THE WHITE HOUSE

WASHINGTON

November 29, 1989

Dear Richard:

It has taken me some time to find the time to read your paper with Ernie Klema and Adnan Shihab-Eldin, entitled, "Some Claims of Unusually Large Effects of Radiation."

This is the most useful paper that I have read on the entire question of radiation-induced carcinogenesis, and I am sure that a great many of us will be greatly indebted to you for this important clarification of the situation. As you quite correctly note in your paper, there is often a deceptive plausibility about some of the arguments being advanced from the anti-nuclear camp, unless one has the time and opportunity to do the kind of detailed analysis that you and your colleagues present in this paper.

Congratulations on an excellent piece of work, and my thanks for sending it to me.

Where do you anticipate publishing it? As soon as reprints become available, I would appreciate five copies.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley
