Strength Tester Optical Illusion

Making Instructions

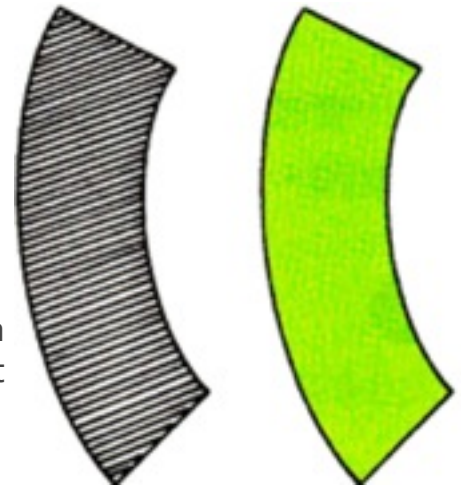

You will need:

- A pair of scissors
- The printout of the 'Strength Tester'
*Graphic at the bottom of instructions
- Stickers and decorative tape

A few tips before you start:

Optical illusions are great fun and the 'Strength Tester' is a real hit. The beauty of this optical illusion is you can do it again and again, it is always effective.

Print the 'Strength Tester' on cardboard for the best effect.

Step 1:

Print the 'Strength Tester' on cardboard and cut out. Or print on paper, cut out and stick onto some card.

Step 2:

If you wanted to, you can decorate your 'strength tester' with stickers, decorative tape and felt tips. You can even trace the two shapes onto different cardboard if you didn't want the pattern and colour on our printout.

Have fun with decorating - make it look magical!

Step 3:

Look at the video for **Tips and Hints** on how to perform your 'Strength Tester' for the maximum response from your audience.

Well done !

Now you have your **Strength Tester Optical Illusion**.
Have fun amazing your audiences with this cool illusion.
