No.: 138 Issue Date: March 20, 1984 Effective Date: January 1, 1984

Section V
Subsection D
Paragraph N.A.

SUBJECT: Lists of Fare-Basis Codes for Passenger O & D Survey Report.

We transmit the enclosed lists of fare-basis codes for guidance in the preparation of your company's passenger O & D Survey report.

List A is intended to display all combinations of one- and two-character fare-basis codes which are acceptable for O & D Survey reporting. Codes with three or more alphabetic characters (except YMA and YMZ) or with one-alphabetic character followed by a numerical suffix which denotes a discounted fare (Y2, Y5, etc.) are to be shown as two alphabetic characters by placing the prime code in the left-hand position and substituting the discount code "D" for the remainder of the code combination. Further, disregard any suffix which denotes the number of days or months of validity and record only the prime code. The numerical suffixes for two-letter codes, such as YE27, YG8, and YV12 are to be ignored. The codes YMA and YMZ (Military Categories A and Z) are treated as MA and MZ, respectively.

List B, on the other hand, displays the codes contained in List A consolidated into the six major categories that will be shown in the Board's O & D tables.

Each carrier has the option of submitting its O & D Survey data pursuant to either List A or List B.

This directive will no longer be issued on a quarterly basis, but only when a change necessitates. If you have any questions, please contact Michael J. German of my staff at (202) 673-5924.

Users may also access ROSCOE member "LL.WAC" to display any interim changes.

No. 183 Issue Date: 11/01/94 Effective Date: 1-1-95
Part: 241
Section: 04
Paragraph: (b)

AIR CARRIER GROUPINGS

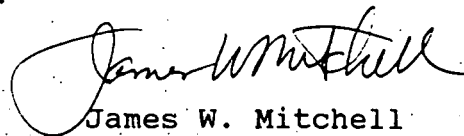

This Accounting and Reporting Directive updates the reporting groups for filing the Form 41 report during calendar year 1995. Section 04 of Part 241 of the Department's Economic Regulations provides for the periodic updating of the air carrier groupings that indicate the level of each certificated air carrier's reporting obligation.

The attached table updates the list of carrier groups contained in Accounting and Reporting Directive No. 172, issued October 25, 1993, which is cancelled. Carriers are grouped according to the operating revenue boundaries contained in Section 04 of Part 241. The reporting levels are:

Group III	Over \$1 billion
Group II	Over \$100 million to \$1 billion
Group I	\$100 million and under
Subgroups	
Group I	\$20 million to \$100 million
Group I	Under \$20 million

The placement of carriers within the specific groupings is based on total annual Form 41 operating revenues for the 12 months ended June 30, 1994. Eleven carriers experienced changes in their reporting requirements as a result of this update (see attachment). Any changes in the reporting groups will become effective January 1, 1995, which will give affected carriers sufficient time to implement any required information system modifications.

Any questions regarding the groupings should be directed to Mr. Jack Calloway at (202) 366-4383.

Director

PASSENGER ORIGIN-DESTINATION SURVEY TRANSMITTAL LETTER

A transmittal letter must accompany your submission of the Passenger Origin-Destination Survey (Survey). Several carriers are submitting the Survey without a transmittal letter.

This transmittal letter must state, among other things, the overall record and passenger counts. These counts are extremely important to the editing process, since they enable us to know whether any records were lost or misread in the process.

The transmittal letter should have the following:

1. Identify the carrier (sometimes we received a letter that is not on the carrier's letterhead).
2. Identify that the submission is the Passenger Origin-Destination Survey (we receive other submissions for other data bases).
3. Identify the period of coverage.
4. Identify the tape, diskette or cartridge number, where applicable.
5. State the Total Record count.
6. State the Total Passenger Count.
7. Provide name and telephone number of the person that can answer questions about the Survey.

Finally, I want to reiterate the request made in my letter of August 23, 1995. In that letter, I requested those carriers still filing Survey data on hard copy forms, to submit their data on PC Diskettes. We hope that compliance is achieved with the September 1995 quarterly data due on November 15, 1995. If you have any questions, please call Don Bright on (202) 366-4373.

This action is taken under authority delegated in 14 C.F.R. 385.27(b) of the Department's regulations. Your cooperation is appreciated.

ACCOUNTING AND REPORTING DIRECTIVE

No. 211

Issue Date: 1/1/97 Effective Date: Immediately

Part: 241

Section: 19-7

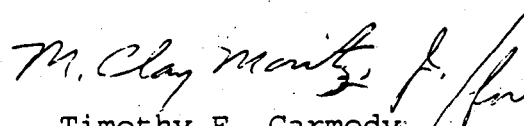

PASSENGER ORIGIN-DESTINATION SURVEY
TREATMENT OF "CONTRACT BULK FARE" TICKETS

The Department is concerned about the numerous occurrences of "unknown" fares (99999) appearing in the quarterly Passenger O&D Survey data as submitted by the reporting air carriers. In an effort to reduce the reporting of "unknown" fares, this directive clarifies the reporting of "contract bulk-tickets." Accounting and Reporting Directive #143 allows reporting carriers to insert 99999 in the dollar-amount-of-fare when they were unable to determine the proper fare. This enabled the Department to differentiate contract bulk-fare tickets from frequent flyer tickets.

It appears that some carriers are making no effort to determine the proper fare value for contract bulk-fare tickets. Carriers should compute an average dollar value fare amount for reporting contract bulk-fare tickets. This figure would be computed by taking the contract revenues received from the contract-bulk operator for the particular routing for the quarter and dividing it by the actual number of bulk-fare passengers carried over that routing for the quarter.

This directive is issued under authority delegated in 14 CFR 385.27(b).

If you have any questions in this matter please contact Mr. Bernie Stankus on (202) 366-4387.

NATIONAL ARCHIVES PRODUCED PRINTOUT OF SOME RECORDS

The Bureau of Transportation Statistics transferred the Origin and Destination Survey, Ticket Dollar Value Origin and Destination, Data Bank 1A, 1995 to the National Archives and Records Administration. The transfer consisted of four data files on four eighteen-track, 37,871 bpi, 3480-class cartridges. Additional technical specifications for each data file, were EBCPAK character set and O/S standard labels. Each data file had 32,000 characters per block. Upon arrival, NARA staff copied the data files to 18-track 3480 tape cartridge, with O/S standard label, using the EBCPAK character set. NARA staff then produced the following printouts from the NARA-created copies; these printouts are character representations of the bit pattern from the first part of each file.
