inherent beauty of the wood. These characteristics are expected and preferred as they occur naturally in the material. Of the natural characteristics, open and closed knots are the most common in the species.

Birch is a medium-density hardwood with a distinct, moderate grain pattern that ranges from straight to wavy or curly. The predominant sapwood color is white to creamy yellow, while the heartwood varies in color from medium or dark brown to reddish brown, which may result in color variation within the same door.

Cherry is a rich multi-colored hardwood, often used in fine furniture. In its raw state, cherry has pinkish-brown hues with occasional shades of white, green, pink or grey. It may also contain small knots, pin holes and cherry fissures. A cherry fissure is a small crack that occurs naturally in the wood; it will ***not*** get bigger over time. Natural or light stains accent the color variations and characteristics in cherry, while dark stains soften its complexity. All cherry wood naturally darkens or "mellows" with age.

Crafted Hardwood Veneer is made from an engineered hardwood veneer to emulate the look of real Quartersawn Cherry, Maple or Oak. This material is less susceptible to expansion and contraction and offers a more consistent color and grain pattern.

EverCore™ is a mechanically compressed wood fiber material that reacts less to environmental conditions than other hardwood materials. This material is less susceptible to expansion and contractions that can cause joints to separate showing hairline cracks in painted product. It also provides a more consistent and smooth surface, eliminating the appearance of naturally occurring wood characteristics such as grain patterns, knots or mineral streaks. When EverCore™ is selected, the entire door including stiles, rails, and center panel, will be made from this material.

Hickory is a strong, open-grained wood that is known for its flowing grain pattern and dramatic variation in color. Hickory often contains random pecks, burls and mineral streaks. A single hickory door might vary from light to deep brown when finished in light or natural stains. Darker stains will mildly tone these color variations, but these very characteristics make each hickory kitchen unique.

High-Gloss Foils feature a smooth, glossy surface for a contemporary look. The High-Gloss foil is applied to medium-density fiberboard (MDF) using a roll bonding process. The doors have a coordinating gloss edge banding applied with a special process to minimize the seam between the face and edge of the door. Door and drawer front backs are matching in color with a standard sheen melamine. Cabinet face frames are painted solid hardwood to coordinate with the color of the doors and drawer fronts in the standard sheen. Cabinet boxes have a standard Matching Viraguard Interior (MIV) that brings the entire cabinet together. While great care has been taken to match the face frame to the doors and drawer fronts, texture, sheen and color variations can be expected. We recommend ordering specialty panels for High-Gloss foil ends as the standard end panels will be Viraguard. Prolonged exposure to tobacco smoke will discolor High-Gloss finishes, and this side effect is ***not*** covered under warranty.

Thermofoil doors are made out of thermofoil, which features a silky-smooth surface providing a uniform look from door to door. Thermofoil material is applied to medium-density fiberboard (MDF) using an intense heat and pressure-bonding process. The cabinetry face frame features solid hardwood finished to match the thermofoil doors and drawer fronts. While great care has been taken to match the face frame to the doors and drawer fronts, texture and color variations can be expected. Prolonged exposure to tobacco smoke will discolor thermofoil finishes, and this side effect is ***not*** covered under warranty.

Maple is a strong wood that is primarily off-white in its raw state. However, maple sometimes contains light hues of yellow-brown and pink as well as light tan or reddish-tinged streaks that darken with stain. Typically straight-grained, maple can be wavy or even curly. Hard maple offers more uniformity than other wood types, making it ideal for living spaces that feature a clean, streamlined appearance.

Oak is a strong, open-grained wood that ranges in color from white to yellow to reddish brown. Oak is sometimes streaked with green, yellow or black mineral deposits.

Quartersawn refers to the method of cutting natural wood. Lumber is cut through the rings at close to a 90 degree angle, creating a tighter, straighter and more consistent grain pattern. Finishes may appear slightly darker on quartersawn material. Face frame and end panels are supplied as plain-sawn material unless stated otherwise per cabinet.

Rustic doors likely include some combination of open knots, wormholes, dramatic color contrast, and mineral streaks reflecting the inherent beauty of the wood. These characteristics are expected and preferred as they occur naturally in the material; no one characteristic (i.e. open knots) is a defining trait of Rustic door styles. ***Must*** order matching end panels for rustic finished ends.

Wood-Grain Foil doors are made out of vinyl foil, which features an embossed surface providing the appearance of exotic wood character. The foil is wrapped around medium-density fiberboard (MDF) using adhesives to ensure a strong bond. Edges are covered with a matching vinyl edgebanding for a clean finished look. The cabinetry face frame features solid hardwood finished to compliment the Thermofoil doors and drawer fronts. While great care has been taken to match the face frame to the doors and drawer fronts, texture and color variations can be expected. Prolonged exposure to tobacco smoke will discolor Thermofoil finishes, and this side effect is ***not*** covered under warranty

- Quartersawn veneer slab on wall and base doors
- Quartersawn veneer slab drawer fronts
- Wood grain orientation on door and drawer fronts is vertical; ***not*** book matched between pieces
- Concealed hinge
- Decorative hardware is required
- ***Note***: Frame and End Panels of cabinets are supplied in plain-sawn corresponding material. For a more uniform look, consider using a decorative door to conceal exposed cabinet ends.
- ***Note***: Crafted doors are made from an engineered hardwood veneer to emulate the look of real Quartersawn Cherry, Maple or Oak. This material offers a more consistent color and grain pattern

ECR1	Cathedral Cream Thermofoil	Price Column C
EWR1	Cathedral White Thermofoil	Price Column C
ECS1	Cream Thermofoil	Price Column C
EWS1	White Thermofoil	Price Column C

Full Overlay

- Thermofoil on 3/4" thick MDF substrate
- Square design has raised center panel on wall and base doors
- Cathedral design has roman arch raised panels on wall doors only; base doors will be square
- Slab drawer front
- Concealed hinge
- Decorative hardware is required

Remember, all Foil and Thermofoil door styles will have a natural birch interior and a white or cream Viraguard exterior. Also, the underside of the cabinets are natural birch. To cover the underside, order an Under Cabinet Panel.

Ferguson

Full Overlay

AH7C1	Cherry	Price Column H
AH7M1	Maple	Price Column G
AH7O1	Oak	Price Column F

Scan to view all Ferguson doors

Full Overlay

- Slab design has veneer slab on wall and base doors
- Slab drawer front
- Wood grain orientation is vertical on door and horizontal on drawer front; ***not*** book matched between pieces
- Concealed hinge
- Decorative hardware is required
- ***Note***: Doors and drawer fronts are created using veneer components from various logs of the same specie and are arranged in a deliberate mismatched manner to achieve a natural solid wood effect

Maxton

Full Overlay

AG7L1 High-Gloss Foil Price Column G

Scan to view all Maxton doors

Full Overlay

- Thermofoil on 3/4" thick MDF substrate
- Slab with square edges on wall & base doors
- Door edges are banded with matching high-gloss material
- Door backs have a corresponding color in a matte finish
- Slab drawer front
- Concealed hinge
- Decorative hardware is required
- ***Note***: The cabinet interior, exterior and face frame supplied in coordinating matte sheen finish as standard
- ***Note***: Accessories, except those available in high-gloss, will also have a coordinating matte sheen finish

We recommend ordering Specialty Panels (SPL), Filler Overlays (BFOL, DFOL, TFOL, VFOL, WFOL), Small Universal Molding (SUM8) and Large Universal Molding (LUM8) for a finished, high gloss look

Decorative Doors & Inserts Available

Aluminum Frame Glass

- Fresco Brushed Aluminum
- Vetro Brushed Aluminum

Grey color coding indicates new product, size or code.

- Solid wood door frame with 2 3/4" stiles and rails, except EverCore™, which will be mechanically compressed wood fiber
- Square veneer recessed panel on wall and base doors, except EverCore™, which will be mechanically compressed wood fiber
- Drawer front varies depending on height
- Classic Drawer Front (CLDF) option available
- Concealed hinge
- Decorative hardware is required
- ***Note***: When CLDF option is applied, all drawer fronts will be slab
- ***Note***: Rustic door styles feature knotty or character wood. It contains character marks such as heartwood, worm holes and mineral streaks of varying size. Components of these doors are chosen at random, with the appearance of each individual door varying widely from very rustic to relatively clear and unmarked

Finish Terminology

- **End Grain**
  End grain surfaces and softer areas of the wood may accept more stain and often appear darker than other surfaces. This is a natural reaction when finishing wood products and potential variances ***cannot*** be controlled
- **Joint Lines**
  Since wood is in a constant state of expansion and contraction, visible lines are normal at the joints on the cabinet face frames and doors. This does ***not*** weaken the finish or the strength of the joint
- **Telegraphing**
  Show through or "telegraphing" of wood characteristics may happen when paint is applied to any specie of natural wood. These characteristics, such as open grain, pin holes, knots and mineral streaks, may be visible through the paint. Telegraphing may happen on doors, face frames, moldings, decorative end panels or other decorative enhancements made of natural wood. Please consider this when selling any of our finishes that feature paint as the base technique, including paint with glaze and vintage techniques

Note: Individual veneer doors vary in absorption of finishes and glaze hang-up. Also, veneer door styles, which are usually simple door designs, may ***not*** contain as much glaze hang-up as ornate door designs. Therefore, KraftMaid® recommends that a sample veneer door be viewed in the desired finish before placing a full kitchen order

Note: Based on independent testing, discoloration will occur to doors, drawers and cabinet parts after prolonged exposure to tobacco smoke. This is especially noticeable on white and other lighter finishes. However, KraftMaid® Cabinetry does ***not*** warranty any of its finishes against discoloration due to exposure to smoke

Warping, Cracking & Proper Humidity

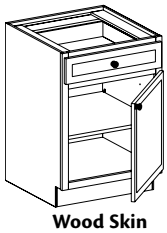

As a natural characteristic, all wood products contain moisture. Changes in temperature and humidity affect the moisture content in wood, which causes wood to expand or contract. Over time, this expansion or contraction can cause warping and joint cracks to occur, potentially causing permanent deformations, in wood cabinetry.

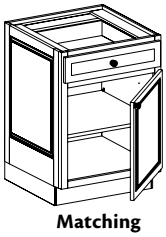

To help prevent excessive movement in your wood cabinetry, we recommend maintaining a controlled environment of 70 to 75 degrees Fahrenheit and 30% to 50% humidity in the areas where your cabinetry is stored or installed. Environmental conditions ***cannot*** be controlled by Masco Cabinetry and the effects of the movement in wood is ***not*** considered to be a manufacturing defect and will ***not*** be considered a reason for replacement.

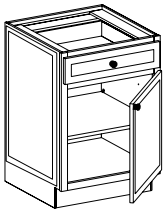

See the doors section of this book for door specie information and descriptions

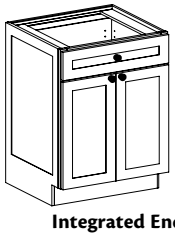

Note: Wood products, including cabinet doors and face frames, are typically affected by environmental conditions. Color variation over time, as well as normal movement due to wood's expansion and contraction is part of the natural beauty of wood. This normal movement may cause hairline cracks in the finish surface at the joints and is considered a normal characteristic of semi-opaque or painted finishes. This will ***not*** be considered a reason for product replacement

Standard Thermofoil Finishes

- **Cream**
  Solid off-white color Thermofoil with a satin finish
- **CS** Cream

- **White**
  Solid white color Thermofoil with a satin finish
- **WH** White

Wood-Grain Foil Finishes

- **Cannon Grey**
  A medium grey Thermofoil with a wood-grain finish
- **D81O**

- **Dove White**
  A white Thermofoil with a wood-grain finish
- **WH**

High-Gloss Foil Finishes

- **Chai**
  A soft, neutral, light taupe color Thermofoil with a high-gloss finish
- **D57L**

- **Dove White**
  White color Thermofoil with a high-gloss finish
- **D58L**

- **Greyloft**
  Warm, midtone grey color Thermofoil with a high-gloss finish
- **D59L**

- **Onyx**
  Black color Thermofoil with a high-gloss finish
- **D60L**

- **Pebble Grey**
  Cool, light grey color Thermofoil with a high-gloss finish
- **D61L**

Standard Stains

- Stain Finish Process

Stained finishes truly showcase the natural beauty and characteristics inherent in each individual wood species. Based on the stain color chosen, a toner may be applied to the wood to equalize natural sap levels. The stain color is applied and hand-rubbed to ensure full and equal color coverage for doors and drawer fronts

As a final step, our oven-cured DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

Finish availability may vary by door style. See Finish Availability Chart

- Autumn Blush

A warm, rich brown stained finish with reddish overtones

- **ABA** Alder
- **ABC** Cherry
- **ABO** Oak

- Baltic

A light grey stain with warm undertones that enhances the beauty of the wood grain

- **Unfinished**
  Our cabinetry, moldings and accessories are available unfinished. If you select the unfinished option, you ***must*** order unfinished wood veneer skins, plywood construction (PE) or plywood ends (PEB) for all cabinets with exposed ends. Unfinished cabinetry will be supplied with standard Viraguard™ interior. To get unfinished wood veneer interiors, you ***must*** order each cabinet with a Matching Interior (MI) option other than Matching Interior Standard Construction–Viraguard (MIV). On cabinets that are standard MIV, you ***must*** order each cabinet with a Matching Interior option other than MIV. Order each cabinet with Furniture Plywood Ends (FPEB) or place the cabinets on an order with All Plywood Construction (APC)

  Note: Unfinished cabinets lack the protection of a finish coat and are more susceptible to damage from variations in temperature and humidity. For this reason, we do ***not*** recommend or warranty this option

  Note: If ordering unfinished cabinets and you intend to stain them, note that with certain models glass may be permanently attached with silicon. This will result in uneven color or inability to stain all surface areas. Order cabinets without glass in order to achieve even staining

Premium Stain w/Suede Topcoat Finishes

- Stain w/Suede Topcoat Finish Process

Stained finishes truly showcase the natural beauty and characteristics inherent in each individual wood species. Based on the stain color chosen, a toner may be applied to the wood to equalize natural sap levels. The stain color is applied and hand-rubbed to ensure full and equal color coverage for doors and drawer fronts

As a final step, a matte sheen, Suede DuraKraft Plus™ topcoat is applied that softens the overall color tone, giving a more subtle and sophisticated appearance to cabinetry.

Finish availability may vary by door style. See Finish Availability Chart

Premium Stain w/Glaze Finishes

- **Stain w/Glaze Finish Process**

Glazed finishes add richness and warmth to wood surfaces.

The base stain or paint finish is applied, followed by the application of a glaze finish to the entire door or drawer front to add richness and warmth to wood surfaces.

The glaze is then hand-wiped to create soft, light "hang-up" in profiles and recesses of the wood.

A glaze highlight is hand-applied to detail the recesses of applicable door and drawer designs.

Each door design, wood species and glaze finish has its own charming character and will create a unique, one-of-a-kind look.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

As a final step, our oven-cured DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

Finish availability may vary by door style. See Finish Availability Chart

Premium Distressed Stain Finishes

- Distressed Stain Finish Process

Our distressing technique evokes the look of reclamation and restoration. These effects are hand applied artisan methods that are random and inconsistent in appearance. The techniques are designed to replicate the look of reclaimed wood that has been repurposed. The effects include edge rasping, worm holes, edge burnishing, softened corners, random industrial distressing and a suede top coat.

The multi-step process begins with a light, artistic, over sanding technique applied to corners and relief areas of doors and drawers. Panels and profiles of unfinished doors and drawer fronts receive randomly applied worm holing, edge rasping, and distressing techniques.

Next, a heavy, dark burnishing stain is artistically applied to all corners and raised portions of the doors and drawer fronts.

Following the burnishing process, a coat of base stain color is applied then hand wiped to reveal the beauty and inherent natural characteristics of the wood

As a final step, a matte sheen, Suede DuraKraft Plus™ topcoat is applied that softens the overall color tone, giving a more subtle and sophisticated appearance to cabinetry.

Finish availability may vary by door style. See Finish Availability Chart

Premium Burnished Stain Finishes

- **Burnished Finish Process**

  Burnished finishes bring out the fine furniture details of the cabinetry to create a warm, traditional look. Burnishing produces one-of-a-kind results and no two doors are exactly alike.

  This multi-step process begins with an artistic over-sanding technique applied to corners and relief areas of unfinished doors and drawer fronts. Random compression marks are also applied, creating the aged look of fine furniture.

  Next, a darkening stain is artistically applied to the corners and raised portions of the door and drawer fronts, creating a burnished effect.

  Following the burnishing process, a coat of base stain color is applied and carefully hand wiped to reveal the beauty and inherent natural characteristics of the wood.

  Burnished finishes are only available on door styles with solid wood center panels

  As a final step, our oven-cured DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

  Finish availability may vary by door style. See Finish Availability Chart

Premium Painted Finishes

- **Painted Finish Process**

Painted finishes feature rich, beautiful color coating the wood, adding rich depth to your selected profile.

Paint is applied utilizing a spray application process to, EverCore™, Maple or Oak.

EverCore™ is a mechanically compressed wood fiber material that reacts less to environmental conditions than other hardwood materials. It is less susceptible to expansion and contractions that can cause joints to separate showing hairline cracks in painted products. It also provides a more consistent and smooth surface, eliminating the appearance of naturally occurring wood characteristics such as grain patterns, knots or mineral streaks.

For a hardwood option, most painted surfaces are available in Maple due to the more uniform appearance and smooth, clean characteristics of this wood. Since wood naturally expands and contracts, you may see hairline separation in the finish surface at the joints. Joint lines are normal and do ***not*** affect the strength of the door's construction. Alternative materials may be used in the construction of the door and drawer fronts to minimize the environmental effects of joints and panels.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

As a final step, our oven-cured DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

Finish availability may vary by door style. See Finish Availability Chart

New

Premium Paint w/Suede Topcoat Finishes

❊ **Paint w/Suede Topcoat Finish Process**

Painted finishes feature rich, beautiful color coating the wood, adding rich depth to your selected profile.

Paint is applied utilizing a spray application process.

Since wood naturally expands and contracts, you may see hairline separation in the finish surface at the joints. Joint lines are normal and do ***not*** affect the strength of the door's construction

Most painted finishes are available only on maple due to the more uniform appearance and smooth, clean characteristics of this wood.

