TEXAS SOCIETY FOR AUTISTIC CITIZENS

MEMORANDUM

TO: TCOH Members

FROM: Michael Twombly
TCOH Organizational Membership Structure

SUBJECT: Proposals

DATE: May 26, 1978

Attached please find a brief narrative concerning the charge of this "task force" and the recommendations which have been generated. These proposals represent the best thinking of TCOH members and potential group members contacted.

The proposals would require TCOH bylaw changes as well as some accommodations for an increased potential membership. Special consideration should be given to the second proposal as it clearly extends beyond the "charge" as it was stated. It has been offered here in view of the need for unified community coalitions and the proven efficacy of such coalitions in the past, especially in the area of legislative contacting and education efforts at the grass roots level.

of the National Society for Autistic Children/Executive Director:Michael Twombly
Stokes Building/314 West 11th/Suite 203/Austin, Texas 78701/(512)472-1454

PROPOSALS AND RECOMMENDATIONS

Organizational membership is restricted by TCOH bylaws to approved organizations with a statewide orientation. Individual membership in TCOH carries no voting power.

The emergence of strong single community or regional advocacy organizations and their inquiries as to membership in TCOH have prompted several brainstorming sessions in which the following issues were raised:

1. The newfound promise of civil rights of handicapped citizens contained in Section 504 regulations, with recent successful legal advocacy and progressive federal legislation.

2. The remarkable effectiveness of local coalitions of the handicapped in establishing good working relationships with their representatives and in educating them to their needs.

3. The concern that TCOH may not be sufficiently coordinating its advocacy efforts with the "grass roots" efforts of consumers.

In relation to these issues the following items and proposals are submitted for your discussion, consideration, and action:

1. Community coalitions and local advocacy groups are essential to TCOH to provide grass roots energy, innovative and progressive strategies and direct consumer involvement at the local political level.

2. Many of these groups may not choose to affiliate with a particular statewide group or to create their own state level organization, and are therefore not eligible for membership in TCOH. How may they participate?

3. One proposal is to create a third kind of TCOH "group" membership, make it eligible to any non-statewide group representing the handicapped with at least 50 to 75 members, assess a smaller annual dues ($25) and offer partial voting power in TCOH Board activities (one/half vote). This solution may well meet the requirements of both TCOH and the potential group.

4. A second proposal would be to encourage and help establish local TCOH coalitions in communities where TCOH member organizations have active chapters. Local coalitions might be afforded the same "group" membership rights as outlined above in #3, provided such approved coalitions represent a certain number of consumer groups and professional associations in the community. This would accomplish two important objectives: grass roots participation in TCOH and direct contact with the local political process.

5. TCOH should be accessible and primarily responsive to the needs of handicapped citizens. In accepting either proposal, TCOH would move in this direction.

MEMO

To: TCOH State Organizational Representatives

From: Mary Lovey Wood

Re: July and October Meetings

Summary of TCOH Meeting - July 30,1977

The state representatives of organizational members of TCOH met in Dallas on July 30,1977, to consider the direction and goals for TCOH in the next two years. The representatives agreed on the following goals:

a. begin a recruitment program for additional member organizations
b. design and apply for a development grant for the development of a central coordinating system for the handicapped. This system would include an information and resource center for parents, a public information and public relations program concerning the handicapped and their special requirements in society, and the pursuit of legislative interests.
c. begin preparing for the 1979 state legislative session by
(1) educating politicians to the needs and desires of the handicapped, and,
(2) deciding on mutually agreed-upon issues for which to lobby.

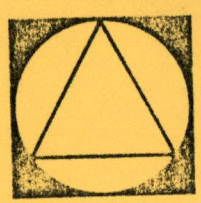

Other major projects will include:

a. contacting the legislative interim studies Committee on Special Education,
b. contacting the Attorney General's office concerning the regional Rights for the Handicapped programs which will be conducted this fall, and
c. contacting the Advocacy, Incorporated, organization.

These contacts will involve asking for information and requesting TCOH participation with each of the groups.

