MERILLAT CABINETRY

THE MERILLAT MASTERPIECE® COLLECTION CUSTOMER CARE

FOR HOMEOWNERS

Merillat.com

Our website offers many ways to inspire organizational solutions in beautiful cabinetry options. Highlights include:

- View inspirational designs and photos.
- Visualize door styles by wood species and finish.
- View accessories and storage solutions by room type.
- Educate consumers about wood characteristics, installation, Merillat sustainability initiatives, and dos and don'ts of cabinetry care.

FOR DESIGNERS AND DEALERS

CabinetryInfo.com

If you're not currently registered for CabinetryInfo.com, you could be missing important product and brand information. It's quick and easy, so visit the site and register today. It will enable you to:

- Place a order and check order status or track delivery progress.
- Replacement part ordering.
- Download or order product literature, like the product brochure, specification, and price books and 2020 Design updates.
  (For questions on 2020 Design, email ecatalogsupport@merillat.com.)
- Order finish samples, door backers, literature and more from the shopping cart.
- Training resources and marketing tools.

MERILLAT CUSTOMER CARE RESOURCES

Electronic means are convenient, but sometimes you just need to talk to a person, and Merillat Customer Care consultants are here to help. Your consultant can help you:

- Place an order.
- Follow up on orders or track delivery progress.
- Discuss product situations or address invoice questions.

Additional assistance is available through Customer Care:
(800) 435-0791 or dealercare@merillat.com

Your Merillat® Account Manager is there to help you every step of the way. Make sure to contact them whenever you have questions, concerns, or need information.

⚠ **WARNING:** Drilling, sawing, sanding or machining wood products can expose you to wood dust, a substance known to the State of California to cause cancer. Avoid inhaling wood dust or use a dust mask or other safeguards for personal protection. For more information go to www.P65Warnings.ca.gov/wood.

Overlaid engineered wood used for cabinet construction has been tested in accordance with UL standard recognized ASTM E162 Standard Test Method for Surface Flammability of Materials Using a Radiant Heat Energy Source, and is compliant with HUD Standard 3280.203.

Formaldehyde emissions comply with requirements of 24 CFR Part 3280.308 (amended January 12, 2021), the HUD rule on Manufactured Home Construction and Safety Standards. All composite wood complies with EPA TSCA Title VI and CARB ATCM 93120 Phase 2 for formaldehyde emissions. Cabinetworks Group Michigan, LLC reserves the right to alter specifications and styles without general notice or obligation to make similar changes in products previously manufactured.

Notes

Door Styles

Wood Species & Characteristics

Alder

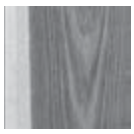
Alder: Commonly used for a rustic look with knotholes, burls, wormholes and mineral streaks. Can create a modern/industrial look with a darker finish.

Rustic: Many wood species are at their best when displaying their naturally occurring knots, burls, wormholes, dramatic variations in color and mineral streaks.

Cherry

Cherry: Brings a rich, elegant feel. Common in fine furniture. Darkens or "mellows" with age. May contain small knots and pinholes for added character.

Rustic: Many wood species are at their best when displaying their naturally occurring knots, burls, wormholes, dramatic variations in color and mineral streaks.



Hickory

Hickory: The hardest wood with the widest color variation. Random burls, knots, dramatic color contrast and mineral streaks give each Hickory kitchen a unique sensibility.

Maple

Maple: The go-to wood species—very uniform and predictable. As a result, it takes lighter stain and paint colors well. Predominantly o -white with light yellow- brown and pink hues, as well as occasional tan or dark mineral streaks.

Rustic: Many wood species are at their best when displaying their naturally occurring knots, burls, wormholes, dramatic variations in color and mineral streaks.

Oak

Oak: A versatile wood with rich textures and grain patterns that lends itself to practically any application. Some selections have naturally occurring green, yellow and black mineral deposits and may contain wide grain.

Quartersawn: The technique of cutting a tree at a nearly 90º angle, which creates a parallel and orderly feel to the grain—as opposed to the natural variances in the grains you'll find with traditional woods.

Foils

High-Gloss Foils: A contemporary look, that can bring that modern, high-design feel to your kitchen.

Engineered / Paint Grade*

Engineered: Delivers an especially smooth painted finish, with no cracks or shifts in the center panel. Extra-solid Engineered doors and drawer fronts—made by super- compressing wood fibers—have no grain, and react less to temperature and humidity compared to regular wood.
**For availability and exceptions, this species will be noted as "Paint Grade".*

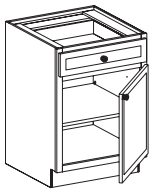
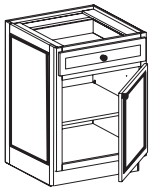
Finishes

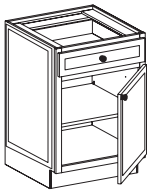
Examples of ways to finish ends:



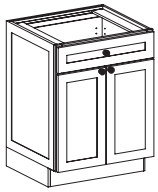
Wood Skin



Matching End Panel



Wood Skin with Replacement Door



Attached Decorative End

Finish Terminology:

End Grain:
End grain surfaces and softer areas of the wood may accept more stain and often appear darker than other surfaces. This is a natural reaction when finishing wood products and potential variances cannot be controlled

Joint Lines:
Since wood is in a constant state of expansion and contraction, visible lines are normal at the joints on the cabinet face frames and doors. This does not weaken the finish or the strength of the joint

Telegraphing:
Show through or "telegraphing" of wood characteristics may happen when paint is applied to any specie of natural wood. These characteristics, such as open grain, pin holes, knots and mineral streaks, may be visible through the paint. Telegraphing may happen on doors, face frames, moldings, decorative end panels or other decorative enhancements made of natural wood. Please consider this when selling any of our finishes that feature paint as the base technique, including paint with highlight and vintage techniques

Warping, Cracking & Proper Humidity:
As a natural characteristic, all wood products contain moisture. Changes in temperature and humidity affect the moisture content in wood, which causes wood to expand or contract. Over time, this expansion or contraction can cause warping and joint cracks to occur, potentially causing permanent deformations, in wood cabinetry.

To help prevent excessive movement in your wood cabinetry, we recommend maintaining a controlled environment of 70 to 75 degrees Fahrenheit and 30% to 50% humidity in the areas where your cabinetry is stored or installed. Environmental conditions cannot be controlled by the manufacturer and the effects of the movement in wood is not considered to be a manufacturing defect and will not be considered a reason for replacement.

See the doors section for door specie information and descriptions

Note: Wood products, including cabinet doors and face frames, are typically affected by environmental conditions. Color variation over time, as well as normal movement due to wood's expansion and contraction is part of the natural beauty of wood. This normal movement may cause hairline cracks in the finish surface at the joints and is considered a normal characteristic of semi-opaque or painted finishes. This will not be considered a reason for product replacement

Note: Individual veneer doors vary in absorption of finishes, especially Stain with Glaze finishes. Also, veneer door styles, which are usually simple door designs, may not contain as much glaze hang-up or highlights as ornate door designs. Therefore, it is recommended that a sample veneer door be viewed in the desired finish before placing a full kitchen order

Note: Based on independent testing, discoloration will occur to doors, drawers and cabinet parts after prolonged exposure to tobacco smoke. This is especially noticeable on white and other lighter finishes. Discoloration due to exposure to smoke is not covered under warranty

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

Finish availability may vary by door style. See Finish Availability Chart

Stain

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Stain Kit	QS	1 - quart - base color

Stain Finish Process

Stained finishes truly showcase the natural beauty and characteristics inherent in each individual wood species. Based on the stain color chosen, a toner may be applied to the wood to equalize natural sap levels. The stain color is applied and hand-rubbed to ensure full and equal color coverage for doors and drawer fronts

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Unfinished

Our cabinetry, moldings and accessories are available unfinished. If the unfinished option is selected, you must order unfinished wood veneer skins or 3/4" Furniture (flush) Plywood Ends construction (FPEB) for all cabinets with exposed ends, otherwise, Natural woodgrain vinyl ends will be supplied. Unfinished cabinetry will be supplied with standard vinyl interior. To get unfinished wood veneer interiors, order each cabinet with a Matching Interior (MIP) option. To get All Plywood Construction, order each cabinet with -AP or place the cabinets on an order with All Plywood Construction (APC), then apply the 1/2" Finished Plywood Ends (HFPEB) option.

Note: Unfinished cabinets lack the protection of a finish coat and are more susceptible to damage from variations in temperature and humidity. For this reason, we do ***not*** recommend or warranty this option

Note: If ordering unfinished cabinets and you intend to stain them, note that with certain models glass may be permanently attached with adhesives. This will result in uneven color or inability to stain all surface areas. Order cabinets without glass in order to achieve even staining

Stain w/Glaze

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	EverCore®	Hickory	Maple	Oak	Oak Quartersawn	Rustic Alder	Rustic Hickory
Chocolate w/Ebony Glaze	H14	C						A	
Ginger w/Sable Glaze	H20	C		H	M	O	O	A	H

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Stain Kit Specialty	QSS	1 - quart - base color & 1 - highlight pen

Stain w/Glaze Finish Process

Glazed finishes add richness and warmth to wood surfaces.

The base stain or paint finish is applied, followed by the application of a glaze finish to the entire door or drawer front to add richness and warmth to wood surfaces.

The glaze is then hand-wiped to create soft, light “hang-up” in profiles and recesses of the wood.

A glaze highlight is hand-applied to detail the recesses of applicable door and drawer designs.

Each door design, wood species and glaze finish has its own charming character and will create a unique, one-of-a-kind look.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Aged Stain

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	EverCore®	Hickory	Maple	Oak	Oak Quartersawn	Rustic Alder	Rustic Hickory
Aged Bourbon	E75	C							

Touch-up	Code	Includes:
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Stain Kit Specialty	QSS	1 - quart - base color 1/2 - pint detail/highlight color

Aged Stain Finish Process

Our Aged technique evokes the look of artisan-finished cabinetry that has been well loved over time.

Distressing effects are hand applied artisan methods that are random and inconsistent in appearance. Because every detail is hand applied, each finished component will have a unique appearance. The effects include edge rasping, worm holes, edge burnishing, softened corners and edges and random dent patterns.

The multi-step process begins with a light, artistic, over sanding technique applied to corners, edges and relief areas of doors and drawers. Panels and profiles of unfinished doors and drawer fronts receive randomly applied worm holing, edge rasping and distressing techniques.

Following the distressing techniques, a coat of base stain color is applied then hand wiped to reveal the beauty and inherent natural characteristics of the wood. Additional finish material is applied through a dry-brushing process to give each door or drawer component a subtle linear accent. A dark burnishing material is then used to accent the softened corners and edges.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Note: The back side of doors receive stain. The remaining treatments, including dry brushing, will not be applied to the back side resulting in a lighter color than the front side of the door and frame.

Please ***Note***: Select cabinets that have matching interior standard and End Panels with a front filler attached will contain the code "-A.APFC" on order acknowledgments. The code is used as an internal safeguard to ensure proper finished parts are used in the cabinet construction and does not assign additional charges to the cabinet price.

Product Attributes:

Ends will not have a matching finish unless specified

Standard construction will have natural birch vinyl ends. All Plywood Construction (AP/APC) will have untreated wood veneer ends. Cabinets that have standard All Plywood Furniture End Panels (APFC) will be supplied with matching exterior automatically

To get finished ends without matching interior, use:
Furniture Plywood Ends (FPEB)
All Plywood Furniture End Panels (APFC)
Attached Decorative Ends (AD_E)
Wood Skins (WSK), Wood Skins are field-applied

To get finished ends with matching interior:
Use Matching Interior with 3/4" Furniture End Panels on All Plywood (MIAPFC)
MIAPFC will finish the interior and exterior of the cabinet. Cabinets ***cannot*** be ordered with matching interior and unfinished exterior ends

Options that are ***NOT*** available for this finish:
Matching Interior with 1/2" Plywood End Panels (MIP)

Painted Finish Process

Painted finishes feature rich, beautiful color coating the wood, adding rich depth to your selected profile.

Paint is applied utilizing a spray application process to EverCore®, Maple or Oak.

EverCore® is a mechanically compressed wood fiber material that reacts less to environmental conditions than other hardwood materials. It is less susceptible to expansion and contractions that can cause joints to separate showing hairline cracks in painted products. It also provides a more consistent and smooth surface, eliminating the appearance of naturally occurring wood characteristics such as grain patterns, knots or mineral streaks.

For a hardwood option, most painted surfaces are available in Maple due to the more uniform appearance and smooth, clean characteristics of this wood. Since wood naturally expands and contracts, you may see hairline separation in the finish surface at the joints. Joint lines are normal and do ***not*** affect the strength of the door's construction. Alternative materials may be used in the construction of the door and drawer fronts to minimize the environmental effects of joints and panels.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	EverCore®	Hickory	Maple	Oak	Oak Quartersawn	Rustic Alder	Rustic Hickory
Color Match	CC1		D		M				

Touch-up	Code	Includes:
Fill Stick	FSCC	1 - fill stick - Clear

Note: Initial ColorMatch orders are supplied with complimentary Touch Up Pens (three) and a clear Fill Stick.

Additional Touch Up Pens are not available for order. If additional touch up paint is needed, visit a local retailer with a color sample to match

ColorMatch™ Painted Finishes

A bright, sunny island. An unexpected bold choice up top, with a neutral below. With ColorMatch™ no matter whose paint your customers want, we'll match it. Pick from Behr®, Benjamin Moore®, Sherwin-Williams® and Valspar® paints.

ColorMatch painted finishes feature rich, beautiful color coating the wood, adding rich depth to your selected profile. ColorMatch paint is applied utilizing a spray application process to Maple.

Since wood naturally expands and contracts, you may see hairline separation in the finish surface at the joints. Joint lines are normal and do ***not*** affect the strength of the door's construction. Alternative materials may be used in the construction of the door and drawer fronts to minimize the environmental effects of joints and panels.

As a final step, our oven cured premium topcoat is applied to provide a beautiful and durable furniture finish.

Finish availability may vary by door style. See door style Finish Availability Chart.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers.

Please ***Note***: Select cabinets that have matching interior as a standard feature will contain the code "-A.APFC" on order acknowledgments. The code is used as an internal safeguard to ensure proper parts are used in the cabinet construction and does ***not*** assign additional charges to the cabinet price.

