MEMORANDUM TO D. ALLAN BROMLEY:

FROM: Maryanne Bach 
FCCSET Exec. Director

*"Presidential
Initiatives"*

SUBJ: DRAFT PRESS RELEASES-FCCSET CROSSCUTS

Per your request, enclosed for your review are the draft press releases for the FY 92 U.S. Global Change Research program and the FY 92 High Performance Computing and Communications program. The FY92 Mathematics and Science Education press release is still in preparation and will be available for your review early next week.

Sarah Keegan has agreed to circulate the three drafts within OSTP, for appropriate technical review, and then proceed with the necessary OMB clearance.

We will be prepared early next week to lay out options for you regarding the details of the press conference/conferences on the three (3) cross-cuts, taking into account suggestions/input provided by the FCCSET committees.

MEMORANDUM FOR MEMBERS OF THE FULL FCCSET
FCCSET COMMITTEE CHAIRS AND VICE-CHAIRS

FROM: D. ALLAN BROMLEY

SUBJECT: FY 92 FEDERAL RESEARCH AND DEVELOPMENT BUDGET

On February 4, 1991, following the release of the President's FY 92 budget, I will deliver the federal research and development briefing at noon in the Office of Thrift Supervision Auditorium. You are more than welcome to attend.

In addition to the overall research and development briefing, there are Presidential R&D initiatives that merit special attention. Through the FCCSET, with your assistance, we have successfully reviewed, coordinated and organized three interagency programs to form the basis of important Presidential R&D initiatives in high performance computing and communications, global change research, and mathematics and science education, respectively.

Given the degree of coordination and coherence of these three initiatives, I have arranged for separate press briefings to be given on each on February 5, 1991. The schedule below was developed in working with the Chairmen and your agency representatives. I plan to attend each of these briefings and have asked the Chairmen to coordinate the interagency presentations. Please note that any public notice concerning the press conferences on the three initiatives is embargoed until 1:00 PM on February 4, 1991. All reports and press releases about the initiatives are, at OMB request, also embargoed until the time of each briefing on February 5.

I look forward to the opportunity to highlight these results of our FCCSET efforts. If you or your officers have further questions, please contact Maryanne Bach, Executive Director, FCCSET.

High Performance Computing and Communications

Location: National Science Foundation
Room 540

Dr. Eugene Wong, OSTP Associate Director for Physical Sciences and Engineering will present the overview on behalf of
Dr. Charles Herzfeld, Acting Chairman - FCCSET Committee on Physical, Mathematics and Engineering Sciences.
