MEMORANDUM FOR THE PRESIDENT

FROM: D. ALLAN BROMLEY *Alan*

SUBJECT: THE REPORT OF YOUR PCAST PANEL ON SCIENCE,
TECHNOLOGY AND NATIONAL SECURITY

The PCAST Panel, cochaired by Drs. Sol Buchsbaum and John Foster, Jr., has completed its study of the roles of science and technology in the vastly changed national security environment in which -- thanks in substantial measure to your activities -- we find ourselves in the post Cold War era. There are major opportunities here as well as major potential pitfalls.

The Panel members have brought a broad range of expertise and experience to their task and I am happy to transmit their report to you with the unanimous support of the entire PCAST. We would welcome the opportunity, perhaps at our April meeting, to discuss this report with you or expand at any time on any section or sections of the report.