Product Attributes:
Ends will ***not*** have a matching finish unless specified
Standard construction will have Natural laminate ends.. All Plywood Construction (AP/APC) will have untreated wood veneer ends.
Cabinets that have standard All Plywood Furniture End Panels (APFC) will be supplied with matching exterior automatically
To get finished ends without matching interior, use:
Furniture Plywood Ends (FPEB)
All Plywood Furniture End Panels (APFC)
Attached Decorative Ends (AD_E)
Wood Skins (WSK), Wood Skins are field-applied

To get finished ends with matching interior:
Use Matching Interior with 3/4" Furniture End Panels on All Plywood (MIAPFC)
MIAPFC will finish the interior and exterior of the cabinet. Cabinets ***cannot*** be ordered with matching interior and unfinished exterior ends
Note: If you happen to forget to finish the end, a matching end panel can be ordered after the cabinets are installed. Of all the after-the-fact options, that's the one that we recommend, although you can also consider a skin, or skin with decorative door. Color sample will be maintained for 180 days after the kitchen is delivered

Designing with ColorMatch™ Painted Finishes

A sample door approval is required for a ColorMatch painted finish order. To submit a ColorMatch finish sample order, use the following steps:
Ordering a ColorMatch Paint Finish Sample
1. Log into Merillat Cabinetry Info portal
2. Select Customer Care
3. Select Order ColorMatch Paint Finish Sample
Sample door delivery is approximately 3-4 weeks after order date.

The sample door invoice number will be required at time of order. Placement of your order with the sample door invoice number indicates approval of the ColorMatch painted finish.

Accessing in 2020:
1. Place a cabinet on the floor plan and open Styles & Pricing.
2. Make your selections in the Global Style Validation window:
   a. Under Wood Species Selection click either Maple or EverCore
   b. Under Finish Selection click either ColorMatch with Standard topcoat
   Note: A pop-up with prompt you to enter the sample door invoice number.

Limit to one ColorMatch painted finish per invoice. Multiple door styles will be allowed on full kitchen orders. ColorMatch phone orders will ***not*** be accepted.

Please ***Note***: Select cabinets that have matching interior standard and End Panels with a front filler attached will contain the code "-A.APFC" or "A.MIAPFC" on order acknowledgments. The codes are used as an internal safeguard to ensure proper finished parts are used in the cabinet construction and does ***not*** assign additional charges to the cabinet price.

Aged Paint

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	EverCore®	Hickory	Maple	Oak	Oak Quartersawn	Rustic Alder	Rustic Hickory
Aged Concrete	E06				M				
Aged Picket Fence	G12				M				
Aged River Rock	E07				M				

Touch-up	Code	Includes:
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart Specialty	QPS	1 - quart - base color, 1 - quart - dry brush material

Aged Paint Finish Process

Our Aged technique evokes the look of artisan-finished cabinetry that has been well loved over time.

Distressing effects are hand applied artisan methods that are random and inconsistent in appearance. Because every detail is hand applied, each finished component will have a unique appearance. The effects include edge rasping, worm holes, edge burnishing, softened corners and edges and random dent patterns.

The multi-step process begins with a light, artistic, over sanding technique applied to corners, edges and relief areas of doors and drawers. Panels and profiles of unfinished doors and drawer fronts receive randomly applied worm holing, edge rasping and distressing techniques.

Following the distressing techniques, paint is applied followed by a dry-brushing process to give each door or drawer component a subtle linear accent and light "hang up" in the profiles and recesses. A dark burnishing material is then used to accent the softened corners and edges.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Note: The back side of doors receive paint. The remaining treatments, including dry brushing, will not be applied to the back side resulting in a lighter color than the front side of the door and frame.

Please ***Note***: Select cabinets that have matching interior standard and End Panels with a front filler attached will contain the code "-A.APFC" on order acknowledgments. The code is used as an internal safeguard to ensure proper finished parts are used in the cabinet construction and does not assign additional charges to the cabinet price.

Product Attributes:
Ends will not have a matching finish unless specified
Standard construction will have natural birch vinyl ends. All Plywood Construction (AP/APC) will have untreated wood veneer ends. Cabinets that have standard All Plywood Furniture End Panels (APFC) will be supplied with matching exterior automatically

To get finished ends without matching interior, use:
Furniture Plywood Ends (FPEB)
All Plywood Furniture End Panels (APFC)
Attached Decorative Ends (AD_E)
Wood Skins (WSK), Wood Skins are field-applied

To get finished ends with matching interior:
Use Matching Interior with 3/4" Furniture End Panels on All Plywood (MIAPFC)
MIAPFC will finish the interior and exterior of the cabinet. Cabinets ***cannot*** be ordered with matching interior and unfinished exterior ends

Options that are ***NOT*** available for this finish:
Matching Interior with 1/2" Plywood End Panels (MIP)

Paint w/Highlight

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	EverCore®	Hickory	Maple	Oak	Oak Quartersawn	Rustic Alder	Rustic Hickory
Canvas w/Cinder Highlight	G88		D		M				
Canvas w/Cocoa Highlight	G89		D		M				
Canvas w/Onyx Highlight	G90		D		M				
Dove White w/Cinder Highlight	G91		D		M				
Dove White w/Cocoa Highlight	G92		D		M				
Greyloft w/Sable Highlight	G93		D		M				
Midnight w/Onyx Highlight	G94		D		M				
Moonshine w/Cinder Highlight	G95		D		M				
Moonshine w/Cocoa Highlight	G96		D		M				
Pebble Grey w/Cocoa Highlight	G97		D		M				

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart Specialty	QPS	1 - quart - base color, 1 - highlight pen

Paint w/Highlight Finish Process

Highlight finishes add richness and grandeur to any room in the home.

A base paint is applied followed by hand-applied highlights to detail the recesses of applicable door and drawer designs. Each door design, wood species and highlight finish has its own charming character and will create a unique, one-of-a-kind look.

Natural wood characteristics such as gum pockets, streaks and pin knots may be visible, particularly with some of our lighter paints. These characteristics tend to be more pronounced on the backs of our doors and drawers.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Weathered Paint

Finish	Code	WOOD SPECIES						RUSTIC	
		Cherry	EverCore®	Hickory	Maple	Oak	Oak Quartersawn	Rustic Alder	Rustic Hickory
Weathered Concrete	E72		D		M				
Weathered Picket Fence	G13		D		M				
Weathered River Rock	E73		D		M				

Touch-up	Code	Includes:
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart Specialty	QPS	1 - quart - base color, 1 - quart - dry brush material

Weathered Paint Finish Process

Our Weathered technique evokes the look of artisan-finished cabinetry that has been worn over time.

Every detail is hand applied, each finished component will have a unique appearance. Paint is applied, then additional finish material is applied through a dry-brushing process to give each door or drawer component a subtle linear accent.

As a final step, our oven-cured Premium topcoat is applied to provide a beautiful and durable furniture finish.

Note: The back side of doors receive paint. Dry brushing will not be applied to the back side resulting in a lighter color than the front side of the door and frame.

Product Attributes:
Ends will not have a matching finish unless specified

Standard construction will have natural birch vinyl ends. All Plywood Construction (AP/APC) will have untreated wood veneer ends. Cabinets that have standard All Plywood Furniture End Panels (APFC) will be supplied with matching exterior automatically.

To get finished ends without matching interior, use:
Furniture Plywood Ends (FPEB)
All Plywood Furniture End Panels (APFC)
Attached Decorative Ends (AD_E)
Wood Skins (WSK), Wood Skins are field-applied

To get finished ends with matching interior:
Use Matching Interior with 3/4" Furniture End Panels on All Plywood (MIAPFC)
MIAPFC will finish the interior and exterior of the cabinet. Cabinets ***cannot*** be ordered with matching interior and unfinished exterior ends

Options that are ***NOT*** available for this finish:
Matching Interior with 1/2" Plywood End Panels (MIP)

Foils

Finish	Code	FOILS
		High-Gloss Foil
Dove White High-Gloss	G66L	•

Touch-up	Code	Includes:
Aerosol Can	AC	1 - 13 oz. can - base color
Touch-Up Pen	TP	1 - pen - base color
Fill Stick	FS	1 - fill stick - base color
Premium Touch Up Kit	TUKP	1 of each: fill stick, touch-up pen, brush-on touch-up, cabinet polish & wiping towels
Paint Quart	QP	1 - quart - base color

Cannot be used to touch up Foil doors; will match box and accessories, which are standard sheen
Matches base color only

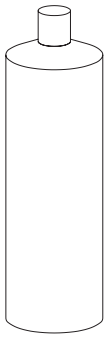
Cabinet Care Kit

CCK

- Kit includes: 8 oz. Polish and Cleaner; 12" x 12" Dusting Cloth and Polish/Cleaner Cloth

For complete care of your cabinets, we recommend ordering the Touch-Up in the cabinet color(s). If your design uses Soft-Close Hinges, you may also want to order the Soft-Close Angle Restrictor Clip (WTHARC)

Polish

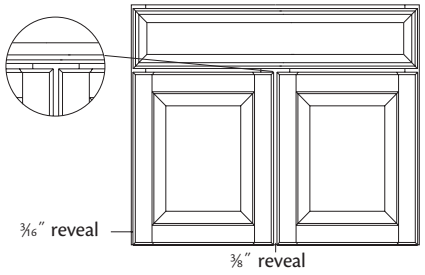


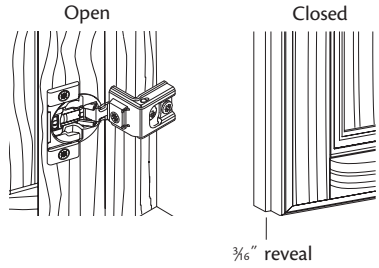
KMP

- 16 oz. bottle
- Industrial grade polish for wood, brass and vinyl

Cabinet Specs

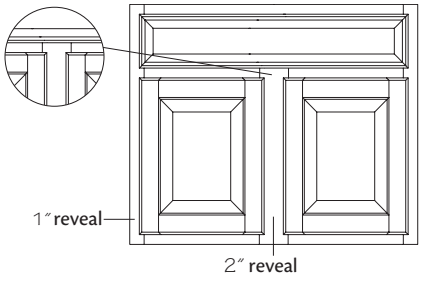
Full Overlay - Concealed Hinges



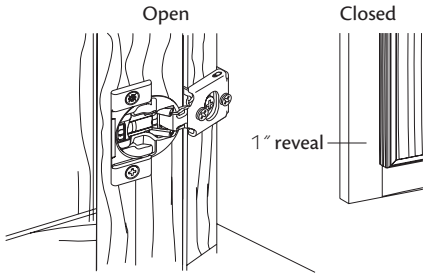


- Soft-Close hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment
- ***Note***: Door styles with square outside edges, including aluminum frame decorative doors, are unable to be opened simultaneously on adjacent cabinets because the doors will rub together. This is a common occurrence due to the sizing of full overlay doors

1/2" Overlay - Concealed Hinge



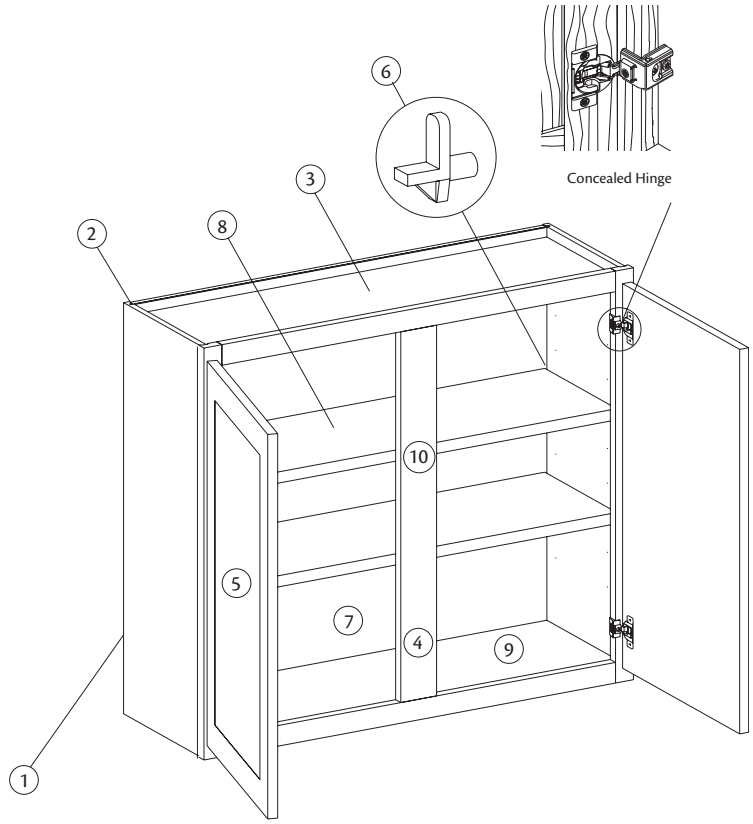
Concealed Hinge

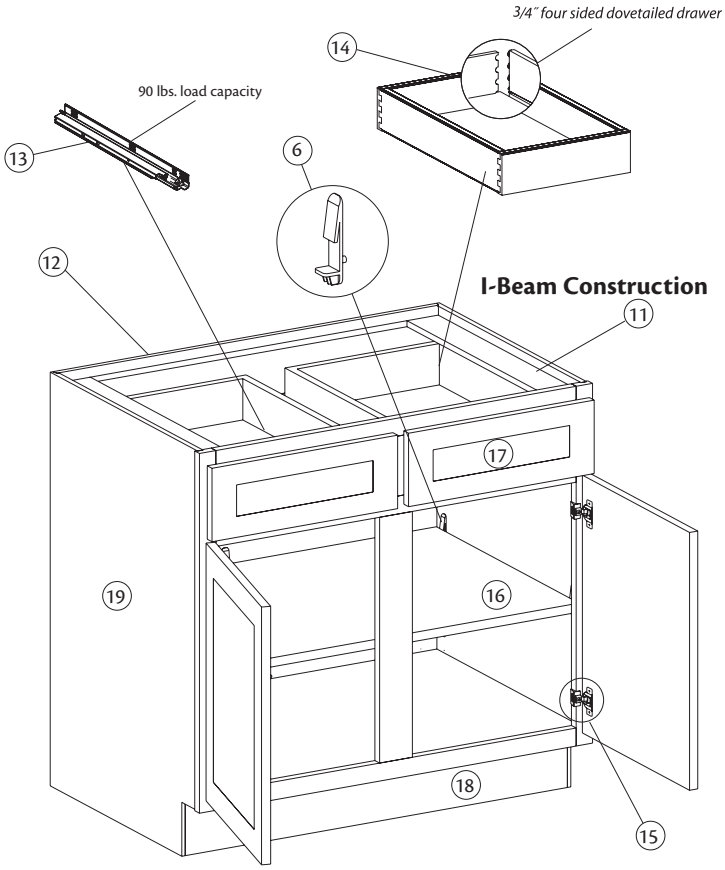


- 1/2" overlay doors leave 2" of the cabinet's face frame exposed between doors
- Soft-Close hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment
- The reveals shown here may vary slightly on some cabinets due to actual door/drawer front sizes used. Refer to the replacement door and drawer section for actual door/drawer sizes for specific cabinets

Cabinet Specifications

All Plywood (APC) Option is also available
See Construction Options section for a complete description.

