THE WHITE HOUSE
WASHINGTON

May 18, 1992

Dear Bill:

Many thanks for sending me a copy of the EPA Progress Report 1989-1991. It is an impressive document and one of which you should be justly proud.

I should report to you that I continue to hear nothing but rave reactions to your presentation to the membership of the National Academy of Sciences. It was very good of you to take the time to join us and you made a great many friends.

With all best wishes,

Sincerely yours,

D. Allan Bromley
The Assistant to the President
for
Science and Technology

Jan Connie:

Sylvia Earle, the chief scientist at NOAA has just resigned. I am enclosing a CV for Charles L. Herder who, I think, would make an excellent replacement. I am told, but cannot confirm from personal

experience that he is a good Republican. He has very recently retired from Penn State and so might be convinced to join NOAA this late in this Admin. As you will note he is a very able and distinguished individual.

Sincerely

Dhan

MEMORANDUM FOR SAM SKINNER
HENSON MOORE
CLAYTON YEUTTER

FROM: D. ALLAN BROMLEY

A handwritten signature in black ink, appearing to read "Allan", is written over the printed name "D. ALLAN BROMLEY".

You may have noticed that the March 20 issue of the Washington Times magazine was largely devoted to a grossly unfair and distorted article by a Micah Morrison concerning the Bush Administration's actions with respect to stratospheric ozone.

Some of the claims were so outrageous that I felt it necessary to respond. For your possible interest I am attaching herewith copies of the original piece and my letter in response to it.
