# TYPES OF INDUSTRIAL WASHERS

## CONVEYOR

Belt washers range from simple washers that carry parts on a mesh metal belt to complex indexing washers.

## ROTARY DRUM

These washers clean small parts and are most often used in the cold heading and screw machine industries.

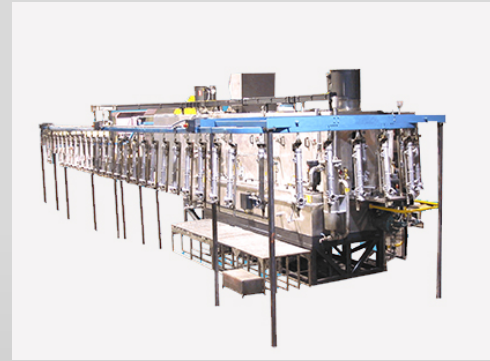

## CART WASHER

Cart washers are used mainly in the medical field for surgical carts however a growing trend is using a cart as part of logistics packaging.

## O.H. MONORAIL

These washers provide a no-touch wash and are most often used to clean a part prior to painting.

## CABINET

This type of washer is perfect when space is at a premium and when washing is intermittent and not part of the production flow.

## PARTS & CHEMISTRY

Midbrook can provide quick replacement parts to keep your machine running. Send us a quick photo of your damaged part and we can match it visually. Need chemistry? We can help you find the perfect "Recipe for Clean" for your contaminate and part substrate.

## SERVICE & MAINTENANCE

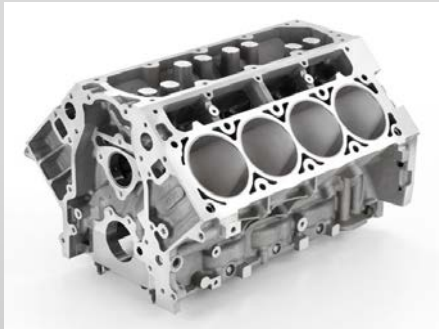

We can come to your location to observe, fix, repair, upgrade, or tweak your existing washer systems. Our many years of experience building, retro-fitting, servicing and maintaining washers in the field helps us implement time- and cost-efficient onsite solutions.

# INDUSTRIES & OPTIONS

## AUTOMOTIVE

Midbrook has installed more than 2,000 washers to clean engine components, transmissions, gears, cases and assemblies.

## AEROSPACE

Our parts-cleaning systems have served various high-tech industries in the aviation and military fields.

## MEDICAL

Washers are a key component in the decontamination process and bio-burden removal that medical devices have to go through prior to sterilization.

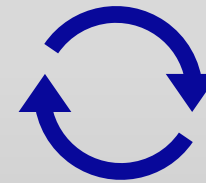

## TOTES & DUNNAGE

Cleaning returnable containers & dunnage has become a growing trend to ensure the cleaned parts stay clean.

## CONSUMER

Having products that are clean, shiny and visually appealing is important to the consumer industry.

## REFURBISH & REMANUFACTURE

Scrapping that old parts washer and starting from scratch is a common and extremely expensive mistake.

Midbrook can help transform an old washer into an integral and effective piece of equipment. We will visit your facility to assess your old parts washer, develop a process for revamping your equipment and provide a line-item proposal to you.

Refurbishing equipment can also save you as much as 70 percent of the cost of new equipment. We can also help you locate a machine with our database of 7,000+ installations.

# SHEET METAL FABRICATION

If you have a concept for a metal product, but need help with drafting, engineering, cutting, bending, welding, and finishing – our team of experts are here to help!

## DESIGN & DRAFTING

From initial concept to design and development - we are your sheet metal fabrication experts! We can provide all of your engineering and prototyping needs.

## LASER CUTTING

Our laser-cutters are precise to .005" and can cut up to 1/2" thick sheet metal. Our equipment and programmers ensure accurate repeatability every time.

## PRESS BRAKE ROOM

Our press brake room offers bending, finishing, rolling, and sanding capabilities.

## WELDING

Our experienced welders will beautifully join your metal project with clean lines and finishing touches.

## ASSEMBLY & PAINT

Need assembly and painting? No problem. We provide the finishing touches as well.

## YOUR FACTORY-FOR-HIRE

The "factory-for-hire" concept is simple. You have an idea and now you need expertise in how to make it.

We can use your prints, or if you don't have any - don't worry!

Bring us a napkin sketch and our technical experts can help you transform it into actionable blue-prints and a finished product! Our field engineers are excited to design with you. We can recommend the right kinds of materials, suggest methods of manufacturing, and share our industry expertise to perfect your project.

# SAMPLE PRODUCTS

From industrial to commercial to artisan products – we have made it all! Thousands of customers have relied on us to turn their metal projects and problems into metal products!

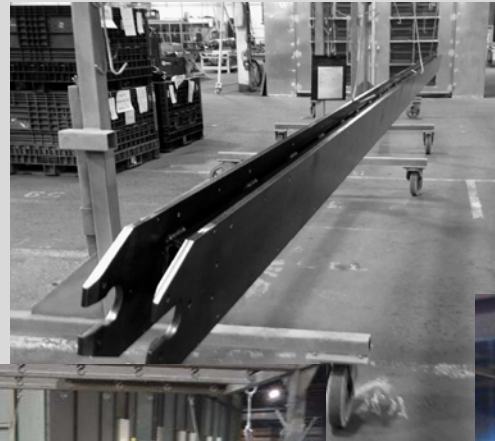

## HOPPERS

## FRAMES

## VENTS

## BEAMS

We have made thousands of custom metal products from keychains to stairs and large equipment. We will ensure that your final product is exactly as you envisioned!

Put our metal experts to work for you! We are your Factory-for-Hire!
