

# Taste-Safe Cloud Dough Recipe

## Ingredients:

- all purpose flour
- vegetable oil (use 1 cup of oil for every 8 cups for flour)
- oil-based food color or powder food color as desired
- bowls for mixing

## Directions:

1. Mix the oil and flour according to the 1:8 ratio, depending on how much you want to make and how many different colors you would like to use. If using oil-based food color, use separate mixing bowls per color. If you use powder-based food color, mix it with the flour before adding the oil.
2. Use your fingers to make sure the cloud dough has the right consistency. It should feel soft and malleable, but not wet.
3. Pour the cloud dough into a plastic bin and invite toddlers to handle it. Keep paper towels handy for cleanup.
