Dear Mr. Chairman,

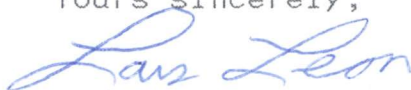

On behalf of the University of Kansas Libraries I would like to thank you for your recent gift of **Science and Technology**.

Gifts such as yours help support the University's teaching, research, and public service mission by strengthening the Libraries' collections.

A copy of the Libraries' gift policy is enclosed for your information.

Thank you for thinking of the KU Libraries.

Yours sincerely,

Lars Leon

16 July 1992

Dear Dr. Bromley,

Thank you very much for joining the White House Fellows for lunch. Your comments concerning national security, the Defense Department's role in science and technology, the future of the U.S. space program, and the differences between Japanese and American industrial managers were extremely educational and thought provoking.

I am sure I speak for my fellow Fellows when I say that I sincerely appreciated your words on the White House Fellows program. They were very similar to the words of Caspar Weinberger. I suspect that we will all work very hard to live up to your expectations.

Again, thank you for taking the time out of your busy schedule to meet with the White House Fellows. I wish you continued success.

Sincerely,

A handwritten signature in blue ink, which appears to read "W. Scott Gray IV", is written over the typed name.

W. Scott Gray IV

Dear Dr. Bromley:

We would like to thank you for your participation in the Technology Symposium last week. It was truly an honor to have you as a special speaker. The expertise you brought to the forum provided a solid framework for our discussion. We have already received many compliments and appreciate your role in this event's success.

In the upcoming weeks, we will be sending you photographs, newspaper clippings, and video tapes of the symposium for your files.

Once again, we appreciate your interest in the Foundation and its activities. We hope that you will continue to support our endeavors and will look forward to working with you in the future. Thank you again.

Sincerely,

Ann Woodward

Dear Dr. Bromley:

The tribute to the "Maize Craze" teams by President Bush at the Rose Garden ceremony on June 23rd was an exceptional honor. President Bush's remarks will enormously enhance the success of next year's competition and will help to elevate the mission of U.S. FIRST to national importance.

It is with deep gratitude that I thank you for making our inclusion in such a prestigious ceremony possible and welcome.

With all best wishes.

Respectfully,

Dean Kamen

Dear Dr. Bromley:

On behalf of the Board of Directors of the Forum for World Affairs, I would like to thank you for your presentation at our International Council evening on June 9. The audience at the reception very much enjoyed your remarks, particularly your insight on the Soviet-American technological dialogue. Your knowledge of current scientific matters and the Bush administration's enlightened approach to this area was appreciated by those in the audience.

The Forum is so grateful that you took the time to visit us here in Connecticut. We hope that you enjoyed your return to the area, as many of your friends so much enjoyed hearing you speak. The event was truly a highlight in our spring season, one that captured much interest from members of The Forum, as well as the local citizens.

Sincerely,

Barbara

The Honorable Allan Bromley
Assistant to the President
for Science and Technology
Rm: 358 OEOB
17th & Pennsylvania Ave, N.W.
Washington, D. C. 20500

Dear Dr. Bromley:

We are writing to thank you for agreeing to participate in the June 23rd symposium being sponsored by the Foundation for the National Technology Medal and the Council on Competitiveness. We also want to remind you of our reception honoring this year's Science and Technology Medal recipients, as well as update you on the Foundation's activities and provide details about the symposium's format. Please accept our apologies for the slight change in the times of the event due to a conflict with the President's schedule.

As you know, the Foundation is a non-profit, 501(c)3, educational organization dedicated to increasing public awareness and appreciation of the National Medal of Technology and the importance of technology development to our nation's future. We are excited about our future role in educating the public about technology.

In regard to the symposium, the overall theme is: "A Vibrant Technology Industry Is a Key to U.S. Economic Growth and Competitiveness." Our moderator will be William Holstein, editor of the international edition of BusinessWeek magazine. He will direct a three-hour discussion that will be divided into three topic sessions featuring one or two special speakers. The agenda is as follows:

LOCATION: Crystal Room, Willard Hotel

TIME: 7:00 a.m. - 8:00 a.m.