As a final step, our oven-cured, matte sheen Suede DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

Finish availability may vary by door style. See Finish Availability Chart

❊ Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

Grey color coding indicates new product, size or code.

Premium Paint w/Glaze Finishes

- **Paint w/Glaze Finish Process**

Glazed finishes add richness and warmth to wood surfaces.

The base stain or paint finish is applied, followed by the application of a glaze finish to the entire door or drawer front to add richness and warmth to wood surfaces.

The glaze is then hand-wiped to create soft, light "hang-up" in profiles and recesses of the wood.

A glaze highlight is hand-applied to detail the recesses of applicable door and drawer designs.

Each door design, wood species and glaze finish has its own charming character and will create a unique, one-of-a-kind look.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

As a final step, our oven-cured DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

Finish availability may vary by door style. See Finish Availability Chart

Premium Vintage Paint Finishes

- **Vintage Finish Process**

  Vintage finishes give the appearance of heirloom cabinetry that has been well loved and used.

  This multi-step process begins with an artistic over-sanding technique applied to corners and relief areas, creating the aged look of fine furniture.

  Unfinished doors and drawer heads receive randomly applied wormholes and compression marks to add additional distressing.

  Next, several coats of paint finish are applied.

  The corners and edges of doors and drawers are over-sanded for a second time, revealing the beauty of natural Cherry wood.

  Because this process features distressing, the detail and look will very from piece to piece

  As a final step, our oven-cured DuraKraft Plus™ topcoat is applied to provide a beautiful and durable furniture finish.

  Finish availability may vary by door style. See Finish Availability Chart

  Available on select Cherry door styles. Visible knots and pinholes are natural characteristics found in Cherry wood, which accentuate the Vintage finish process. These characteristics are ***not*** considered to be product defects.

  Maple or other materials may be used in other cabinet components and accessories to help eliminate the appearance of knots and pinholes in pieces where the Vintage process is ***not*** applied

Premium Aged Paint Finishes

Aged Paint Finish Process

Our Aged technique evokes the look of artisan-finished cabinetry that has been well loved over time.

Distressing effects are hand applied artisan methods that are random and inconsistent in appearance. Because every detail is hand applied, each finished component will have a unique appearance. The effects include edge rasping, worm holes, edge burnishing, softened corners and edges, random dent patterns and a suede topcoat.

The multi-step process begins with a light, artistic, over sanding technique applied to corners, edges and relief areas of doors and drawers. Panels and profiles of unfinished doors and drawer fronts receive randomly applied worm holing, edge rasping and distressing techniques.

Following the distressing techniques, paint is applied followed by application of a glaze finish to the entire door or drawer front to add richness to the paint color. The glaze is then hand wiped to create soft, light "hang up" in profiles and recesses of the wood including the distressing effects. Additional glaze is applied through a dry-brushing process to give each door or drawer component a subtle linear accent. A dark burnishing material is then used to accent the softened corners and edges. Finally, fly speck is applied randomly to the door or drawer to add depth and dimension to the finish.

As a final step a matte sheen, Suede DuraKraft Plus™ topcoat, is applied to complete the Aged finish.

Note: The back side of doors receive paint and flood glaze. The remaining treatments, including additional glazing, fly speck and dry brushing, will ***not*** be applied to the back side resulting in a lighter color than the front side of the door and frame.

Note: Viraguard components such as VSK, VPL, MTK8, etc. are not available with Aged Finishes. Corresponding wood veneer components such as WSK, WPL, WMTK8, etc. must be ordered to receive the matching aged finish.

Please ***Note***: Select cabinets that have matching interior standard and End Panels with a front filler attached will contain the code "-A. APFC" on order acknowledgments. The code is used as an internal safeguard to ensure proper finished parts are used in the cabinet construction and does not assign additional charges to the cabinet price.

Product Attributes:
Ends will ***not*** have a matching finish unless specified
Standard construction will have natural birch Viraguard ends
Plywood Ends Both (PEB) and All Plywood Construction (AP/APC) will have wood veneer ends with natural clear coat

To get finished ends without matching interior, use:
Furniture Plywood Ends (FPEB)
All Plywood Furniture End Panels (APFC)
Integrated Decorative Ends (DE)
Operational Ends (OE)
Wood Skins (WSK), Wood Skins are field-applied

To get finished ends with matching interior:
Use Matching Interior with 3/4" Furniture End Panels on All Plywood (MIAPFC)
MIAPFC will finish the interior and exterior of the cabinet. Cabinets ***cannot*** be ordered with matching interior and unfinished exterior ends

Options that are ***NOT*** available for this finish:
Matching Interior Standard Construction-Viraguard (MIV)
Matching Interior with 1/2" Plywood End Panels (MIP)
Matching Interior with 3/4" Furniture Plywood End Panels (MIFP)

- **Aged Concrete**

Notes

Cabinet Specs

Construction Options and Modifications

Full Overlay–Concealed Hinges

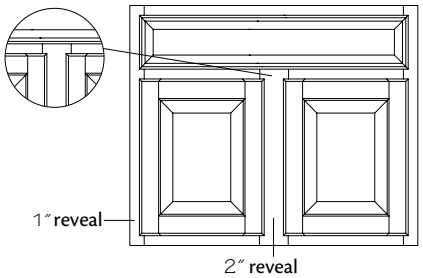

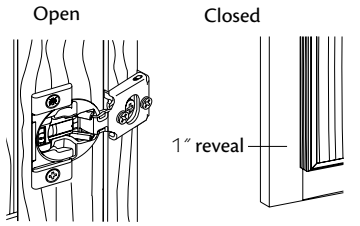

- Full overlay doors leave 3/8″ of the cabinet's face frame exposed between doors
- Whisper Touch™ hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used. Refer to the replacement door and drawer section of this book for actual door/drawer sizes for specific cabinets
- ***Note:*** Door styles with square outside edges (including aluminum frame decorative doors) ***cannot*** be opened simultaneously on adjacent cabinets because the doors will rub together. This is a common occurrence due to the sizing of full overlay doors

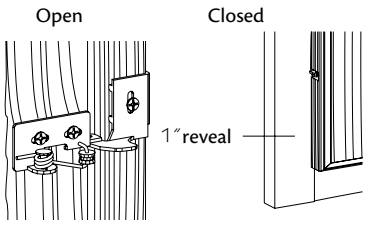

1/2″ Overlay–Concealed or Knife Hinge

Concealed Hinge

Knife Hinge

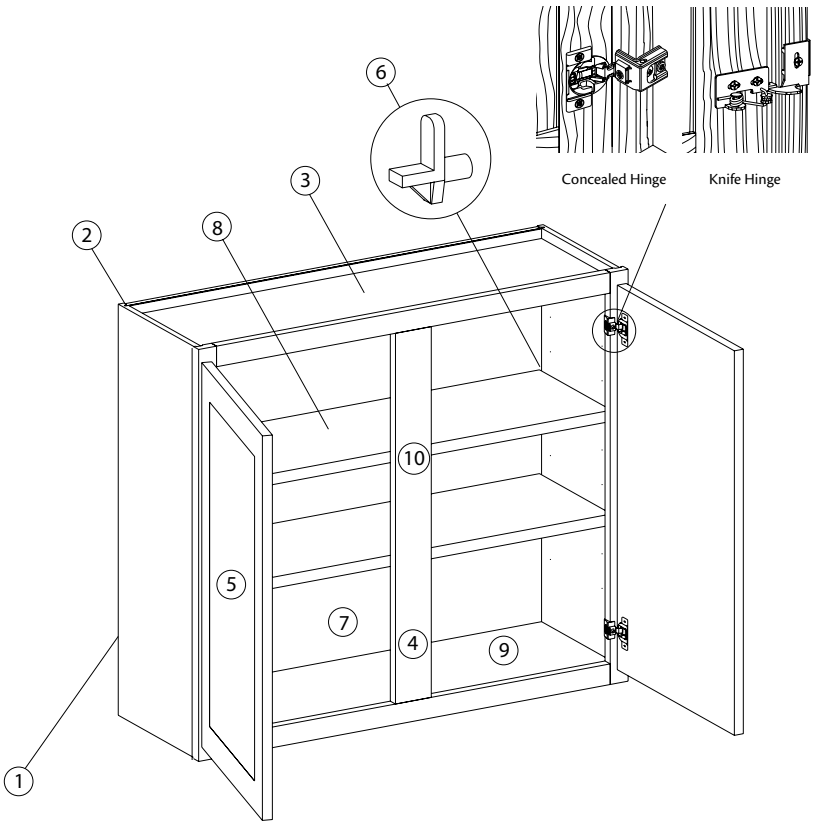

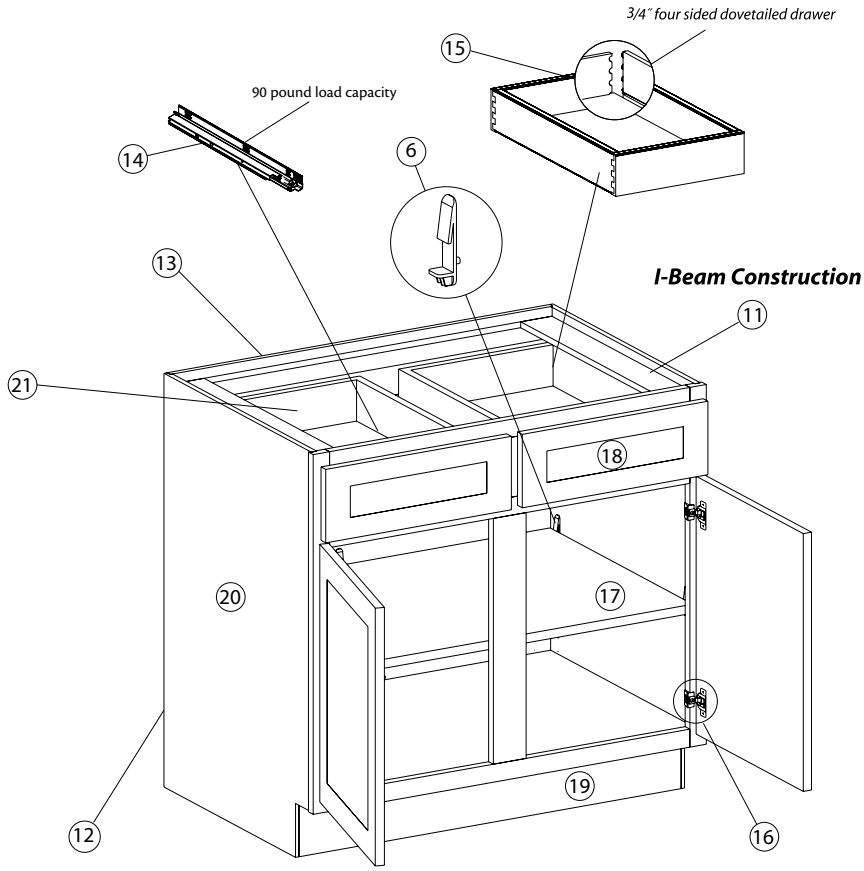

- 1/2″ overlay doors leave 2″ of the cabinet's face frame exposed between doors
- Whisper Touch™ hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment
- Knife hinge capable of opening 180º
- Knife hinges are ***not*** available on any full overlay door styles
- A knife hinge option is available on 1/2″ overlay door styles (see list below)
- Knife Hinge is available in the following door styles: Belmont Roman, Belmont Square, Grandview Cherry Roman–Half, Grandview Cherry Square–Half, Hanley Roman, Hanley Square
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used. Refer to the replacement door and drawer section of this book for actual door/drawer sizes for specific cabinets

Material dimensions listed may vary slightly from actual dimensions of the product

Cabinet Specifications

KraftMaid® Cabinetry is also available in an All Plywood (APC) Option
See Construction Options section for a complete description.

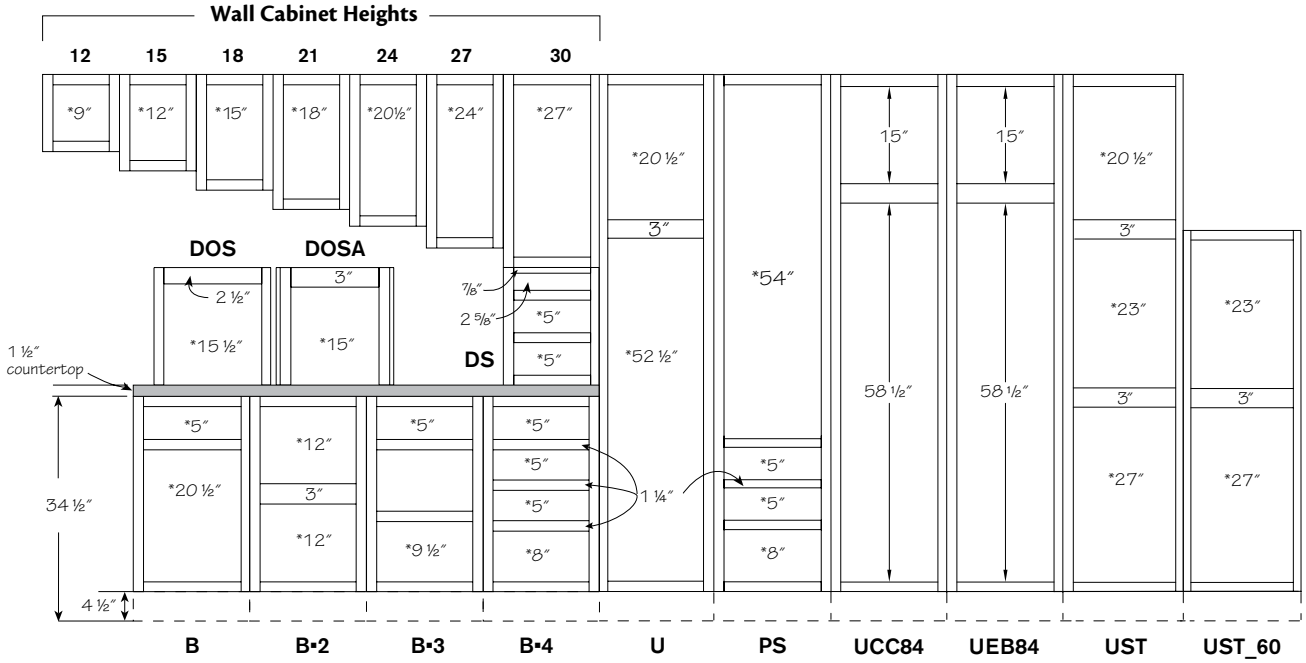

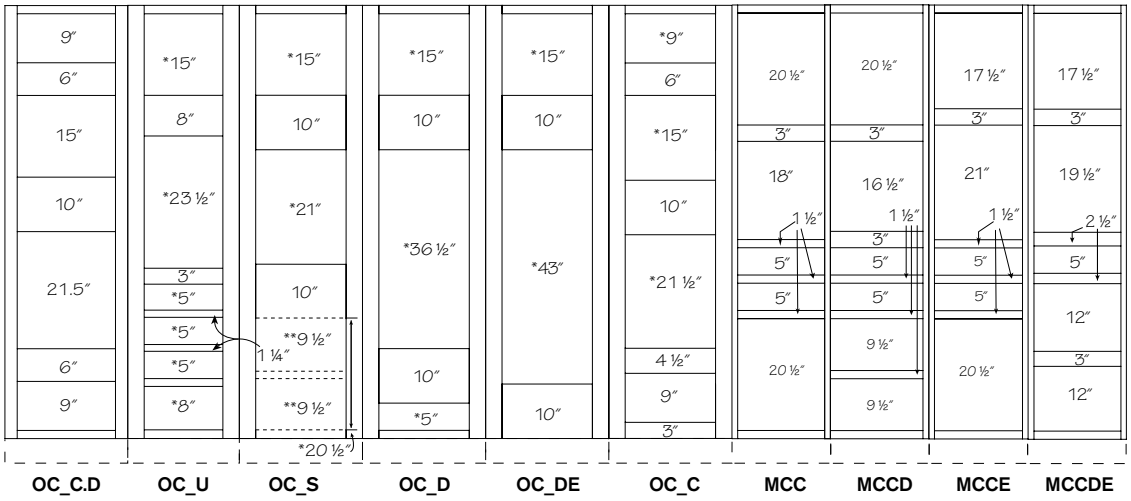

- (1) Viraguard clad back panel
- (2) 1/2" wood concealed hanging rail
- (3) 1/2" Natural Birch Viraguard clad ceiling panel
- (4) 3/4" solid hardwood, including but ***not*** limited to, Alder, Birch, Cherry, Hickory, Maple and Oak front frame constructed using industrial grade glue and hardened steel fasteners. Front frame species complements selected door style
- (5) Extensive and unique door style and wood species selection in Alder, Birch, Cherry, EverCore™, Hickory, Maple and Oak. Solid and wood veneer construction available. Also available in Thermofoil, High-Gloss Foil and Wood-Grain Foil
- (6) Satin chrome shelf rests for all kitchen wall and furniture cabinets. Easily adjustable positive locking shelf clips for all base, tall and vanity cabinets
- (7) Natural Birch Viraguard interior
- (8) 3/4" fully adjustable Natural Birch Viraguard clad shelving standard feature in wall, base and tall cabinets
- (9) 1/2" Natural Birch Viraguard clad cabinet bottom
- (10) 14-step DuraKraft Plus™ furniture process featuring hand-wiped stain with one of the finest wood finishes available in the cabinet industry
- (11) Full-depth I-beam braces provide stability and convenient anchor points for countertop
- (12) 3/8" Natural Birch Viraguard clad base back panel
- (13) 3/4" solid wood base installation rail
- (14) Standard drawer runner suspension system features smooth, ball bearing operation with a 90 lb. load capacity. Whisper Touch™ runner has an integrated drawer buffer that engages two inches from closing and applies resistance, giving a soft, controlled closing
- (15) 3/4" full-depth solid wood dovetailed drawer featuring four sided construction and 3/16" plywood bottom
- (16) Self-closing, concealed, wrap-around adjustable or optional knife hinges (KH)
- (17) Full-depth, fully adjustable 3/4" Natural Birch Viraguard clad shelving
- (18) Drawer heads are solid hardwood or laminate to complement each door style
- (19) Fully closed toe space area
- (20) 1/2" end panels with wood grain Viraguard interior and matching exterior. Also available with optional 1/2" or 3/4" plywood end panels. Wood grain Viraguard interior or wood veneer interior available. Unless noted, plain sawn end panels will be supplied for quartersawn door styles
- (21) Standard drawer boxes are 4" high
- Viraguard is the tradename of our printed wood grain laminate
- ***Note:*** Unless noted, cabinet depth does ***not*** include doors or drawer fronts
- ***Note:*** Please contact Customer Care if your design requires verification of product specifications

Specification subject to change without notice.

