Assistant to the President for
Science & Technology &
Director, Office of Science &
Technology Policy
17th & Pennsylvania N.W.
Washington, D.C. 20500

OFFICE OF THE
DIRECTOR

Dear Dr. Bromley:

I am sure you have heard that Bill Wallenmeyer has announced his retirement as President of SURA effective June 1992. The SURA Board is in the process of conducting a search for Bill's successor.

Having been involved with SURA's major project, CEBAF, since its inception, you are aware of the nature of the organization and the type of leadership and management necessary to direct SURA in the coming years.

With the completion and commissioning of CEBAF in the next three years, it will become a user facility and will require a somewhat different style of management. This, along with the desire of the SURA Board to pursue projects of multi-university interests, will necessitate more SURA management interaction with universities than it has in the past. On the other hand, the SURA President must command respect in the circles in which he or she moves, which include other similar corporations that manage major scientific projects, the scientific community, and certain federal agencies, as well as universities.

The SURA Board would like very much suggestions you may have for individual(s) whom you think have the appropriate qualifications and experience to serve as its President.

I am enclosing a copy of the announcement of the SURA Presidential Search for your information.

We greatly appreciate your support and interest in CEBAF and SURA and we would value highly any suggestions you have for SURA's future leadership. You may make them by letter, by fax (606 258-1946) or phone (606 257-4994).

Sincerely yours,

Wimberly C. Royster

Chairman
SURA Board of Trustees

WASHINGTON, D.C. 20301-3140

19 JUN 1991

MEMORANDUM FOR DISTRIBUTION LIST

SUBJECT: New Members for the Defense Science Board (DSB)

I would like to solicit your personal recommendations for new DSB members. Attached is a Board roster showing the current Members and Senior Fellows.

We would like to avoid having more than one member from any organization. Board members must be able to spend at least 20 days per year on Board activities. We are still looking for suggestions in the following categories:

Women and Minority candidates
Academics from Midwestern and Southern Schools.

Prior Task Force participation offers the individual, OSD, and the Board an opportunity to determine a person's interest and suitability to Board activities and is a desirable prerequisite to membership on the Board. Those persons recommended, but not selected for Board membership, will be put on our list of prospective Task Force members but will not automatically be carried to the next year for consideration as a "DSB Member."

When submitting your suggestions please give the full name, current position, education, and background to include specific areas of expertise. A short (1 page is preferred) biographical sketch of your nominee(s) would be greatly appreciated.

Please forward your suggestions (along with bio) to the DSB Secretariat, OUSD(A), The Pentagon, Room 3D865, Washington, DC 20301-3140 by August 1, 1991.

A handwritten signature in cursive script, reading "John S. Foster, Jr.", is positioned above the printed name.

THE WHITE HOUSE
WASHINGTON

July 9, 1991

Dear Peter:

I welcome this opportunity to add my congratulations on the occasion of your 20th anniversary at the Missouri Botanical Garden.

You can be justly proud of what you have achieved, not only in making the Missouri Botanical Garden one of the foremost institutions of its kind in the world, but also in terms of your own activities as one of the world's leading spokespersons for biological diversity and for a sane international environmental policy.

Through your activities at the Garden and as home secretary of the U.S. National Academy of Sciences, you are making vital contributions to the quality and direction of U.S. science and beyond that, world science, and all of us in the Nation are indebted to you for your exemplary leadership.

I count it a privilege to be allowed to join with your colleagues and friends in the Garden in forwarding this note of congratulations. May you have a very long, happy, rewarding, and continuing career on the frontiers of biological--and specifically botanical--sciences. Having read it with fascination I know that your textbook is introducing vast numbers of children to the tremendous adventure that we have been fortunate enough to share.

President Bush has asked that I convey to you both congratulations on this happy occasion and most sincere thanks from him and from Mrs. Bush. They salute you for your leadership and for the key role that you continue to play in making science accessible and attractive to American children.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley

THE WHITE HOUSE
WASHINGTON

July 9, 1991

Dear Dr. Crosby:

Many thanks for your letter of June 6 which arrived while I was in the Soviet Union. I welcome the opportunity to contribute a letter that will be made available to Peter Raven on August 1, 1991 when you celebrate the 20th anniversary of Peter's arrival at the Missouri Botanical Garden. I have enclosed the letter as you suggest and would much appreciate your making it available to Peter at the appropriate time.

Again, my thanks for this opportunity to participate in what is a very happy event.

