REHABILITATION SYSTEMS FOR THE SEVERELY HANDICAPPED

Environmental Control Devices

- Telephone
Answer and dial
Speakerphone or private
Power failure operation
- Radio
AM-FM selection
Tuning
Volume
- Television
Channel selection
Fine tuning
OFF-ON
- Intercom
- Electric bed interface
- Power receptacles
For lamp, fan, etc.
- Control receptacles
For nurse call, page turner, etc.
- Various control switches
Rocking Lever
Pneumatic (Puff-Sip)
Tongue Switch
EMG Switch

Listed functions are available as individual assistive devices or can be combined into a comprehensive solution to an individual's rehabilitation needs.

DU-IT Wheelchair Controls

- Controllers (Input Devices) suitable for use by quads, CP's, etc.; chin, headrest and puff-sip controllers; speed and acceleration limiting.
- Proportional and non-Proportional (CP) control modes
- Wheelchair Based Environmental Control
Wireless control of Off Board Devices
Direct control of On Board Functions
Power Recline
Automatic Tip-over Alarm
Horn, Siren, Headlight & Flasher
Devices Particular to Individual Needs
- Easiscorder Scanning-portable tape recording system suitable for note taking. Provides rapid access of recorded material. Standard cassettes.

Electronic Communication Aids For The Non-Verbal Child or Adult

LAPBOARD STRIP PRINTER

Portable, affordable, battery powered devices using the scanning, encoding, and direct selection techniques. Control switches utilize slight force, blowing and sucking on a tube, or EMG (muscle electricity) signals. Wide variety of devices available using pictures, symbols, letters, words, etc. Services available include Electronic Aids Workshops, Assessments and Rehabilitation Engineering.

BLISS SYMBOL SCANNER

from the publisher

To Our Subscribers:

The GREEN PAGES Rehab SourceBook is a comprehensive source reference. It has been prepared specifically for agencies, firms, institutions and reference facilities needing instant access to knowledge **about** and sources of supply **for** the specialized products and services used in the care, re-education, personal and job accommodation of people with physical disabilities.

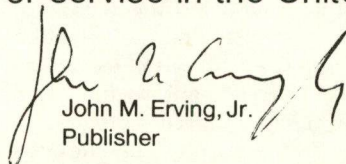

While formerly most may have regarded this group to be limited to the traditional rehab professions of orthopedist, physical and occupational therapist, et cetera, such is no longer the case. Newly enacted laws both at the national and local level coupled with changing public attitudes have triggered abrupt new needs for reliable information among many additional segments of the business and professional communities.

This reference directory will, we expect, fill much of the need and thus significantly diminish the costs in time, money, and effort to find sources for needed items.

Individuals, firms, institutions or organizations who qualify to be included under any category designation in The GREEN PAGES Rehab SourceBook but who are not included in this edition should immediately contact:

Research Department
GREEN PAGES Rehab SourceBook
P.O. Box 1586
Winter Park, Florida, USA 32790

This applies to all firms, domestic or foreign, who market rehab-oriented products or service in the United States.

NATIONAL PRODUCT/SERVICE DIRECTORY

FOR THE REHABILITATION INDUSTRY

To qualify for listings, each firm submitted information verifying the manufacture or national distribution of products or the sale of services under the categories in which they are listed. Though every effort is made by the publisher to assure accuracy of the information presented, we cannot be held responsible for changes of address, phone numbers, etc. unless notified by the listed companies.

The fact that a company name is listed does not constitute an endorsement or recommendation by the publisher but to present buyers/users information on all known sources of supply.

/Companies believing themselves to be qualified for listings—please contact SourceBook Publications, Inc., P.O. Box 1586, Winter Park, Florida 32790.

No charge for basic listings. Display Advertising rates on request.

PARA INDUSTRIES proudly announce

THE LATEST DESIGN in TOTAL MOBILITY for the Handicapped

The Para Lift

So easy to operate that Quadriplegics* can enter, exit and drive from wheelchair unassisted. Simple installation, bolted on to the van floor with seven bolts. Does not disfigure van for resale, will lift 500 lbs. with ease. Can be mounted on Dodge, G.M.C., Ford Vans and school bus bodies. Dealers throughout U.S. and Canada. For further information and the name of your nearest dealer, please write or call.

TIME SAVERS WHEELCHAIR LIFTS

DEPENDABLE ELECTRIC-HYDRAULIC UNIT -- Model 402

1 Electric-Hydraulic lift off the original auto battery.

2 Operated from one control switch mounted on door panel, beside driver, or on cord, to be operated from wheel chair.

3 Spring-loaded, counter balanced platform; so easy even a child can fold it up.

4 Wheel chair can be rolled off platform to floor of van; clamps are available to hold chair's wheels in place between front seats, facing forward.

