

Drug
wants to help
+ to send
info

Dear Mr. President,

September 5, 1989

p. 32A

As I watched your live broadcast on television, I felt doubtful that you would be able to reach the goals you set, and I realized you need help.

I am a 28 year old woman. I am a single parent and work full time as a loan officer at a local bank. I do not have much exposure to drugs or the people that use them but realize that I do know some people whose lives have not been good because of their drug involvement.

The reason for my letter is to ask what I can do to help. I know there must be something but I don't know where to start. I fear that my six year old son will be confronted with this terrible problem at any time. I want to help change our country if I can. I can volunteer my time, head a committee or speak publicly if necessary.

I spoke to my son and he would also like to help. Please send some information and direction.

I'm proud to say I voted for you.
I think you're doing a wonderful job!

Take Care & God Bless You,

Rebecca L. Turner