KraftMaid® Cabinetry Utilizes Some of the Best Materials Available to Build the Highest Quality Cabinets.
At KraftMaid® we continuously strive to provide products of the highest quality for all rooms of the home. In order to fulfill our commitment to quality, you may see some material changes in some of the plywood components that we use. The material changes will help reduce warping, expansion and contraction within the parts.

What Is In Some Of Our Plywood?
Multiple layers of wood materials, including wood veneers and medium density fiberboard (MDF), are used to create a hybrid product containing the following benefits:

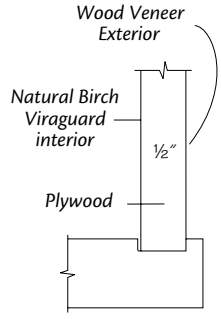

· Improved Strength and Finish Quality: Reduces expansion or contraction, which is better for a smooth, quality finish. This process also produces a more rigid product.

· Environmentally Friendly: Supports CARB II standards. (CARB, or California Air Resource Board, is a control measure for reduced formaldehyde emissions from composite wood products).

Regardless of the wood material used in the various applications of our All Plywood Construction, you can feel confident that KraftMaid Cabinetry always uses some of the highest quality materials available to help ensure durable and long-lasting cabinets.

Note: According to the Department of Commerce, the core of hardwood and decorative plywood consists of a layer or layers of one or more material(s) that are situated between the face and back veneers. The core may be composed of a range of materials, including but ***not*** limited to veneers, particleboard, engineered wood and medium density fiberboard (MDF).

- A Matching Interior option is recommended for all cabinets having glass doors
- Consult Matching Interior (MI) option box for availability for your desired cabinet
- If an item shows MI as standard in the option boxes, the matching interior material will be Viraguard unless that item's standard construction is All Plywood (APC), Wood Veneer or Furniture Plywood Ends (FPEB, APFC). This includes cabinets ordered as unfinished
- Inside of face frame is unfinished
- This option includes: • 1/2" end panels with matching Viraguard exterior and interior
  - 3/4" matching Viraguard shelves on satin chrome furniture shelf rests
  - Matching Viraguard for ceilings and floors
- You ***must*** use MIP, MIFP or MIAPFC to get a wood veneer matching interior
- Unless noted, plain sawn end panels will be supplied for quartersawn door styles
- Natural Birch and Natural Maple door styles with standard end panels are supplied standard with a Natural Birch Viraguard interior. It is ***not*** necessary to order Matching Interior
- Painted hardwood supplied for EverCore™

MIFP Individual Cabinets

- A Matching Interior Furniture Plywood option is available for individual items in a kitchen
- A Matching Interior option is recommended for all cabinets having glass doors
- Consult Matching Interior (MI) option box for availability for your desired cabinet
- Inside of face frame is unfinished
- This option includes:
  - 3/4" plywood end panels with matching wood veneer exterior and interior
  - 3/4" engineered wood with matching wood veneer shelves on satin chrome shelf rests
  - 1/2" engineered wood with matching wood veneer for ceilings and floors
  - 3/16" plywood with matching wood veneer wall back panel
- To order individual line items with matching interior you ***must*** have each line item dashed with MIFP

Order Example: W3030BUTT-MIFP, WEP3•30L-MIFP

- Unless noted, plain sawn end panels will be supplied for quartersawn door styles
- Painted hardwood supplied for EverCore™
- ***Note:*** To get Matching Interior Furniture Plywood Ends with All Plywood Construction use MIAPFC

Wood Veneer Construction

- KraftMaid® manufactures certain cabinets with Wood Veneer Construction standard. See specific cabinet for details. Depending on the item, this may consist of a solid hardwood, plywood or engineered wood core that has solid wood veneer on both sides and is finished to match

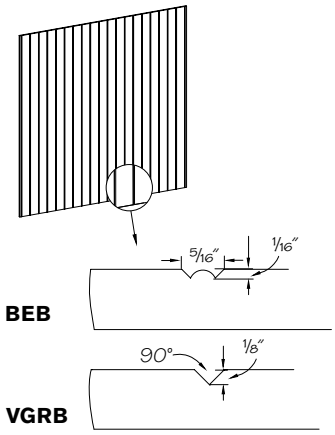

Ordering Specifications for Plywood Options

	Entire Kitchen	Individual Cabinets
Plywood Ends	**PE** Use PE in the header of your written order. Every cabinet on this order will receive PE. Use Styles & Pricing in 20-20 to choose PE.	**PEB (Plywood Ends Both)** Each line item must be dashed with PEB. Order Example: W3030-PEB. In 20-20, use Attachments to apply PEB to each cabinet.
	with Matching Interior	
	Matching Interior nomenclature is only available for individual cabinets. There is no nomenclature to order a full kitchen with Matching Interior Plywood. See individual cabinet instructions.	**MIP (Matching Interior Plywood)** Each line item must be dashed with MIP. Order Example: W3030-MIP. In 20-20, use Attachments to apply MIP to each cabinet.
Furniture Ends	Furniture Ends nomenclature is only available for individual cabinets. There is no nomenclature to order a full kitchen with Furniture Ends. See individual cabinet instructions.	**FPEB (Furniture Plywood Ends Both)** Each line item must be dashed with FPEB. Order Example: W3030-FPEB. In 20-20, use Attachments to apply FPEB to each cabinet.
	with Matching Interior	
	Matching Interior nomenclature is only available for individual cabinets. There is no nomenclature to order a full kitchen with Matching Interior Furniture Plywood. See individual cabinet instructions.	**MIFP (Matching Interior Furniture Plywood)** Each line item must be dashed with MIFP. Order Example: W3030-MIFP. In 20-20, use Attachments to apply MIFP to each cabinet.
All Plywood Construction	**APC** Use APC in the header of your written order. Every cabinet on this order will receive APC. Use Styles & Pricing in 20-20 to choose APC.	**AP (All Plywood)** Each line item must be dashed with AP. Order Example: W3030-AP. In 20-20, use Add-ons to apply AP to each cabinet.
	with Matching Interior	
	Matching Interior nomenclature is only available for individual cabinets. There is no nomenclature to order a full kitchen with Matching Interior All Plywood. See individual cabinet instructions.	**MIP (Matching Interior Plywood)** Each line item must be dashed with MIP. Order Example: W3030-MIP. In 20-20, use Attachments to apply MIP to each cabinet.
All Plywood Construction with Furniture Ends	All Plywood Construction with Furniture Ends nomenclature is only available for individual cabinets. There is no nomenclature to order a full kitchen with All Plywood Construction Furniture Ends. See individual cabinet instructions.	**APFC (All Plywood Furniture Ends Both)** Use APC in the header of your written order and each line item must be dashed with APFC. Order Example: W3030-APFC. In 20-20, use Styles & Pricing to choose APC, then use Attachments to apply APFC to each cabinet.
	with Matching Interior	
	Matching Interior nomenclature is only available for individual cabinets. There is no nomenclature to order a full kitchen with Matching Interior Furniture All Plywood. See individual cabinet instructions.	**MIAPFC (Matching Interior All Plywood Furniture Ends)** Use APC in the header of your written order and each line item must be dashed with MIAPFC. Order Example: W3030-MIAPFC. In 20-20, use Styles & Pricing to choose APC, then use Attachments to apply MIAPFC to each cabinet.

- Available in full overlay door styles only
- Available on select cabinets only
- The rail height on Integrated Decorative End will match rail height on the door
- The overall width of a cabinet will increase by 1/16", per end, when Integrated Decorative Ends are selected
- DWEB or any combination of Decorative Wall End and Wall Operational Ends (WOE) should only be used on Wall cabinets that are planned to be supported from underneath, placed on a floor, or placed on a countertop. Wall cabinets are ***not*** intended to be installed independently without additional support
- Toe kick notch will be standard construction with this option
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- ***Not*** available in Thermofoil door styles
- ***Not*** available in slab door styles
- ***Not*** available in Wood-Grain Foil door styles
- Painted hardwood supplied for EverCore™
- ***Not*** available in Kendrick door styles
- ***Not*** available in Increased Depth (ID)
- ***Not*** available in Reduced Depth (RD)
- ***Not*** available with Wall Top Wide Rail (WTWR)
- ***Not*** available with Inverted Frame Option (IF)
- ***Note:*** Integrated Decorative Ends will have the selected finish on the interior and exterior of the integrated end. Other interior cabinet components will be natural unless a Matching Interior option is selected.
- Note: When (DBE) is used in combination with Peninsula cabinets, the working front drawer will be eliminated and replaced with a false front

- Operational End (OE) will be attached to 2 1/2" frame stiles
- ***Not*** available on both ends of Tall cabinets
- Stacking configuration of Operational End (OE) will mimic the face of the selected cabinet; BUTT doors are ***not*** provided, single hinged door only
- Recessed Toe Kick (RTK) is standard on Base, Tall and Vanity cabinets
- Change Width (CW) can be used in combination with these construction options
- Change Height (CH) can be used in combination with these construction options
- If Wide Rail (WR) is selected, the side and front will have a wide rail
- Matching Interior (MI) is ***not*** standard but can be added as an option
- ***Not*** available on Peninsula cabinets, Wine Cabinets, Lattice Cabinets, Tambour Cabinets, Appliance Cabinets with Appliance Opening or Cabinets containing Rollout Trays (ROT)
- Operational End (OE) is ***not*** available with Increased Depth (ID) or Reduced Depth (RD) options
- Wall Operational End - Both (WOE.B) or any combination of Wall Operational Ends & Decorative Wall Ends (DWE_) should only be used on wall cabinets that are planned to be supported from underneath, placed on a floor or placed on a counter top. Wall cabinets are ***not*** intended to be installed independently without additional support
- Mullion doors and Camed glass designs are ***not*** available for 12" deep cabinets with Operational Ends (OE); the doors are ***not*** wide enough to accommodate these decorative door/glass types
- Camed Glass, Mullion Doors or Specialty Inserts are ***not*** available on multiple glass door positions (Front & End, Front & Ends Both, Top, Top & End, Top & Ends Both, Top & Bottom, Top & Bottom & End, Top & Bottom & Ends Both, Bottom, Bottom & End or Bottom & Ends Both)
- Glass doors ***must*** be ordered on front of cabinet to allow ordering of glass doors for Operational Ends (OE)

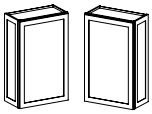

Whisper Touch Angle Restrictor Clips (WTHARC) are recommended for additional decorative hardware clearance

In 20-20 Operational End (OE) ***must*** be selected before adding glass to cabinet ends. Order Example: W1830R- WOE.R.1- 2BIS.1E

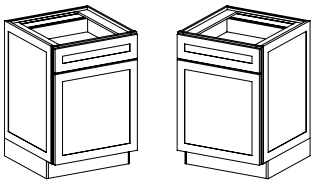

When ordering shelf kits for any Operational End (OE) cabinet be sure to order the shelf kits with the •OE suffix. This will provide your Operational End cabinet shelves with a complete and finished look

Cabinet Dimension Modification Information

Cabinet Dimension Modifications Choose from the following and apply to cabinet code:		
One Dimension	**Two Dimensions**	**Three Dimensions**
CW *(Change Width)*	**CW.RD** *(Change Width & Reduce Depth)*	**CW.RD.CH** *(Change Width, Reduce Depth & Change Height)*
RD *(Reduce Depth)*	**CW.ID** *(Change Width & Increase Depth)*	
ID *(Increase Depth)*	**RD.CH** *(Reduce Depth & Change Height)*	**CW.ID.CH** *(Change Width, Increase Depth & Change Height)*
CH *(Change Height)*	**ID.CH** *(Increase Depth & Change Height)*	
	CW.CH *(Change Width & Change Height)*	

- Cabinets can be modified in 1/16" increments; specify overall finished dimensions to the nearest 1/16". Doors, drawer fronts and cabinet opening will be modified to coordinate with the new dimensions
- Height modifications will occur in the door portion of the cabinet
- Shelf quantities will remain consistent with original cabinet when cabinet dimensions are increased or decreased
- ***Note:*** For information on replacement doors and made-to-order doors, refer to the Decorative Appliance Panel section of this book

Change Width

One Dimension

CW

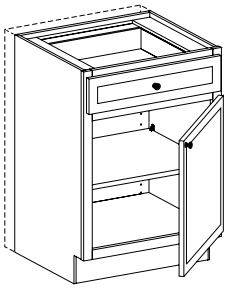

Change Width		
Cabinet	Min. Width	Max. Width
Wall	9"	48"
Base	9"	48"
Tall	9"	36"
Vanity Base	12"	60"

- To order Change Width (CW) modifications, start with a larger cabinet and reduce down in 1/16" increments. Consult option availability chart for your desired cabinet
- Specify overall finished width. Example 1: W1830L-CW 17 1/2"; Example 2: B30BUTT-CW 28 1/2" (Example of incorrect request: W1830L-CW 19 1/2")
- Double door cabinets ***cannot*** be modified to less than 24" wide; single door cabinets ***must*** be used for this option
- Select Decorative Doors and Inserts are available with the Change Width (CW) option; refer to the Decorative Doors and Inserts section for specific availability
- Consult option availability chart for your desired cabinet
- ***Note:*** Decorative Inserts are ***not*** available on cabinets less than 12" wide

Consider using APDW (Appliance Panel Drawer Front) if a unique Filler Overlay size is required in your design. See "Custom Appliance Panels" section of this book for guidelines and parameters

- For complete listing of glass door specifications, see Decorative Doors and Inserts section of this book
- Annealed Glass

  Glass that has been cooled with precise control to relieve stress introduced by the manufacturing process. This annealing process makes the glass workable, i.e. easier to cut, machine, etc. Common household glass is annealed glass. It is ***NOT*** safety glass
- Laminated Safety Glass

  When broken, laminated safety glass is held together by the adhesives that are used in the manufacturing process. This generally helps keep large pieces of glass from falling from the opening. Nevertheless, small pieces and/or chips may still fall, and the precise size of pieces of glass that will break is difficult to identify and describe
- Tempered Glass

  Tempering uses either a thermal or chemical process to quickly harden the glass, which compresses its surface. Compressing the surface increases the amount of tensile stress that can be endured before breakage occurs. When it does break, tempered glass generally breaks into very small pieces
- ***Note:*** Most doors (12" or wider and up to 62" high) can be supplied prepared for glass, with glass inserts, Mullion glass or Aluminum Frame doors

Recessed Toe Kick

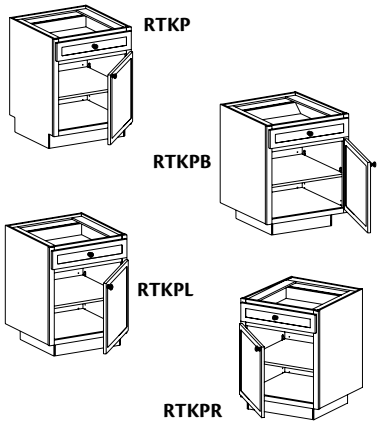

RTKB Both
RTKL Left
RTKR Right

- Most Base, Tall and Vanity cabinets can be ordered with a recessed toe kick. Consult option availability chart for desired cabinet
- You ***must*** specify end or ends to receive recessed toe kick
- Painted hardwood supplied for EverCore™
- Additional bottom support is recommended when using RTKB on peninsula cabinets wider than 27"
- RTK and WR ***not*** available on same cabinet except when combining WR_K and RTKP options
- ***Not*** available on 93" and 96" high tall cabinets
- Change Width (CW) option ***not*** available
- Change Height (CH) option ***not*** available

We recommend Recessed Toe Kicks (RTKR or RTKL) on base cabinets at the end of peninsula runs or island applications.

Recessed Toe Kick Peninsula

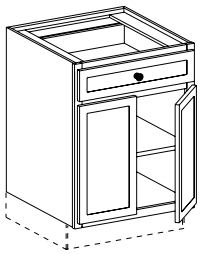

RTKP Back
RTKPB Back and both sides
RTKPL Back and left side
RTKPR Back and right side

- Select Base and Office Cabinets may be ordered with a Recessed Toe Kick on the back (Peninsula) side. Consult option availability chart for desired cabinet
- You ***must*** specify end or ends to receive Recessed Toe Kick Peninsula
- Painted hardwood supplied for EverCore™
- Additional bottom support is recommended when using RTKPB on cabinets wider than 27"
- RTK and WR ***not*** available on same cabinet except when combining WR_K and RTKP options
- ***Not*** available on cabinets less than 21" deep
- Change Width (CW) option ***not*** available
- Change Height (CH) option ***not*** available

Void Toe Kick

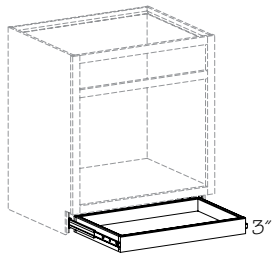

VTK

- Select Base, Tall, Office, Furniture and Vanity Cabinets may be ordered without the toe kick
- Allows decorative feet to be used under cabinet
- Decorative feet or legs should support the cabinet by way of the end panels, ***not*** the cabinet floor
- Full overlay door styles are ***not*** to be placed directly on the floor
- Cabinets are ***not*** intended to be free-standing units, they ***must*** be attached to a wall stud or anchored to the floor to achieve sufficient stability
- ***Not*** available on Passport cabinets
- ***Not*** available on 93" and 96" high tall cabinets
- ***Not*** available with Wide Rail (WR) option
- ***Not*** available on cabinets with a decorative toe kick

Note: Standard wall cabinet box depth is 12″ unless stated otherwise. Add door thickness with bumpers for total depth.