5 No modification to vehicles is needed to install.

Specifications:

Lift capacity: 500 lbs., Lift Height: 28",
Platform size: 24"X40", Full door height
clearance, Weight: 300 lbs.

For detailed literature and price lists, phone or write:

TIME SAVERS, Inc.

CONVENIENT WIDE OPEN TUB ACCESS

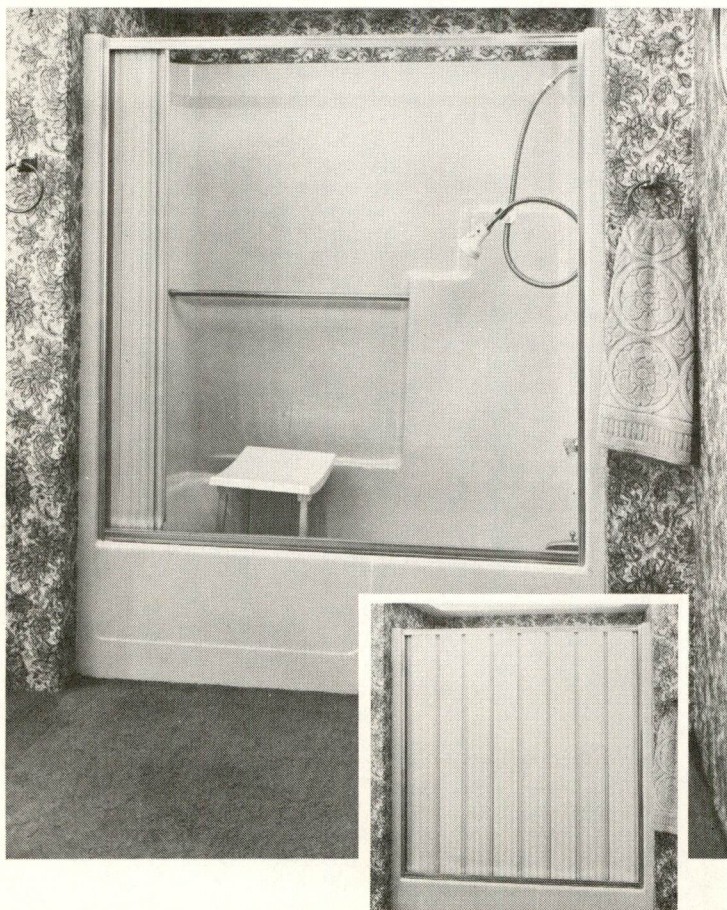

TUB-MASTER folding shower doors are truly unique. The door folds into a neat stack at either side. Entering or leaving the tub area is easy and safe. The doors are made of high-impact polystyrene which will "give" to actually cushion a fall. The doors are white with colored hinges to match or accent your bath fixtures.

TUB-MASTER. safe . . . beautiful . . . convenient.

PERMA JET adjustable height, adjustable spray shower heads also available.

Braun's new Roll-in...

because taking a shower
should be easy.

Easy entry and exit are key features of Braun's new roll-in shower. A 4½ foot square unit that provides plenty of room inside, with a graded entry lip that assures roll-in accessibility. Two molded-in shelves provide plenty of interior storage space. Available in a wide variety of decorator colors. Write today for complete information and color literature.

Braun... the thoughtful feature firm.

THE BRAUN CORPORATION

1014 South Monticello • Winamac, Indiana 46996
Telephone (219) 946-6157

Shower Trolley™

Wheels you on a swiveled seat in and out of a shower stall or bathtub.

Aluminum frame and legs. Unit weighs only 24 pounds.

Each leg adjusts 2" in length. Seat locks for transfer. Options include seat belt, seat arms, and tub clamps.

Write for descriptive bulletin.

paraplegia news

FOR READERS . . .

The latest news and developments in wheelchair living and the spinal cord injured and other severely disabled persons. Stresses active living by the handicapped, with special emphasis on architectural barriers, transportation, research, new products, employment, education, sports and recreation, and others.

FOR ADVERTISERS . . .

The only monthly national publication of its kind that deals specifically with the needs and interests of the wheelchair bound and handicapped, as well as medical and rehabilitation personnel in the field. Highly responsive readership with an avid interest in products and services that meet their special needs.

Subscriptions: \$4.50 per year, \$7.00 two years, \$11.00 three years. FREE SAMPLE FIRST, on request.

Advertising information and rates sent upon request.

SETON NAME PLATE CORP.
2742 Blvd., New Haven, CT 06505

No pushing, no slipping, no sawing!

Razor-sharp stainless steel blade makes it easy to cut and eat, one-handed. A simple rocking motion easily cuts meats, vegetables, salads. Tines on end are used as a fork, making this a complete one-handed eating tool.

