1 Introduction

Logic PD is announcing the discontinuance of specific configurations of the OMAP35x Torpedo SOM due to the obsolescence of the Hynix PoP memory device (manufacturer part number: H8KCSOSJOAER-46M) included on these SOMs. This End of Life (EOL) notification serves as notice for dates of last time buy and last time ship opportunities. The following model configurations of the OMAP35x Torpedo SOM are affected:

Affected Model Number
SOMOMAP3503-21-1670AGCR
SOMOMAP3530-21-1670AGCR

IMPORTANT NOTE: This EOL notification does not apply to other standard configurations of the OMAP35x Torpedo SOM.

2 Last Time Buy Date

The last time buy date for all products will be **December 31, 2014**. The minimum order quantity (MOQ) is 100 units; the minimum delivery quantity is 100 units per shipment. All orders will be considered non-cancellable and non-returnable (NCNR).

NOTE: Due to the obsolescence of the PoP memory device, orderable quantities of the OMAP35x Torpedo SOM are limited to the number of remaining memory devices available to Logic PD.

3 Last Time Ship Date

The last time ship date for all products will be **June 30, 2015**.

4 Recommended Migration Route

Logic PD recommends migration to the SOMOMAP3530-21-1780AGIR configuration of the OMAP35x Torpedo SOM. This configuration differs from the two configurations being discontinued in that it has 256 MB DDR, 512 MB NAND, and an industrial temperature rating. It also uses the OMAP3530 processor, as opposed to the OMAP3503 processor used in the SOMOMAP3503-21-1607AGCR configuration.

5 Contact

For further information about this EOL notification, please post a question to the Logic PD [Technical Discussion Group \(TDG\) forum](http://support.logicpd.com/TDGForum.aspx).¹