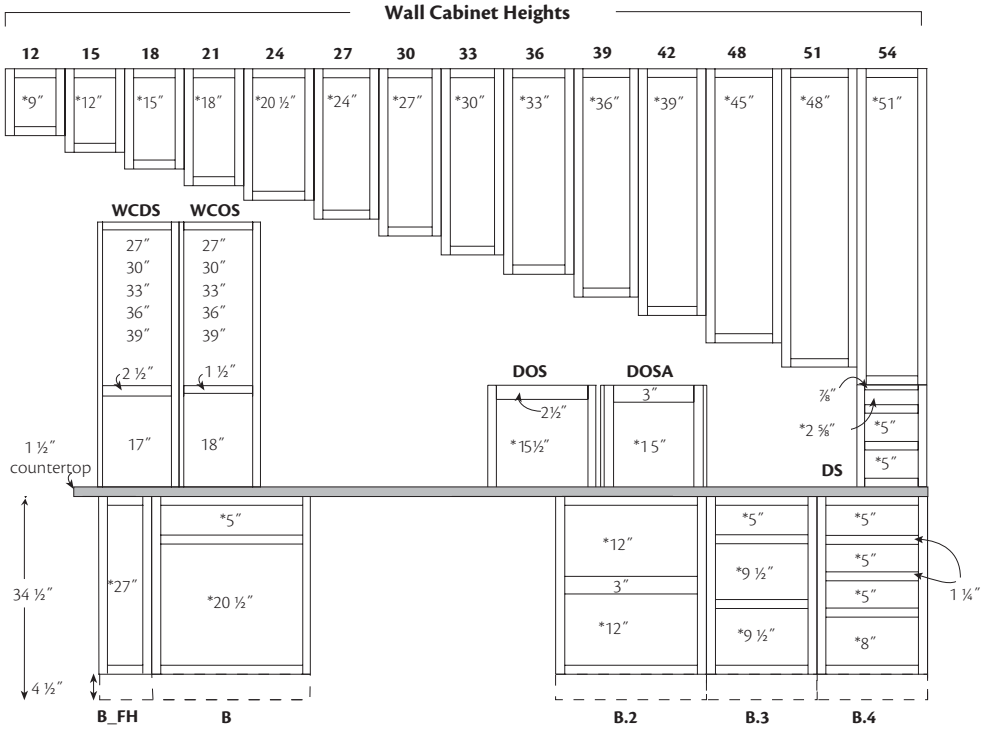




- (1) Vinyl clad back panel
- (2) 1/2" wood concealed hanging rail
- (3) 1/2" Natural Birch vinyl clad ceiling panel
- (4) 3/4" solid hardwood front frame constructed using industrial grade glue and hardened steel fasteners. Front frame species complements selected door style
- (5) Extensive and unique door style and wood species selection. Solid wood, wood veneer and paint grade construction available.
- (6) Satin chrome shelf rests for all kitchen wall and furniture cabinets. Easily adjustable positive locking shelf clips for all base, tall and vanity cabinets
- (7) Natural Birch vinyl interior
- (8) 3/4" fully adjustable Natural Birch vinyl clad shelving is a standard feature in wall, base and tall cabinets
- (9) 1/2" Natural Birch vinyl clad cabinet bottom
- (10) 14-step furniture process featuring hand-wiped stain with one of the finest wood finishes available in the cabinet industry
- (11) Full-depth I-beam braces provide stability and convenient anchor points for countertop
- (12) 3/8" full height back; shimming is required
- (13) Standard drawer runner suspension system features smooth, full-extension, ball bearing operation with a 90 lb. load capacity. Soft-close runners are fully concealed with an integrated drawer buffer that engages two inches from closing and applies resistance, giving a soft, controlled closing
- (14) 3/4" full-depth solid wood dovetailed drawer featuring four sided construction and 3/16" plywood bottom
- (15) Self-closing, concealed, wrap-around adjustable hinges
- (16) Full-depth, fully adjustable 3/4" Natural Birch vinyl clad shelving
- (17) Drawer heads are solid hardwood, veneer or paint grade to complement each door style
- (18) Fully closed toe space area
- (19) 1/2" end panels with natural wood grain vinyl interior and exterior, available with optional matching laminate exterior. Also available with optional 3/4" finished plywood end panels. Matching veneer interior and exterior available. Unless noted, plain sawn end panels will be supplied for quartersawn door styles when finished ends are selected
- ***Note***: Standard drawer boxes are 4" high. Deep drawer boxes are 7" or 10" high depending on cabinet
- ***Note***: Unless noted, cabinet depth does ***not*** include doors or drawer fronts

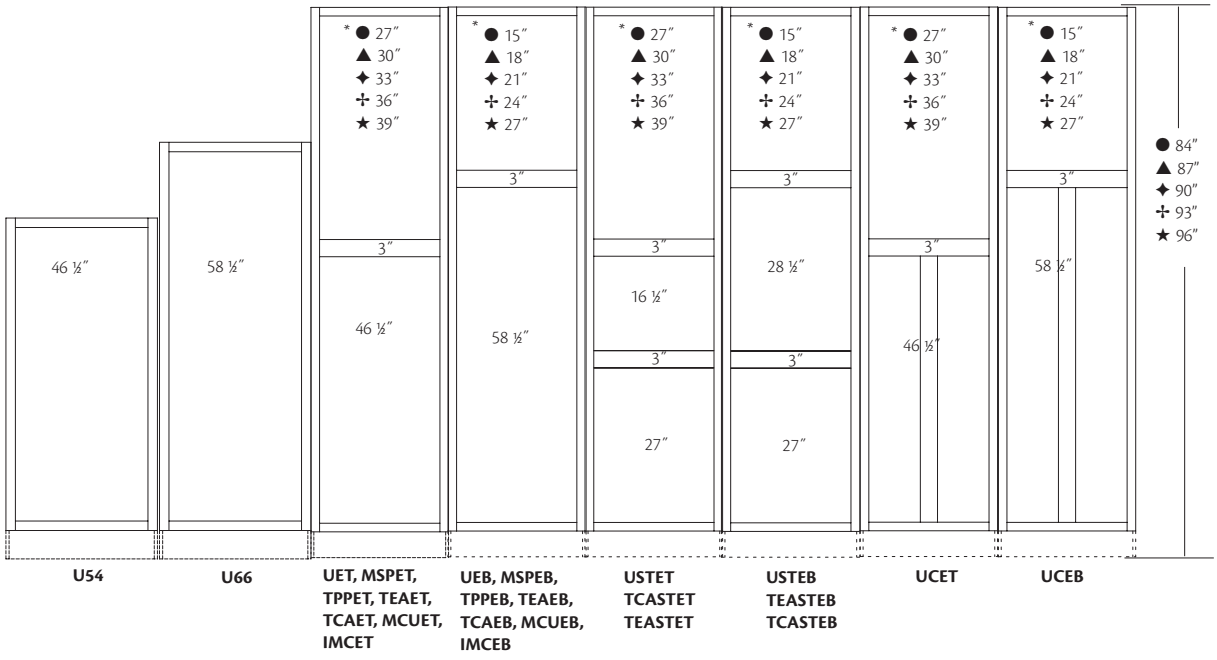
1/2" end applications have a reveal of 3/16" before end treatments are added

Wall and Base Frame Dimensions



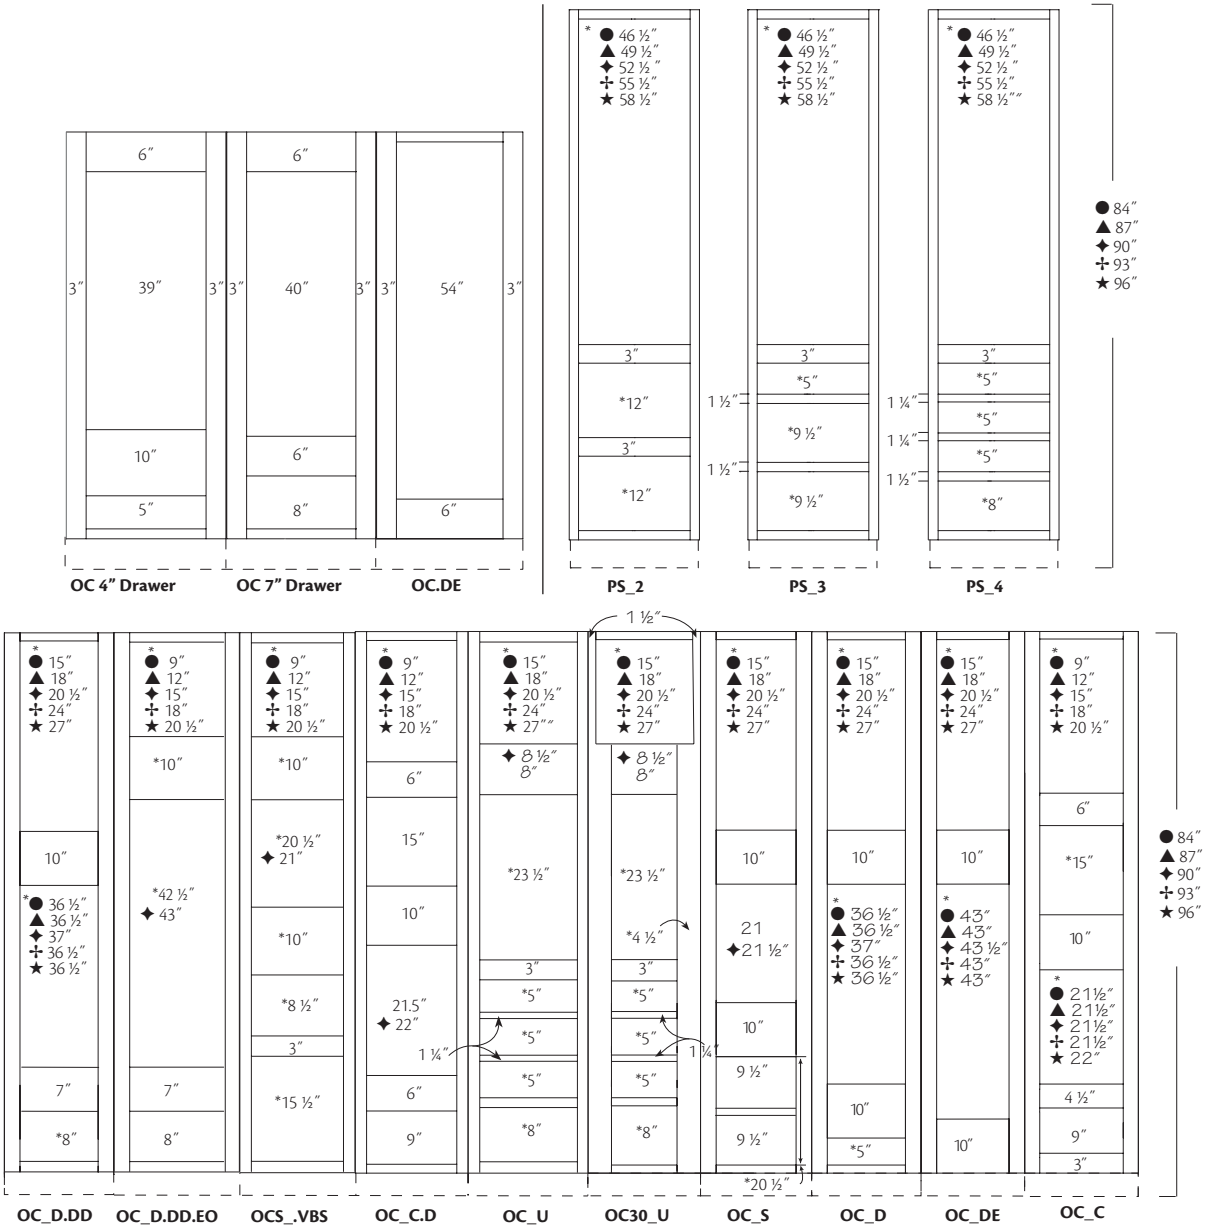
- Unless otherwise noted, all stiles and rails are 1 1/2″
- 3″ vertical stiles divide double door cabinets over 36″ wide
- Unless noted, oven cabinets have 3″ vertical stiles
- Opening sizes are preceded by an asterisk (*)
- Toe kick depth is 3 1/8″
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- ***Note***: Unless noted, cabinet depth does ***not*** include doors or drawer fronts

Utility Cabinet Frame Dimensions



- Unless otherwise noted, all stiles and rails are 1 1/2″
- 3″ vertical stiles divide double door cabinets over 36″ wide
- Unless noted, oven cabinets have 3″ vertical stiles
- Opening sizes are preceded by an asterisk (*)
- Toe kick depth is 3 1/8″
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side
- ***Note***: Unless noted, cabinet depth does ***not*** include doors or drawer fronts

Pantry Storage & Oven Cabinet Cabinet Frame Dimensions



- Unless otherwise noted, all stiles and rails are 1 1/2"
- 3" vertical stiles divide double door cabinets over 36" wide
- Unless noted, oven cabinets have 3" vertical stiles
- Opening sizes are preceded by an asterisk (*)
- Toe kick depth is 3 1/8"
- Drawer fronts will not align with one another when using 3 drawer and 4 drawer stack cabinets side-by-side

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet.

Some of the best materials available are utilized to build the highest quality cabinets. In order to fulfill our commitment to quality, you may see some material changes in some of the plywood components that we use. The material changes will help reduce warping, expansion and contraction within the parts.

Plywood is created with multiple layers of wood materials, including wood veneers and Medium Density Fiberboard (MDF), to create a hybrid product containing the following benefits:

- Improved strength and finish quality; reduces expansion or contraction, which is better for a smooth, quality finish. This process also produces a more rigid product.
- Environmentally Friendly: Compliant with CARB II and EPA TSCA Title VI standards. CARB (California Air Resource Board) and TSCA (Toxic Substance Control Act) are regulations for reduced formaldehyde emissions from composite wood..

Regardless of the wood material used in the various applications of our All Plywood Construction, you can feel confident that some of the highest quality materials available are always used to help ensure durable and long-lasting cabinets.

Note: According to the Department of Commerce, the core of hardwood and decorative plywood consists of a layer or layers of one or more material(s) that are situated between the face and back veneers. The core may be composed of a range of materials, including but not limited to veneers, particleboard, engineered wood and Medium Density Fiberboard (MDF).

Material dimensions listed may vary slightly from actual dimensions of the product. Specification subject to change without notice.