REEDCO

offers MEASURING ACCURACY for Checking Body Posture and Joint Flexibility

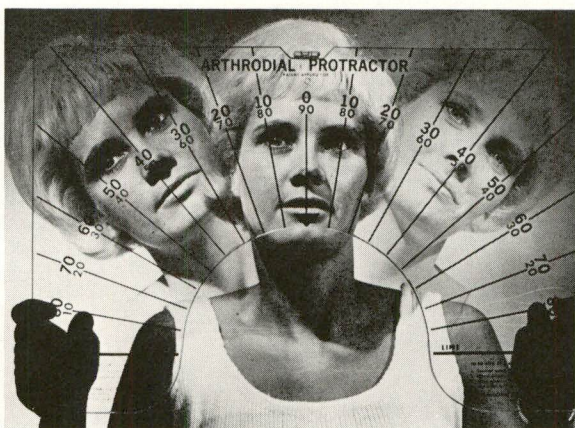

The Arthrodial Protractor, a one-piece acrylic measuring device enables an examiner to quickly and accurately measure the range of motion in all major joints.

This instrument is especially useful for pre-employment exams, accident or rehabilitation reports.

Easy to use and no guess-work involved, it's a must for every health and first aid room.

Write for Brochure and Approved Table of Norms.

"WHEN MY HUSBAND HAD BACK SURGERY, THERE WASN'T ANYONE TO HELP ME GET IN OR OUT OF BED!"

Margaret Hardenbrook, Long Beach, CA

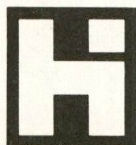

Margaret, an attractive housewife and quadriplegic, has been in a wheelchair for 26 years — ever since she developed polio as a teen-ager.

"We were in trouble when Don came home from the hospital. It wasn't until we discovered the Holo Self-Lift* that we solved our problem. There was no need to compare it to other products — there wasn't anything like it!"

"It makes me seem completely independent! I can go to bed and get up whenever I choose — whether Don is at home or not. It's a good feeling to take care of myself again. I can even use it to dress or for stand up exercises; my doctor says standing up a few minutes a day is good for my kidneys."

Developed by a quadriplegic young man, the Self-Lift is motorized for vertical and horizontal movement . . . Free-standing or ceiling mounted types. Write for brochure and price list today!

BUTLER

converts your house into a one-floor home!

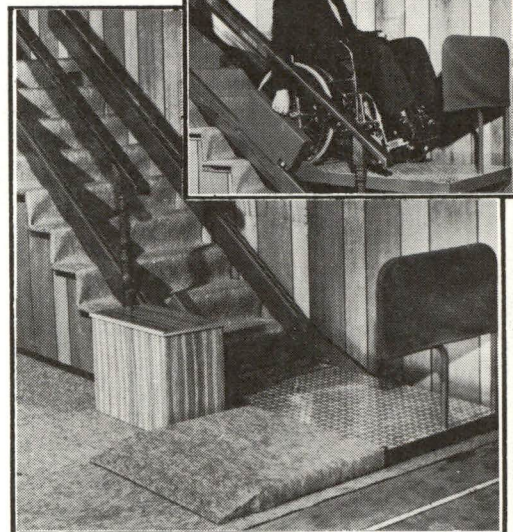

BUTLER

STAIR CLIMB

- SMOOTH
- QUIET
- COMFORTABLE
- CONVENIENT

The proven mechanical superiority of all the Butler products is the basis for this attractive new addition. Leather-like vinyl upholstery with foam padding makes operation of the chair virtually noiseless and the swivel seat may be offset right or left to accommodate installation on either side of the stairs. Butler flexibility affords simple installation in less than 2 hours and the unit will fit all straightaway stairs of average length . . . features which help to retain the Butler's high resale value.

PLEASE CALL
OR WRITE
FOR COMPLETE
DETAILS ON
THE
BUTLER LINE

BUTLER

WHEELCHAIR LIFT

A smooth-operating heavy duty lift with 500 lbs. capacity, built to fit the more average width stairs. Engineered to meet all safety requirements, this excellent Butler wheelchair lift can be installed with unbelievable simplicity.

Sony VR-35 Vocational Rehabilitation System.

The VR-35 is designed for quadriplegics' use during vocational rehabilitation. The system offers the handicapped a reliable dictation/transcription business aid with the simplest operation possible. The system is designed so that the dictation/transcription unit is activated by a magnetic mouth wand which operates all the controls—dictate, fast forward, rewind, cueing.

For more information on the VR-35, see your nearest Sony Business Products dealer in the Yellow Pages under "Dictating Equipment."

PAIN MANAGEMENT

The Center for Rehabilitation, Inc. offers a behavior modification environment (operant conditioning) in which the chronic pain patient relearns to function within tolerance levels. A return to appropriate work activity is a usual program goal.