Continental Breakfast

8:00 a.m. - 8:15 a.m.

Opening Comments by

Steve Burrill, Foundation for the National Technology Medal

8:15 a.m. - 9:15 a.m.

Session 1

Topic: The changing defense environment and its potential impact on new technology development.

Special Speakers: Senator Al Gore and Congressman

One Sansome Street, Suite 3300
San Francisco, California 94104
Phone (415) 951 3010
Fax (415) 989 7802

George E. Brown.

9:15 a.m. - 10:15 a.m.

Session 2

Topic: Technology's importance to our nation's economy and ability to compete internationally.

Special Speaker: Clayton Yeutter, Counsellor to the President for Domestic Policy.

10:15 a.m. - 11:00 a.m.

Session 3

Topic: Successful strategies for science and technology.

Special Speakers: Dr. Allan Bromley, Assistant to the President for Science and Technology, and Robert White, Department of Commerce Under Secretary.

11:00 a.m.

Light Brunch

We would appreciate you arriving in the Crystal Room approximately ten minutes prior to your session. As a special speaker, you will be seated next to the moderator and will have the opportunity to open discussion on that hour's topic with a brief statement of about five minutes. After your brief opening remarks, the moderator will direct a discussion involving the distinguished group of corporate and university participants. Accompanying this letter is a list of those who are participating in the round-table discussion. As you will see, the symposium's participants have diverse backgrounds in the field of technology. In fact, several are past recipients of the National Medal of Technology. Mr. Holstein will have the challenging task of ensuring that all participants are engaged in the discussion.

Under a separate invitation, you were cordially invited to join us on Sunday, June 21st, for a reception to honor the 1992 Technology and Science Medal Winners at the Willard Hotel from 6:30 p.m. to 9:30 p.m. in the Ballroom. Should you have any question regarding the symposium or the reception, we encourage you to contact Rob Rehg, Edelman Public Relations Worldwide, at (202) 371-0200. Mr. Rehg is helping to coordinate Foundation activities.

This is an exciting time for the Foundation, and we are extremely grateful for your participation in what promises to be a rewarding experience for all who are committed to helping our nation's technology industry.

Sincerely,

A handwritten signature in blue ink that reads "A. Woodward".

Ann Woodward
Executive Director

Dear Allan,

A sincere and warm thanks for sharing with us in our commencement exercises and honorary degree ceremony. Your speech on Friday evening could not have been better. The audience appreciated it enormously and I continued to hear wonderful comments. It was an honor for us to have you here and to award you the honorary degree.

I am also so pleased that you began to learn something to UMass Boston. We are dedicated to improving scientific literacy among our students and also producing future scientists and engineers. I have enclosed some information for you about the campus as you requested, and shortly we will send you an official copy of the citation and pictures of the event.

I hope some time to talk with you in Washington about some ways that urban universities could be helpful not only in producing more scientists for the future, but also in working on the nation's urban problems. Vice Chancellor Desmond, on my staff, has talked with Secretary Watkins, and perhaps the Secretary would consider some things that could be done at UMass Boston that could be helpful in the broader picture.

In any event, I wanted to write right away to let you know again how much we appreciated your being here; how good it was to see you here again; and how we were honored by your presence.