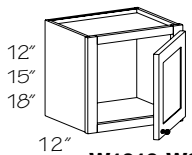

Note: Wall cabinets with standard matching Viraguard interior, or Wall cabinets ordered with matching Viraguard interior option will be supplied with Natural Birch exterior material. Wall cabinets with standard matching interior, Wall cabinets ordered with APC, FPEB or APF, or Wall cabinets ordered with MIP, MIFP, MIAPFC will have exterior floors and ceilings that are finished to match.

Caution: Installation of a wall cabinet 30″ or wider requires additional support, such as attachment to a soffit, or support from below. Failure to provide additional support could result in collapse of the cabinet, serious personal injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the limited warranty. See inside cover for warranty details

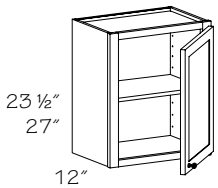

Material dimensions listed may vary slightly from actual dimensions of the product.

- Adjustable shelves
- ☆ Integrated Extended Stile (XSG) only available on cabinets 30” high or higher
- ☆ Operational End (OE) is ***not*** available with Increased Depth (ID) or Reduced Depth (RD) options

Tip: When mounting a 6” Spice Drawer (SD—) or Organizer (O—) underneath a 23 1/2” cabinet next to a 30” high wall cabinet, the overall height will be 29 1/2”. To correct this, you can place a piece of Stack Molding (STM8) or a 1/2” filler between the 23 1/2” cabinet and the 6” cabinet.

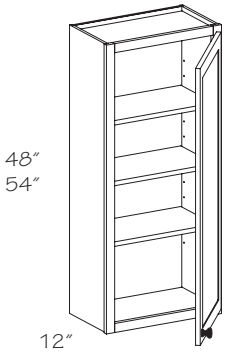

Remember, all 9” wide doors in 1/2” overlay will be square even for a roman door style. If a 9” cabinet is required, one suggestion is to void the door and order the cabinet with matching interior and use it as a decorative open cabinet.

Any wall cabinet over 24″ wide or 30″ high or higher with a depth greater than 12″ and/or with butt doors ***must*** be installed between two (2) cabinets, a cabinet and a wall or supported from below

❒ Change Height (CH) option ***not*** available
❍ Change Width (CW) option ***not*** available
❄ Doors are square except full overlay arch door styles. Thermofoil door styles will always be square. Vanderbilt doors will have a solid, recessed flat panel
✣ Glass door option ***not*** available
▲ Top Wide Rail (TWR) option ***not*** available

Caution: *Installation of a wall cabinet 30″ or wider requires additional support, such as attachment to a soffit, or support from below.*

- Additional support required

☆ Integrated Extended Stile (XSG) only available on cabinets 30″ high or higher

☆ Maximum Increased Depth (ID) for Wall Refrigerator cabinets is 27″

- 33″-37″ wide wall cabinets with BUTT doors have wood veneer plywood shelves

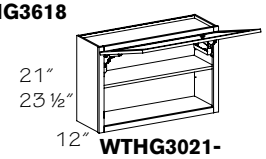

When designing a built-in refrigerator area, remember that many side by side refrigerators measure up to 36″ wide. If you have the extra space, it is recommended to use a 37″ wide Wall Refrigerator (WR) cabinet to assure clearance for the appliance. Also, verify the height of the appliance to make sure you are using the correct Wall Refrigerator cabinet.

Caution: *Installation of a wall cabinet 30″ or wider requires additional support, such as attachment to a soffit, or support from below.*

- Adjustable shelves
- Additional support is required
- Adjustable Soft-Close lift mechanism standard
- With the Auto-open Kit (AO), pressing lower corners of cabinet door triggers auto-open. Pressing a button on activator switch triggers auto-close. Doors can be operated manually if desired. Multiple units can also be synced to open and close simultaneously with the push of one button
- Auto-open Kit (AO) requires 110V power source, preferably above cabinet
- Auto-open Kit (AO) feature offers programmable stop
- Permaset bumpers are ***not*** included on doors ordered with the Auto-open Kit (AO)
- 30–36" wide wall cabinets have wood veneer plywood shelves

☆ Antiquity Glass Insert (ATQ) ***not*** available on 36" wide cabinet

☆ ***Not*** available with Crossroads (CRO), Modern Textured (MRT) and Moire (MOI) Glass Inserts

☆ Prep for Glass (DRS▪PREP) ***not*** available

☆ ***Not*** available with Mullion glass doors (GD) option

☆ ***Not*** available with Camed glass door (GD) option

- Installation instructions supplied with Auto-open Kit (AO); read thoroughly
- ***Note:*** Auto-open Kit (AO) requires field installation
- ***Note:*** Square doors will be supplied when ordered in arched door styles
- ***Note:*** Wall Top Hinge (WTHG) and Wall Refrigerator Top Hinge (WRTHG) cabinets ***cannot*** be installed directly against the ceiling. Refer to the clearance diagram in this section

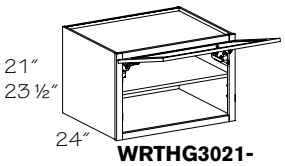

Tip: When mounting a 6" Spice Drawer (SD—) or Organizer (O—) underneath a 23 1/2" cabinet next to a 30" high wall cabinet, the overall height will be 29 1/2". To correct this, you can place a piece of Stack Molding (STM8) or a 1/2" filler between the 23 1/2" cabinet and the 6" cabinet.

Any wall cabinet over 24" wide or 30" high or higher with a depth greater than 12" and/or with butt doors ***must*** be installed between two (2) cabinets, a cabinet and a wall or supported from below

Wall Blind Corner Cabinet Information

- All WBC24 and PWBC24 doors are square except full overlay arched door styles. Evana Cathedral door styles will be square. Vanderbilt doors will have a solid, recessed flat panel
- All Wall Blind Corner cabinets ***must*** be pulled. Consult chart for pull dimensions and minimum wall space requirements
- R or L indicates blind
- Door hinged on same side as blind on single door cabinets
- ***Note:*** A 3″ Wall Filler (WF) is supplied and shipped separately with each Wall Blind Cabinet (WBC) ordered. A Wall Cabinet adjacent to WBC may be ordered with an extended stile in lieu of installing the supplied filler. Two 3″ Wall Fillers are supplied with each Peninsula Wall Blind Corner (PWBC) ordered. Overlay Panel for Wall Blind Corner Cabinets (OPWBC) is recommended for full overlay door styles; see Wall Accessories section in this book

- Frame backs are ***not*** finished
- See Wall Blind Corner (WBC) cabinet chart for cabinet specifications
- ***Note:*** Two 3″ fillers included. Overlay Panel for Wall Blind Corner Cabinets (OPWBC) ***must*** be ordered separately; see Wall Accessories section of this book

We recommend using Under Cabinet Panels (UCP) on all wall cabinet runs. This will give the kitchen an elegant finished look. Unless ordered with a matching wood veneer interior option, the under side of wall cabinets are a natural birch material.

WEZR242139 R or L

42″ High

WEZR212442 R or L
WEZR242142 R or L

- Adjustable shelves
- Frame opening from left to right edge is 12 7/8″
- Face frame is scooped for hinge installation on full overlay door styles
- Hinged door opens to 170°
- Doors are square except full overlay arch door styles. Thermofoil door styles will always be square. Vanderbilt doors will have a solid, recessed flat panel. Courtney doors will have a veneer, recessed flat panel
- Wood-Grain Foil door styles will be supplied as vertical grain slabs
- ***Note:*** Does ***not*** include Soft-Close feature

Remember, all 9″ wide doors in 1/2″ overlay will be square even for a roman door style. If a 9″ cabinet is required, one suggestion is to void the door and order the cabinet with matching interior and use it as a decorative open cabinet.

Wall Hood Cove Application

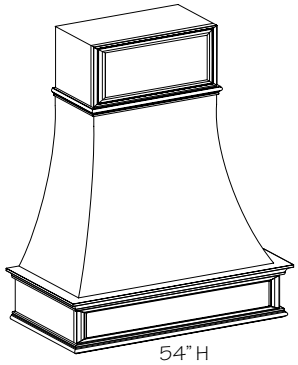

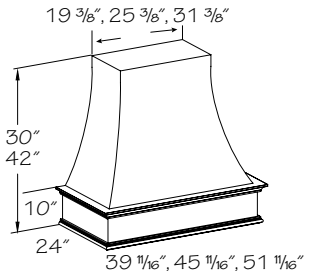

Onlays

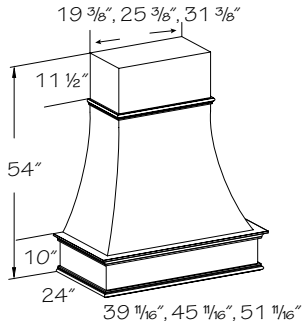

- Make the cooking area a dramatic focal point by adding a drawer front, appliance panel, molding or onlay to the cove hood to create architectural interest
- Decorate the front apron of the hood with a drawer front to add architectural interest, which can be ordered through the Custom Appliance Panel Program
- Customize the 12" H cap on the 54" H units with a molding stack, custom appliance panel used as wainscot, or a decorative onlay
- Don't forget to trim out the top of your hood with the same top molding you are using for the wall cabinets in your kitchen

Order a decorative drawer front from our Custom Appliance panel program to create a customized insert that matches your door profile for the front apron of your hood.

You may also use a drawer front to create a matching custom look on the 12" cap used to create the 54"H units.

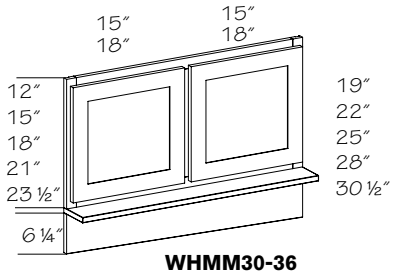

Wall Hood Mantle Matching Application

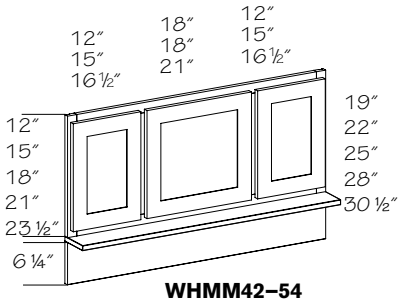

- Gain a "Mantle" style appearance in your kitchen design while maximizing your storage
- Personalize the design by incorporating molding and companion onlays to enhance the cooking focal point of the kitchen
- Wall Hood Mantle Cabinets ***must*** be used to support the hood. The increased overall depth makes a "bump-out" focal point that is easy to design
- 18" deep Wall Hood Mantle Cabinets are to be used with 30"–36" Wall Hood Mantle Matching (WHMM) units only. Larger units will ***not*** ventilate properly
- Add an LED Lighting Kit near the front, beneath the Wall Hood Mantle Cabinets (B) to highlight lower storage
- Create a hearth surround for the cooking area in your kitchen with components that work as a system for 84", 87", 90", 93" and 96" high cabinetry designs

1. Wall Hood Mantle Matching (WHMM)
2. Wall Hood Mantle Cabinet (WHMC)
3. Under Cabinet Door Storage (UCDS)
4. Corbels
5. Onlay
6. 3" rails allow for molding application at top or bottom of Under Cabinet Door Storage

When using an Organizer (O—) Cabinet or Spice Drawer Cabinet (SDC), which have flush ends standard, under a wall cabinet at the end of a run, either attach Furniture Ends (FE) or order a 3/16" Wood Skin (WSK) for the wall cabinet to flush the ends. (There will be a seam.) Also, consider ordering a furniture matching wall end panel if the height of the finished product allows it. For an alternative, see our Organizer Wall Cabinet in the Office Cabinet section.

When using an Organizer (O—) Cabinet or Spice Drawer Cabinet (SDC), which have flush ends standard, under a wall cabinet at the end of a run, either attach Furniture Ends (FE) or order a 3/16" Wood Skin (WSK) for the wall cabinet to flush the ends. (There will be a seam.) Also, consider ordering a furniture matching wall end panel if the height of the finished product allows it. For an alternative, see our Organizer Wall Cabinet in the Office Cabinet section.

Wall Filler Pull-out

Install decorative hardware prior to attaching filler to pull-out unit

Under Cabinet Panels

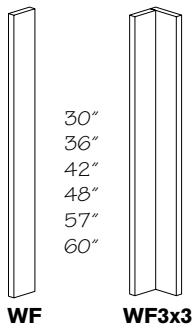

PUCP1296
UCP1296
UCPWA

- 3/8" panel with matching Viraguard sides and applied solid wood edge molding
- Cabinet Panel Edge (CPE8) molding may be ordered separately; see Molding section of this book
- ***Not*** available in plywood
- Painted hardwood supplied for EverCore™
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles
- ***Not*** available in Morristown; Melrose and Putnam supplied plain sawn

PE APC APFC FPEB MI CW RD ID CH XS GD

We recommend using Under Cabinet Panels (UCP) on all wall cabinet runs. This will give the kitchen an elegant finished look. Unless ordered with a matching wood veneer interior option, the under side of wall cabinets are a natural birch material.

Wall Filler

WF **WF3x3**

30" High	*57" High*

WF6•42	**WF3X3•30**
48" High	*42" High*
WF3•48	**WF3X3•42**

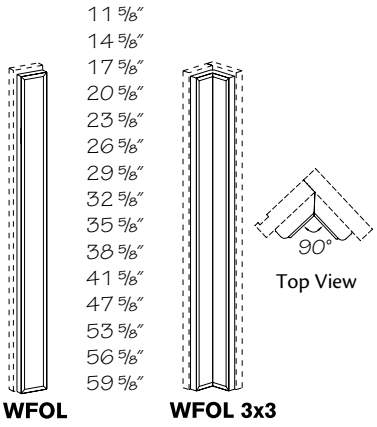

Grey color coding indicates new product, size or code.

- 3/4" thick solid wood
- Finished one side only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Painted hardwood supplied for EverCore™ and Thermofoil
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles

PE APC APFC FPEB MI CW RD ID CH XS GD

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

When you need an inverted frame for a sink base cabinet, consider using a regular base with a drawer instead of a sink base if plumbing allows. This way you get a working drawer at the bottom of your cabinet.

Remember, a cabinet designated BUTT or (Butt) has no center stile. When you see the word BUTT in all capitals, it ***must*** be included as part of your ordering nomenclature, a (Butt) in parentheses is for your information and isn't required on an order form

Consider using a three-drawer stack adjacent to this cabinet. The bottom false front will align with the bottom drawer base cabinets.

Consider ordering 46 1/2″ high Base Microwave (BMC) and Dishwasher (BDW) Cabinets with Furniture Plywood Ends (FPEB) to bring the sides flush with the face frame. This will prevent having to notch the countertop of an adjacent cabinet to fit behind the face frame.

Dishwasher Panel

Consider using the Full Height Door (FHK), Full Height Peninsula (FHP) or Full Height Both (FHB) option on Peninsula Base Blind Corner Cabinets to increase storage height of the top shelf

Peninsula Base Blind Corner–27" Wide

PBBC27

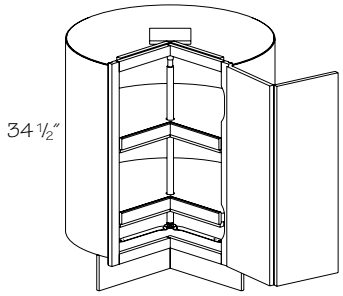

- One adjustable shelf
- Two 5 1/2" stiles on blind side allow cabinet to be used as right or left
- Double doors and single drawer
- Reversible
- For use as a starter cabinet for peninsula
- Designed to fit flush against wall, cabinet may be pulled approximately 2 1/4". Full overlay door styles require a pull of at least 1" from wall to allow decorative hardware clearance
- Filler included
- Overlay Panel for Base Blind Corner (OPWBC) ***must*** be ordered separately
- Working drawer and doors open to same side

Base Corner Drawer Cabinet and Base Corner Smart Space Companion View

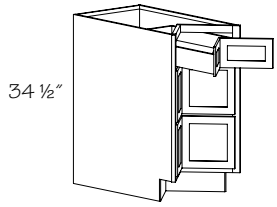

Base Corner Smart Space (BCSS) cabinets can also be used as an alternate corner solution when used with a Base Filler 3x3 (BF3X3) in place of a Base Corner Drawer (BCD) cabinet

Base Corner Drawer Cabinet

BCD2D

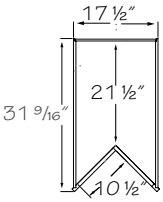

BCD3D

Two Drawer

BCD36 ▪2D

Three Drawer

BCD36 ▪3D

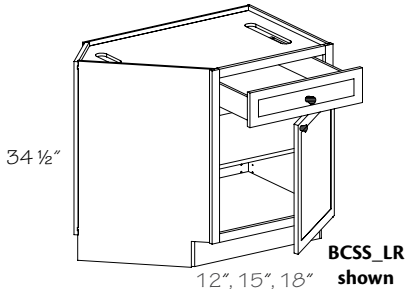

- 90 degree frame
- Drawer is the same as a B12
- ***Not*** available with any drawer box accessories
- Requires 36″ of wall space

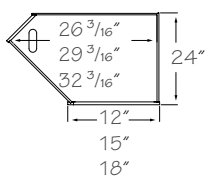

Be sure to use a filler next to the Base Corner Drawer Cabinet (BCD) if an adjacent unit is deeper than 24″. The filler width must equal the distance a unit will extend beyond the Base Corner Drawer Cabinet (BCD) to ensure proper drawer clearance. For example: The Base Corner Drawer Cabinet (BCD) will require a 2″ filler if a 26″ deep range is placed next to it.

