Handpicked selections and excellent construction, all with efficiency that keeps your project moving along. Merillat Express™. Let's make it great. And let's get it done.

COVER:
PORTRAIT EXPRESS
MAPLE / SABLE

DOOR TYPES

OVERLAY, CENTER PANEL.

Partial Overlay

Overlay is the amount of face frame covered by the door and drawer. The reveal on partial overlay cabinets is typically 1 inch. A partial overlay creates a traditional look, and is typically less expensive.

Full Overlay

An overlay that covers most of the face frame, giving prominence to the door and drawer design. A full overlay creates a more custom and clean look.

Center Recessed Panel

The center panel goes inward. Recessed panel designs create a fresh look.

Center Raised Panel

The center panel is raised. It provides design dimension and interest.

Slab Panel (drawer fronts)

A flat panel with no variance in the center. It provides a clean, simple, modern look.

Door styles shown above:
Spring Valley Express: Partial Overlay
Ralston Express: Full Overlay
Portrait Express: Recessed Panel
Seneca Ridge Express: Raised Panel
Portrait: Slab Panel (drawer front)

Maple

A popular choice featuring a fine uniform grain that takes a color quite well. Maple is versatile and available in nearly every color combination. A very consistent wood type.

Oak

A heavy, hard wood, and has a medium-fine, noticeable grain. It gives you dramatic lines that play quite differently off of each color.

Hardwood

Considered highly durable, making it well suited for furniture and cabinetry. Hardwood is a general term used to classify several types of trees that wood comes from; it can refer to a number of species (e.g. Maple and Birch).

Thermofoil

A solid colored vinyl that is applied to smooth Medium Density Fiberboard (MDF). Easy to clean and built to last, Thermofoil cabinetry gives you a uniform appearance.

Veneer

A thin piece of solid wood that is attached with glue to a substrate. Veneered components are uniform in finish and grain, and commonly used as the material for the center panel of a door.

WOOD TYPES

MAPLE. OAK. HARDWOOD. THERMOFOIL.

ARBOR FALLS EXPRESS

THERMOFOIL