Sincerely yours,

D. Allan Bromley
The Assistant to the President

9121779
OFFICE OF THE
DIRECTOR

91 JUN 18 PM 2:21

RECEIVED

6 June 1991

Dear Colleague:

Please pardon the impersonality of this note, but it is going out to about 2000 of Peter Raven's friends and colleagues. August 1, 1991, marks the twentieth anniversary of Peter's arrival here at the Missouri Botanical Garden, and I am writing to remind you of this fact and inviting you to send a letter of congratulations on his achievements to date, should you wish. We would like to surprise Peter with these letters, presenting them to him at our monthly all-Garden staff meeting, which will be on 21 August. I expect there will be literally hundreds of letters, and we will give them to him in a large mail bag. We would like to keep this a surprise, so if you wish to write a letter, please place it in an envelope addressed to him and then place that envelope in another envelope addressed to me, and mail it to me here at the Garden. I will then open the ones addressed to me and place the envelopes addressed to him in the mail bag for him on the 21st. Please do not fax your reply, since Peter often collects faxes from the machine, and in this way could discover what we are up to.

Sincerely yours,

Marshall R. Crosby
Assistant Director

TO: AYA Assembly Delegates, Club
Officers, Class Secretaries, Officers
of Graduate Alumni Associations,
University Council Members, Alumni
Fund Directors, Yale Alumni
Publications Board and Yale
Development Board

FROM: Harvey Applebaum, Chair
Board of Governors

As you are aware, the Yale Medal is the
highest honor awarded by the AYA. The Board
invites you to nominate candidates for the
1992 Yale Medal.

Up to five Yale Medals can be awarded at the
AYA Assembly in April 1992. These awards are
based on the sole criterion of "outstanding
service to Yale." Recipients do not
necessarily have to be Yale degree holders,
but they must be available to accept the
award in person. As you consider
nominations, please keep in mind our diverse
population of alumni and friends. Many
different paths can be taken to provide
outstanding service to the University.
Anyone whose service merits recognition is
eligible except current members of the Yale
Corporation, AYA Board members, and the
University faculty and staff.

Nominations should be received by the
Secretary no later than August 1, 1991.
Enclosed is a nomination form and a reply
envelope.

The Board and the Yale Medal Committee
appreciate your assistance in identifying
potential candidates of this prestigious
award.

THE WHITE HOUSE

WASHINGTON

July 30, 1991

Dear Marvin:

Mary Anne tells me of your interest in nominating me for the Yale Medal in 1992. I am not at all sure this is strictly kosher while I am on leave from my Henry Ford II Professorship, but I did want to tell you how very much I appreciated your willingness to do this.

Were you to do it, I would assume that the sorts of things that you might want to mention would include the fact that I founded the A.W. Nuclear Structure Laboratory in 1963 and served as its director until 1989. During that period it graduated more PhDs in experimental nuclear physics than any other institution in the world.

To list a variety of other possible items the following might be considered:

- o I served as Chairman of the Yale Physics Department from 1970 through 1977, a period of substantial growth in the Department.
- o Except during the years when I was Chairman, I taught both undergraduates and graduates and, in particular, established the course **Science and Public Policy** as one whose graduates have moved in large number both to the Congress and to the Administration.
- o In parallel with my Yale activities, I served as President of the American Association for the Advancement of Science, the world's largest scientific society, and as President of the International Union of Pure and Applied Physics, the world coordinating body for that particular science.
- o During 1969-1971 I chaired the National Academy of Sciences Physics Survey Committee which charted the course of that science for the coming decade.
- o My Yale activities have been recognized by election to the National Academy of Sciences, the American Academy of Arts and Sciences, and as a Benjamin Franklin Fellow of the Royal Society of Arts in London. I also hold 20 honorary doctorates from universities in Germany, France, Italy, South Africa, Canada, and the United States, and was awarded the U.S. National Medal of Science by President Reagan.
- o On leave from the Henry Ford II Professorship in Physics at Yale, I am serving as The Assistant to the President for Science and Technology and as Director of the Office of Science and Technology Policy in the Executive Office of the President.

Whether any or all of this is pertinent I leave up to you. And again, my warmest thanks for the thought.

In the event that your travels ever bring you to the Washington area, please do give me a little warning because I would be delighted to take you to lunch at the White House Mess and I think you would enjoy it. In any event, it would be great to compare notes because it has been far too long since our paths crossed.

With warmest best wishes,

Sincerely yours,

A handwritten signature in black ink, appearing to read 'D. Allan Bromley', with a stylized flourish extending to the right.

The Assistant to the President
for
Science and Technology

Mr. C. Marvin Curtis

THE WHITE HOUSE
WASHINGTON

July 30, 1991

Dear Mary Anne:

I am enclosing herewith a letter to Marvin whose address I do not have and would appreciate your passing it on to him. I am not at all sure that I am an appropriate candidate for this particular award since I am on leave but we will let Marvin figure this out.

I should tell you, incidentally, that the Corporation has just voted on the request of President Bush to extend my leave for a third year so that I can continue my activities here. From here on in the leave extends on an annual basis at the request of the President (or does not extend as the case may be!).

I am still looking forward to seeing you, Steve and Megan here in Washington.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley
The Assistant to the President
