

State FFA Livestock Judging Contest 2019

Percentage Boer Does

Doe #	Birth Date	Birth Type	Adjusted 90 Day Weight	Adjusted 150 Day Weight
1	3/14/19	Twin	43	69
2	3/6/19	Triplet	50	73
3	3/17/19	Single	47	62
4	3/24/19	Twin	53	76

Rank these does in the order they should be selected as potential replacements for a Show Goat operation located in Western NC. Primary income is derived from the sale of wethers to FFA and 4-H youth to exhibit at County, State, and National shows. The top 75% of female progeny are retained as this operation has a goal to mass produce show goats. Other female progeny or off quality wethers are sold at the local sale barn. Feed and resources are abundant, labor is minimal.