Base Filler

BF BF 3x3

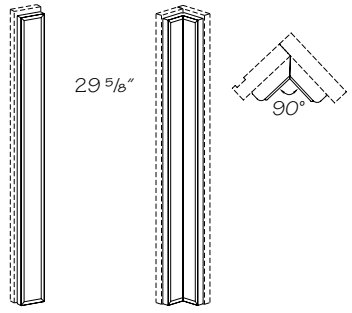

BF3
BF6
BF3X3

- 3/4" thick solid wood
- Finished one side only
- Crafted or Quartersawn door styles will be supplied in plain sawn wood
- Painted hardwood supplied for EverCore™ and Thermofoil
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles
- No toe kick

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

				1/2″ Overlay	Full Overlay
Cabinet Width	Min. Width	Max. Width	Min. Height	Max. Height	Max. Height
27″	21″	25″	23 ½″	31″	30″
30″	21″	28″	23 ½″	31″	30″
33″	24″	31″	23 ½″	31″	30″

Most major appliance manufacturers will tell you that their 27″ wide ovens will fit into a 27″ oven cabinet and their 30″ wide ovens will fit into a 30″ cabinet. In most cases this is true. However, the look this creates may ***not*** be appealing because the stiles will be concealed by the appliance. To solve this problem, you can order a 30″ oven cabinet for a 27″ oven and a 33″ oven cabinet for a 30″ oven, etc.

- 3/4" thick solid wood
- Finished one side only
- Painted hardwood supplied for EverCore™
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles
- No toe kick

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

- Available in full overlay door styles only
- Available in Cherry, EverCore™, High-Gloss Foil, Laminate, Wood-Grain Foil and Maple door styles only
- Painted hardwood supplied for EverCore™ and Thermofoil
- Painted hardwood supplied for Wood-Grain Foil door styles; only available in white
- Open area height from top of bottom shelf to cabinet frame is 13″
- Plumbing cutout is centered; measures 4 1/4″ x 10″
- Contrasting Back Options (CBEB, CPLB, CVGR) ***not*** available
- Console Vanity Deluxe Roll-Out Tray (CDXROT) is available for factory or field installation in 30″, 36″ and 42″ VCN wide cabinets

For a finished look, we recommend attaching replacement doors to the end panels (RD1515NH.B — sold separately, qty. 2 needed if covering both ends)

In order to complete the furniture look on your console vanity, limit your countertop overhang to 1/8″ on the front and both sides. A standard size vanity countertop will work with the console vanity, but keep in mind the countertop overhang to the front will only be 1/8″; overhang on the sides will be 1/2″. Be sure to account for the positioning of the vanity bowl in relation to the cabinet. If you use a large vanity bowl or if your bowl is positioned too far forward, you may need to notch the inside top rail of the frame in order to accommodate the bowl.

Vanity Base Blind Corner Cabinet Information

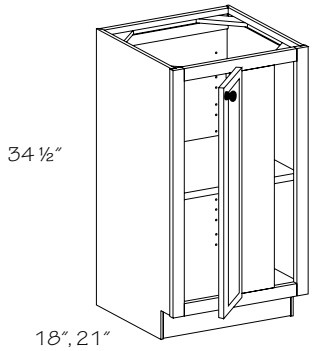

- R or L indicates blind
- All vanity blind corner cabinets ***must*** be pulled. Consult chart or pull dimensions and minimum wall space requirements
- Door hinged on same side as blind on single door cabinets
- A 3" vanity filler is included with each VBBC cabinet ordered, shipped separately. Vanity cabinet adjacent to VBBC may be ordered with an extended stile in lieu of installing supplied filler
- Overlay Panel for Wall Blind Corner Cabinet (OPWBC) is recommended for full overlay door styles and ***must*** be ordered separately; see Base Accessories Section of this book
- Right blind shown

Cabinet	½" Overlay						Full Overlay					
	Wall Space "A"		Exposed Front "B"		Door Open	Cab. Width	Wall Space "A"		Exposed Front "B"		Door Open	Cab. Width
	Min ✣	Max.	Min ✣	Max	C		Min ✣	Max	Min ✣	Max	C	
VBBC 3018	28 ½"	32 ⅛"	10 ½"	13 ⅛"	6"	18"	30"	32 ⅛"	12"	13 ⅛"	6"	18"
VBBC 33	31 ½"	37 ⅛"	10 ½"	16 ⅛"	6"	21"	33"	38 ⅝"	12"	17 ⅞"	6"	21"

✣ Dimensions "A" and "B" minimum requirements include optional decorative hardware clearance. You may deduct 1 1/4" if hardware is not used.

VTK	Void Toe Kick

Montrose Collection (S1)

- This collection offers soft curved lines and tapered feet that give the flexibility to take the room from contemporary to casual farmhouse or craftsman styles.
- Angle Crown Molding (ACM) is applied to tops of Vanity Walls and Mirrors; a solid wood plate with eased edges is applied to the bottom
- 1 1/2" side accents are softly curved and chamfered
- Toe kick accent includes 3/4" plate with tapered legs
- Toe kick skirt ships separately for field installation
- Simple, understated, clean line door styles are recommended to achieve the best design aesthetics

Cologne Collection (S2)

- The classic fluting detail of this style offers the formality of a traditional design aesthetic
- Crown Molding (CM) is applied to tops of Vanity Walls and Mirrors; a solid wood plate with a single bead edge is applied to the bottom
- 1 1/2" fluted side accents
- Toe kicks feature a formal, architectural skirt with a beaded edge
- Toe kick skirt ships separately for field installation
- Raised panel door styles with more details, and glazed finishes highlight the fluting and bead details of this style

Bayshore Collection (S3)

- The carved linear column detail and tapered feet are reminiscent of classic, fine furniture design
- Large Cove Molding (LCVM) is applied to tops of Vanity Walls and Mirrors; a solid wood plate with a single bead edge is applied to the bottom
- 1 1/2" carved linear column side accents
- Toe kick accent includes 3/4", single bead edged plate, and carved details on tapered legs
- Toe kick skirt ships separately for field installation
- Door style and finish combinations will drive the styling of these pieces from soft modern to classic

VTK	Void Toe Kick

Fairfield Collection (S5)

- The clean lines and cove valance give this collection universal appeal
- Large Cove Molding (LCVM) is applied to tops of Vanity Walls and Mirrors; a solid wood plate with a single bead edge is applied to the bottom
- FM.LCVM is correct framed mirror to use when matching this series
- No side accents
- Toe kicks feature a simple, yet sophisticated cove skirt
- Toe kick skirt ships separately for field installation
- For an uncomplicated look, choose door styles with a recessed center panel in a simple stained finish; or for a more refined or elegant appearance, select raised panel door styles and use a glazed finish to highlight the details

VF3 ▪31
VF6 ▪31
VF3 ▪34
VF6 ▪34
VF3 ▪88
VF6 ▪88
VF3X3 ▪31
VF3X3 ▪34

- 3/4" thick solid wood
- Finished one side only
- Crafted or Quartersawn door styles will be supplied in plain sawn wood
- Painted hardwood supplied for EverCore™
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles
- No toe kick

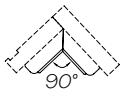

Remember to use fillers with full overlay door styles, especially square edge profiles, when cabinets will be against a return wall, box, pilaster or column. Use fillers on all overlays if there is case molding on a return wall. This will ensure proper clearance for drawers and roll-out tray access.

When using an Organizer (O—) Cabinet or Spice Drawer Cabinet (SDC), which have flush ends standard, under a wall cabinet at the end of a run, either attach Furniture Ends (FE) or order a 3/16" Wood Skin (WSK) for the wall cabinet to flush the ends. (There will be a seam.) Also, consider ordering a furniture matching wall end panel if the height of the finished product allows it. For an alternative, see our Organizer Wall Cabinet in the Office Cabinet section.

❍▲ **DKD3624 ▪2D**

❍ Change Width (CW) option ***not*** available
▲ Two drawers side by side

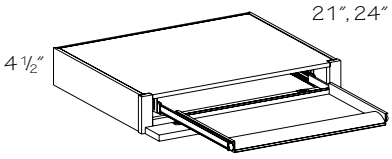

- Unit is designed for use between two base, desk or tall cabinets
- When mounted at 29" height with a 1 1/2" countertop, unit provides a comfortable writing surface
- One end of DKD can be supported by optional Desk End Panel (DEP)
- Drawer will be slab, including DRPD, except Lasalle, Lyndale and Mandolay door styles which will be five-piece
- ***Not*** trimmable

☆ End panels are 1/2″ plywood with Natural Birch Viraguard interior and exterior

Consider using a Cabinet Front Only (CFO) under a desk to cover up wires, outlets etc. This will decorate the area, plus give easy access to cords. Especially useful if you are placing a CPU in a cabinet next to your knee space.

RTK	Recessed Toe Kick
VTK	Void Toe Kick
TKD	Toe Kick Drawer

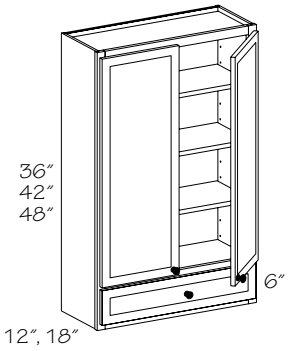

Note: Standard furniture cabinet box depth is 12", 18", 21" or 24", unless stated otherwise. Add door thickness and bumper for total depth.

Note: Unless noted, all Furniture Cabinets are manufactured in 3/4" Furniture Plywood Ends with matching wood veneer or Viraguard interiors. Due to toe kicks shipping separately on 96" high units, 96" furniture cabinets will be manufactured with 1/2" plywood end panels so the ends can be skinned to hide the seam. Skins must be ordered separately.

Material dimensions listed may vary slightly from actual dimensions of the product.

Specifications subject to change without notice.

Design Ideas

Construction Options and Modifications

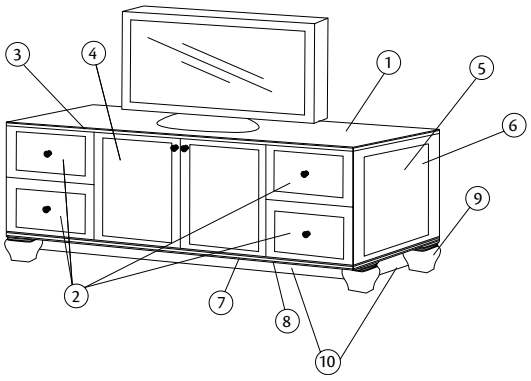

Creating signature furniture pieces requires careful consideration and planning. KraftMaid® Cabinetry makes it easy with a wide variety of choices to personalize any space. The following are some example configurations to help you in designing the ideal furniture piece for your customer.

Furniture Component System

Create your own furniture component system using standard wall and base cabinets

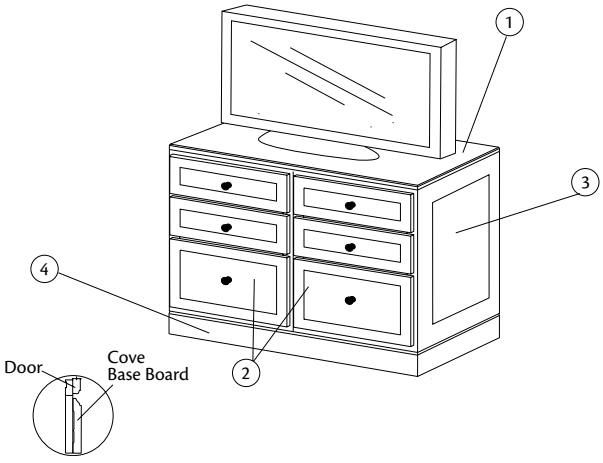

1. Furniture end panel
2. Center furniture end panel
3. Furniture shelf
4. Furniture valance
5. Standard wall cabinet
6. Base cabinet with full-height doors
7. Furniture panel

Flat Screen Design Idea 1

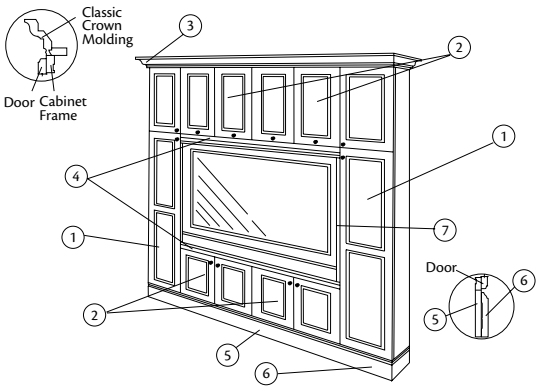

1. Wood Top
2. Furniture Drawer
3. Stack Molding
4. Wall Cabinet
5. Wood Skin (apply one to each side)
6. Replacement Door (apply one to each side)
7. Furniture Shelf
8. Single Bead Edge (applied to front and side edges)
9. Cove Legs
10. Matching Toe Kick*

*Build a recessed toe kick platform for added support and apply Matching Toe Kick. Recommend to recess 9″

Flat Screen Design Idea 2

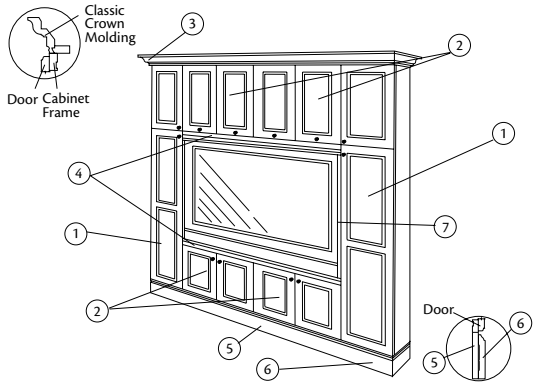

1. Wood Top
2. Desk Drawer Cabinet (Wide Rail Plain)
3. Replacement Door
4. Cove Base Board

Flat Screen Design Idea 3

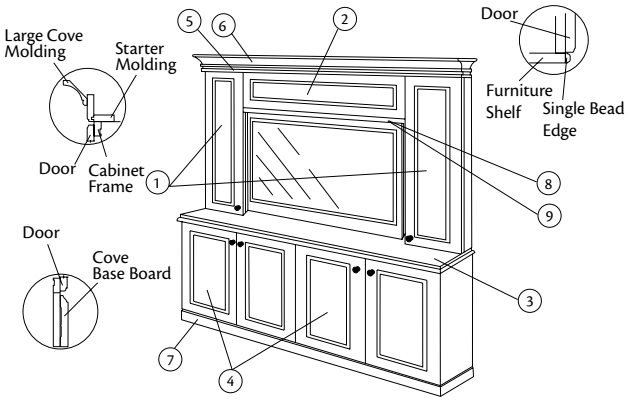

1. Utility cabinets (with Wide Rail Plain; Reduced Depth to 18″)
2. Wall Cabinets (w/Butt doors; Increased Depth to 18″)*
3. Classic Crown Molding
4. Furniture Shelves
5. Solid Stock
6. Cove Base Board
7. Skin or panel, applied to wall, behind TV. ***Not*** intended for supporting TV.

* Build a flush toe kick platform for added support

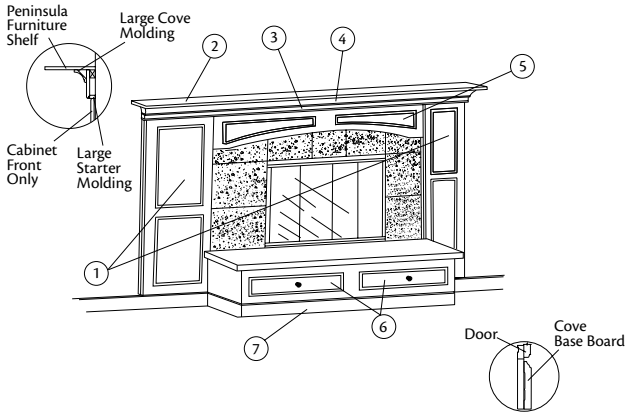

Flat Screen Design Idea 4

1. Utility cabinets (with Wide Rail Plain; Reduced Depth to 18″)
2. Vanity Cabinets (with Wide Rail Plain)
3. Classic Crown Molding
4. Furniture Shelves (pull forward 3/4″)
5. Sold Stock
6. Cove Base Board
7. Furniture Panels

Flat Screen Design Idea 5

1. Wall cabinets (Reduced Depth to fit TV Specs; with Furniture Plywood Ends)
2. Wall Cabinets-CFO (installed horizontally at 12″ deep; secure door)
3. Wood Top (Finished Both Ends)
4. Vanity Cabinets (with Wide Rail Plain; Furniture Plywood Ends)
5. Starter Molding
6. Large Cove Molding
7. Cove Base Board
8. Furniture Shelf
9. Single Bead Edge (applied to front of shelf)

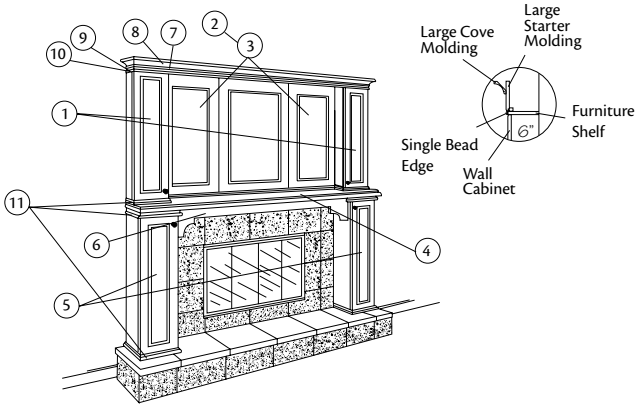

Hearth Design Idea 1

1. Utility Cabinet-CFO
2. Peninsula Furniture Shelf
3. Large Starter Molding
4. Large Cove Molding
5. Flat Panel Valance
6. 12″ high Furniture Drawer (with Furniture Plywood Ends)*
7. Cove Base Board

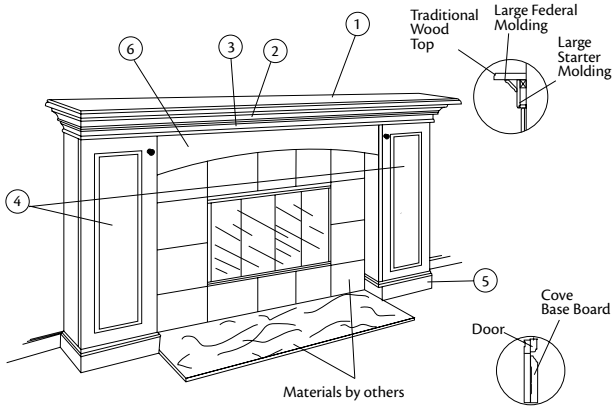

* Build a 4 1/2″ high platform under Furniture Drawers for support

Hearth Design Idea 2

1. Wall cabinets (Reduced Depth to 6″ with Furniture Plywood Ends)
2. Wall Skin (cut skin to wall)
3. Replacement Door
4. Wood Top
5. Wall Cabinet (with Furniture Plywood Ends)
6. Crown Valance
7. Large Starter Molding
8. Large Cove Molding
9. Furniture Shelf
10. Single Bead Edge (applied to edge of shelf)
11. Ogee Molding (above and below cabinets)

