DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

Old Main is constructed of broken coursed, cut stone of local origin called Sioux Falls Quartzite. It is a three-story structure, exhibiting a variety of architectural types. The front of the building presents a large central section with two related, but smaller wings to each side. The center section is based on an apse and transept plan. Georgian cupolas, offset to the outside of each wing, tower over a pediment complete with boxed cornices, decorated friezes and brackets. All decorations are of stamped sheet metal.

Main and third floor windows are surrounded by sandstone quoins and are double hung with sandstone mullions. Second-story windows have transoms. The main entrance is surrounded by an enclosed porch which rises to provide a ballustrade to the second and third floor. The main door is like the windows with sandstone lintel and quoins.

Each wing measures 48 ft. x 62 ft. and is attached to the main building by a narrower extension, also of two stories. A single cupola rises above a facade on the outer side of these wings.

The rear of the building forms an apse containing a small theatre. The uppermost part of the third story above the domed roof of the theatre is of wood.

The original building (1883) exhibited a Scandinavian influence not evident in the existing structure. Its destruction by fire in 1893 and subsequent rebuilding resulted in many major modifications. It appears that the architecture was adapted to available materials. Many decorative features came from buildings of the World Columbia Exposition of 1893 held in Chicago.

The interior contains classrooms and a theatre. Restoration plans call for gutting the building and installing more efficient classrooms and work areas. Old Main has 45,404 sq. ft. of floor space of which 30,421 could be made useable.

STATEMENT OF SIGNIFICANCE

SEE INSTRUCTIONS

Old Main was the first building of higher public education constructed in Dakota. The First Dakota Territorial Legislature authorized the location of a territorial university at Vermillion on April 21, 1862. Little was accomplished toward the establishment of the University until 1881 when Congress granted 72 sections of land to Dakota for a University when admitted as a state. This official action stimulated Vermillion citizens to form a corporate association to establish the University of Dakota. As the result of efforts of this group, Clay County issued \$10,000 in bonds on March 13, 1882.

The Vermillion Association used the proceed of the bonds to construct the west wing of University Hall (Old Main) in 1883. That same year the legislature ratified and sustained the action and accepted the building as a free gift. In 1884-1885, the center portion of the building was constructed, and the east wing was added in 1887.

Old Main is constructed of a pink quartzite which is locally quarried near Sioux Falls, South Dakota and is no longer used for building stone. Mr. W. L. Dow of Yankton, later Sioux Falls, served as the architect for the entire structure.

In October of 1893, Old Main was gutted by fire. The basic shell remained and the building was immediately rebuilt. Clay County contributed \$30,000, with the City of Vermillion and its citizenry contributing an additional \$12,500. Incorporated into the reconstruction were materials and decorations from buildings at the World Columbia Exposition. These included items such as a series of stamped metal friezes on the exterior front of the building.

Old Main served as the center of activity for the University for a number of years. The building remains as one of the few surviving structures that are both sound and significant in the heritage and traditions of this area.

As the original structure of the University of South Dakota, Old Main serves as an expressive tie to every graduate with the past. Present plans call for a complete renovation of the interior and restoration of the exterior. It is intended to use the structure, once restored, for administrative offices and classrooms.

Dear Mr. Murtagh:

Enclosed is the nomination form for Old Main, which we are re-submitting with a U.S.G.S. map.

Old Main is being considered for Meeting House Proposal funds from the National Trust for Historic Preservation, and should be considered a high priority site in terms of its early review by the National Register.

Thank you.

Sincerely,

John J. Little, Director
South Dakota Historic Preservation