The ten-week out-patient program consists of group sessions in anatomy, physiology of pain, biofeedback and relaxation therapy, physical therapy, recreational therapy, vocational exploration, vocational guidance and job placement. Individual counseling and/or psychotherapy are usual essential program components. Spouses, when possible, attend special sessions designed to help them understand the patient's program.

An eight week hospital in-patient program is maintained for those patients needing medication or who are unable to commute or function from nearby efficiency apartments.

Referrals are accepted only on chronic pain patients who have reached maximum medical improvement.

Brochures are available on request.

Give your pain to STIMTECH.®

THE EPC MINI™ MAY BE THE ANSWER IF YOUR DIFFICULT PAIN
PATIENT FAILS TO RESPOND TO MEDICATION

Extensive research and clinical testing* has proven Cutaneous Afferent Stimulation significantly effective in its intended target population as a non-invasive/non-narcotic treatment of acute, chronic and post-operative pain.

The EPC MINI, one of the family of STIMTECH neurostimulators, is lightweight, compact and comfortable to wear. The convenient clip attaches the unit to belt or pocket.

All EPC Stimulators feature three adjustable control settings. This includes the innovative feature PULSE WIDTH.

For additional information write or call:

Stocking Pull-On. Simplifies a painful chore. Ends bending over. Gather stocking over soft flexible form, attach fasteners, insert foot, pull up straps: 32". E214 \$7.49

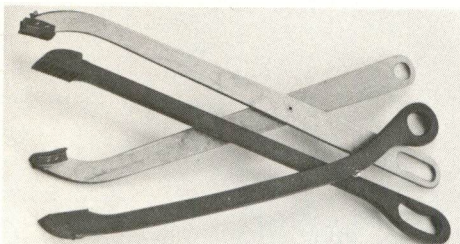

Clamp-On Hoop. This solves a major problem for those of us who want to enjoy needlework but can use only one hand. The won't-mar clamp fits tightly on table, chair, lapboard. Non-rust, non-slip swivel adjusts up, down. Tilts to any position. Polished hardwood.

G208 (8" hoop) \$7.49
G210 (10" hoop) \$8.49

All-Purpose Table. Very well made; beautifully styled. Versatile: use in bed or your favorite chair. 13x18" top is laminated; easy to clean. Neutral wood tones. Clips for holding books and papers; lip on bottom edge. Non-tarnish brass frame. Raises to 17". Tilts and STAYS at any angle, any height. No locks or latches. Folds flat for carrying.

G120 \$18.98

Reaching Tongs. Save many stoops, stretches and calls for help. Scissor-like action with non-slip ends takes cans off shelves, far objects from tables; holds sponge for mop-ups. Cut-out handles permit one-hand use if grasp is good. Both are 27" long; have strong magnetic tips. GH72 (above) 5-ply birch; 3/8" thick. \$6.49
G405 (below) solid hardwood; 3/4". \$10.98

Card Holder. Another good deal from our SHOPPING SERVICE. Holds 40 cards without crowding, all visible, easy to pull out. Three tiered slots. No tipping, no spill. Sanded wood, varnished. 2 1/2 x 6 1/2". G470 \$2.50

Add \$1.00 per order for delivery.

REHABILITATION COUNSELING CONSULTANTS, Ltd. provides comprehensive rehabilitation services, from **evaluation to selective job placement**, for the disabled individual.

Professional rehabilitation services include:

- Rehabilitation case management
- Testing program: intelligence; aptitude; personality; performance; and interest inventories.
- Vocational and educational guidance
- Vocational exploration group — certified VEG Leader on staff
- Individual and group counseling
- Career development counseling
- Occupational information library
- Selective job placement

A **VOCATIONAL REHABILITATION EVALUATION** consists of an intensive three to five hour interview and testing program, begun after a detailed review of medical background. Information on the client's personal characteristics, major and secondary disabilities, physical restrictions, activities of daily living, education, training, vocational history and socioeconomic situation is used to aid in the development of a rehabilitation plan. Occupational analysis and use of transferrable skills adds to the success of job selection. A step by step program is detailed to enhance rehabilitation and job placement.

Many rehabilitation clients require a more intensive placement program to increase motivation and improve marketability. A voluntary **GROUP SELECTIVE PLACEMENT PROGRAM** meets three times per week for training in grooming, telephone behavior, interview skills, application procedures, resume preparation and vocational exploration.

The value of a total rehabilitation program, including a strong emphasis on selective placement, has become apparent in this field. Recognizing this need, Rehabilitation Counseling Consultants has on staff full-time **SELECTIVE PLACEMENT COUNSELORS**, responsible for maintaining close employer contacts and a current job data bank. Instruction in efficient and effective job search techniques are provided in individual counseling sessions. Clients are also accompanied to job interviews.

