Scope and Content Note:

The National Register of Historic Places (NRHP) is the official list of the Nation's historic places worthy of preservation. Authorized by the National Historic Preservation Act of 1966, the National Park Service's National Register of Historic Places is part of a national program to coordinate and support public and private efforts to identify, evaluate, and protect America's historic and archeological resources.

- From the National Register of Historic Places site: <http://www.nps.gov/nr/about.htm>

The Single Property listing records from South Carolina are comprised of nomination forms (signed, legal documents verifying the status of the properties as listed in the National Register) photographs, maps, correspondence, memorandums, and ephemera which document the efforts to recognize individual properties that are historically significant to their community and/or state.
