ANNOTATED LIST OF NARIC'S

PERIODICAL COLLECTION

THE NATIONAL REHABILITATION INFORMATION CENTER
THE CATHOLIC UNIVERSITY OF AMERICA
4407 EIGHTH STREET, N.E.
WASHINGTON, D.C. 20017-2299

This study was supported in part by Research Grant #22-P-29137 from the National Institute of Handicapped Research, Department of Education, Washington, D.C. 20202.

The National Rehabilitation Information Center (NARIC), located on the campus of The Catholic University of America, is funded by the National Institute of Handicapped Research, Department of Education, to improve the delivery of information to rehabilitation professionals, researchers, educators, librarians, handicapped individuals, and concerned members of the public.

NARIC disseminates the research results of NIHR-funded programs; supplies copies of research reports, audiovisual materials, and other types of publications; prepares bibliographies tailored to specific requests; and helps individuals locate answers to reference questions.

ANNOTATED LIST OF NARIC'S
PERIODICAL COLLECTION

The Annotated List of NARIC's Periodical Collection cites title, subject and publisher information on more than 200 magazines relevant to the field of rehabilitation. The List also represents NARIC's periodical collection located on the campus of The Catholic University of America, Washington, D.C.

The annotations and indexing efforts of the NARIC information specialists to produce this listing is in direct response to the periodical information access needs of rehabilitation professionals, researchers, educators, librarians, disabled persons and citizens with interest in rehabilitation.

This document is only part of NARIC's continuing efforts to bring rehabilitation research to those who need it. For example, NARIC publishes a Thesaurus of NARIC Descriptors to give quick, consistent access to NARIC's on-line bibliographic database and to document the collection accessible at the Center.

NARIC publishes a bimonthly newsletter, The Pathfinder, to inform the rehabilitation community about rehabilitation research, technology and organizations. NARIC also produces and distributes bibliographies on rehabilitation topics and a Selected Subject Catalog which selectively lists and abstracts the research documents, nonprint and commercial materials by subjects most in demand. In the near future, NARIC plans to begin

indexing rehabilitation periodical literature on a trial basis. This Annotated List of NARIC's Periodical Collection provides the basis for the upcoming indexing and abstracting affort of selected periodicals.

We hope the users will provide suggestions on how NARIC can improve the usefulness of periodical list in future revisions and updates.

EXAMPLE OF SUBJECT INDEX ENTRY

The Subject Index is an alphabetical list of the subjects found in each periodical title entry.

For example: AGING magazine is listed once in the Subject Index (under Aging). MAINSTREAM magazine, however, has three subjects (Accessibility, Advocacy, Disabilities) and is listed under each subject in the Subject Index.

Three subjects terms require a word of explanation. The term "Disabilities" has been used when the periodical focuses on all types of
