7. Description

Condition: Excellent

Description: Goddard Hall is a three story masonry and stucco building with a hipped French Tile roof and overhand supported by rafter extensions. The building has a bell tower that forms the entrance. Third level has arched windows formed by pilasters springing from the top of the ground floor. The windows are 1/1 double hung with retro-fitted solar shades. There are relief panels below the windows. There has been a large addition on the east side of the building (1936); however, the entrance on the west side of the building and the two ends of the building have been kept in original condition. Goddard Hall was built in 1913. The architect was O.H. Thorman, and the historical and current use is as classrooms. The original building has a rectangular shape.

buildings built on the "Horseshoe" as part of Trost and Trost's campus plan from 1906. Although a "Spanish Renaissance" style was adopted by the Regent's, Trost and Trost used more of an "eclectic Mission Style" under their plan. In keeping with this style, Thorman used a more traditional California Mission Style when he designed Goddard Hall, including a bell tower. Since its construction in 1913, Goddard Hall has provided classroom space for NMSU students and faculty.