Cabinet Dimension Modification Information

Size Modifications *Choose from the following and apply to cabinet code:*		
One Dimension	**Two Dimensions**	**Three Dimensions**
CW *(Change Width)*	**CW.RD** *(Change Width & Reduce Depth)*	**CW.RD.CH** *(Change Width, Reduce Depth & Change Height)*
RD *(Reduce Depth)*	**CW.ID** *(Change Width & Increase Depth)*	
ID *(Increase Depth)*	**RD.CH** *(Reduce Depth & Change Height)*	**CW.ID.CH** *(Change Width, Increase Depth & Change Height)*
CH *(Change Height)*	**ID.CH** *(Increase Depth & Change Height)*	
	CW.CH *(Change Width & Change Height)*	

- Cabinets can be modified in 1/16" increments; specify overall finished dimensions to the nearest 1/16". Doors, drawer fronts and cabinet opening will be modified to coordinate with the new dimensions
- Height modifications will occur in the door portion of the cabinet
- Shelf quantities will remain consistent with original cabinet when cabinet dimensions are increased or decreased

When choosing size modifications, larger cabinet and reduce down in 1/16" increments. Consult option availability chart for your desired cabinet

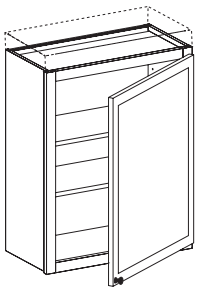
Change Height



One Dimension
CH

Change Height		
Cabinet	**Min. Height**	**Max. Height**
Wall	12"	54"
Base FH 34 1/2" H	16 1/2"	40 7/16"
Base FH 40 1/2" H	40 1/2"	60 7/16"
Base	23"	42"
Tall	72 1/2"	96"
U_ET	66"	96"
U_EB	78"	96"
Vanity Base	23"	42"

- Many cabinets can be modified to your desired height in 1/16" increments
- Specify overall finished height. Example 1: W1836L-CH 33 1/2"; Example 2: B30BUTT-CH 40 1/2"
- To (CH) on wall cabinets 18 1/16" to 23 7/16" H, select a nominal 24" H cabinet; for heights 23 9/16" to 29 15/16" H, select a nominal 30" H cabinet; unavailable on 21" & 27" H cabinets
- 34 1/2" H Base Cabinets can be increased in height to 42" H; height adjustments will be made to the door section of the base cabinet, therefore height adjustments are unavailable for drawer stack cabinets
- For Tall 72 1/2"–83 15/16" H, select a nominal 84" H cabinet; height adjustments will be made to the upper section of the tall cabinet. Shelves in the upper section are unavailable when cabinet change height is shorter than 81 1/2"
- When using (CH) and (VTK) options on the same cabinet, the (CH) dimension will take precedence, the Toe Kick height of 4 1/2" will then be subtracted from the (CH) dimension. (Example: U302490BUTT-VTK-CH to 88", the overall cabinet height will be 83 1/2")
- Unavailable on Utility cabinets ordered with Inverted Frame (IF)
- Consult option availability chart for your desired cabinet

Consider using APDW (Appliance Panel Drawer Front) if a unique Filler Overlay size is required in your design

12"-14 15/16"	8 55/64"
less than 12"	No drawer

Reduced Depth & Change Height				
Cabinet	**Min. Depth**	**Min. Height**	**Max. Height**	**Reasons for exceptions**
Wall	4 5/8"	12"	54"	Minimum for shelf hole drilling
Base FH 34 1/2" H	4 5/8"	16 1/2"	40 7/16"	Minimum for shelf hole drilling
Base FH 40 1/2" H	4 5/8"	40 1/2"	60 7/16"	Minimum for shelf hole drilling
Base	4 5/8"	23"	42"	Minimum for shelf hole drilling
Tall	4 5/8"	72 1/2"	96"	Minimum for shelf hole drilling
Vanity Base	4 5/8"	23"	42"	Minimum for shelf hole drilling
Cabinets with drawers	12"	N/A	N/A	Minimum for working drawer Less than 12" depth will have false drawer front
Peninsula Base	9"	23"	42"	Minimum for toe kick notch Less than 9" WR is mandatory
BEA	18"	23"	42"	Minimum allowed

- Many cabinets can be changed to your desired depth and height in 1/16" increments
- Consult chart for suggested min. that control the functionality of cabinet
- Any cabinet reduced in depth to less than 4 5/8" ***must*** be ordered as (CFO)
- To (CH) on wall cabinets 18 1/16" to 23 7/16" H, select a nominal 24" H cabinet; for heights 23 9/16" to 29 15/16" H, select a nominal 30" H cabinet; unavailable on 21" & 27" H cabinets
- 34 1/2" H Base Cabinets can be increased in height to 42" H; height adjustments will be made to the door section of the base cabinet, therefore height adjustments are unavailable for drawer stack cabinets
- For Tall 72 1/2"–83 15/16" H, select a nominal 84" H cabinet; height adjustments will be made to the upper section of the tall cabinet. Shelves in the upper section are unavailable when cabinet change height is shorter than 81 1/2"
- When using (CH) and (VTK) options on the same cabinet, the (CH) dimension will take precedence, the Toe Kick height of 4 1/2" will then be subtracted from the (CH) dimension. (Example: U302490BUTT-VTK-CH to 88", the overall cabinet height will be 83 1/2")
- Unavailable on Utility cabinets ordered with Inverted Frame (IF)
- Consult option availability chart for your desired cabinet
- ***Note***: Cabinets with drawers reduced in depth less than 12" will receive false fronts

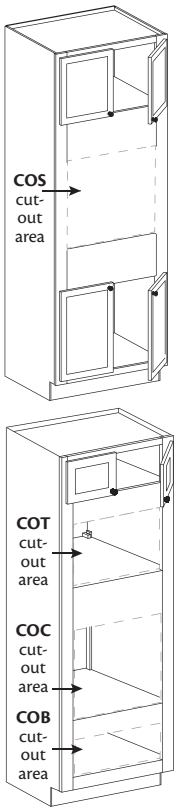
Oven Cabinet Cut-out



Single
❊ **COS**

Top
◆ **COT**

Center
◆ **COC**

Bottom
◆ **COB**

❊ Available on all BBMC, BOCU, all OC_S, OC_S.2D, OC_.DD, OC_.D, OC_D.DD and OC_DE cabinets

◆ Available on FOC_C and OC_C.D cabinets

- Cut-out (COS, COT, COC and COB) options help make appliance installations easier by eliminating required field-cuts to the cabinet face frame
- (COS) is available on Single and Double Oven cabinets, Base Oven Cabinet Universal and Base Built-In Microwave Cabinets - with one cutout opening. Examples: OC302484S-COS, OC332496D-COS, BOCU30-COS, BBMC272434-COS
- (COS) is unavailable on Oven Cabinet Combination (OC_C) - COT, COC or COB options ***must*** be used on this cabinet type
- (COT, COC, and COB) is only available on Oven Cabinet Combination
- (COT, COC, COB) can be used together on the same cabinet - max. dimensions will vary for (COC) depending on the cut-out dimensions used for (COT). See min./max. chart for details; located in Tall Appliance Cabinet section
- Cut-out opening is unable to exceed the max. dimensions listed for each Oven Cabinet
- Unavailable with (CW) option
- Available with (MIFA) option

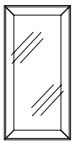
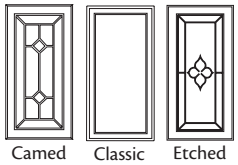
Glass Door Inserts

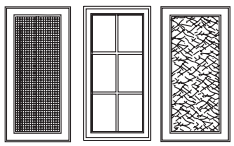
GD



Aluminum Frame



Camed Classic Etched



Layered Mullion Textured

- For complete listing of glass door specifications, see Decorative Doors and Inserts section
- ***Note***: Most doors (12" or wider and up to 62" high) can be supplied prepared for glass, with glass inserts, Mullion glass or Aluminum Frame doors
- Annealed Glass - Glass that has been cooled with precise control to relieve stress introduced by the manufacturing process, making the glass workable (i.e. easier to cut); ***not*** safety glass
- Laminated Safety Glass - When broken, laminated safety glass is held together by the adhesives that are used in the manufacturing process. This generally helps keep large pieces of glass from falling from the opening. Nevertheless, small pieces and/or chips may still fall, and the precise size of pieces of glass that will break is difficult to identify and describe
- Tempered Glass - Tempering uses either a thermal or chemical process to quickly harden the glass, which compresses its surface. Compressing the surface increases the amount of tensile stress that can be endured before breakage occurs. When it does break, tempered glass generally breaks into very small pieces
- Consult Glass Door Inserts option box (GD) for your desired cabinet

Remember, matching interior is not standard when attaching glass doors to a cabinet. We highly recommend upgrading to matching interior.

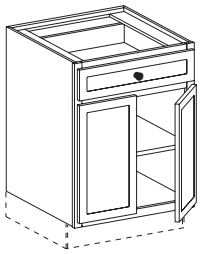
Void Toe Kick

VTK



- Select Base, Tall, Office, Furniture and Vanity Cabinets may be ordered without the toe kick
- Allows decorative feet to be used under cabinet
- ***Note***: Decorative feet or legs be attached to the frame as the weight of the cabinet is supported by the end panels, ***not*** the cabinet floor. If using the VTK option, it is recommended to use a 7/8" spacer to flush the floor and end panels, and be sure that a section of the foot is in contact with the end panel
- Full overlay door styles are unable to be placed directly on the floor
- Attach cabinets to a wall stud or anchor to the floor to achieve sufficient stability; unintended to be free-standing
- Unavailable on Universal Access cabinets
- Unavailable on 93" and 96" high tall cabinets
- Unavailable with (WR) option
- Unavailable on cabinets with a decorative toe kick
- Consult Void Toe Kick (VTK) option box for your desired cabinet

Wall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard wall cabinet box depth is 12″ unless stated otherwise. Add door thickness with bumpers for total depth.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Note: Wall cabinets with standard matching vinyl interior or ordered with matching vinyl interior option will be supplied with finished exterior material. Wall cabinets with standard matching interior or ordered with FPEB or APFC, MIP, or MIAPFC will have exterior floors and ceilings that are finished to match.

Any wall cabinet that is larger than 24″ wide x 27″ high x 12″ deep, or any Wall cabinet deeper than 12″ must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

- Additional support required
☆ Max. (ID) for Wall Refrigerator cabinets is 27"
- 33"-37" wide wall cabinets with butt doors have wood veneer plywood shelves
☆ (CTR) is unavailable on 12" high cabinets

When designing a built-in refrigerator area, remember that many side by side refrigerators measure up to 36" wide. If you have the extra space, it is recommended to use a 37" wide Wall Refrigerator cabinet to assure clearance for the appliance. Also, verify the height of the appliance to make sure you are using the correct Wall Refrigerator cabinet

Peninsula Wall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Any wall cabinet that is larger than 24″ wide x 27″ high x 12″ deep, or any Wall cabinet deeper than 12″ must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the warranty.

Note: Peninsula wall cabinets needs be installed against soffit, ceiling or supported by countertop.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Wall Specialty Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Any wall cabinet that is larger than 24″ wide x 27″ high x 12″ deep, or any Wall cabinet deeper than 12″ must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Wall Hood Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Wall Hoods will have finished ends standard.

Caution: Wall Hoods must be installed between two (2) cabinets, a cabinet and a wall or anchored to the ceiling or wall. Failure to provide additional support could result in collapse of the cabinet, serious personal injury, or property damage. Damage relating to failure to provide additional support is not covered by the warranty.

Consult your local building code for rules and regulations that may apply to the installation of this product, such as required clearances between the Wall Hood and cooking surface.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

- Solid wood/wood veneer construction
- All door styles will default to full overlay
- Doors are attached by false front clips; ***not*** operational
- Designed to align with top of adjacent cabinets
- Valance adds 3" to overall height and 5/32" width to both sides
- Valances will be supplied in plain-sawn material for Quartersawn door styles
- Includes (2) Wall Hood Box Fillers; shipped separately
- Filler strips are used when butting adjacent cabinets against the Wall Hood Box. Use fillers in this application to avoid gaps between cabinet boxes
- Rustic doors applied when ordered in Rustic door styles
- High-Gloss Foil doors applied when ordered in High-Gloss Foil; all other components will be painted hardwood
- ***Note***: Cabinetry and appliances located below these Wall Hoods should be pulled to a min. of 27" deep and a max. of 30" deep for improved function
- ***Note***: Square doors will be supplied when ordered in arched door styles

Please use the Wall Hood Box Filler when installing the hood box between two wall cabinets

The Wall Hood Classic Chimney Raised Panel Valance includes a representative raised panel profile that blends with most raised panel door styles. It may not match the chosen door style exactly. Consider designing in a valance on the adjacent wall of the cooking area to coordinate with this style hood.

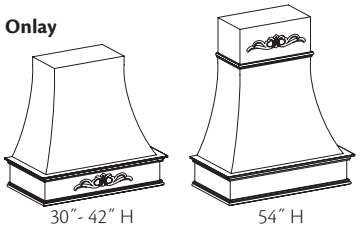
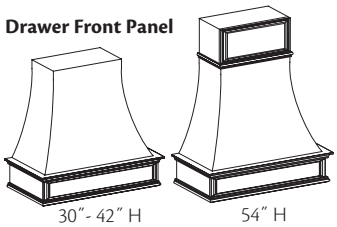
Wall Hood Cove Application

Onlay



30"- 42" H | 54" H

Drawer Front Panel



30"- 42" H | 54" H

- Make the cooking area a dramatic focal point by adding a drawer front, appliance panel, molding or onlay to the cove hood to create architectural interest
- Decorate the front apron of the hood with a drawer front to add architectural interest, which can be ordered through the Custom Appliance Panel Program
- Customize the 12" H cap on the 54" H units with a molding stack, custom appliance panel used as wainscot, or a decorative onlay
- Don't forget to trim out the top of your hood with the same top molding you are using for the wall cabinets in your kitchen

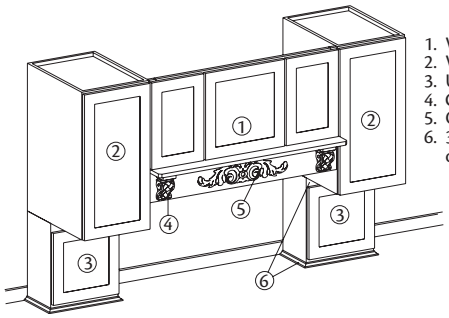
Wall Hood Mantel Matching Application



1. Wall Hood Mantel Matching (WHMM)
2. Wall Hood Mantel Cabinet (WHMC)
3. Under Cabinet Door Storage (UCDS)
4. Corbels
5. Onlay
6. 3" rails allow for molding application at top or bottom of Under Cabinet Door Storage

- Gain a "Mantel" style appearance in your kitchen design while maximizing your storage
- Personalize the design by incorporating molding and companion onlays to enhance the cooking focal point of the kitchen
- Wall Hood Mantel Cabinets should be used to support the hood. The increased overall depth makes a "bump-out" focal point that is easy to design
- 18" deep Wall Hood Mantle Cabinets are to be used with 30"–36" Wall Hood Mantel Matching units only. Larger units are unable to ventilate properly
- Add an LED Lighting Kit near the front, beneath the Wall Hood Mantel Cabinets (B) to highlight lower storage
- Create a hearth surround for the cooking area in your kitchen with components that work as a system for 84", 87", 90", 93" and 96" high cabinetry designs

Wall Microwave Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Any wall cabinet that is larger than 24″ wide x 27″ high x 12″ deep, or any Wall cabinet deeper than 12″ must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Wall End Run Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Any wall cabinet that is larger than 24″ wide x 27″ high x 12″ deep, or any Wall cabinet deeper than 12″ must be installed between two cabinets, a cabinet and a wall, or supported from below. Failure to provide additional support could result in collapse of the cabinet, serious injury, or property damage. Damage relating to failure to provide additional support is ***not*** covered by the warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

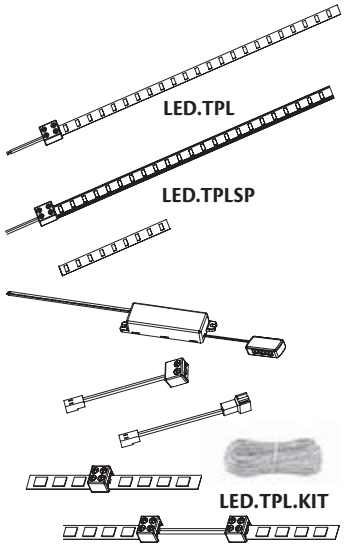
LED Lighting

LED Lighting Information

LED is an energy efficient source for kitchen and bath lighting needs.
Puck and strip lights have 3000K light color (warm white). All products are 24V DC power; all wires are white.
Each LED light is projected to last for 50,000 hours of run time-nearly six years of continuous light.
LED products carry a limited warranty.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.