In addition to the above services, programs are directed to the non-disabled in the areas of **VOCATIONAL EXPLORATION, CAREER DEVELOPMENT, CAREER GUIDANCE** and **RESUME PREPARATION**. These programs are designed to serve high school students, college students and those considering a career change.

For additional information and referrals, please contact:

Paul M. Deutsch, M.R.C., C.R.C.

PATIENT COMFORT AIDS

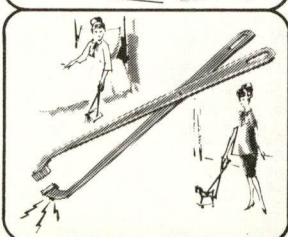

Folding Back Rest... gives firm sitting-up comfort. Elegantly-grained mahogany plywood, 16 x 24" high with 6 adjustable positions. Elastic cords hold your own pillow securely in place. Conveniently light. Folds flat. \$11.98.

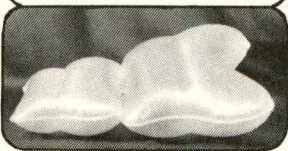

Fleur-de-Lis Bath Pillow... cradles and supports the head and back in cloud-soft comfort. Deluxe, super size 16 x 20" with 4 suction cups to hold it securely in any position. Keeps hair dry. Gold Fleur-de-Lis pattern on white \$4.98.

Magnetic E-Z Reach... extends your reach 27". Scissor-like action with non-slip ends brings everything fingertip close. Saves many a stoop, stretch or call for help. Magnetic tip picks up pins, etc. 5-ply Birch \$6.98.

Compat-A-Pillow... magnifies mutual delight during intercourse and increases sexual compatibility. Designed in accord with Marriage Counselors — religious and medical. This new inflatable marital cushion provides "bouncy" resiliency, adjustable elevation, more sensitive alignment, better pelvic support. Pink satin zipper cover and text by John Baird, M.D. \$7.95.

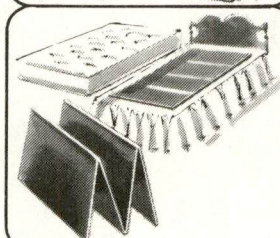

Relax and enjoy new comfort

Aids for rest and self help

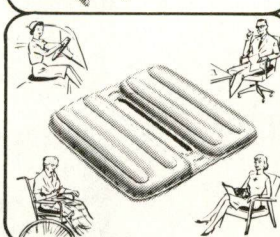

Send check or Money Order. We pay postage and ship at once. Money Back Guarantee. NJ residents add Sales Tax.

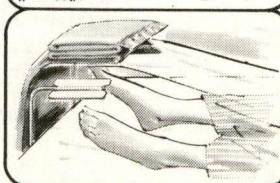

Foam-Slant... raises back, shoulders and head for sleep comfort. Buoyant foam wedge is ideal for one side of double bed. 27" long with zipper cover. Choice of heights: 4" high — \$15.00; 7-1/2" high — \$17.00; 10" high — \$20.00; 12-1/2" high — \$23.00.

Folding Bed Board... firms old or over-soft mattress. 5 foot long, 1/2" thick, folds into four 15" sections for home or travel. Cot Size or one side of double bed \$8.95; Twin Bed Size \$10.49; Double Bed Size (in 2 sections) \$15.49.

Seat Cushion... fights fatigue and soreness. 2 separately-inflated halves avoid side rocking and maintain balance better than embarrassing "ring cushions." Leather-like vinyl 16 x 17" with green percale zipper cover \$9.39.

Blanket Support... frees feet from the weight of sheet and blankets. Ends restless sleep due to tight, confining covers. Eases tensions, aids contentment and lessens foot drop. Fits all beds. Lifts regular, contoured or electric blankets for roomier foot comfort. Makes beds seem bigger. Plastic-coated steel arms fold invisibly flat when bed is made. \$8.98.

REHABILITATION BEGINS IN THE MIND

That's why the AMIGO was designed. AMIGO offers you the power and freedom of un-aided mobility that you want.

With AMIGO, a simple push with your thumb and you're on your way to a life of greater independence.

Write to us today for free information on the AMIGO, because rehabilitation does begin with the mind.

AMIGO, Inc.

***CHAIR SHOCKS** are extremely versatile and will fit most standard chairs. They are easily installed in less than ten minutes and provide the following benefits.

***REDUCES PAIN — CREATES SMOOTH RIDE** — Eliminates or reduces the pain associated with back problems created by the continuous jolts and bumps as wheels roll over uneven areas, cracks, curbs, door sills and other bump producing surfaces. Action of the shocks produce a smooth, even ride.

***REDUCES SPINAL CORD DAMAGE — PAIN** — Reduces damage to the spinal column caused by constant jolts and resulting compression of the vertebrae and discs. Helps prevent disintegrating discs and pain caused from the compression of the spinal column.