Next TCOH Meeting - October 14,1977, 4:00, Austin, Joe C. Thompson Center

Each member representative will bring from their respective organizations description of their legislative intents and plans. From this, TCOH will define commonalities which will serve as the basis for TCOH lobby and public information

American Coalition of Citizens with Disabilities

Tuffs Research and Training Center No. 7
Boston, Massachusetts

May 1, 1977

The American Coalition of Citizens with Disabilities, Inc., (ACCD), Board of Directors is pleased to extend to your organization an invitation to become a member of the Coalition.

ACCD serves as an umbrella organization representing America's disabled citizens through its member organizations. While individual members are welcomed, the real strength of the Coalition comes from the ongoing participation of its active and associate organizational members.

By becoming affiliated with ACCD, you are expressing a commitment to self-determination and leadership by disabled people in affairs vitally affecting their lives. You are also joining forces with other organizations in recognizing that, regardless of the specific disability area(s) of most concern to you, many of the issues are common across disabilities -- education, employment, civil rights, rehabilitation, participation in American life, and enforcement of laws designed to benefit disabled people.

ACCD is committed to pursuing excellence. It has been our experience that before we can open minds we must open doors. Because of our wide constituency, we can often get in the door to make presentations and to influence decisions on behalf of our members. To be certain that when we do make presentations we are accurately and cogently making the case that needs to be made, we have established a policy of consulting first with our member organizations, who often have expertise in a particular area we may not have, and whose knowledge is essential if ACCD is to make a credible presentation. We want to be certain your interests are represented, and that is one reason we are inviting your membership.

In addition to representation of your interests and concerns, we are committed to distributing to our members information they need, whether on new laws or on closed-door meetings. We believe firmly that for America's disabled citizens to move forward in a steady and sure path, they must be fully aware of the facts.

A third area of commitment is that of state and local organization development. Much of vital interest to disabled people occurs, not on the national level, but in the states. For disabled people to obtain and protect services and rights, strong organizations armed with information and knowledgable of the issues are of the utmost importance.

ACCD national membership is $100 per year. State and regional coalitions pay dues of $50 annually, while state and local organizations (non-coalition) pay $25. Application forms are enclosed. When these have been completed and the first-year dues paid, the ACCD Board of Directors will act upon the application.

On behalf of the Board of Directors, I look forward to receiving your application and to welcoming your organization to membership in the American Coalition of Citizens with Disabilities, Inc.

Sincerely yours,

Frank Bowe

ACCD—A Coalition. Thirty-six million Americans—one in six—are disabled by physical, mental, and/or emotional impairments. That these people, despite the diversity of their disabilities, encounter similar problems and share common concerns formed the central conviction from which the American Coalition of Citizens with Disabilities, Inc., (ACCD), emerged. Although still a young organization, the Coalition has already begun to demonstrate the wisdom of its 150 founders who were determined, as they assembled in Washington, D.C., early in 1974, that disabled people must unite, share resources, and forge an umbrella organization that would serve all disabled Americans, helping them to help themselves.

The charge to ACCD was twofold. First, the Coalition was to bring together people and organizations that had scarcely even talked to each other in the past, much less cooperated closely. A true coalition had to be formed, one which would advance its members' interests while channeling their contributions, one which involved non-disabled individuals and organizations for disabled people in support of its work, and one that facilitated cooperative planning and action on behalf of disabled citizens. Communication, cooperation, coordination: these continue to be key goals for ACCD.

The second charge delivered at the 1974 Washington meetin was for ACCD to represent disabled people to the government to the private sector, and to the general public. Concerns com mon to many disabled individuals—improved education, expanded rehabilitation programming, accessible housing, effective transportation, civil rights, enhanced employment, self-determination and integration into the mainstream of American life—could best be served, the founders believed, by a united effort involving all disabled persons.