LED Flexible Strip Tape Light

Tape Light
LED.TPL

Splash Proof Tape Light
LED.TPLSP

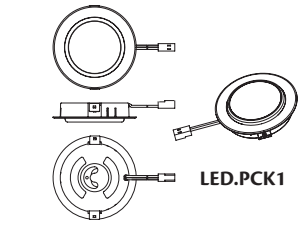
Tape Light Kit
★ **LED.TPL.KIT**

★ Kit includes:
(1) LED Flexible Strip Tape Light (LED.TPL), (1) DayBreak Dimmable Driver 40W (LED.DDR40), (2) 8' Power Cables (LED.PC), (2) 8' Power Extension Cables (LED.PEC8), (2) End-to-End Connectors (LED.ETEC), (3) Connector Kits for Wire Length (LED•CLC), and (1) Stranded Copper Wire (LED.SCW25)

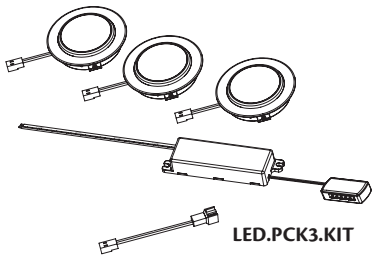
- Standard LED flexible strip tape with self adhesive backing
- 16.4' long; 0.32" wide; ~0.15" tall; 300 diodes; 24W
- Warm white illumination
- 120º beam angle, 80 lumens per ft.
- (LED.PC) is required to connect strip tape lighting to a power supply. Strip tape lengths unable to exceed 16.4' out of a single power supply port. An additional (LED.PC) plugged into an unused power supply port is required for applications exceeding 16.4'. Make sure power supplies are ***not*** overloaded based on watt capacity
- For use under-cabinet, over-cabinet, toe kick and cabinet interiors
- Use LED.TPLSP for splash zones i.e. toe-kick space
- Custom lengths can be cut in increments of 2", ***not*** to exceed a total of 16.4'. Use (LED.ETEC) to join custom lengths
- Use Connector Kit for (LED.CLC) with (LED.SCW25) to navigate corners or other obstacles
- Use (LED.MSS) for controlling interior cabinet lighting
- Use (LED.PEC8) to increase distance between power supply and beginning of LED flexible strip run

Prior to installation, clean and prepare surface with an alcohol pad to remove oils

LED Puck Light



LED.PCK1



LED.PCK3.KIT

LED.PCK1
★ **LED.PCK3.KIT**

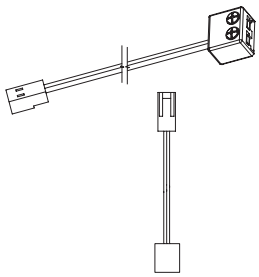
★ Kit includes: (3) LED Puck Lights (LED.PCK1), (1) DayBreak Dimmable Driver 40W (LED.DDR40), and (2) 8' Power Extension Cables (LED.PEC8)

- One light with 8' power cable; 3W
- Warm white illumination
- 194 lumens; 105º beam angle
- For surface mount or recess installation
- Units are 2 9/16" diameter. Requires 2 5/16" diameter circle cut out for recess installation
- Use (LED.PEC8) to extend the distance between lights and power supply

Under Cabinet Panels provide a clean, built-in look for under cabinet installation

---

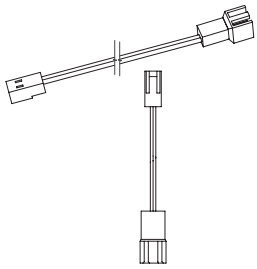
LED Power Cable



LED.PC

- 8' cable
- Cable has male connector on one end and flexible strip connector on the other
- Used to start the flexible strip light run

LED Power Extension Cable



LED.PEC8

- 8' cable
- Cable has male connector on one end and female connector on the other
- Used to extend the distance between the power supply and the light source
- Several cables may be connected to extend the length if needed

---

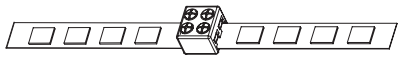
Connector Kit for Custom Wire Length

LED.CLC

- Contains two connectors
- For use when adding a cut-to-length wire section to navigate LED Flexible Strip Tape Lights around corners or obstacles

---

End-to-End Connector



LED.ETEC

- Connects two pieces of LED Flexible Strip Tape Lights end to end

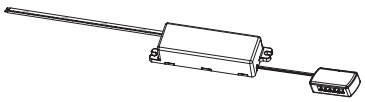
---

Stranded Copper Wire

LED.SCW25

- Use with (LED.CLC) for custom wire length

DayBreak Dimmable Driver

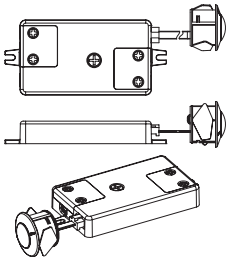


40 Watts
LED.DDR40

- -24V DC; 40 W, 12 port connector block can be used for up to 40 total watts of lighting
- Requires electrical outlet or junction box to connect to power
- Converts 120V AC power to 24V DC power
- Can be used with most standard TRIAC wall dimmers. Verify compatibility with switch manufacturer's specifications
- Comes with a 5' long power cord and optional plug head

Motion Sensor On/Off Switch

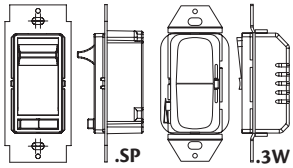
LED.MSS



- Medium range motion sensor ideal for interior cabinet installation. Lights are activated by motion of opening cabinet doors
- Includes 12-port connector block
- One switch can be used to activate lighting for single or double door cabinets
- Adjustable timer controls the length of time lights remain on; up to 6 minutes
- 5' long cable between sensor and controller
- Recess mount the sensor eye; requires a 20 mm hole

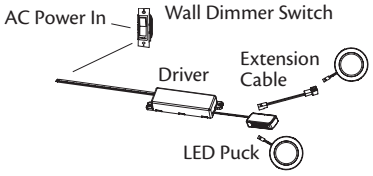
Low Voltage LED Wall Dimmer Switch

LED.WDS.3W
LED.WDS.SP

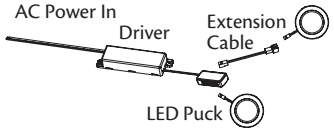


- White, wall dimmer switch for single gang box
- Functions as both an on/off and dimmer switch
- Use LED.WDS.3W for rooms with multiple entrances and switches
- Use LED.WDS.SP for rooms with a single entrance and switch
- Faceplate ***not*** included; purchase separately to match decor

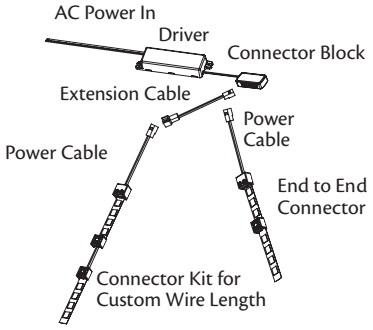
LED Connection Options



Puck Lighting with Dimming



Puck Lighting without Dimming



Strip Lighting without Dimming

- Designed to give you the ultimate versatility in designing lighting solutions, the following examples show the use of puck lighting and strip lighting, along with the various accessories:
- The best power source for LED Lighting is called a driver. The patented technology in your driver allows it to be used as both a dimmable driver and a regular driver. The driver is powered by standard AC line voltage of 120VAC. The driver can be plugged into an outlet by using the plug head included or can be hardwired into a junction box
- Puck lights attach to the driver in a "hub and spoke" configuration. The driver has a 12-port connector block. Each light comes equipped with a 98" power lead. Should you require a longer power lead, use a power extension cord
- Each run of strip lights attach to the driver in a "hub and spoke" configuration. The driver has a 12-port connector block. Each series of strips require the use of one power cable. Should you require a longer power lead, use a power extension cable
- Connectors allow you to run more than one segment of LED strip from a single power cable. The End to End Connector joins smaller pieces of LED tape together to form longer segments. For example, if you are installing toe kick lighting, but need to skip past the refrigerator, use the Connector Kit for Custom Wire Length. After wiring around the refrigerator, you can continue your lighting on the other side

Please do not attach more lights than the driver has wattage to support

Base Sink & Appliance Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

- CoreGuard® is a registered trademark
- Easy to clean, durable sink base helps protect the cabinetry from everyday leaks and spills
- Back, end and bottom panels are made of an engineered polymer material
- Bottom panel slants 1° toward front of cabinet and has raised ribs to slightly elevate stored items
- Decorative end panel required for end of peninsula or island; order separately
- One full-width false drawer front above doors
- Use CoreGuard® Panel Backer in the paneling section to resolve cutting and installation errors
- Available with Optional Door Storage Unit
- Optional Utensil Trays (UT and SUT) are available
- Unavailable with Roll-Out Trays
- Includes a Touch-Up Kit

Caution: For an island/peninsula installation, the CoreGuard® Sink cabinet needs to have a min. of (1) 15" cabinet or larger installed adjacent to it in order for the island/peninsula to have adequate structural stability. Accessories are unable to be installed on end panels, back or floor of the cabinet

Select your sink prior to finalizing your design. Check manufacturer's specifications to ensure a proper sink fit.

- Specify R or L for single door hinging
- No shelf
- False drawer front(s)
- Available with Optional Door Storage Unit
- Optional Utensil Trays (UT and SUT) are available
- Includes a Touch-Up Kit
- Use (FHK) option to achieve a full-height door look
- For cabinets desired to in depths above 24″ Deep, please use Wood Sink Base 27″ Deep with Reduced Depth

When you need an inverted frame for a sink base cabinet, consider using a regular base with a drawer instead of a sink base if plumbing allows. This way you get a working drawer at the bottom of your cabinet.

Select your sink prior to finalizing your design. Check manufacturer's specifications to ensure a proper sink fit.

- CoreGuard® is a registered trademark
- Designed to fit Farmhouse or Apron-style sinks
- Easy to clean, durable sink base helps protect the cabinetry from everyday leaks and spills
- No shelf
- Back, end and bottom panels are made of an engineered polymer material
- Bottom panel slants 1º toward front of cabinet and has raised ribs to slightly elevate stored items
- 3" stiles are routed to 1 1/2" in the door area
- Decorative end panel required for end of peninsula or island; order separately
- Use CoreGuard® Panel Backer in the paneling section to resolve cutting and installation errors
- Unavailable with Roll-Out Trays
- Includes a Touch-Up Kit
- ***Note***: Please select sink prior to finalizing kitchen design. Check manufacturer's specifications to ensure a proper sink fit. Use ***caution*** if sink installation instructions call for ends to be trimmed

- Designed to fit Farmhouse or Apron-style sinks
- No shelf
- 3" stiles are routed to 1 1/2" in the door area
- Includes a Touch-Up Kit
- ☆ Max. (ID) is 27"
- For DSB30BUTT-DSB36BUTT cabinets desired to be in depths above 24" deep, please use Deep Sink Base 27" Deep with Reduced Depth

To avoid cutting the side walls of a sink base cabinet, please be sure your sink base cabinet is at least 2 1/2" wider than the overall width of your sink. If your overall front-to-back sink depth is 22 1/2" or greater, use a 27" deep sink base.

Select your sink prior to finalizing your design. Check manufacturer's specifications to ensure a proper sink fit.

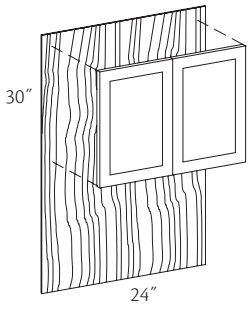
Dishwasher Raised Panel

DWP .RP



- Full overlay door styles receive one 22 3/8″ wide by 15 3/4″ high door. Half overlay door styles receive two 10 29/32″ wide by 26″ high doors. (Style and color to match kitchen)
- Mounted to matching 3/16″ wood veneer or laminate panel
- Quartersawn Oak door styles are mounted to matching 3/16″ quartersawn wood veneer panel
- Universally sized; trim to fit
- Dishwasher Panels are designed to provide a decorative look to the front of dishwashers. "Raised Panel" indicates the application of a door panel to the backer panel

Check dishwasher manufacturer's specification for Dishwasher Panel compatibility

Consider ordering a DWP and a replacement door(s) to create a different configuration if desired. Field Installed.