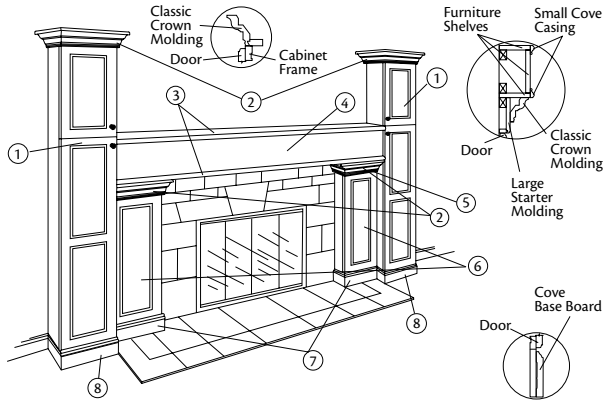

Hearth Design Idea 3

1. Traditional Wood Top
2. Large Federal Molding
3. Large Starter Molding
4. Wall cabinets (Reduced Depth to 6; Furniture Plywood Ends)*
5. Cove Base Board
6. Cove Valance

* Build a flush toe kick platform under for support

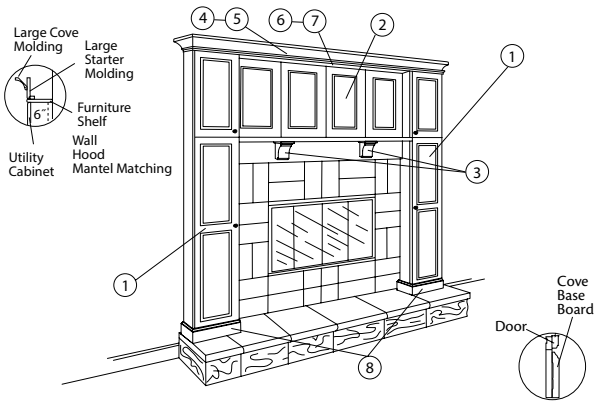

Hearth Design Idea 4

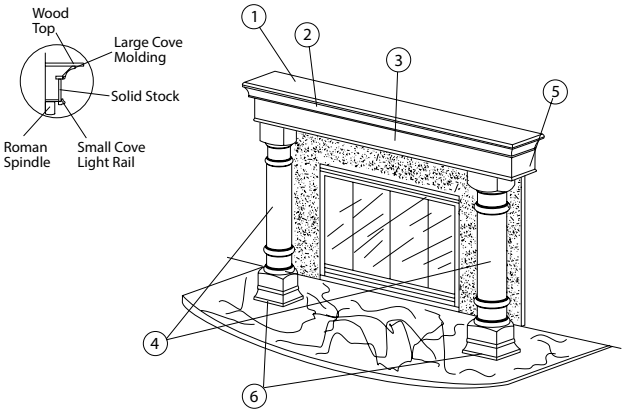

1. Utility Cabinet (Wide Rail Plain; Furniture Plywood Ends)
2. Classic Crown Molding
3. Small Cove Casing
4. Furniture Shelf
5. Large Starter Molding
6. Wall cabinets (Reduced Depth to 6; Furniture Plywood Ends)*
7. Solid Stock
8. Cove Base Board

* Build a flush toe kick platform under for support

Hearth Design Idea 5

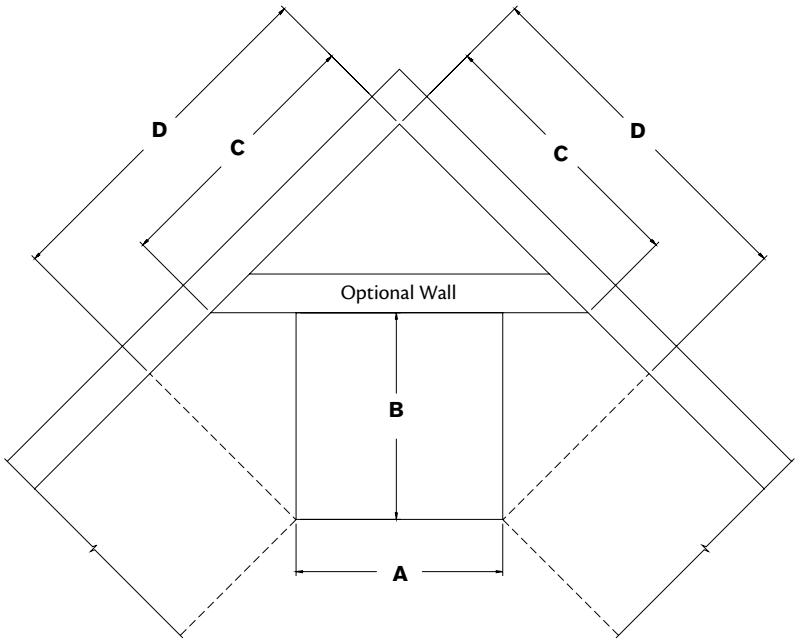

1. Utility Cabinet (Wide Rail Plain; Furniture Plywood Ends; Reduced Depth to 6″)
2. Wall Hood Mantle Matching
3. Cove Corbel
4. Large Starter Molding
5. Large Cove Molding
6. Furniture Shelf
7. Single Bead Edge
8. Cove Base Board

Hearth Design Idea 6

1. Wood Top
2. Large Cove Molding
3. Solid Stock
4. Roman Spindles
5. Small Cove Light Rail
6. Large Cove Molding (inverted)

Passport Series

Recommendations for Maximum Accessibility:

- Order 36" high Wall cabinets installed at 82" or 84" height
- Increase depth of Wall cabinets to 15" for easier use
- Minimize use of Base cabinets with doors, select drawer or tambour cabinets

Door Style Availability:

- Passport SKU's are available in all 1/2" overlay door styles and are now available with your choice of Whisper Touch™ or knife hinges (see door style availability below). Whisper Touch™ hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment. Knife hinge, which open 180 degrees, are recommended to accommodate wheelchair users.

- **1/2" overlay door styles with Whisper Touch™ hinge:**
  - Belmont Roman
  - Belmont Square
  - Fox Chase Roman–Half
  - Fox Chase Square–Half
  - Grandview Roman–Half
  - Grandview Square–Half
  - Hanley Roman
  - Hanley Square
  - Harper
  - Lyndale–Half
  - Marquette Roman–Half
  - Marquette Square–Half

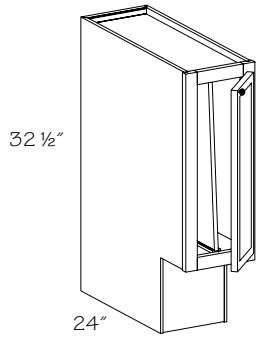

- **1/2" overlay door styles with knife hinge:**
  - Belmont Roman
  - Belmont Square
  - Grandview Cherry Roman–Half
  - Grandview Cherry Square–Half
  - Hanley Roman
  - Hanley Square

Design Recommendations:

- Consider specifying Under Cabinet Panels for wall cabinets available for wheelchair users

Passport cabinetry is available in 1/2" overlay door styles only.

Notes

Custom Appliance Panels

Construction Options and Modifications

CAPDW
code

This program enables you to order custom-designed appliance panels for kitchens or other living spaces.

Material dimensions listed may vary slightly from actual dimensions of the product.

Specifications subject to change without notice.

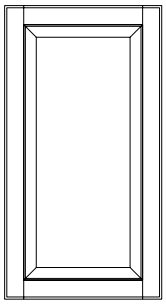

Custom Appliance Panel–General Guidelines

- An appliance make and model number can be provided and KraftMaid® will recommend a panel solution based on that information. A sample drawing will be sent back for approval
- Specific panel dimensions can be recorded and KraftMaid® will finish the panels to your specifications
- Check appliance manufacturer's specifications for any additional material, such as shims, spacers, etc., that may be needed before placing any order. Spacer panels are ***not*** supplied
- Due to potential extended lead times, CAP orders may ***not*** ship with associated kitchen orders. We recommend shipping CAP orders to your store to avoid additional home delivery fees
- If a veneer center panel door style is selected, appliance panel doors will have a solid wood center panel machined to resemble the veneer center panel
- Grain orientation will match that of the selected door style
- Slab door style orders are limited to the Universal Frame Only option within this program
- Only center rail modifications are available when ordering the CAPDR.W.CR and CAPDR.B.CR (location and height). Outside stiles and rails ***cannot*** be modified
- Stiles and rails will be the same size and profile as the selected door style (with the exception of Frame Only doors)
- Refer to appliance manufacturer's specification to ensure ice/water dispenser trim will accommodate a 3/4" to 1" thick panel
- Frame Only panels (CAPFO & UCAPFO) will ***not*** be supplied with applied molding on applicable door styles
- Frame Only panels (CAPFO) are ***not*** available in mitered door styles. We recommend using the Universal Frame Only panels
- Universal Frame Only panels (UCAPFO) will have a 3/32" radius on both inside and outside edges of stiles and rails
- Ice/water dispenser cutouts will have 3/16" radius corners
- Onlay panels will react to climate conditions causing varying degrees of joint separation. This is a natural reaction in wood product and therefore is ***not*** covered under warranty
- ***Not*** available in EverCore™, High-Gloss Foil, Thermofoil or Wood-Grain Foil door styles
- Door sizes are limited to 1/16" increments

Custom Appliance Panel–Pricing Method

- General Pricing Rules:
- Using the outer most dimension of each panel, the width and height should be converted into a decimal form. Examples: 21 9/16″ = 21.5625; 58 7/16″ = 58.4375, etc.
- Calculated dimensions will be rounded using the standard rounding method (down from 4 and up from 5) to the nearest 10,000th place. Example: 8.7504069 will round to 8.7504
- List prices will be rounded up to the nearest dollar from .01 cents. Example: $179.01 will become $180
- Please use the following instructions to determine the LIST PRICE of each panel, remembering to use the rounding method mentioned above
- Start by taking the panel width and height, in decimal form, and multiply the two numbers together giving you the total square inches. Example: (21 9/16″) 21.5625 x (58 3/8″) 58.4375 = 1260.058594 sq. in., which rounds to 1260.0586 sq. in.
- Next, you need to convert sq. in. into sq. ft. by taking the sq. in. figure and dividing that number by 144. Example: 1260.0586 ÷ 144 = 8.7504069 sq. ft., which rounds to 8.7504 sq. ft.
- Next, multiply the total sq. ft. by the appropriate sq. ft. list price to get the total list price. Example 8.7504 x $141 = 1233.81, which rounds to $1234 list price
- Factory cutouts are an additional charge and ***must*** be added to the calculated price
- ***Note:*** Prices shown above are merely examples and are ***not*** actual list prices

Custom Appliance Panel–Door Onlay Panel

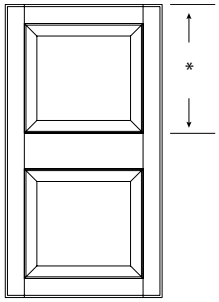

CAPDR•B
CAPDR•W

Onlay Panel	
Minimum Width	7"
Maximum Width	36"
Minimum Height	10"
Maximum Height	80"

- No center rail
- When an arched door style is selected, you ***must*** select Arched (•W) or Square (•B) to determine the door and onlay panel's top profile
- When a square door style is selected, the square profile will be supplied for all onlay panels as standard. It is recommended to use a square profile when ordering an onlay panel for a dishwasher or trash compactor application
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- ***Not*** available in EverCore™, High-Gloss Foil, Thermofoil or Wood-Grain Foil door styles
- Stiles and rails will be the same size and profile as the selected door style
- Cutouts are ***not*** available
- Backs are finished

Custom Appliance Panels (CAP) are located in 2020 Design under Base->Panels->Custom Appliance Panel. Once the panel is placed on the floor plan, the CAP wizard will pop-up and dimensions can be specified

Custom Appliance Panel–Door Onlay Panel with Custom Center Rail

*Distance between the top of the top rail and the top of the center rail

CAPDR•B•CR
CAPDR•W•CR

Onlay Panel	
Minimum Width	7"
Maximum Width	36"
Minimum Height	24"
Maximum Height	80"

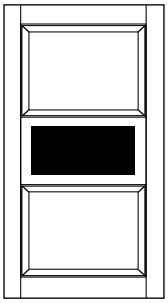

Center Rail Height	
Minimum	1 1/2"
Maximum	19"

Distance from the top of the rail to the bottom of the center rail

- The center rail position can be customized by providing the distance between the top of the top rail and the top of the center rail
- Due to varying dimensions and designs of raised center panels, recessed center panels may be supplied when the center panel width or height is less than 3 1/4"
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- ***Not*** available in EverCore™, High-Gloss Foil, Thermofoil or Wood-Grain Foil door styles
- ***Not*** available in mitered door styles
- Optional center rail cutout (CUTOUT) is available
- Stiles and rails will be the same size and profile as the selected door style
- Backs are finished
- ***Note:*** If center rail modifications are ***not*** necessary, use Decorative Appliance Panels

Custom Appliance Panels (CAP) are located in 2020 Design under Base->Panels->Custom Appliance Panel. Once the panel is placed on the floor plan, the CAP wizard will pop-up and dimensions can be specified

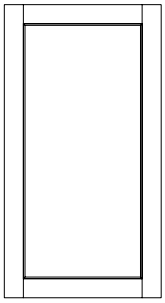

Center Rail Cutout

CUTOUT

- Specify cutout width and height
- The cutout position can be customized based on the distance specified from the left outside edge and from the top outside edge of the door onlay panel
- Refer to appliance manufacturer's specification to ensure ice/water dispenser trim will accommodate a 3/4" to 1" thick panel
- Cutouts will have 3/16" radius corners
- Center Rail Cutout (CUTOUT) is only available on the Custom Appliance Panel–Door Onlay Panel with Custom Center Rail (CAPDR_•CR)
- ***Not*** available in EverCore™, High-Gloss Foil or Wood-Grain Foil door styles

Custom Appliance Panel-Frame Only

CAPFO

Frame	
Minimum Width	7"
Maximum Width	30"
Minimum Height	10"
Maximum Height	80"

Top & Bottom Rail Height	
Minimum Width	1 1/2"
Maximum Width	12"

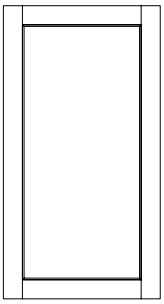

Right & Left Stile Width	
Minimum Width	1 1/2"
Maximum Width	5"

- Available in the following door styles only if the stiles and rails are the same dimension: Mandolay Birch, Mandolay Cherry, and Mandolay Maple. Otherwise Universal Frame Only panels ***must*** be used
- Frame Only panels will ***not*** be supplied with applied molding on applicable door styles
- Outside edge profiles on stiles and rails will match the selected door style for Frame Only panels, and the inside edge profiles will have a 3/32" radius
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- Stile and rail sizes can be modified
- ***Not*** available in mitered or slab door styles
- ***Not*** available in EverCore™, High-Gloss Foil, Thermofoil or Wood-Grain Foil door styles
- Backs are finished

Use with wine chillers that have framed glass doors

Custom Appliance Panel–Drawer Onlay Panel

CAPDW

- Five-piece grill panels/drawer heads ordered in heights less than 6 1/8″ may be supplied as a solid slab onlay panel. Some five-piece drawer fronts may have a recessed center panel
- Drawer front configuration will follow the selected door style
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- ***Not*** available in EverCore™, High-Gloss Foil, Thermofoil or Wood-Grain Foil door styles
- "Width" will be referred to as "Length" on your faxed acknowledgments for CAPDW only
- If unit is installed at an angle, fillers should be used to avoid interference with adjacent cabinet
- Stiles and rails will be the same size and profile as the selected door style
- DRPD and CLDF options are available for applicable door styles only
- Backs are finished

Onlay Panel	
Minimum Width	6"
Maximum Width	48"*, 60"**
Minimum Height	2 1/4"
Maximum Height	30", 20"

* Max width is 48" when ordered taller than 20" (Max height is 30")

** Max width is 60" when ordered 20" and shorter

Decorative Appliance Panels

Construction Options and Modifications

APDW
code

Material dimensions listed may vary slightly from actual dimensions of the product.

Specifications subject to change without notice.