ACCD is an organization of organizations. National members include the American Council of the Blind, Epilepsy Foundation of America, National Association for Retarded Citizens, National Association of the Deaf, National Association of the Physically Handicapped, National Paraplegia Foundation, Paralyzed Veterans of America, Teletypewriters for the Deaf, and United Cerebral Palsy Associations. Active members, whether national, state, or local, are primarily consumer-oriented organizations. Associate members are organizations interested in disabled people but which do not meet the qualifications of active membership. Individual members are persons desiring to support the work of the coalition, and may be disabled or nondisabled.

An annual Delegate Assembly brings together representatives of active member organizations and individual members to determine overall policy for the Coalition and to elect officers and Board members. The Board, which meets quarterly, acts through task forces which focus upon specific issues such as housing, transportation, civil rights, education, and health, and through committees which handle essential Coalition business such as membership, fund-raising, public awareness, and by-laws. The ACCD home office, located in Northwest Washington, D.C., executes policy and conducts research and training projects which promise to improve services and enhance the quality of life for disabled people.

The Coalition's strength derives from its organizational and individual members. Through them, ACCD offers a ready resource to programs and activities seeking to serve disabled people and a convenient link with thousands of local, state, and national organizations of and for disabled people. The Coalition's many activities as a nationwide consumer-based organization require active participation of its members. Consumer involvement, itself an important goal of ACCD, is the foundation of its work and the channel through which the Coalition attempts to help disabled people help themselves.

How the membership mailing list is used

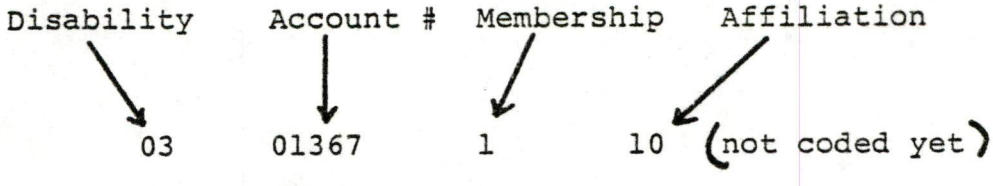

The mailing list is in zip code order. This is our first directory printing. The next update of the list will in June 1977.

Names without zip codes will have assumed zeros in the zip code and will be placed first on the file. Within zip codes the organizational names will be listed alpha order.

We have at this time three classifications, two of which are now coded on file. They are: Disability code, Membership code, and Affiliation code.

The breakdown of these codes are on the back pages.

P.O. Box ~~686~~ 5746
Austin, Texas ~~78767~~ 78763

FACT SHEET

To help eliminate architectural and social barriers facing the mobility impaired and the elderly is the purpose of MIGHT! (Mobility Impaired Grappling Hurdles Together), a non-profit state-chartered and federally tax-exempt organization. MIGHT! has a membership composed almost equally of handicapped and non-handicapped persons. It is the only organization in the Austin-Travis County area which represents concerns of all the elderly and mobility impaired (the deaf, the blind, the accident-injured, people with birth defects, those with all types of crippling diseases, etc.), a group which is estimated to be about 10 percent of the total population. MIGHT! was founded in 1971 on the campus of The University of Texas at Austin, and the MIGHT! II chapter, representing the Austin-Travis County area, was started in 1973.

MIGHT! II is an active organization with members working in a variety of areas with considerable success. Elimination of architectural barriers has been promoted in many places. A number of shopping centers are now more accessible to the mobility impaired. Ramps have been built to provide access to some motion picture theaters. MIGHT! II members have served as volunteer consultants to the city in the area of barrier-free design, including ramps in the downtown area, parks and recreation facilities, and expansion of municipal airport.

MIGHT! II members are instrumental in helping formulate the Austin Parks and Recreation Department's plans for recreation for the physically and mentally handicapped, and members continue to serve on the Parks and Recreation Department's Advisory Board for Special Populations.

ACCESS UNLIMITED, Inc.

WORKING FOR A BARRIER-FREE SOCIETY

1221 - 31st Street North
P. O. Box 675
Birmingham, Alabama 35201
205—252-0273 or 328-5928

Access Unlimited is a group of persons, some of whom are physically impaired and some of whom are non-impaired, who have decided to work toward the creation of a barrier-free society. In order to let you know about our organization, we have prepared this statement which gives some details about our purpose, policies, and activities.