***ARTHRITIS PAIN AND DISCOMFORT** — Reduces pain of movement that persons with arthritis commonly suffer from the slightest bump or jolt.

***CHAIR STABILITY INCREASED** — Stability of wheelchair is greatly increased and the chance of backward tipover is reduced. Amputees, persons with obesity of the upper extremities and wheelchair users in general will benefit from this feature.

***EXTENDS THE LIFE OF WHEELCHAIR** — Jolts the bumps and damaging shocks to the chair frame are absorbed by the action of the shocks, thereby prolonging the useful life of the chair.

***INDEPENDENT SUSPENSION** — Each wheel reacts to bumps independently for a smooth, stable ride.

PRESSURE SORES — ULCERS — Stimulating to skin — Action of shocks increases circulation and reduces chance of pressure related problems.

Guaranteed for one full year or replacement without cost. Assembled by shelter workshop employees.

Available exclusively from Handicrafter's. Send check or money order to: Handicrafter's Chair-Shocks, Post Office Box 1513, Decatur, Georgia 30031.

ORDER FORM

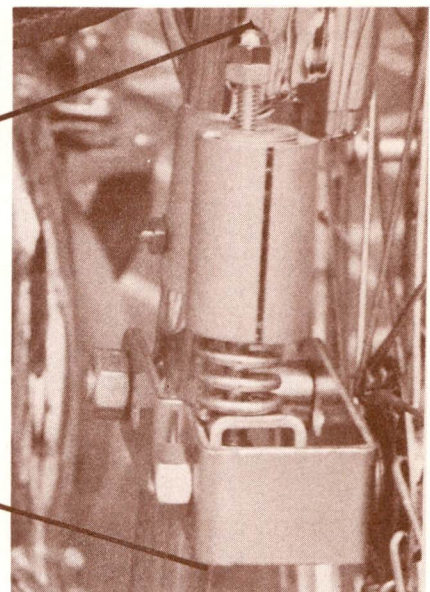

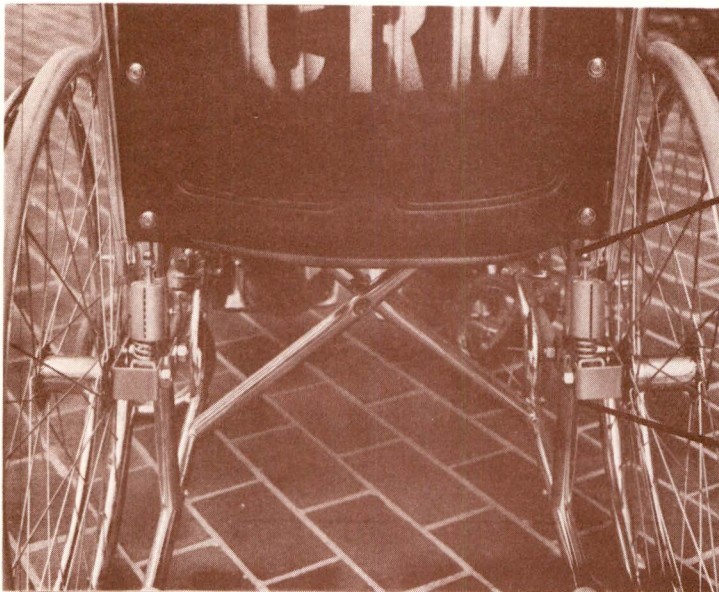

_____	pair shock absorbers 7/16 axle narrow shackle @ \$24.95 a pair	_____
_____	pair shock absorbers 7/16 axle wide shackle @ \$24.95 a pair	_____
_____	pair shock absorbers 1/2 axle narrow shackle @ \$25.95 a pair	_____
_____	pair shock absorbers 1/2 axle wide shackle @ \$25.95 a pair	_____
_____	pair shock absorbers 5/8 axle wide shackle @ \$26.45 a pair	_____
_____	Brake adaptor for chairs with lever brakes \$ 1.00	_____
	4% tax	_____
	Postage and handling \$ 1.00 a pair	_____
	TOTAL	_____
F.O.B. Decatur, Georgia.		

To determine shackle size for your chair, measure the distance the axle travels through axle hole, approximately 1 3/8 for a narrow shackle and 1 3/4 for a wide shackle.

_____ (Name)		_____ (Address)	
_____ (City)	_____ (State)	_____ (Zip Code)	_____ (Phone)

Wheelchair shock absorbers are designed to provide a smooth ride, absorb shocks, reduce jolts to the back and spinal cord, extend life of chair, eliminate or reduce pain produced as chair goes over curbs, down steps, over cracks, thresholds and other bump producing surfaces.

