

travelling with paint

5 top tips

◇◇◇ keep yo-self sane ◇◇◇

Cut the ends of your brushes
if you need to save space

Try and take photos bigger than the image you think you'll be painting. Quite often you can make multiple paintings out of one image with careful cropping.

Seal your watercolour paper. If unsealed it will suck up all your paint.

Pack some tape. Masking tape and/or packing tape. Bring extra. Doesn't weigh much, & comes in really handy to secure your paintings to your easel.

Keep paints in the centre of your bag