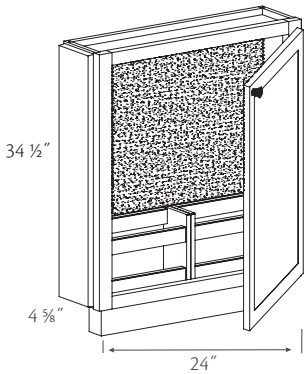
Base Message Center

MCB24 R or L



- Specify R or L for single door hinging
- For use at the end of a cabinet run
- Includes cork board and two built-in magazine racks
- Filler Overlay supplied; ships separately; field install
- A 2 1/2" frame stile is used on the hinge side of the cabinet to provide clearance for hardware

When a hinged door is attached to a 2 1/2" stile the door will be 1" narrower than a standard door. Keep this in mind when stacking cabinets

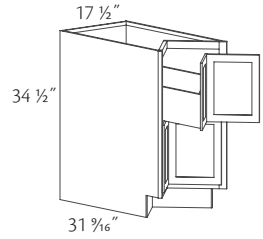
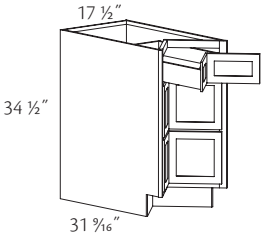
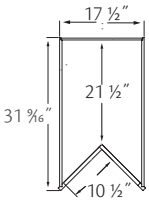
Base Corner Drawer Cabinet

Two Drawer
BCD36 .2D
Three Drawer
BCD36 .3D







- 90 degree frame
- Drawer is the same as a B12
- Unavailable with any drawer box accessories
- Requires 36" of wall space

Please use a filler next to the Base Corner Drawer Cabinet if an adjacent unit is deeper than 24". The filler width must equal the distance a unit will extend beyond the Base Corner Drawer Cabinet to ensure proper drawer clearance. For example: A 2" filler is needed if a 26" deep range is placed next to it

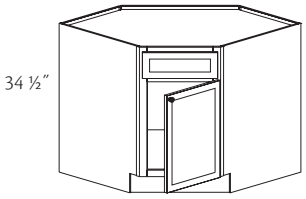
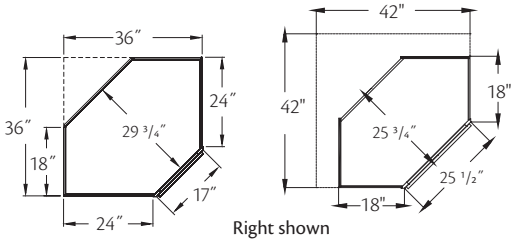
Sink Base Angle



SBA36 R or L
❇**SBA42 R or L**

❇ Unavailable with (APFC) or (FPEB) option

Grey color coding indicates new product, size or code.



- Specify R or L for single door hinging
- No shelf
- False drawer front(s)
- Optional Utensil Trays (UT and SUT) are available
- Includes a Touch-Up Kit
- Use (FHK) option to achieve a full-height door look
- ***Note***: Full overlay door styles use a 1/2" overlay hinge
- ***Note***: Unable to accommodate double bowl sink

When using a corner sink in your design, it is recommended to install at least a 15" cabinet between the corner sink and dishwasher. This will allow a comfortable space to load and unload the unit.

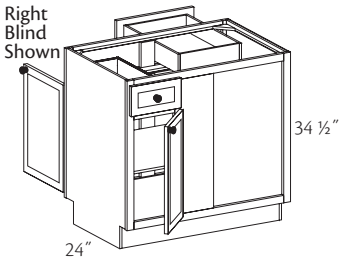
Peninsula Base Blind Corner



★❊ **PBBC36 R or L**
PBBC39 R or L
PBBC42 R or L
PBBC45 R or L
PBBC48 R or L

❊ Full-height, kitchen side only. Vega doors will have a solid recessed flat panel

★ Glass doors unavailable on kitchen side

- Specify R or L; R or L indicates blind
- Kitchen door is hinged from blind panel
- One adjustable shelf
- Blind panel (stile) is 8" wide
- Blind opening is covered with an unfinished panel
- Order Overlay Panel for Base Blind Corner separately
- Single door and working drawer on kitchen side; double doors single drawer and matching false drawer front on peninsula side
- Unavailable with Factory installed Roll-Out Trays
- ***Note***: Two 3" base fillers included; order Blind Corner Overlay separately

☆ Max. (ID) is 27"

Consider using the Full Height Door (FHK), Full Height Peninsula (FHP) or Full Height Both (FHB) option on Peninsula Base Blind Corner Cabinets to increase storage height of the top shelf

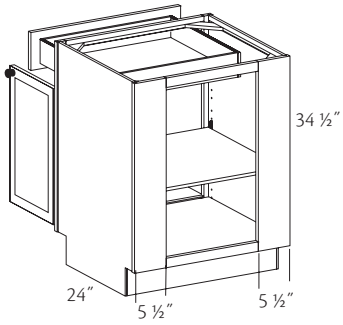
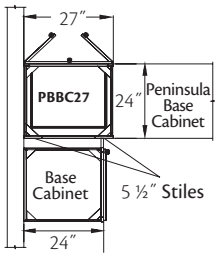
☆	ID	●	VTK

Peninsula Base Blind Corner - 27" Wide





PBBC27

- One adjustable shelf
- Two 5 1/2" stiles on blind side allow cabinet to be used as right or left
- Double doors and single drawer
- Reversible
- For use as a starter cabinet for peninsula
- Designed to fit flush against wall, cabinet may be pulled approximately 2 1/4". Full overlay door styles require a pull of at least 1" from wall to allow hardware clearance
- Filler included
- Order Overlay Panel for Base Blind Corner separately
- Working drawer and doors open to same side

☆ Max. (ID) is 27"

Remember, when using a 27" wide Peninsula Base Blind Corner cabinet, it is highly recommended to use peninsula cabinets on the adjacent run due to depth continuity. If regular base cabinets are used, the run will not be flush once the matching panel is applied.

Consider using (FHP) on Peninsula Base Blind Corner 27" Cabinets to increase storage height of the top shelf

MBEP40 .R or L
Peninsula
PMBEP

- Specify R or L
- 3/4" thick panel with matching door edge profile on front edge only
- Peninsula panel has routed door profile front and back
- Foil and slab door styles do ***not*** have grooves and will ***not*** fit flush against 1/2" end panel. A 3/16" shim is recommended
- Inside of matching panel bottom rail will line up with inside bottom rail of door
- Unavailable in mitered; use End Panel–Mitered
- Unavailable in High-Gloss Foil door styles
- Paint Grade supplied for Paint Grade door styles
- ☆ Field notch Wide Bottom Rail for toe kick
- Field install

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8" less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15", the panel will be 14 7/8"; MBEPL-CW to 21", the panel will be 20 7/8"

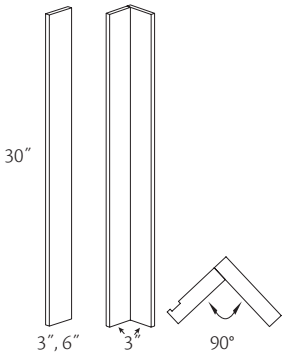
Base Fillers

Base Filler Information

Note: Painted or stained hardwood may be supplied

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

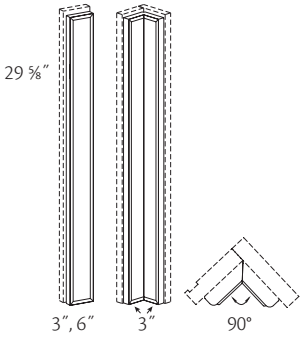
Base Filler



BF3
BF6
BF3X3

- 3/4" thick solid wood
- Finished one side only
- Quartersawn door styles are supplied plain sawn
- Painted hardwood supplied for Paint Grade door styles
- No toe kick

Base Filler Overlay



BFOL3
BFOL6
BFOL3X3

- Available in full overlay door styles only
- Available in High-Gloss Foils finish except in 3X3 models
- Filler ordered separately
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Consider using Custom Filler Overlay option in applications that require (CW)

Custom Filler Overlay

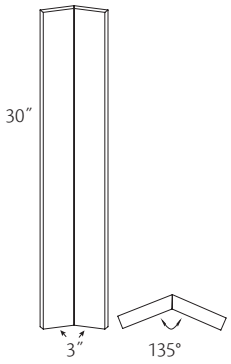
CFOL

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may ***not*** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

Matching Outside Profile			
Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

Base Inside Corner Angle Filler

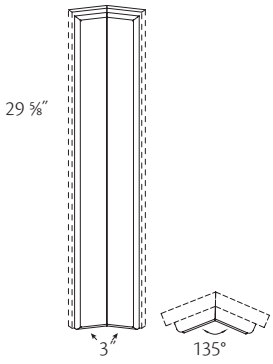
ICAF30



- 3/4" thick solid wood
- Quartersawn door styles are supplied plain sawn
- Finished one side only
- Shipped in one piece
- Painted hardwood supplied for Paint Grade door styles

Base Inside Corner Angle Filler Overlay

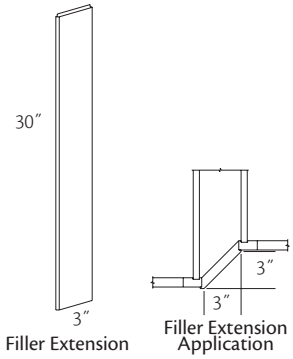
ICAFOL30



- 3/4" thick solid wood
- Available in full overlay door styles only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Quartersawn Oak door styles are 3/4"quartersawn wood with matching door profile on all sides. Quartersawn Cherry and Maple door styles are quartersawn wood veneer
- Shipped as two pieces

Filler Extension

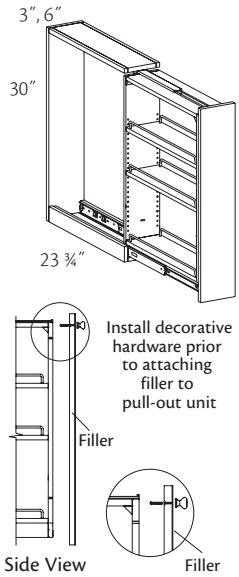
FE3.30



- 3/4" thick solid wood
- Quartersawn door styles are supplied plain sawn
- Painted hardwood supplied for Paint Grade door styles

Base Filler Pull-out

BFP3 1 3/4" shelf width
BFP6 4 3/4" shelf width



- Two adjustable shelves
- Unit slides on side-mount drawer runners (***not*** soft close)
- Recommended installation is between two cabinets
- Installation may also be made between a cabinet and a wall or a cabinet and an end panel with stile
- Filler is included, but unattached. Unit should be installed before removing shipping brace and attaching filler
- A filler overlay is recommended for full overlay door styles; order separately
- Painted hardwood supplied for Paint Grade door styles
- Quartersawn door styles are supplied plain sawn
- No toe kick

Filler pullouts need to be installed between two cabinets or a cabinet and an end panel; unable to use at the end of cabinet runs or next to appliances

Consider using a Replacement Drawer Front (RDW3006) on a Base Filler Pullout as an overlay for 1/2" door styles.

Tall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard tall cabinet box depth is 12" or 24" unless stated otherwise. Add door thickness with bumpers for total depth.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Note: Remember to remove the white plastic "feet" from the bottom of all tall cabinets before installation. Their sole purpose is to protect the floor after the cabinets are unboxed. Leaving them on will result in uneven installation.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Utility Extended Top/Bottom & Wall Cabinet Door Alignment Examples

- For all utility cabinet heights, 84" to 96"
- 1 1/2" frame stiles and rails; 3" rail between doors

Tall Appliance Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard tall cabinet box depth is 12" or 24" unless stated otherwise. Add door thickness with bumpers for total depth. To conceal the seam between the loose toe kick and the cabinet, order a 3/16" skin (WSK) for the exposed ends of 93" & 96" high cabinets.

Note: Remember to remove the white plastic "feet" from the bottom of all tall cabinets before installation. Their sole purpose is to protect the floor after the cabinets are unboxed. Leaving them on will result in uneven installation.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Best used for appliance combinations such as; microwave and single oven.

Remember to order a 3/16″ skin (WSK) for the exposed ends of 93″ & 96″ high cabinets to conceal the seam between the loose toe kick and the cabinet. This cabinet has flush ends, therefore Transition Molding (TRM8 or TTRM8) must be used in the application process of a Wood Skin (WSK)

Select your appliance prior to finalizing your design. Check manufacturer's specifications to ensure a proper fit.

- Includes adjustable shelves in upper section
- Adjustable floor
- Three standard height drawers
- Drawers are removable to accommodate increased oven height
- Oven Trim Kit (overlay panel) available for a full overlay look

☆ (CH) modifications will be made in the upper door section; appliance cutout dimensions are ***not*** affected

☆ Toe kick options and modifications are unavailable on 93″ and 96″ H cabinets

- Toe kick shipped separately on 93″ & 96″ high cabinets
- One deep drawer
- Oven cutout requires 1 1/2″ less than max. allowable cutout in order to use Oven Trim Kit

☆ Max. (ID) is 27″

- Backless construction used in appliance opening area

Most major appliance manufacturers will tell you that their 27″ wide ovens will fit into a 27″ oven cabinet and their 30″ wide ovens will fit into a 30″ cabinet. In most cases this is true. However, the look this creates may not be appealing because the stiles will be concealed by the appliance. To solve this problem, you can order a 30″ oven cabinet for a 27″ oven and a 33″ oven cabinet for a 30″ oven, etc.

Select your appliance prior to finalizing your design. Check manufacturer's specifications to ensure a proper fit.

- 3/4″ thick panel with matching door edge profile on front edge only
- Matching panel may ***not*** align with the cabinet doors
- Unavailable in High-Gloss Foil door styles
- Paint Grade supplied for Paint Grade door styles
- Unavailable in mitered door styles; use End Panel–Mitered
- Unavailable in slab door styles

☆ Field notch Wide Bottom Rail for toe kick

☆ Max. (CW) is 27″

- Field install

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8″ less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15″, the panel will be 14 7/8″; MBEPL-CW to 21″, the panel will be 20 7/8″

Vanity Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Vanity Sink Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

For a finished look, we recommend attaching replacement doors to the end panels (RD1515NH.B - sold separately, qty. 2 needed if covering both ends)

In order to complete the furniture look on your console vanity, limit your countertop overhang to 1/8” on the front and both sides. A standard size vanity countertop will work with the console vanity, but keep in mind the countertop overhang to the front will only be 1/8”; overhang on the sides will be 1/2”. Be sure to account for the positioning of the vanity bowl in relation to the cabinet. If you use a large vanity bowl or if your bowl is positioned too far forward, you may need to notch the inside top rail of the frame in order to accommodate the bowl.

Vanity Tall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Vanity Wall Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard vanity cabinet box depth is 18" or 21" unless stated otherwise. Add door thickness for total depth. Standard vanity cabinet height is 34 1/2" unless stated otherwise.