Decorative Appliance Panel–General Guidelines

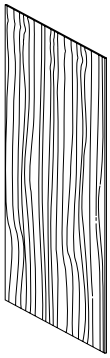

- Specific panel dimensions can be recorded and KraftMaid® will finish the panels to your specifications
- Check appliance manufacturer's specifications for any additional material, such as shims, spacers, etc., that may be needed before placing any order. Spacer panels are ***not*** supplied
- If a veneer center panel door style is selected, appliance panel doors will have a solid wood center panel machined to resemble the veneer center panel
- Grain orientation will match that of the selected door style
- Stiles and rails will be the same size and profile as the selected door style
- Onlay panels will react to climate conditions causing varying degrees of joint separation. This is a natural reaction in wood product and therefore is ***not*** covered under warranty
- Door sizes are limited to 1/16" increments

Decorative Appliance Panel–Pricing Method

- General Pricing Rules:
- Using the outer most dimension of each panel, the width and height should be converted into a decimal form.
  Examples: 21 9/16″ = 21.5625; 58 7/16″ = 58.4375, etc.
- Calculated dimensions will be rounded using the standard rounding method (down from 4 and up from 5) to the nearest 10,000th place.
  Example: 8.7504069 will round to 8.7504
- List prices will be rounded up to the nearest dollar from .01 cents. Example: $179.01 will become $180
- Please use the following instructions to determine the LIST PRICE of each panel, remembering to use the rounding method mentioned above
- Start by taking the panel width and height, in decimal form, and multiply the two numbers together giving you the total square inches.
  Example: (21 9/16″) 21.5625 x (58 3/8″) 58.4375 = 1260.058594 sq. in., which rounds to 1260.0586 sq. in.
- Next, you need to convert sq. in. into sq. ft. by taking the sq. in. figure and dividing that number by 144. Example: 1260.0586 ÷ 144 = 8.7504069 sq. ft., which rounds to 8.7504 sq. ft.
- Next, multiply the total sq. ft. by the appropriate sq. ft. list price to get the total list price. Example 8.7504 x $128 = 1120.05, which rounds to $1121 list price
- ***Note:*** Prices shown above are merely examples and are ***not*** actual list prices

Decorative Panel–Back Panel

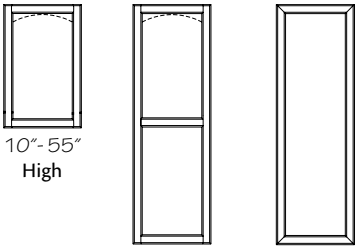

APWSK

Back Panel	
Minimum Width	4 1/2"
Maximum Width	48"
Minimum Height	3/4"
Maximum Height	96"

- Approximately 3/16" thick
- Back Panels will match the wood species and the color of the selected door style and finish and can be used with or without onlay panels to decorate any appliance
- Plain sawn material supplied for Barnet Crafted door styles
- Wood veneer engineered wood
- Finished one side only
- Quartersawn door styles are quartersawn wood veneer
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles
- Edges are unfinished with no edgebanding
- Painted hardwood supplied for EverCore™ and Thermofoil door styles. A matching matte panel will be supplied when ordered in High-Gloss Foil door styles

Decorative Panel–Door Onlay Panel and Hinge Doors

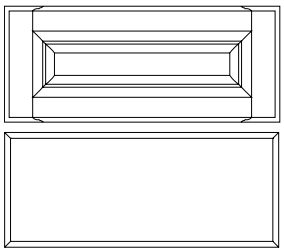

APDRL •B or W
APDRR •B or W
APDRNH •B or W

Onlay Panel	
Minimum Width	7"
Maximum Width	36"
Minimum Height	10"
Maximum Height*	80"

*Maximum height for Woodgrain Laminate mitered doors is 55 5/8"

- Doors and onlay panels ordered 10"–55" high will have a single center panel
- Doors and onlay panels ordered 54 15/16" – 80" will have a double center panel (a horizontal center rail will equally divide the onlay panel)
- Mitered door styles will have a single center panel, regardless of height
- When an arched door style is selected, you ***must*** select Arched (•W) or Square (•B) to determine the door and onlay panel's top profile
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- When a square door style is selected, the square profile will be supplied for all onlay panels as standard. It is recommended to use a square profile when ordering an onlay panel for a dishwasher or trash compactor application
- Multiple doors and panels of identical size may be ordered by listing the quantity needed. The quantity will default to one if a number is ***not*** given
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Due to varying dimensions and designs of raised center panels, recessed center panels may be supplied when the center panel width or height is less than 3 1/4"
- Hinging for doors:
  Doors 10" to 36" get two hinge holes
  Doors 36 1/6" to 48" get three hinge holes
  Doors 48 1/16" to 80" get four hinge holes
- Backs are finished
- ***Note:*** Check appliance manufacturer's specs for any additional material (shims, spacers, etc.) that may be needed before placing any order. Appliance model numbers are ***not*** sufficient, numeric dimensions ***must*** be used when ordering

Decorative Panel–Drawer Onlay Panel

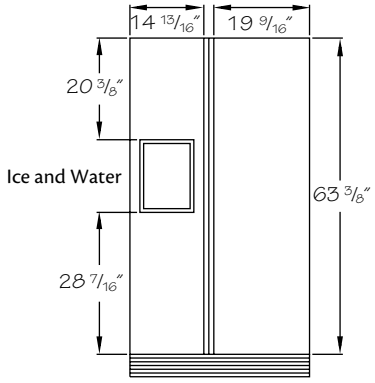

APDW

Onlay Panel	
Minimum Width	6″
Maximum Width	48″
Minimum Height	2 1/4″
Maximum Height	30″

- APDW will follow the selected door style's drawer front configuration
- Five-piece grill panels/drawer heads ordered in heights less than 6 1/8″ may be supplied as a solid slab onlay panel. Some five-piece drawer fronts may have a recessed center panel
- The Drawer Onlay Panel will be constructed like door when Wood-Grain Foils door styles are ordered
- "Width" will be referred to as "Length" on your faxed acknowledgments for APDW only
- If unit is installed at an angle, fillers should be used to avoid interference with adjacent cabinet
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Backs are finished
- ***Note:*** Check appliance manufacturer's specs for any additional material (shims, spacers, etc.) that may be needed before placing any order. Appliance model numbers are ***not*** sufficient, numeric dimensions ***must*** be used when ordering

Decorative Panel/Replacement Door and Drawer Front

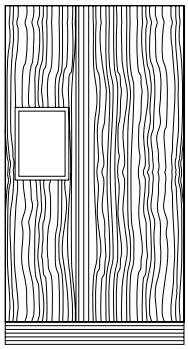

- Decorative panels can be easily created using paneling and replacement door and drawer fronts. Consult the Door and Drawer front Replacement Guide section of this book for sizes of doors and drawer fronts available
- Example: Create a decorative panel for this side by side refrigerator
- ***Note:*** In most cases, doors will be narrower than the refrigerator door and portions of the refrigerator door paneling will be exposed. Advise your customers that this "reveal" will be present and that cabinet doors will ***not*** completely overlay the refrigerator door

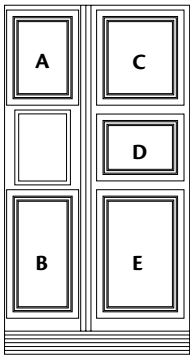

When applying Replacement Doors to a WSK remember to allow enough room for access to the appliance door handle

Option 1:
Order and Install:
WSK3684

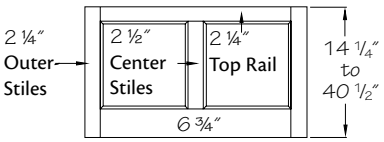

Option 2:
Order and Install:
1 - WSK3684
1 - RDB1218 (Door "A")
1 - RDB1224 (Door "B")
1 - RD1818 (Door "C")
1 - RD1815 (Door "D")
1 - RD1824 (Door "E")

Size of refrigerator may vary and door sizes may need to be changed

◆ Cross grain panel for peninsula application
❊ Change Width (CW) and Change Height (CH) are only available on these items
■ ***Not*** available in Morristown; Melrose and Putnam supplied plain sawn

- Painted hardwood supplied for EverCore™ and Thermofoil ☆ APC ☆ CW ☆ CH
- Painted or Stained hardwood supplied for Wood-Grain Foil door styles
- Finished one side only
- Edges are unfinished with no edgebanding

☆ APC is optional for WPL

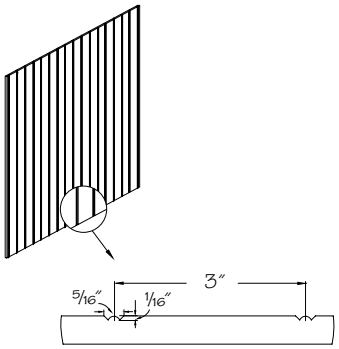

Remember to order "Furniture Ends" (FPEB) or a Wood Skin (WSK) for wall cabinets that will be at the end of a run when applying decorative moldings. This will result in a flush application on the return.

Remember to order a 3/16" skin (WSK) for the exposed ends of 93" & 96" high cabinets to conceal the seam between the loose toe kick and the cabinet.

Remember, the grain on paneling normally runs along the length of the panel. Cross grain means grain goes with the short edge.

Aluminum Frame Glass

Aluminum frame glass doors feature clean sleek lines that complement any door style. Frames are brushed extruded aluminum. Combine a front or reverse frame and a glass style that offers the degree of content visibility you desire, from completely clear to totally obscure.

3	FR	SAT	2
quantity	frame code	glass code	height code

Aluminum frame glass is available in full overlay door styles, in sizes from 12" wide and up to 62" high.

Glass inserts are ordered individually. Place quantity before order code.

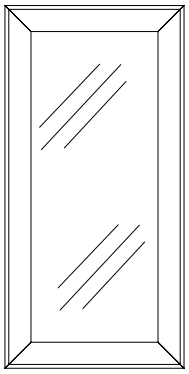

See examples for individual items.

Material dimensions listed may vary slightly from actual dimensions of the product.

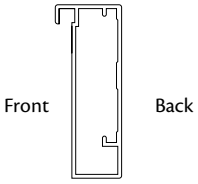

See Construction Options section for specific information on each glass type.

Specifications subject to change without notice.

Camed Glass

Camed glass designs use cut glass and zinc caming to create an artistic statement. The lines of the caming add stylish detail while creating visual interruptions in the glass and the objects displayed behind it.

3	YKS	2
quantity	code	height code

Camed glass is available in most door styles, in sizes from 12" wide and up to 42" high.

Glass inserts are ordered individually. Place quantity before order code. See examples for individual items.

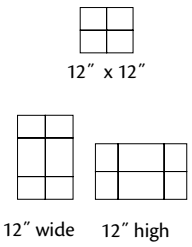

Material dimensions listed may vary slightly from actual dimensions of the product.

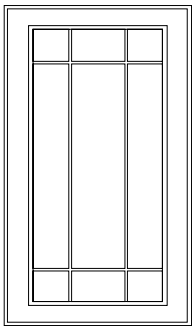

See Construction Options section for specific information on each glass type.

Specifications subject to change without notice.

Classic Glass

Classic glass is simple, clean and timeless. Designs feature minimal patterns and textures. The choice of clear glass, with or without simple bevels, maximizes interior visibility.

Classic glass is available in most door styles, in sizes from 12" wide and up to 62" high.

Etched Glass

These glass designs offer etched linear patterns or an overall fine, sanded texture into which a pattern or shape is etched. Patterns range from mullions to simple shapes. Visibility of cabinetry interiors is possible when some areas of the glass are left unetched.

1	PRA	1
quantity	code	height code

Etched glass is available in most door styles, in sizes from 12" wide and up to 62" high.

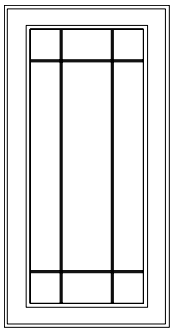

Glass inserts are ordered individually. Place quantity before order code. See examples for individual items.

Material dimensions listed may vary slightly from actual dimensions of the product.

See Construction Options section for specific information on each glass type.

Layered Glass

Layered glass combines the durability of tempered glass with a choice of unique materials to create a special effect through color or pattern. The material is "sandwiched" between the glass layers for easy cleaning.

2	MIR	1
quantity	code	height code

Layered glass is available in most door styles, in sizes from 12" wide and up to 62" high.

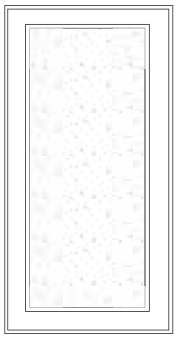

Glass inserts are ordered individually. Place quantity before order code. See examples for individual items.

Material dimensions listed may vary slightly from actual dimensions of the product.

See Construction Options section for specific information on each glass type.

Mullion Doors

Mullion door designs combine the beauty of actual wood mullion divides and wood inserts or clear or textured tempered glass. The wood mullions coordinate with the door and frame in materials and finish. Antiquity, Bistro and Ravenna glass inserts offer a range of views into the cabinet interior, so items behind the glass can be fully exposed or slightly obscured.

2	OX	ATQ	1
quantity	door code	insert code	height code

Decorative molding will ***not*** be applied to Mullion Doors when ordered in door styles having applied molding on their inside profile.

Mullion doors are available in most door styles, in sizes from 12" wide and up to 42" high. Consult Decorative Doors and Inserts availability chart for specific detail.

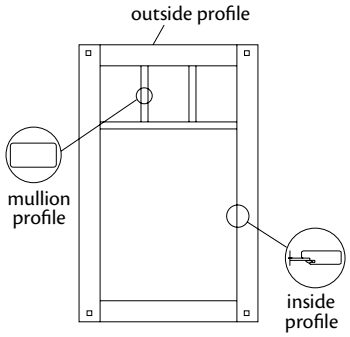

Mullion Doors are ordered individually. Place quantity before order code. See examples for individual items.

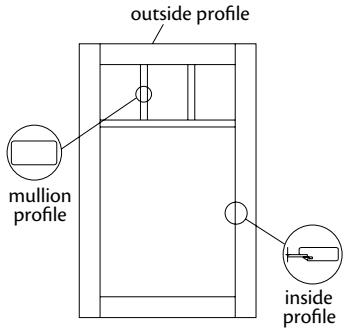

Material dimensions listed may vary slightly from actual dimensions of the product.

See Construction Options section for specific information on each glass type.

Specifications subject to change without notice.

- Standard Mullion Profile: The outside profile of a Mullion door will match the profile of the selected door style. The inside profile and mullion profile will always be the same, as pictured
- To determine the Mullion Door Lite configuration for your selected cabinet, refer to the chart
- Configuration G, J and K will be supplied with annealed glass vs. tempered glass
- ***Not*** available in Rustic door styles
- ***Not*** available in EverCore™, High-Gloss Foil or Wood-Grain Foil door styles
- Change Width (CW) option ***not*** available
- Change Height (CH) option ***not*** available
- For descriptions of the glass or specialty inserts available in Mullion Doors, see Camed Glass, Classic Glass, Etched Glass, Layered Glass, Specialty Inserts and Textured Glass sections within Decorative Doors and Inserts
- Order Example: W1830-1MD1; W1842-1MDATQ2

Remember, matching interior is ***not*** standard when attaching glass doors to a cabinet. We highly recommend upgrading to matching interior.

Be sure your customer is aware of the mullion configuration when working with sizes requiring patterns A,D,G, J and K.

Specialty Inserts

Leather inserts are textured and both Leather and Chalkboard inserts conceal the contents stored behind the door.

Specialty inserts are available in most door styles, in sizes from 12" wide and up to 62" high.

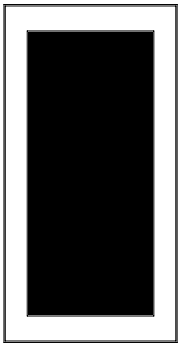

1	ONL	2
quantity	code	height

Specialty inserts are ordered individually. Place quantity before code. See examples for individual items.

Material dimensions listed may vary slightly from actual dimensions of the product.

Specifications subject to change without notice.

- Order Example: W3030-2ONL1

Cleaning Tip: Use a damp, well wrung out terry cloth or microfiber towel to wipe down the leather material

Textured Glass

Textured glass includes a variety of patterns that create a translucent view of objects stored behind the door. The shapes and colors of objects remain visible, but their lines are diffused.

Textured glass is available in most door styles, in sizes from 12" wide and up to 62" high.

2	RAV	1

Remember, matching interior is ***not*** standard when attaching glass doors to a cabinet. We highly recommend upgrading to matching interior.

LED Lighting

Construction Options and Modifications

LED
code

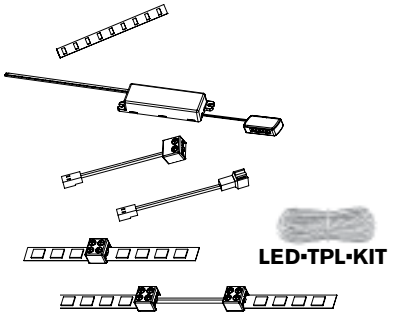

LED is an energy efficient source for kitchen and bath lighting needs.

Puck and strip lights have 3000K light color (warm white). All products are 24V DC power. All wires are white.

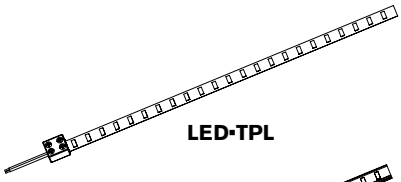

Each LED light is tested at 50,000 hours of run time. LED products carry a limited warranty.

Specifications are subject to change without notice.