- * Remarkable New Rehabilitation Aid
- * Reduces Axle and Frame Breakage
- * Reduces Pressure Problems
- * Provides Greater Comfort and Mobility
- * Improves Ride — Extends Chair Life
- * Eliminates Tip-Over

NEWS

crow river industries, inc.

SKYWAY PLAZA OFFICE BLDG., SUITE #1

1415 East Wayzata Blvd.

Wayzata, MN 55391

Phone (612) 475-2786

HISTORY -----

THE EXPERT DESIGN and dependability of the CROW RIVER liftgate has been known and accepted since 1968 when the first lifts for pickups were manufactured by Crow River Manufacturing, Inc. Using the concept of power-up and power-down through a Saginaw Ball Screw and Nut, these liftgates proved to stand extreme temperatures of cold when hydraulics failed to move.

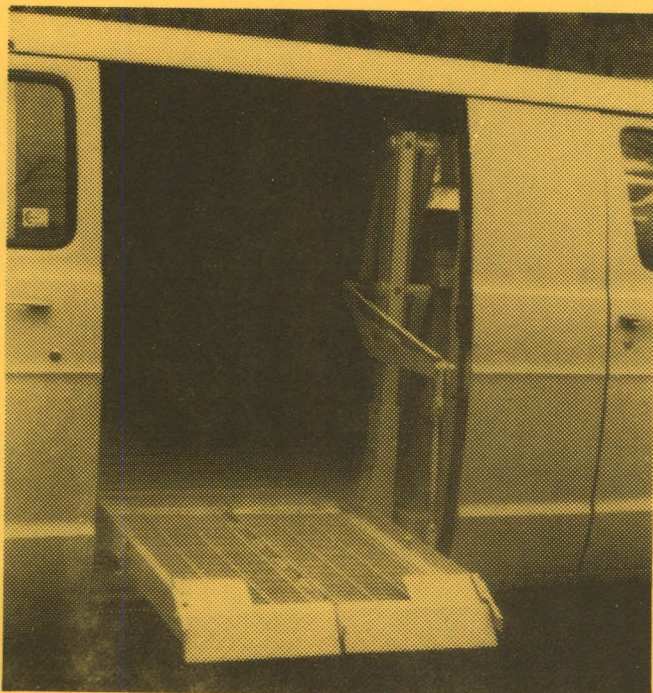

In 1972 Marvin R. Pearson P.E. purchased the assets of Crow River Manufacturing, Inc. and the company became CROW RIVER INDUSTRIES, INC. The manufacturing plant is in New London, Minnesota right on the Crow River (that is how our name came to be). Ken Blomgren is our Plant Manager and keeps production moving as fast as possible.

Our corporate office is in Wayzata, Minnesota where it is staffed by Lou, Kathy, Suzanna, and Julie.

Many improvements in production and product design were made on the lift and its patent. At this time the line was expanded to include lifts for larger trucks lifting greater loads. But versatility did not enter the picture until a CROW RIVER customer, who knew of the dependability of the product asked Mr. Pearson to design and manufacture a lift for vans so he could transport his two children, both confined to wheel chairs. Using the same basic concept, but designing it for a van, the first VANGATER was made and installed in the summer of 1976.

Gradually more customers came, each having the same basic need, but with different applications and desires in using the product. Today CROW RIVER INDUSTRIES, INC. is pleased to offer lifts for all major makes of vans and motor homes with the choice of platforms. Completely automatic platforms and door opening controls are also offered to the customer who desires to be completely independent. Always of primary importance is the desire of CROW RIVER INDUSTRIES, INC. to meet the needs of its customer in a safe and dependable way.

We appreciate the doors of opportunity that you customers have opened for us. We in turn desire to open the doors of travel to you. Happy Motoring. May our paths meet.

VANGATER

VANGATER II

more -----

VANGATER ----- The lift for the handicapped people "on the go" to independence.

UNIQUE FOLD DESIGN ---- The platform folds in half for easy access for the non-handicapped passengers.

NON-HYDRUALIC DRIVE ---- Being non-hydrualic, it works as well in the extreme heat as in the extreme cold. Also, non-hydrualic means no oil leakage and requires only minimum maintenance.

AN EASY INSTALLATION can be done relatively quickly without cost modifications.

LIFTS UP TO 1,000 LBS. and is made from heavy guage steel.

SIMPLICITY IS THE KEY to operation. Just a flick of a switch and you are up or down. No cables, chains, hoses, or limit switches.

JUST LOOK AT ALL THE SPACE FOR
THE NON-HANDICAPPED PERSON

THE SMILE ON THE FACE OF DORIS TELLS US
SHE LIKES THE ABILITY TO BE ON THE GO WITH
EASE.

VANGATER II ---- The bus lift, our newest product was put into production in December, 1977.

This lift can be installed by the Bus Dealers on new buses or retro-fitted to your customers existing buses.

A few advantages of our bus lift.