Since we organized in the fall of 1972, Access Unlimited has tried to make a real impact for the physically impaired in the community. In the past three years we have been involved in these specific things:

1. We have actively participated in the development of Birmingham's Citizens Participation Program.

2. We have made statements in public hearings related to housing.

3. We have participated in obtaining Community Development funds to be spent by the physically impaired and have been active in making recommendations for the use of those funds.

4. We have become involved as "friends of the court" in litigation which seeks to require that accessible buses be operated by the local transit authority.

5. We are trying to promote, with the assistance of the Vestavia Hills United Methodist Church, the development of a special housing facility which would offer supportive services for the physically impaired who need them.

6. We have recently opened an office in Norwood United Methodist Church from which we will attempt to achieve and sustain a continuous contact with the physically impaired of the Birmingham area, so that we may discover changes that need to be made and work toward them. Our office hours are 9:00 AM to 4:00 PM, Monday through Friday, at 1221 North 31st Street. The telephone number during office hours is 252-0273; if no answer, dial 328-5928.

We reason that when persons like you and me want to change the direction of our lives, we can do that if we are willing to expend the effort. Through a process of trial and error, we have learned, and are still learning, the things which we need to do to effect this change:

1. Become knowledgeable about programs which are already in operation to meet our needs.

2. Evaluate those programs and make some decisions about whether or not they really meet those needs.

3. If they do not meet our needs, find out why and how they do not and devise alternative programs which would meet those needs.

4. Always do your "homework"--that is learn the facts before you speak.

We need your help! You can demonstrate your concern for the creation of a barrier-free society by attending our meetings and joining the membership of Access Unlimited in speaking out. We meet the first Monday of each month at 7:00 PM in the fifth floor conference room of Spain Rehabilitation Center, 1717 6th Avenue South where we plan activities and establish policy for the group. If you have a friend or acquaintance who is disabled and might be interested in knowing about Access Unlimited, won't you please pass this letter along to that person or ask the person to get in touch with us? Or if you know someone who would like to work with an organization such as ours in a volunteer capacity, we would like to hear from that person, too.

We are attempting to make an impact in the Birmingham area which will be beneficial to the total community of physically impaired persons. We are convinced that if we state our case for change strongly enough, our voices will be heard. Our cause is yours, too! We want to hear your ideas.

POLICY STATEMENT

The members of Access Unlimited have organized to deal with the specific issues that concern the physically impaired of the Birmingham area: accessible transportation, accessible housing, elimination of architectural barriers, attendant care, employment, education, recreation, and the promotion of public awareness of these issues. Since we believe that the physically impaired have the same rights to America as those accorded the non-impaired, we are trying to make effective statements to the public about the kinds of changes we need and new programs that should be developed, to evaluate existing programs, and to develop new programs ourselves. It has been our policy to equip ourselves with accurate information before speaking out, and then to make every effort to insure that our voices are heard. Because we believe that the physically impaired have the right of self determination, it is our policy that at least 50% of our members be physically impaired.

HISTORY

Access Unlimited began in 1972 in response to the need for physically impaired persons to develop their awareness and their activities designed to insure that architectural barriers be eliminated from public buildings, streets, parks, and other public places as provided for in state and federal legislation. In 1974 Vestavia Hills United Methodist Church joined with Access Unlimited in a Block Partnership arrangement to work toward the goal of a barrier-free environment. In 1975 we received a one-year grant under the Comprehensive Employment Training Act to employ two staff persons which has enabled us to coordinate and carry out activites designed to achieve our goals. At that time we opened an office at Norwood United Methodist Church which is designed both to get information from and to give information to the physically impaired who contact us. We encourage physically impaired persons to contact our organization and participate in our activities: Access Unlimited, 1221 No. 31st St., B'ham, Al, 35234; phone 252-0273 or 328-5928