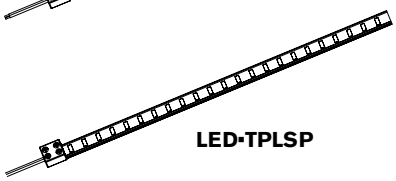

LED Light Sources

LED•TPL•KIT

LED•TPL

LED•TPLSP

LED Flexible Strip Tape Light - LED Light Sources

LED Flexible Strip Tape Light

LED•TPL

LED Flexible Strip Splash Proof Tape Light

LED•TPLSP

LED Flexible Strip Tape Light Kit

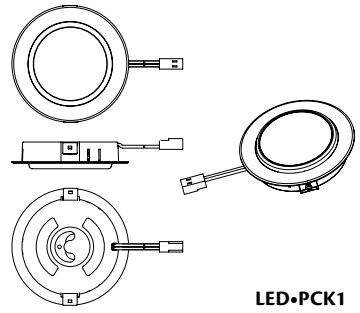

LED•TPL•KIT

- Kit includes: (1) LED Flexible Strip Tape Light (LED•TPL)
  (1) DayBreak Dimmable Driver 40W (LED•DDR40)
  (2) 8' Power Cables (LED•PC)
  (2) 8' Power Extension Cables (LED•PEC8)
  (2) End-to-End Connectors (LED•ETEC)
  (3) Connector Kits for Wire Length (LED•CLC)
  (1) Stranded Copper Wire (LED•SCW25)

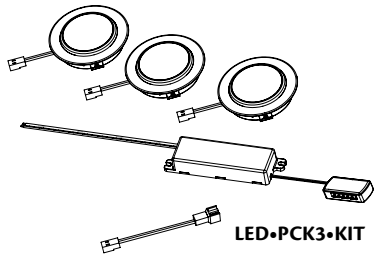

- Standard LED flexible strip tape with self adhesive backing
- 16.4' long; 0.32" wide; ~0.15" tall; 300 diodes; 18W
- Warm white illumination
- 120 degree beam angle, 84 lumens per foot
- A power cable (LED.PC) is required to connect strip tape lighting to a power supply. Strip tape lengths ***cannot*** exceed 16.4' out of a single power supply port. An additional power cable (LED.PC) plugged into an unused power supply port is required for applications exceeding 16.4'. Make sure power supplies are ***not*** overloaded based on watt capacity. See "LED Power Supply" section for capacity details
- For use under-cabinet, over-cabinet, toe kick and cabinet interiors
- Use LED•TPLSP for splash zones i.e. toe-kick space
- Custom lengths can be cut in increments of 2", ***not*** to exceed a total of 16.4'. Use End-to-End Connector (LED•ETEC) to join custom lengths
- Use Connector Kit for Custom Wire Length (LED•CLC) with Standard Copper Wire (LED•SCW25) to navigate corners or other obstacles
- Use Motion Sensor Switch (LED•MSS) for controlling interior cabinet lighting
- Use 8' Power Extension Cables (LED•PEC8) to increase distance between power supply and beginning of LED flexible strip run

Installers ***must*** clean and prepare surface prior to installation. An alcohol pad works well to remove oils

---

LED•PCK1

LED•PCK3•KIT

LED Puck Light

LED•PCK1

LED•PCK3•KIT

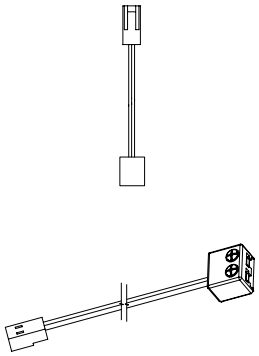

- Kit includes: (3) LED Puck Lights (LED•PCK1)
  (1) DayBreak Dimmable Driver 40W (LED•DDR40)
  (2) 8' Power Extension Cables (LED•PEC8)

- One light with 8' power cable; 2.4W
- Warm white illumination
- 12 degree directional swivel
- 144 lumens; 70 degree beam angle
- For surface mount or recess installation
- Units are 2 9/16" diameter. Requires 2 1/4" diameter circle cut out for recess installation
- Use 8' power extension cables (LED•PEC8) to extend the distance between lights and power supply

Under Cabinet Panel (PUCP, UCP OR UCPWA) provides a clean, built-in look for under cabinet installation

LED Connectors

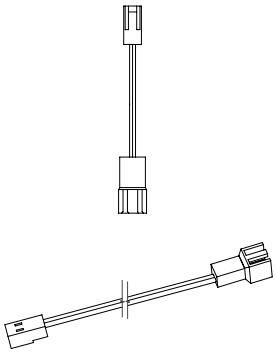

8' Power Cable - LED Connectors

LED•PC

- Cable has male connector on one end and flexible strip connector on the other
- Used to start the flexible strip light run

8' Power Extension Cable

LED•PEC8

- Cable has male connector on one end and female connector on the other
- Used to extend the distance between the power supply and the light source
- Several cables may be connected to extend the length if needed

Connector Kit for Custom Wire Length

LED•CLC

- Contains two connectors
- For use when adding a cut-to-length wire section to navigate LED Flexible Strip Tape Light (LED•TPL or LED•TPLSP) around corners or obstacles

End-to-End Connector

LED•ETEC

- Connects two pieces of LED Flexible Strip Tape Lights (LED•TPL or LED•TPLSP) end to end

Stranded Copper Wire

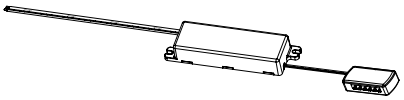

LED•SCW25

- Use with Connector Kit (LED•CLC) for custom wire length

LED Power Supply

New

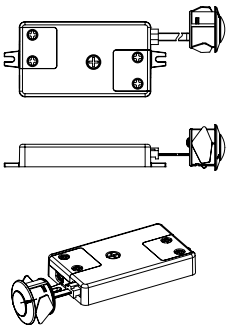

DayBreak Dimmable Driver - LED Power Supply

40 Watts

LED•DDR40

Grey color coding indicates new product, size or code.

- -24V DC; 40 W, 12 port connector block can be used for up to 40 total watts of lighting
- Requires electrical outlet or junction box to connect to power
- Converts 120V AC power to 24V DC power
- Can be used with most standard TRIAC wall dimmers (ex. Lutron DVWCL-153PDH). Verify compatibility with switch manufacturer's specifications
- Comes with a 5' long power cord and optional plug head

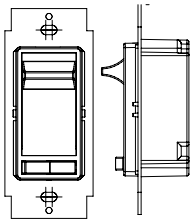

Motion Sensor On/Off Switch - LED Switches

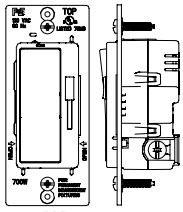

LED•MSS

- Medium range motion sensor ideal for interior cabinet installation. Lights are activated by motion of opening cabinet doors
- Includes 12-port connector block
- One switch can be used to activate lighting for single or double door cabinets
- Adjustable timer controls the length of time lights remain on; up to 6 minutes
- 5' long cable between sensor and controller
- The sensor eye ***must*** be recess mounted and requires a 20mm hole

---

•SP

•3W

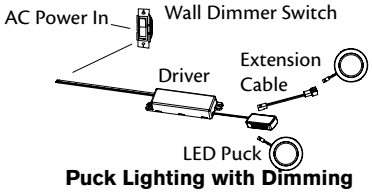

Low Voltage LED Wall Dimmer Switch

LED•WDS•3W
LED•WDS•SP

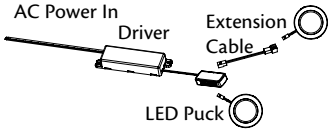

- White, wall dimmer switch for single gang box
- Functions as both an on/off and dimmer switch
- Use LED•WDS•3W for rooms with multiple entrances and switches
- Use LED•WDS•SP for rooms with a single entrance and switch
- Faceplate ***not*** included. Purchase separately to match decor

LED Connection Options

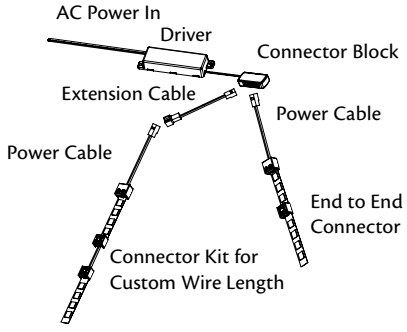

LED Connection Options

Puck Lighting with Dimming

Puck Lighting without Dimming

Strip Lighting without Dimming

Do ***not*** attach more lights than the driver has wattage to support

For instructional information on designing and installing lighting, visit www.kminfo.com. The Lighting Wizard is located under the Training tab.

- KraftMaid® products are designed to give you the ultimate versatility in designing lighting solutions. The following examples show the use of puck lighting and strip lighting, along with the various accessories:
- The best power source for LED Lighting is called a driver. The patented technology in your driver allows it to be used as both a dimmable driver and a regular driver. The driver is powered by standard AC line voltage of 120VAC. The driver can be plugged into an outlet by using the plug head included or can be hardwired into a junction box
- Puck lights attach to the driver in a "hub and spoke" configuration. The driver has a 12-port connector block. Each light comes equipped with a 98" power lead. Should you require a longer power lead, use a power extension cord
- Each run of strip lights attach to the driver in a "hub and spoke" configuration. The driver has a 12-port connector block. Each series of strips require the use of one power cable. Should you require a longer power lead, use a power extension cable
- Connectors allow you to run more than one segment of LED strip from a single power cable. The End to End Connector joins smaller pieces of LED tape together to form longer segments. For example, if you are installing toe kick lighting, but need to skip past the refrigerator, use the Connector Kit for Custom Wire Length. After wiring around the refrigerator, you can continue your lighting on the other side

We offer numerous moldings for decorative and finished applications. Moldings are available in some or all wood species. See chart for coding.

Material dimensions listed may vary slightly from actual dimensions of the product.

All molding ordered in quartersawn door styles will be supplied standard oak unless otherwise noted.

Moldings are ***not*** supplied in High-Gloss laminate and will be supplied with a matte sheen.

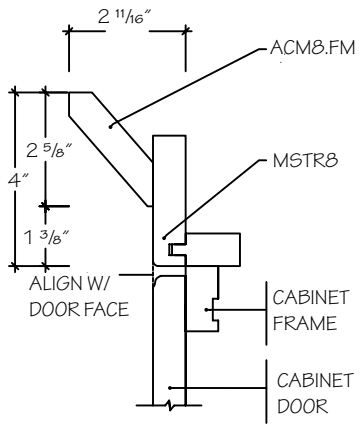

Specifications subject to change without notice.

Molding Stack Information

Supplies for installation

- Miter saw and sharp blade
- Screw gun, drill and bits
- 23 and 18 gauge pins and pinners
- Air compressor and hoses
- Laser or level
- Touch up kit and materials
- White soft rag
- Wood glue
- Clamps
- Hammer, nail set or spring loaded nail set
- Tape measure
- 4 ft. and 6 ft. ladder
- #2 pencil, white pencil and sharpener
- Cover for work area

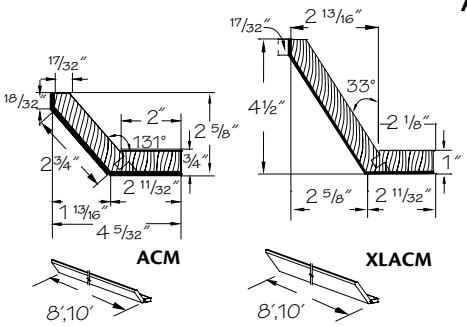

Installation Tips:

- Cover countertops and work area to ensure a clean, free from damage work situation.
- Use a nail gun with a 23 gauge pin for trim. Standard is typically 18 gauge, however the 23 gauge micro pin makes smallest holes to minimize fill work.
- Expect to lose up to 4"- 7" per cut when planning molding requirements.
- Apply finish material to the cut edges using a Touch Up Pen prior to joining the pieces together. This step will help conceal raw edges if the joint is slightly off.
- Start from either the right or left side when setting the top molding in place. Determine the desired overhang to wall cabinetry and door overlay type. Molding is typically pulled so the bottom edge is flush with the door face, however, the final overhang can be set to the customer's preference. Use the same process for under cabinet molding installation.
- Using Starter Molding is recommended, although, scrap material may be used as mounting blocks as long as they are ***not*** exposed after installation is complete. Use construction adhesive.
- Side return moldings: Cabinets with decorative end panels applied should have the same overhang as the face. For cabinets that have flush end panels, an overhang of 1/4" is recommended.
- Brad nail and pin length will be determined by the molding thickness (1/2" to 2" should suffice). Starter Molding or mounting blocks can be screwed into place instead of using nails or pins (***Note***: Drilling pilot holes is required when using screws. Be sure to use the proper screw length–based on material thickness). Using wood glue at the joints is recommended.
- After installation is complete, use a fill stick and touch up pen to fill nail holes, fine-tune miter joints and repair other blemishes that may have occurred during the installation process. Wipe clean using a soft cotton cloth.

To add Molding Stacks in your 2020 Design, locate them in the Drag 'N Drop list under:
Moldings>Top Moldings>Pre-Stacked Moldings. To view the PDFs, right-click on a specific stack and go to specs.

The Sterling Collection design combines automated wood-machining processes with hand detailing. Because of the hand detailing, slight imperfection and/or differences may exist from part to part and are normal. These do ***not*** affect the structural performance of the product but enhance the aesthetics of each piece.

- Solid wood
- Painted hardwood supplied for EverCore™ and Thermofoil
- ☆ Crafted or Quartersawn door styles will be supplied in plain sawn wood
- ***Note:*** The recess panel of these corbels is chiseled and sanded by hand. This process can create some random inconsistent areas within the panel recess

The Sterling Collection design combines automated wood-machining processes with hand detailing. Because of the hand detailing, slight imperfection and/or differences may exist from part to part and are normal. These do ***not*** affect the structural performance of the product but enhance the aesthetics of each piece.

Specifications subject to change without notice.

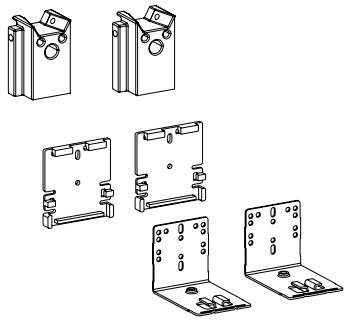

Whisper Touch™ Angle Restrictor Clip

WTHARC

- Limits hinge opening angle to 86 degrees (+/- 2 degrees)
- ***Cannot*** be used in cabinets with installed accessories
- Used for:
  PH1516•SC — Whisper Touch™ Hinges - Full Overlay
  PH12C•SC — Whisper Touch™ Hinges - Half Overlay
  PHFM•SC — Whisper Touch™ Hinges - Face Mount
- Packaged and sold four per box
- ***Note:*** One clip per door is sufficient; however, one clip per hinge results in less deflection

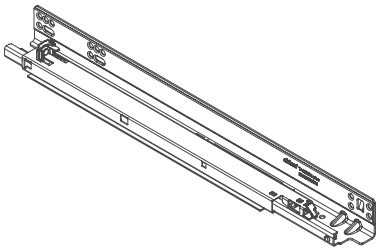

Whisper Touch™ Deluxe Dovetailed Roll-Out Tray Mounting Block Kit

BWTDXROTK

- Includes mounting blocks, drawer glide mounting sleeves and fasteners
- Used for:
  Whisper Touch™ Deluxe Dovetailed Roll-out Tray runners
- Packaged and sold as a pair

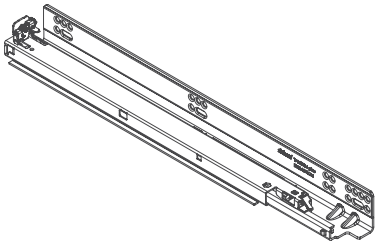

Whisper Touch™ Drawer Runners

PBWTDR12
PBWTDR15
PBWTDR18
PBWTDR21
PBWTDR24

- 90 lbs. capacity
- Fully concealed
- Full extension runner, pulls out past the face frame
- Ball bearing operation
- Integrated mechanism closes drawers softly and quietly
- Packaged and sold as a pair
- ***Must*** order drawer clips separately

Whisper Touch™ Drawer Runners–Two Drawer Cabinets

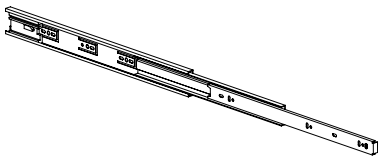

PBWTDR21 ▪2
PBWTDR24 ▪2

- 90 lbs. capacity
- Fully concealed
- Full extension runner, pulls out past the face frame
- Ball bearing operation
- Integrated mechanism closes drawers softly and quietly
- Used for:
  BPPS_▪2—Base Pot and Pan Organizer Two Drawer
  BDDC—Base Deep Drawer Combination
- Packaged and sold as a pair
- ***Must*** order drawer clips separately

How to Use This Section

This guide allows you to choose from a complete line of doors and drawer fronts for replacement as well as special applications such as appliance fronts, whirlpool skirts, wainscoting, etc.

This part lists all replacement doors and drawer fronts by their nomenclature. They are sorted by their nominal height (last two numbers of the nomenclature) from largest to smallest.

To choose doors and drawer fronts for special decorative applications, use the Sizes section and look in the appropriate overlay column to determine which doors and drawer fronts are needed. Then look up the door(s) and drawer front(s) in the Price List catalog under the price column number appropriate to your door style.

To find replacement drawer boxes and replacement operational end doors in 2020 go to: Accessories>Replacement Parts>Replacement Part. Right click and select Specs to view.

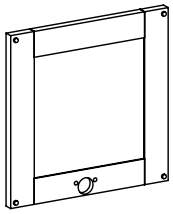

Replacement Door & Drawer Front Information

Replacement doors may be ordered for wall or base application. When ordering, specify door style, hinging and •W (wall) or •B (base). Any arch doors ordered as •B will be shipped in a square design.

Example: *You need a replacement door for a wall 1830, hinged left.*

Order: RD1830L•W

Replacement doors are prepared for hinges. Replacement door and drawer fronts are automatically drilled for PermaSet bumpers. If a door is specified for no hinge (NH), the door is drilled in all four corners for bumpers (bumpers are included) and will also receive a single cup hinge bore for internal tracking purposes.

Replacement doors with glass inserts or mullion inserts installed are available on doors 12″ or wider up to 42″ high.
To order, determine the replacement door(s) required and add desired glass insert or mullion insert.

Example: *You need a Chateau glass insert for a wall 1830, hinged left.*

Order: RD1830L•W–1CHA1
Pricing: RD1830L•W
+ 1 Chateau Insert for 12"- 30"high
= Total for replacement door with insert installed

Example: *You need a Mullion insert for a wall 1836, hinged left.*

Order: RD1836L•W–1MD2
Pricing: RD1836L•W
+ 1 Mullion Insert for 36" - 42" high
= Total for mullion door with insert installed

Replacement doors and drawer fronts are coded for easy reference. The prefix codes indicate door or drawer and usage. The first two digits indicate nominal width and the second two digits indicate nominal height.

RD 18 30

Prefix code — **Nominal Width** — **Nominal Height**

Prefix codes are as follows:

RD	replacement door
RDA	replacement door angle
RDAAG	replacement door angle appliance garage
RDADP	replacement door angle double panel
RDAG	replacement door appliance garage
RDB	replacement door butt
RDBDP	replacement door butt double panel
RDBI	replacement door base inside angle
RDBO	replacement door base outside angle
RDDEZR*	replacement door desk easy reach (two doors hinged together)
RDDP	replacement door double panel
RDE	replacement door operational end
RDEZR*	replacement door easy reach (two doors hinged together)
RDLS	replacement door lazy susan (two doors mitered together)
RDM	replacement door multi-storage pantry (door storage unit attached)
RDMC	replacement door mirror cabinet
RDW	replacement drawer front
RDWA	replacement drawer front angle
RDWBCD	replacement drawer front base corner drawer
RDWEZR*	replacement door wall easy reach (two doors hinged)
RDWFD	replacement door wall furniture drawer
RDWI	replacement door wall inside angle
RDWLBF	replacement door wall lateral bifold cabinet
RDWO	replacement door wall outside angle
RDWTHG	replacement door wall top hinge
RDWWHV	replacement drawer front wall hung vanity
RDWZ*	replacement door wall easy reach (individual doors)
RDZ*	replacement door easy reach (individual doors)
