THE WHITE HOUSE

March 18, 92

Dear Bill:

It was great to be back at
Queen's and to see so many old
friends. Here with the requested
SCOPE document.

Best regards Allan

Dr. D. Allan Bromley
Executive Office of the President
Office of Science and Technology Policy
Old Executive Office Bldg., Rm. 360
17th and Pennsylvania NW
Washington, D.C.
20506

Dear Allan:

It was a pleasure to meet with you again last week and to hear your views on a whole variety of matters. Rod Fraser and I found our discussion very stimulating and we think very useful in helping us to improve our approach to U.S. fund raising and advisory committees and the like.

We remain strongly committed to the concept of the Chair in Science and Technology Policy and we would like to work out a strategy which takes into account fund raising opportunities in the U.S. and their dependence on your own movements and aspirations. We see this Chair as a major component of the School of Policy Studies, made even more important by the recent elimination of the Science Council of Canada.

During our conversations you mentioned your office had recently brought out a report containing regulations covering the introduction of genetically engineered substances to the environment. I wonder if you could arrange to send us a copy as its contents will be of immense value to the Insect Biotech Centre here at Queen's?

Once more thank you for your advice and for your continued interest in Queen's.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Wm'.

Wm. McLatchie
Vice-Principal (Research)
Dean of Graduate Studies
