

Multiplication by 11's

How many clouds are below? Count each one, writing the number on the line above the cloud.

Each cloud has 11 raindrops. Skip count by eleven, writing the number on the line below each cloud as you count.

Use the clouds to complete the problems below.

$5 \times 11 = \underline{\quad}$	$12 \times 11 = \underline{\quad}$	$4 \times 11 = \underline{\quad}$	$9 \times 11 = \underline{\quad}$
$1 \times 11 = \underline{\quad}$	$3 \times 11 = \underline{\quad}$	$7 \times 11 = \underline{\quad}$	$8 \times 11 = \underline{\quad}$
$2 \times 11 = \underline{\quad}$	$10 \times 11 = \underline{\quad}$	$11 \times 11 = \underline{\quad}$	$6 \times 11 = \underline{\quad}$