All double door cabinets will have butt doors unless stated otherwise. Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

- Available in full overlay door styles only
- Available in High-Gloss Foils finish except in 3X3 models
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Consider using Custom Filler Overlay option in applications that require (CW)

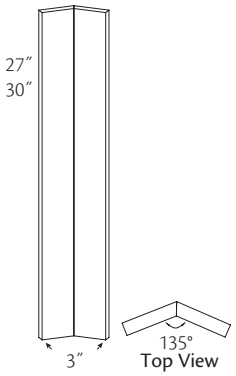
Custom Filler Overlay

CFOL

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may ***not*** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

Matching Outside Profile			
Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

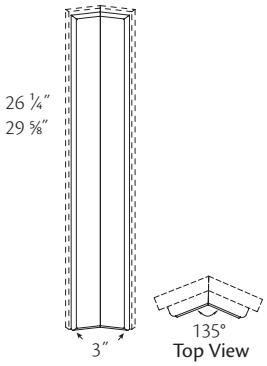
Vanity Inside Corner Angle Filler



ICAF27
ICAF30

- 3/4" thick solid wood
- Quartersawn door styles are supplied plain sawn
- Finished one side only

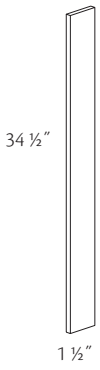
Vanity Inside Corner Angle Filler Overlay



ICAFOL27
ICAFOL30

- 3/4" thick solid wood
- Available in full overlay door styles only
- Filler overlay has routed door profile and is made from the same material as doors and drawer fronts
- Filler ordered separately
- Shipped as two pieces

Vanity Furniture Filler



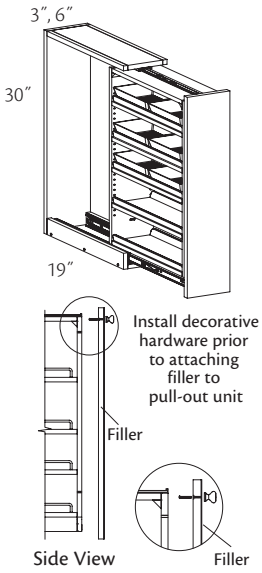
VF134 .FH

- 3/4" thick solid wood
- Available in Cherry, Paint Grade, and Maple door styles only
- Painted hardwood supplied for Paint Grade door styles
- Finished on side and edge
- No toe kick
- Intended for Decorative Accent Vanity collections

Remember to use a Vanity Furniture Filler when placing a decorative accent vanity against a wall (3/4") or when placing two decorative accent vanities together (1 1/2"). This will ensure proper placement and avoid any decorative skirt interference during installation.

Vanity Filler Pull-out

VFP32130
VFP62130



- Four adjustable shelves, one fixed shelf
- Includes six clear plastic trays; replacements available. See Vanity Accessories section
- Unit slides on full-extension undermount soft-close runners
- Quartersawn door styles are supplied plain sawn
- Painted hardwood supplied for Paint Grade door styles
- Recommended installation is between two cabinets
- Installation may also be made between a cabinet and a wall or a cabinet and an end panel with stile
- Filler is included, but unattached. Unit should be installed before removing shipping brace and attaching filler
- A filler overlay is recommended for full overlay door styles; order separately
- No toe kick

Office Cabinet Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard office cabinet box depth is 18", 21" or 24" unless stated otherwise. Add door thickness with bumpers for total depth. Standard base desk cabinet height is 29" unless stated otherwise.

Remember, a BUTT or (Butt) cabinet has no center stile. When BUTT is in all capitals, it must be included as part of your ordering nomenclature; (Butt) in parentheses informational only and isn't required on order.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

❍ Unavailable with (CW) option
▲ Two drawers side by side

- Unit is designed for use between two base, desk or tall cabinets
- When mounted at 29″ height with a 1 1/2″ countertop, unit provides a comfortable writing surface
- One end of DKD can be supported by optional Desk End Panel
- Drawer will be slab, including DRPD; see door style section for drawer front exceptions

☆ End panels are 1/2″ plywood with Natural Birch printed wood grain vinyl interior and exterior

- Unable to be trimmed

Consider using a Cabinet Front Only (CFO) under a desk to cover up wires, outlets etc. This will decorate the area, plus give easy access to cords. Especially useful if you are placing a CPU in a cabinet next to your knee space.

When using an Organizer Cabinet or Spice Drawer Cabinet, which have flush ends standard, under a wall cabinet at the end of a run, either attach Furniture Ends or order a 3/16" Wood Skin for the wall cabinet to flush the ends. (There will be a seam.) Also, consider ordering a furniture matching wall end panel if the height of the finished product allows it

Bookshelf Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Note: Standard furniture cabinet box depth is 12", 18", 21" or 24", unless stated otherwise. Add door thickness and bumper for total depth. All Furniture Cabinets are manufactured in 3/4" Furniture Plywood Ends with matching wood veneer or printed wood grain laminate interiors. Due to toe kicks shipping separately on 96" high units, 96" Furniture Cabinets will be manufactured with 1/2" plywood end panels so the ends can be skinned to hide the seam. Skins are ordered separately.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

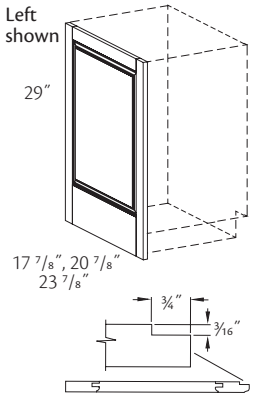
Matching Desk End Panel



Standard edge detail: fits flush against 1/2″ end panel and behind face frame

MDEP18 R or L
MDEP21 R or L
MDEP24 R or L

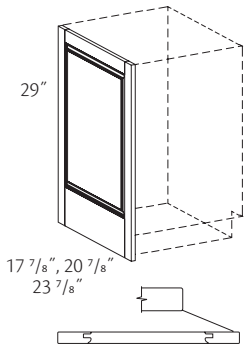
- Specify R or L
- 3/4″ thick panel with matching door edge profile on front edge only
- Inside of matching panel bottom rail will line up with inside bottom rail of door
- Foil and slab door styles do ***not*** have grooves and will ***not*** fit flush against 1/2″ end panel. A 3/16″ shim is recommended
- Paint Grade supplied for Paint Grade door styles
- Quartersawn door styles are supplied plain sawn
- Unavailable in High-Gloss Foil door styles
- ☆ Field notch Wide Bottom Rail for toe kick
- Field install

	FE	●	CW
	APC		ID
	APFC		RD
●	CH	☆	WR

When designing with Matching End Panels the reveal will differ from the cabinet door height reveal. Matching End Panels cover the entire side (height) of the cabinet. See drawing for exact measurements

Matching End Panels are always 1/8″ less than the standard cabinet depth. In order to maintain consistency with the standard panel dimensions, this rule also applies when using Change Width. Example: MWEP30L-CW to 15″, the panel will be 14 7/8″; MBEPL-CW to 21″, the panel will be 20 7/8″

Matching Desk End Panel - Square Edges



MDEP18 S
MDEP21 S
MDEP24 S

- 3/4″ thick panel with square edge front and back
- Inside of matching panel bottom rail will line up with inside bottom rail of door
- Reversible, may be used on either right or left end
- Unavailable in High-Gloss Foil door styles
- Unavailable in mitered door styles; use End Panel–Mitered
- Quartersawn door styles are supplied plain sawn
- Paint Grade supplied for Paint Grade door styles
- ☆ Field notch Wide Bottom Rail for toe kick
- Field install

- (Blank) ***Not*** available

Wood Top Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Wood tops are constructed of 5/8" engineered wood with wood veneer on one side.
Front is finished with 3/4" or 49/64" thick by 1 9/16" high solid wood edge molding.

Note: Wood tops are built to size. Only one top will be manufactured per 48" or 96" blank.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

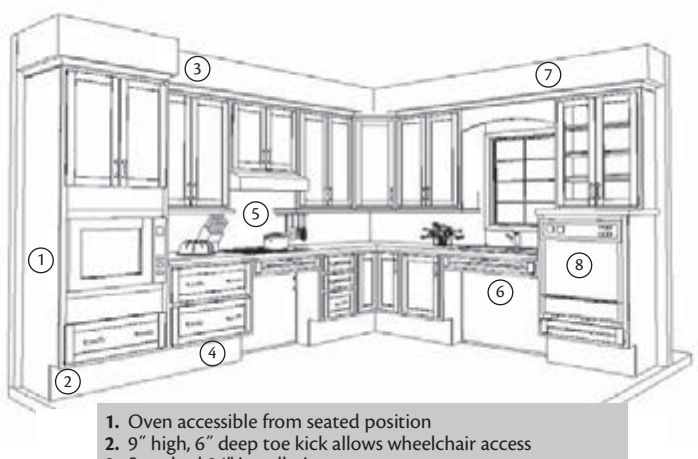
Universal Access Series



1. Oven accessible from seated position
2. 9″ high, 6″ deep toe kick allows wheelchair access
3. Standard 84″ installation
4. 32 ½″ cabinet height
5. Install cooktops at any height
6. Special sink base conceals plumbing
7. Fully lighted interior option
8. Raised dishwasher enclosure for easier loading & unloading

Recommendations for Maximum Accessibility:

- Order 36″ high Wall cabinets installed at 82″ or 84″ height
- Increase depth of Wall cabinets to 15″ for easier use
- Minimize use of Base cabinets with doors, select drawer cabinets

Door Style Availability:

- Universal SKU's are available in all 1/2″ overlay door styles (see door style availability in door style section)
- Soft close hinge features an integrated mechanism that closes doors softly and quietly and is adjustable six ways for perfect alignment

Consider using Under Cabinet Panels for Wall Cabinets

For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

Custom Appliance Panels

Custom Appliance Panel Information

This program enables you to order custom-designed appliance panels for kitchens or other living spaces.

Note: Custom Appliance Panels (CAP) are located in ***2020 Design*** under: Base >Panels >Custom Appliance Panel
Once the panel is placed on the floor plan, the CAP wizard will pop-up and dimensions can be specified

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

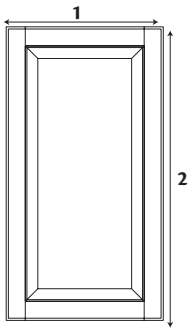
Custom Appliance Panel - General Guidelines

- An appliance make and model number can be provided and a panel solution will be recommended based on that information. A sample drawing will be sent back for approval
- Specific panel dimensions can be recorded and the panels will be finished to your specifications
- Check appliance manufacturer's specifications for any additional material, such as shims, spacers, etc., that may be needed before placing any order. Spacer panels are ***not*** supplied
- Due to potential extended lead times, CAP orders may ***not*** ship with associated kitchen orders. We recommend shipping CAP orders to your store to avoid additional home delivery fees
- If a veneer center panel door style is selected, appliance panel doors will have a solid wood center panel machined to resemble the veneer center panel
- Grain orientation will match that of the selected door style
- Slab door style orders are limited to the Universal Frame Only option within this program
- Only center rail modifications are available when ordering the CAPDR.W.CR and CAPDR.B.CR (location and height). Outside stiles and rails unable to be modified
- Stiles and rails will be the same size and profile as the selected door style (with the exception of Frame Only doors)
- Refer to appliance manufacturer's specification to ensure ice/water dispenser trim will accommodate a 3/4" to 1" thick panel
- Applied molding is unavailable on (CAPFO & UCAPFO) on applicable door styles
- (CAPFO) are unavailable in mitered door styles; using Universal Frame Only panels are recommended
- (UCAPFO) will have a 3/32" radius on both inside and outside edges of stiles and rails
- Ice/water dispenser cutouts will have 3/16" radius corners
- Onlay panels will react to climate conditions causing varying degrees of joint separation. This is a natural reaction in wood product and therefore is ***not*** covered under warranty
- Unavailable in High-Gloss Foil door styles
- Unavailable in Paint Grade door styles
- Door sizes are limited to 1/16" increments

Custom Appliance Panel - Pricing Method

- General Pricing Rules:
- Using the outer most dimension of each panel, the width and height should be converted into a decimal form. Examples: 21 9/16" = 21.5625; 58 7/16" = 58.4375, etc.
- Calculated dimensions will be rounded using the standard rounding method (down from 4 and up from 5) to the nearest 10,000th place. Example: 8.7504069 will round to 8.7504
- List prices will be rounded up to the nearest dollar from .01 cents. Example: $179.01 will become $180
- Please use the following instructions to determine the LIST PRICE of each panel, remembering to use the rounding method mentioned above
- Start by taking the panel width and height, in decimal form, and multiply the two numbers together giving you the total square inches. Example: (21 9/16") 21.5625 x (58 3/8") 58.4375 = 1260.058594 sq. in., which rounds to 1260.0586 sq. in.
- Next, you need to convert sq. in. into sq. ft. by taking the sq. in. figure and dividing that number by 144. Example: 1260.0586 ÷ 144 = 8.7504069 sq. ft., which rounds to 8.7504 sq. ft.
- Next, multiply the total sq. ft. by the appropriate sq. ft. list price to get the total list price. Example 8.7504 x $141 = 1233.81, which rounds to $1234 list price
- Factory cutouts are an additional charge; add to the calculated price
- ***Note***: Prices shown above are merely examples and are ***not*** actual list prices

Custom Appliance Panel - Door Onlay Panel



CAPDR.B
CAPDR.W

- No center rail
- When an arched door style is selected, select Arched (.W) or Square (.B) to determine the door and onlay panel's top profile
- When a square door style is selected, the square profile will be supplied for all onlay panels as standard. It is recommended to use a square profile when ordering an onlay panel for a dishwasher or trash compactor application
- Unavailable in slab door styles
- Unavailable in High-Gloss Foil door styles
- Unavailable in Paint Grade door styles
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- Stiles and rails will be the same size and profile as the selected door style
- Cutouts are unavailable
- Backs are finished to match
- Doors are automatically drilled for Permaset Bumpers
- Doors ordered with the No Hinge (NH) option will receive a single cup hinge bore for internal tracking purposes
- ***Note***: Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

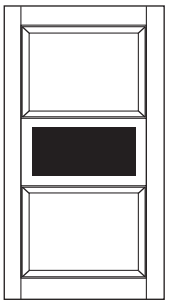
Center Rail Cutout

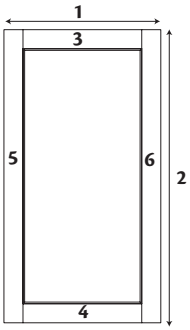
CUTOUT



- Specify cutout width and height
- The cutout position can be customized based on the distance specified from the left outside edge and from the top outside edge of the door onlay panel
- Refer to appliance manufacturer's specification to ensure ice/water dispenser trim will accommodate a 3/4" to 1" thick panel
- Cutouts will have 3/16" radius corners
- (CUTOUT) is only available on the Custom Appliance Panel–Door Onlay Panel with Custom Center Rail
- Alternative stile widths may be used if the cutout falls within a 1/2" of the stile's inside edge
- Unavailable in High-Gloss Foil door styles
- Unavailable in Paint Grade door styles

Custom Appliance Panel - Frame Only

CAPFO



- Frame Only panels are unavailable with applied molding on applicable door styles
- 7" wide door panels will be supplied as a slab design with profiled edges if frame stiles are wider than 3"
- Outside edge profiles on stiles and rails will match the selected door style for Frame Only panels, and the inside edge profiles will have a 3/32" radius
- Stile and rail sizes can be modified
- Unavailable in mitered or slab door styles
- Unavailable in Paint Grade or High-Gloss Foil door styles
- Backs are finished to match
- Panels are automatically drilled for Permaset Bumpers
- Panels will receive a single cup hinge bore for internal tracking purposes
- ***Note***: Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

Custom Filler Overlay

CFOL

Matching Outside Profile			
Min. Width	Max. Width	Min. Height	Max. Height
2 5/8"	8"	6"	96"

- Available on Full and Half Overlay door styles
- Supplied as a one-piece design
- Filler overlays have a matching outside profile of the selected door style. Other inside profiles and details may ***not*** be present
- Filler overlays are made from the same material as doors and drawer fronts
- Price is per square foot

