GLOBAL CHANGE STRATEGY TASK FORCE

September 8, 1992

- I. Welcome and thanks for coming.
- II. Now that UNCED is over and the climate change convention is on its way toward ratification by the Senate, it is important that this group meet to review the present status of climate-related issues and to discuss next steps.

There are several areas where there has been considerable activity, and I thought it might be useful to have Bob Reinstein provide us with a briefing on these recent activities. As noted on the agenda, we need to discuss climate change convention follow-up, the IPCC process, and the Montreal Protocol meetings which were just completed in Brussels.
- III. I would now ask Bob to give us a summary of the present status of and recent activities on these issues as well as future activities.

Introduce Bob Reinstein to discuss each of the following in this order (agenda):

- I. Climate Convention
 - o Country Studies
 - o December INC Meeting
- II. IPCC Process
- III. Montreal Protocol Meetings
- IV. Other business