1. No need to modify the bus, which will allow a wider re-sale market.
2. Unit can be installed in the rear of bus which prevents passengers from being thrown into the unit on emergency stops. Platform can be folded out of the way to clear emergency exit in stored position.
3. Interchangeable -- allows unit to be used on subsequent buses.

etc. etc. etc. -----

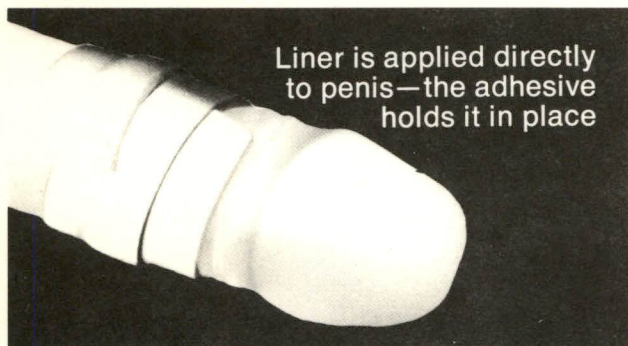

FLASH ---- NEW PRODUCT

WE HAVE SLIDING DOOR OPERATORS (AUTOMATIC) We feel they are the best on the market.

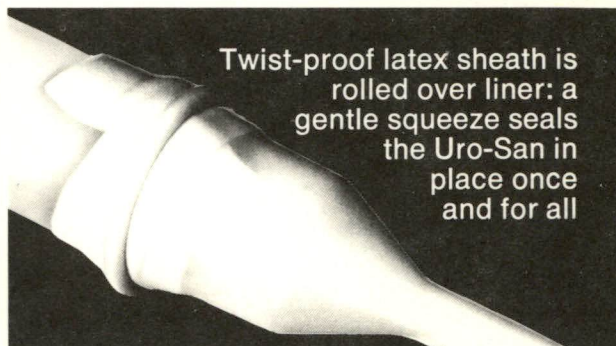

Solve your male urine collection problems once and for all with the URO-SAN[®] Male External Catheter

THE SECRET IS THIS LINER:

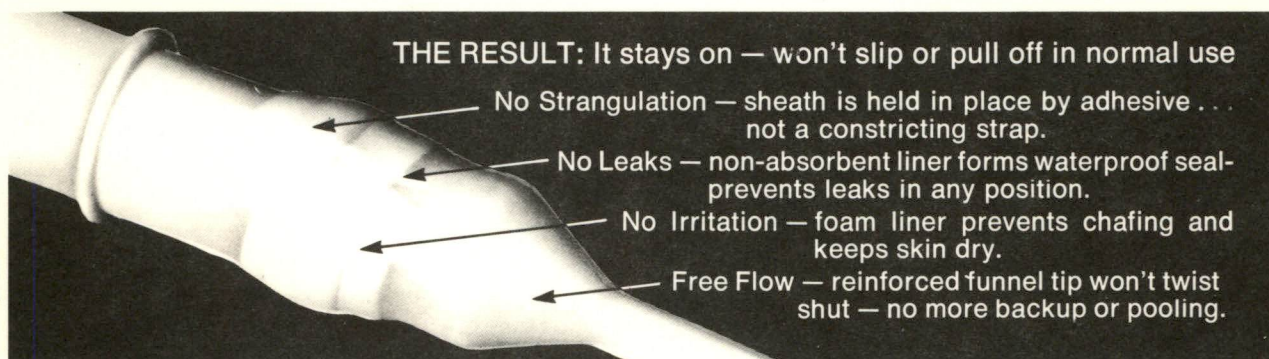

It's a waterproof stretchable foam with hypoallergenic adhesive on *both* sides.

Liner is applied directly to penis—the adhesive holds it in place

Twist-proof latex sheath is rolled over liner: a gentle squeeze seals the Uro-San in place once and for all

THE RESULT: It stays on — won't slip or pull off in normal use

No Strangulation — sheath is held in place by adhesive . . . not a constricting strap.

No Leaks — non-absorbent liner forms waterproof seal—prevents leaks in any position.

No Irritation — foam liner prevents chafing and keeps skin dry.

Free Flow — reinforced funnel tip won't twist shut — no more backup or pooling.

Accept no substitutes — only URO-SAN has all these features.

Seton SYMBOL OF ACCESS SIGNS

Designed to meet requirements of Section 504 of the Rehabilitation Act of 1973 — Handicapped Persons Rights under Federal Law.

[These signs also satisfy requirements of ANSI A117.1 Making Buildings and Facilities Accessible to and Usable by, the Physically Handicapped.]

IMPORTANT: Rehabilitation International voted in January 1978 that "... The color used for the Symbol shall be white on a dark blue background, to conform with international road sign conventions, unless there are compelling reasons to use other colors..."
