Dear Larry:

Unfortunately, I did not receive your letter that was hand carried by Dave Shirley until after President Bush had left Washington for Rochester, Kennebunkport, and Boston so had no opportunity to talk with him on the topic you mentioned.

Under normal circumstances, however, this is the kind of heads-up warning that can be extremely helpful, and I appreciate your thinking of it.

With all best wishes.

Sincerely yours,

Professor D. Allan Bromley / Presidential Science Advisor Designate
Physics Department
Yale University

Dear Allan:

Presidents Mitterrand and Bush will present jointly the commencement address at this University on Saturday. With Dr. Silber's deep commitment to upgrading basic science and research in this country, the US and French funding will certainly be discussed at lunch and at a short meeting we are planning after it. We plan to make the case for a return to the levels of twenty years ago, levels that continue (per group, or per population) in France. Of course I will thank President Bush for his strong endorsement of the SSC. Perhaps it would be wise to alert him to the topics of concern in the northeast and of Silber in particular.

Sincerely
Lorvynsk
