THE WHITE HOUSE

WASHINGTON

June 13, 1990

Dear Bill:

Many thanks for your kind note concerning my election to the National Academy. I particularly appreciate your taking the time to write and look forward to our paths crossing soon. It has been too long since the last time.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley  
Assistant to the President  
for  
Science and Technology

Dr. William Bevan  
Vice President  
John D. and Catherine T. MacArthur Foundation  
Suite 1100  
140 South Dearborn Street  
Chicago, Illinois 60603

THE WHITE HOUSE  
WASHINGTON

May 15, 1990

  
Dear Dr. Raven:

I am greatly honored to accept membership in the National Academy of Sciences and look forward to serving it well.

Please have my diploma made out as follows: **D. ALLAN BROMLEY**

Sincerely,

**D. Allan Bromley**  
Assistant to the President  
for  
Science and Technology

**Dr. Peter H. Raven**  
Home Secretary  
National Academy of Sciences  
2101 Constitution Avenue, N.W.  
Washington, D.C. 20418

Dear Virginia:

It was very thoughtful of you to write concerning my election to the Academy. It was a great pleasure meeting you here in my office and I am sure that we will have occasions to discuss matters of mutual interest in the not too distant future.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley  
Assistant to the President  
for  
Science and Technology

NAS

Dear Bill:

It was thoughtful of you to write concerning my election to the Academy and I much appreciated your note. I hope that our paths will cross in some of the Academy activities because I miss our interactions on the National Science Board.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley  
Assistant to the President  
for  
Science and Technology

NIAS

Dear Nyle:

It was very kind of you to send me your note of May 18 concerning my election to the National Academy of Sciences. It has been a very real pleasure working with you over the years in your AID capacity and I hope that we will have occasion to continue this cooperation in your new position with the UNDP.

With warmest best wishes,

Sincerely yours,

D. Allan Bromley  
Assistant to the President  
for  
Science and Technology

NAS

Dear Peter:

Many thanks for your congratulations on my election to the National Academy of Sciences. Having now become a member of this organization I look on one of my major responsibilities as that of adding more nuclear physicists to its ranks because I have long been convinced that we have been underrepresented.

Although I have much less time than I might wish to think about such things, I must say that I was intrigued by Swiatecki's new work on the heavy mononuclei and I suppose in some sense gratified that nuclear molecular phenomena do keep cropping up in all sorts of strange places in nuclear physics.

We did manage to get the increased \$20 million for operating in the nuclear physics budget for FY 91 that has alluded us for a great many years and to get Rhic scheduled for initial construction. My only worry is that the Congress will make some kind of draconic cut in Function 250 that will have a most unfortunate impact on all of science and technology. On the other hand, I am very much gratified that in the current budget summit discussions Dick Darman and the President have both made it clear from the outset that, as distinct from prior such summit discussions, this time a specific effort will be made to protect research and development as a vitally important investment in our national future. I can only hope that this works.

With all best wishes,

Sincerely yours,

D. Allan Bromley  
Assistant to the President  
for  
Science and Technology

NAS

Dear Iz:

Many thanks for your warm note of congratulations on my election to the Academy. I understand completely how family illnesses make changes in one's schedule. Unfortunately, my wife has been quite ill for all of this past year as well.

I have not forgotten the report that we worked on under your chairmanship under WHSC and have been trying to get my head above water sufficiently so that I could invite you to come down to discuss it with my senior staff in the hope that we might be able to reactivate the study and actually make some of what I thought were very excellent recommendations come to past.

Should you plan to be in Washington any time in the reasonable future, and if you have an extra hour or so, please let me know so that I can try to arrange such a meeting.

Apart from that, it would be a great pleasure to see you again in any case.

With all best wishes,

Sincerely yours,

D. Allan Bromley  
Assistant to the President  
for  
Science and Technology
