

LINCOLN'S NEW QUICKLUB[®] LIDLESS RESERVOIR MODELS

Lincoln has introduced its new Quicklub Lidless Reservoir for 203 and 233 model pumps. Developed to discourage inappropriate reservoir refilling practices, this reservoir only allows for lubricant filling through the designated fill port. The 4 and 8 liter lidless reservoirs ensure that technicians and machine operators follow proper pump refill procedure.

MODEL NO.	DESCRIPTION
94812LDL	8L 12VDC On/Off Timer Pump
94824LDL	8L 24VDC On/Off Timer Pump
94822LDL	8L 24VDC Monitored Pump
94432LDL	4L 12VDC Data Logger Pump
94434LDL	4L 24VDC Data Logger Pump
94832LDL	8L 12VDC Data Logger Pump
94834LDL	8L 24VDC Data Logger Pump