Decorative Appliance Panels

Decorative Appliance Panel Information

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Decorative Appliance Panel - General Guidelines

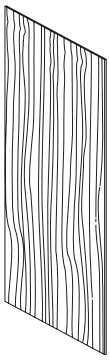
- Specific panel dimensions can be recorded and the panels will be finished to your specifications
- Check appliance manufacturer's specifications for any additional material, such as shims, spacers, etc., that may be needed before placing any order. Spacer panels are ***not*** supplied
- If a veneer center panel door style is selected, appliance panel doors will have a solid wood center panel machined to resemble the veneer center panel
- Grain orientation will match that of the selected door style
- Stiles and rails will be the same size and profile as the selected door style
- Onlay panels will react to climate conditions causing varying degrees of joint separation. This is a natural reaction in wood product and therefore is ***not*** covered under warranty
- Door sizes are limited to 1/16" increments

Decorative Appliance Panel - Pricing Method

- General Pricing Rules:
- Using the outer most dimension of each panel, the width and height should be converted into a decimal form. Examples: 21 9/16" = 21.5625; 58 7/16" = 58.4375, etc.
- Calculated dimensions will be rounded using the standard rounding method (down from 4 and up from 5) to the nearest 10,000th place. Example: 8.7504069 will round to 8.7504
- List prices will be rounded up to the nearest dollar from .01 cents. Example: $179.01 will become $180
- Please use the following instructions to determine the LIST PRICE of each panel, remembering to use the rounding method mentioned above
- Start by taking the panel width and height, in decimal form, and multiply the two numbers together giving you the total square inches. Example: (21 9/16") 21.5625 x (58 3/8") 58.4375 = 1260.058594 sq. in., which rounds to 1260.0586 sq. in.
- Next, you need to convert sq. in. into sq. ft. by taking the sq. in. figure and dividing that number by 144. Example: 1260.0586 ÷ 144 = 8.7504069 sq. ft., which rounds to 8.7504 sq. ft.
- Next, multiply the total sq. ft. by the appropriate sq. ft. list price to get the total list price. Example 8.7504 x $128 = 1120.05, which rounds to $1121 list price
- ***Note***: Prices shown above are merely examples and are ***not*** actual list prices

Decorative Panel - Back Panel

APWSK



- Approximately 3/16" thick
- Back Panels will match the wood species and the color of the selected door style and finish and can be used with or without onlay panels to decorate any appliance
- Quartersawn door styles are quartersawn wood veneer
- A matching matte panel will be supplied when ordered in High-Gloss Foil door styles
- Painted hardwood supplied for Paint Grade door styles
- Wood veneer engineered wood
- Finished one side only
- Edges are unfinished with no edgebanding

Back Panel	
Min. Width	4 1/2"
Max. Width	48"

Door Stile Chart		
Orig. Stile Width	If Door is Less Than This Width	New Stile Width
2 5/8"	7 3/16"	2"
2 3/4"	7 7/16"	2"
3"	7 15/16"	2"
3 1/2"	7 15/16"	2"
3 1/2"	8 15/16"	3"

• Arch doors will be supplied as square if the door width is less than 7 15/16"

- Doors and onlay panels ordered 55" – 80" will have a double center panel (a horizontal center rail will equally divide the onlay panel)
- Mitered door styles will have a single center panel, regardless of height
- When an arched door style is selected, select Arched (.W) or Square (.B) to determine the door and onlay panel's top profile
- When a square door style is selected, the square profile will be supplied for all onlay panels as standard. It is recommended to use a square profile when ordering an onlay panel for a dishwasher or trash compactor application
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Due to varying dimensions and designs of raised center panels, recessed center panels may be supplied when the center panel width or height is less than 3 1/4"
- Hinging for doors:
  Doors 10" to 36" get two hinge holes
  Doors 36 1/6" to 48" get three hinge holes
  Doors 48 1/16" to 80" get four hinge holes
- Backs are finished to match
- Doors are automatically drilled for Permaset Bumpers
- Doors ordered with the No Hinge (NH) option will receive a single cup hinge bore for internal tracking purposes
- These appliance panels are available in all door styles
- ***Note***: Check appliance manufacturer's specs for any additional material (shims, spacers, etc.) that may be needed before placing any order. Appliance model numbers are ***not*** sufficient, use numeric dimensions when ordering
- ***Note***: Doors with 3 1/2" stiles will be made with 3" stiles if the door is 7 15/16" to 8 15/16" wide; doors less than 7 15/16" wide will be made with 2" stiles

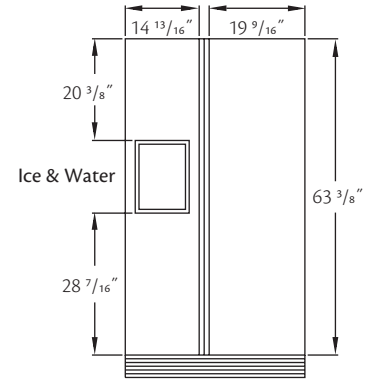
3"	7 15/16"	2"
3 1/2"	7 15/16"	2"
3 1/2"	8 15/16"	3"

- APDW will follow the selected door style's drawer front configuration
- Five-piece grill panels/drawer heads ordered in heights less than 6 1/8" may be supplied as a solid slab onlay panel. Some five-piece drawer fronts may have a recessed center panel
- "Width" will be referred to as "Length" on your faxed acknowledgments for APDW only
- If unit is installed at an angle, fillers should be used to avoid interference with adjacent cabinet
- Veneer raised panel door styles will be supplied with a solid wood center panel machined to resemble the veneer center panel
- Backs are finished to match
- These appliance panels are available in all door styles
- ***Note***: Check appliance manufacturer's specs for any additional material (shims, spacers, etc.) that may be needed before placing any order. Appliance model numbers are ***not*** sufficient, use numeric dimensions when ordering

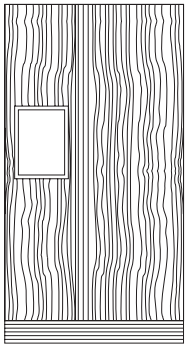
Decorative Panel/Replacement Door and Drawer Front



- Decorative panels can be easily created using paneling and replacement door and drawer fronts
- Example: Create a decorative panel for this side by side refrigerator
- ***Note***: In most cases, doors will be narrower than the refrigerator door and portions of the refrigerator door paneling will be exposed. Advise your customers that this "reveal" will be present and that cabinet doors are unable to completely overlay the refrigerator door

When applying Replacement Doors to a WSK remember to allow enough room for access to the appliance door handle

Option 1:
Order and Install:
WSK3684



Option 2:
Order and Install:

◆ Cross grain panel for peninsula application

❊ (CW) and (CH) are only available on these items

■ Quartersawn door styles are supplied plain sawn

- Quartersawn door styles are quartersawn wood veneer
- Painted hardwood supplied for Paint Grade door styles
- Finished one side only
- Edges are unfinished with no edgebanding

☆ APC is optional for WPL

Remember to order (FPEB) or a (WSK) for wall cabinets that will be at the end of a run when applying decorative moldings. This will result in a flush application on the return

Remember to order a 3/16" skin (WSK) for the exposed ends of 93" & 96" high cabinets to conceal the seam between the loose toe kick and the cabinet.

Remember, the grain on paneling normally runs along the length of the panel. Cross grain means grain goes with the short edge.

Molding Information

Use the option availability chart at the right of each item to determine which construction options are available for your desired cabinet. For all cabinet modifications, please refer to the Construction Options section for details and exceptions.

There are numerous molding offerings for decorative and finished applications and are available in some or all wood species. For molding detail, view in 2020 Design.

Note: All components ordered in quartersawn door styles will be supplied as plain sawn oak unless otherwise noted. Moldings for High-Gloss door styles will be supplied with a matte sheen.

Material dimensions listed may vary slightly from actual dimensions of the product. Specifications subject to change without notice.

Molding Stack Information

- ***Note***: Expect to lose up to 4"- 6 1/2" per cut, so plan extra molding accordingly. Always order one or two extra pieces of molding to make up the cut loss which could be up to 3" per cut to ensure the moldings are at the job site for a timely installation. Ordering additional molding after the fact to complete the job means the molding is ***not*** pulled as a group or run at the same time of color application.

To add Molding Stacks in your 2020 Design, locate them in the Drag and Drop list under: Moldings>Top Moldings>Pre-Stacked Moldings. To view the PDFs, right-click on a specific stack and go to specs.

- Dimension matches the legs used on Island End Cap cabinets
- ***Note***: Decorative feet or legs be attached to the frame as the weight of the cabinet is supported by the end panels, ***not*** the cabinet floor. If using the VTK option, it is recommended to use a 7/8" spacer to flush the floor and end panels, and be sure that a section of the foot is in contact with the end panel

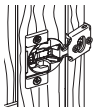
BOX ▪COS▪M4
Standard
BOX ▪COS▪832

- Box of 10 cutoff screws
- Can be cut to lengths of 3/4", 1", 1 1/4", 1 1/2" and 1 3/4

Soft-Close Hinges - 1/2" Overlay



PH12C ▪SC

- Packaged and sold as a pair

Soft-Close Hinges - Face Mount

PHFM ▪SC

- Packaged and sold as a pair

Decorative Hardware Screws - 2 inch

Metric
BOX ▪M4
Standard
BOX ▪832

- Box of 10, 2" screws

Replacement Door & Drawer Front Information

Replacement doors and drawer fronts are listed by their nomenclature. Please reference the overlay columns for actual sizes as the nominal size and actual size may vary.

The door & drawer front sizes spreadsheet can be found in **2020 Design**, under the **Cabinet Parts** section.

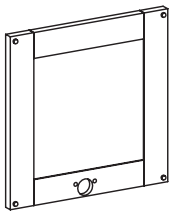
This lists all cabinets and tells you the corresponding replacement doors and drawer fronts.

Replacement doors may be ordered for wall or base application. When ordering, specify door style, hinging and •W (wall) or •B (base). Any arch doors ordered as •B will be shipped in a square design.

Example: *You need a replacement door for a wall 1830, hinged left.*

Order: RD1830L•W

Replacement doors are prepared for hinges. Replacement door and drawer fronts are automatically drilled for PermaSet bumpers. If a door is specified for no hinge (NH), the door is drilled in all four corners for bumpers (bumpers are included) and will also receive a single cup hinge bore for internal tracking purposes.



Replacement doors with glass inserts or mullion inserts installed are available on doors 12″ or wider up to 42″ high.
To order, determine the replacement door(s) required and add desired glass insert or mullion insert.

Example: *You need a BIstro glass insert for a wall 1830, hinged left.*

Order: **RD1830L•W–1BIS1**
Pricing: **RD1830L•W**
+ 1 Bistro Insert for 12"- 30"high
= Total for replacement door with insert installed

Example: *You need a Mullion insert for a wall 1836, hinged left.*

Order: **RD1836L•W–1MD2**
Pricing: **RD1836L•W**
+ 1 Mullion Insert for 36" - 42" high
= Total for mullion door with insert installed

Replacement doors and drawer fronts are coded for easy reference. The prefix codes indicate door or drawer and usage. The first two digits indicate nominal width and the second two digits indicate nominal height.

RD 18 30

Prefix code — **Nominal Width** — **Nominal Height**

Prefix codes are as follows:

RD	replacement door
RDA	replacement door angle
RDAAG	replacement door angle appliance garage
RDADP	replacement door angle double panel
RDAG	replacement door appliance garage
RDB	replacement door butt
RDBDP	replacement door butt double panel
RDBI	replacement door base inside angle

THE MERILLAT MASTERPIECE® COLLECTION
CABINETWORKS GROUP
LIFETIME LIMITED WARRANTY

Cabinetworks Group warrants to the original consumer purchaser that the Merillat Masterpiece® Collection cabinetry will be free from defects in material and workmanship under normal use for as long as you own the cabinetry.

Cabinetworks Group warrants to the original consumer purchaser that the door hinges and drawer glides provided with the cabinetry will be free from defects in material and workmanship under normal use for as long as you own the cabinetry.

WHAT WE WILL DO

Cabinetworks Group may elect to either repair or replace product from the Merillat Masterpiece Collection that is defective under normal use.

From time to time, we will change design, specifications, and materials as conditions require and improvements are developed, but we have no obligation to incorporate such changes in products we previously manufactured. Replacement hinges and drawer glides are subject to their availability from our suppliers.

EXCLUSIONS FROM COVERAGE

As with other natural materials, wood is affected by environmental factors such as natural and artificial lighting. Darkening or mellowing of the wood can be expected and is a natural process of wood as it ages. Each wood species also exhibits its own distinctive patterns and characteristics. These variations in color and characteristics are not considered imperfections or defects. This warranty does not cover the natural aging and darkening of wood color, or the inherent growth characteristics of, or variation in, wood.

This warranty does not cover removal, installation, labor or transportation costs to Cabinetworks Group of the defective Products. Nor does this warranty cover any product used or installed in connection with the cabinets or cabinetwork, such as plumbing fixtures, gas or electrical appliances, or countertops. We shall provide for the cost of the return shipment of repaired or replacement Products to the consumer, if deemed necessary. Cabinetworks Group is not liable for damages or defects resulting from reasonable wear and tear, accidents, acts of God, outdoor use, misuse (including use of the product for an unintended application), improper handling or storage, abuse, neglect, or improper or incorrectly performed installation, maintenance, alterations or repair, including failure to follow the applicable storage and installation instructions.
Some states/provinces (including Quebec) do not allow limitations on how long an implied warranty lasts, so the below limitation may not apply to you. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ANY IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE, IS LIMITED TO THE STATUTORY PERIOD OR DURATION OF THIS WARRANTY, WHICHEVER IS SHORTER.

Some states and provinces (including Quebec) do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW: THIS WARRANTY DOES NOT COVER INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF USE, OR LABOR EXPENSES IN UNINSTALLING OR INSTALLING ANY MATERIAL OR PARTS, WHETHER ARISING OUT OF BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, TORT, OR ANY OTHER LEGAL THEORY, EVEN IF CABINETWORKS GROUP HAS BEEN ADVISED OF THE POSSIBILITY THEREOF. CABINETWORKS GROUP DISCLAIMS RESPONSIBILITY FOR DAMAGES IN EXCESS OF YOUR PURCHASE PRICE. Notice to residents of the State of New Jersey: The provisions of this warranty, including its limitations, are intended to apply to the fullest extent permitted by the laws of the State of New Jersey.

This warranty is only covers products purchased and installed in the United States of America and Canada. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state and from province to province.

WARRANTY CLAIMS

To obtain performance under this warranty, you must contact the Merillat Masterpiece Collection supplier and report, in writing, all defects claimed. If you have difficulty obtaining assistance, write to: The Merillat Masterpiece Collection Warranty Department, Cabinetworks Group, 15535 South State Ave., Middlefield, Ohio 44062 U.S.A.

This warranty is not transferable.
