1 Introduction

Logic is announcing the discontinuance of the **MDP-OMAP3430-11-256512R** model number for the Texas Instruments Zoom™ OMAP34x-II Mobile Development Platform (MDP).

2 Reason for Change

The MDP-OMAP3430-11-256512R product is intended to be RoHS compliant. However, the 3G modem supplier is not able to provide a RoHS compliant part and, at this time, has no plans to create a RoHS compliant part. There are no suitable alternative suppliers for the 3G modem; therefore, Logic cannot sell a RoHS compliant MDP-OMAP3430-11-256512R product and must discontinue the model number. Additionally, no 3G modem enabled Zoom OMAP34x-II MDP product is available regardless of RoHS compliance.

3 Description of Change

The MDP-OMAP3430-11-256512R model was never built; however, it did appear as an orderable model number on the Logic website and product documentation. These sources have been updated to remove all mention of the affected model number and 3G modem feature.

4 Migration Route

Logic recommends that all customers order the remaining model configuration, which is available without the 3G modem: MDP-OMAP3430-10-256512R.