Most sincerely,

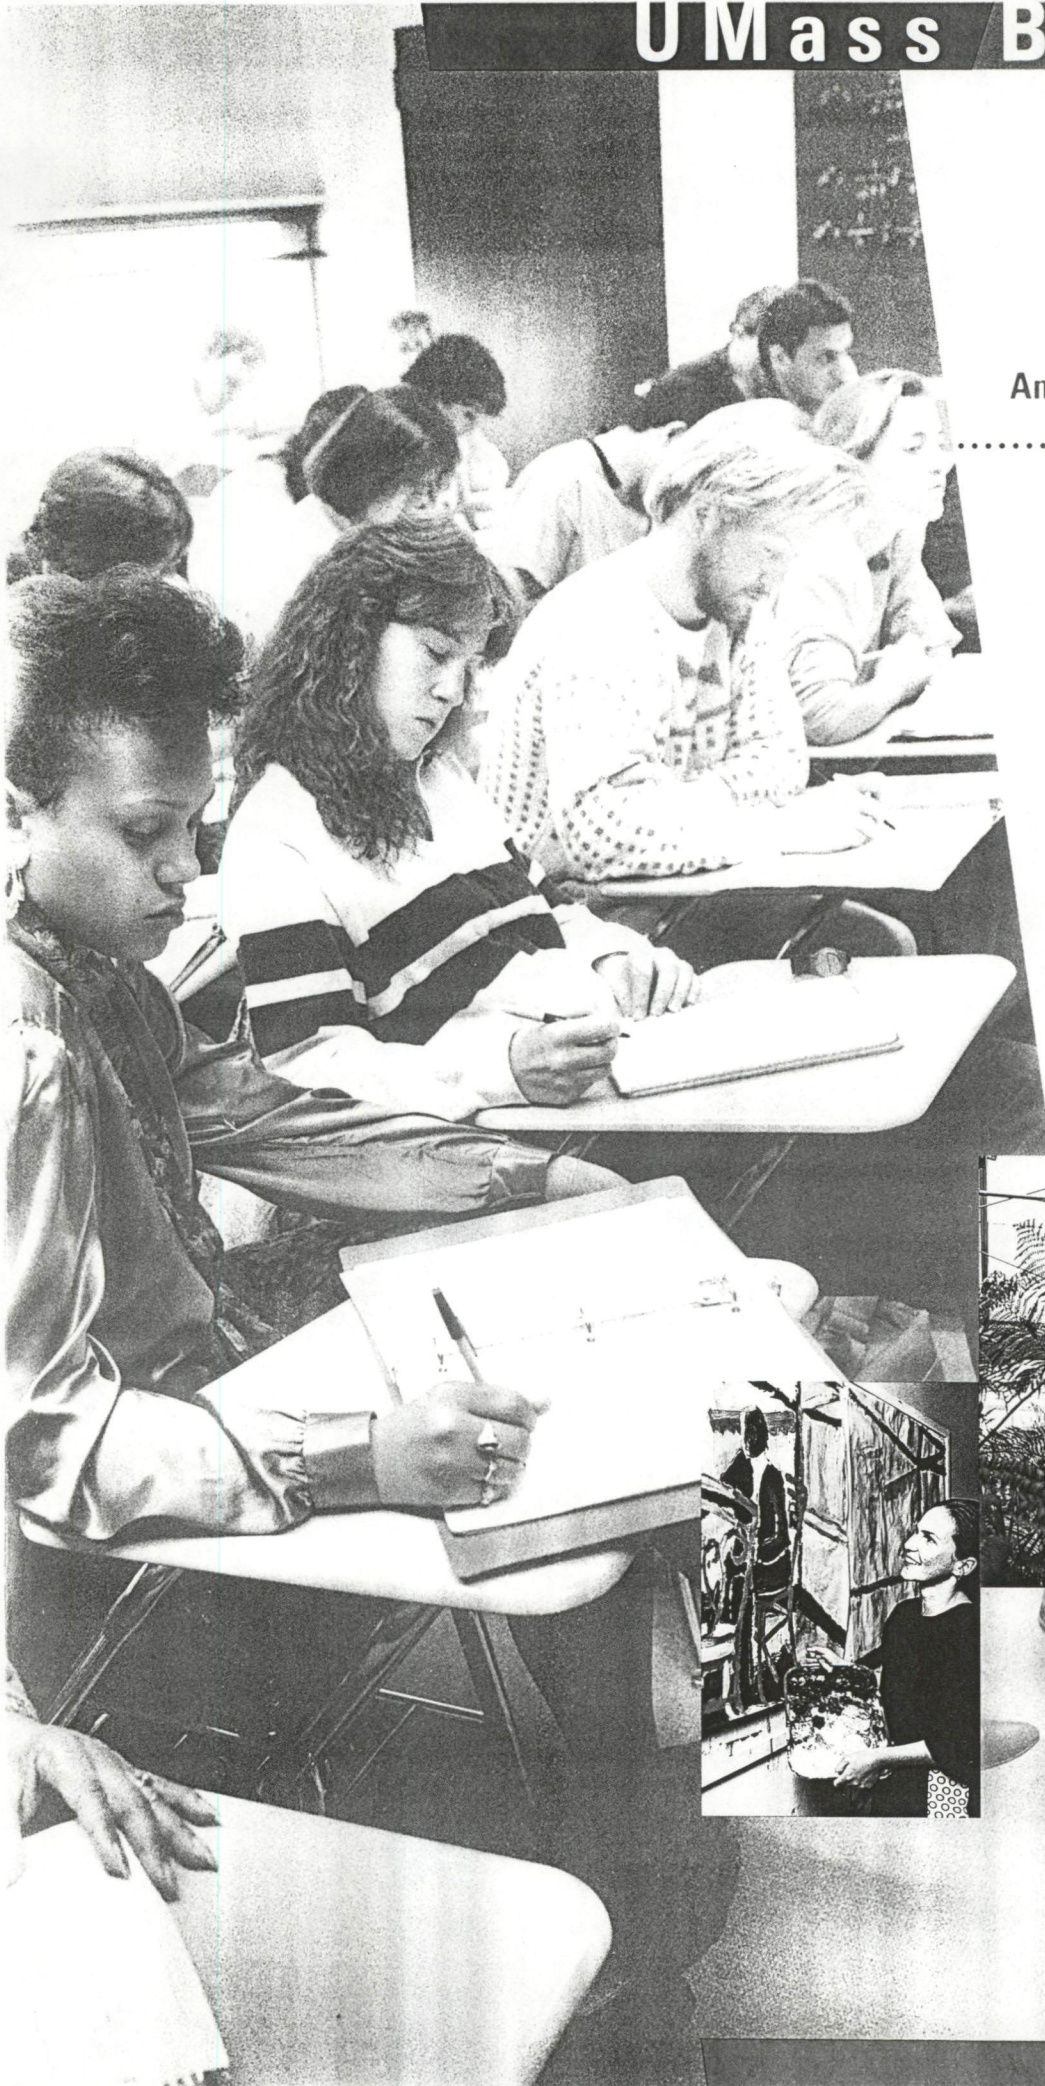

A handwritten signature in cursive script, appearing to read "Sherry".

June 1, 1992

Dear Dr. Bromley:

Thank you very much for your kind letter of May 20, 1992 informing me of my selection as a 1992 Presidential Faculty Fellow. It is certainly my honor to be a recipient of this prestigious award, and I would like to thank you very much for your interest and enthusiasm on my accomplishments. Also, I would be grateful if you would please convey my appreciations to President Bush for establishing this program and for giving me this unique opportunity to continue my research and my teaching plans with the support of the PFF Award.

I feel that the excellent reputation of our State University, SUNY system, and the outstanding quality of our administration and my colleagues here at the University at Buffalo, were major factors in facilitating this award. For that I am very grateful to be a member of the faculty of this excellent university, and many thanks to you and to President Bush for the support of our excellent university and my activities.

Thank you, one again, for everything.

Sincerely,

Peyman Givi
Associate Professor

Dear Dr. Bromley,

Thank you for the lunch and discussion. As usual, being with you was most entertaining and enlightening. I had hoped to include with this note an answer to your question regarding Navy funding of university research. However, I am having trouble getting a complete answer from Navy. I will continue to work this and you should receive that in due course.

Warm regards,

Bruce

May 28, 1992
[Dictated May 24, en route
London-New York]

Dear Allan:

Returning home, I write in praise of the arrangements that you and Bill Stewart made for the third meeting of the Carnegie Group. The congeniality and friendly spirit I noted during the afternoon and evening at Leeds Castle were heartwarming and gave promise of candid and sensible discussion on the following days.

