MEMORANDUM FOR GOVERNOR SUNUNU

FROM: D. ALLAN BROMLEY *AW*

SUBJECT: TECHNOLOGY POLICY

Attached is a copy of a statement of the Administration's current technology policy.

This policy paper grew out of several requests from Congress during the course of the year for a single statement of Administration policies. It was compiled with the assistance of the Chairman of the Council on Economic Advisors, OMB staff, EOP, and other interested Federal government agencies. It is not intended to break any new policy ground, but instead it can serve as the baseline for our current policies.

I would be happy to discuss further with you the genesis of this document and future steps to take in addressing some of the issues raised in the process of compiling the policy statement.