Leeds Castle itself was enchanting, a veritable child's storybook embodiment of what a small family castle should be. Peter Carter was attentive to every detail; as were our Carnegie staff at Seven Springs.

I especially enjoyed getting to know Bill Stewart better; I think of him as a wise and honorable man and as a good personal friend. Getting to know Boris Saltykov, whom I had met at dinner in New York two or three months ago, was also very rewarding; I liked him and feel a comfortable rapport. Thanks to discussion with him, I think I understand the Russian situation a little better; and I hope that in some small ways I can be helpful to Russian-U.S. relations and to improving the plight of Russian scientists.

I won't go through the whole list, but I'm glad to have sat next to Hubert Curien at dinner: a bright, wise, and canny fellow. Bill Winegard is easy to know and I felt I knew him from previous meetings. I remember Mr. Ruberti from the previous meeting as a personable fellow, but I'm critical of what appeared to be an inconsiderate and financially wasteful cancellation at the last minute. The political insecurity in Italy was chronic not acute. Could he not have cancelled before his interpreter was en route from New York to London? Wataru Mori continues to merit my admiration for his gentlemanliness, wisdom and dedication.

I hope the conference itself went well, and I look forward to hearing about it at your convenience. I repeat that if the members consider it worthwhile to continue the meetings of the Carnegie Group (as I hope they do) and if there are some financial problems growing out of travel fund constraints in some countries, I am confident that supplementary funding will be available from a private source or sources. We can discuss this if and when you think it worthwhile.

With warm regards,

Sincerely,

Bill

Dear Dr. Bromley:

I am grateful for being selected as a Presidential Faculty Fellow and appreciate the added opportunity to make a difference in engineering research and education. The Presidential Faculty Fellows Program, begun last year by President Bush, will undoubtedly inspire students in elementary and high schools and facilitate innovative research with potentially dramatic practical applications.

In closing, I would like to commend the Administration for the America 2000 plan. I will be working with our region's schools to help make it work.

Sincerely,

A handwritten signature in blue ink, appearing to read 'D. A. Zumbrunnen'.

Dear Dr. Bromley:

This letter is to thank you for so graciously accepting our offer to reschedule your talk before our group. Although Dr. Ratchford would certainly have been a superb speaker, it was American Cyanamid's hope, as the corporate sponsor of this event, that you might be able to come at some more convenient time instead.

We look forward to your visit on June 9th. As before, it will be held at the Hyatt Regency Hotel in Greenwich, CT. The format will be a cocktail reception at 6:15 p.m., speech at 7:00 followed by audience questions, then coffee and dessert served at 8:00. We often ask the speaker to come a bit early so that he can make a few comments to the local media beforehand. As discussed with Damar Hawkins and Joyclyn Tussey, there is no dinner scheduled, and no need for you to make your stay in the Greenwich area an overnight one if you prefer to get back to Washington.

Thank you again for your cooperation in rescheduling this event.

Sincerely,

Robert Charles
Chairman, International Council

Dear Allan,

I want to thank you for your very gracious hospitality during my visit last week. In particular for the opportunity to lunch at the White House Executive Mess. I have dropped that little item in my conversations at the appropriate time and have been rewarded with a suitable mix of surprise and envy. Thank you also for those mementoes of the visit. As I mentioned, I plan to save them for my grand children when they are old enough to appreciate them. It was great fun chatting about old times and appreciating the great opportunities we have had in our lives.

I will certainly get in touch with you the next time I get a chance to visit Washington.

With fond regards,

Leonard M Goldman

Dear Allan:

Thank you very much for taking the time to speak with members of the National Conference of Republican County Officials at the recent White House briefing.

The thoughts you shared regarding the Office of Science and Technology as it relates to local elected officials were very timely and interesting. Many of the county officials took the time to let me know that they enjoyed the opportunity to hear your thoughts and were very supportive of your efforts.

If I, or the RNC, can ever be of any assistance, please do not hesitate to let me know.

Sincerely,

Jane Abraham
Deputy Political Director
