Kissinger

June 10, 1970

MEMORANDUM FOR JEANNE DAVIS

FROM: Henry A. Kissinger

SUBJECT: Signing Authority for NSC Administrative Actions Effective June 15, 1970

This memorandum will constitute authority for you to sign, as approving officer, vice William Watts, beginning June 15, 1970, and continuing for an indefinite period, for the following categories of administrative action documents:

1. Personnel actions (including Standard Form 50 and oaths of office);

2. Request for an authorization of Official Travel;

3. Claims for reimbursement of expenditures on official business;

4. Requests for Compensation of consultants;

5. Requests for Positions Classification (Standard Form 75), when required:

MEMORANDUM

NATIONAL SECURITY COUNCIL

March 17, 1983

ACTION

MEMORANDUM FOR WILLIAM P. CLARK

FROM: MICHAEL O. WHEELER MOW

SUBJECT: Foreign Travel Requests

Issue: How to eliminate ambiguities in the procedures for handling foreign travel requests.

Facts: On February 22, 1982, the President issued a directive (Tab II) requiring that foreign travel by all high level U.S. officials in Executive Departments and Agencies be cleared through you.

This system has worked well in general, i.e., a year's experience suggests that well over 90% of foreign travel requests have been submitted in time for staffing. The NSC instructions for staffing these requests are at Tabs III and IV; Tabs V and VI address themselves to foreign travel by NSC staff members.

However, some loopholes remain, as evidenced by the recent incident of Michael Gale in White House Public Liaison (see message at Tab VII). Gale apparently spoke to Howard Teicher very informally prior to his travel, but the discussion did not take the form of a specific travel request.

Discussion: The main loopholes we have closed during the past year are (1) defining what a "high level official" is, and (2) establishing communications between NSC and State for coordinating foreign travel. The loophole surfaced by the Gale incident is the ambiguity in what constitutes a formal clearance, i.e., ensuring that an informal telephonic conversation can't be mistaken for formal clearance of a specific travel request.

Today I issued a new memo to the NSC staff (Tab VIII) so that whatever telephone calls they receive will be followed up with written action. Especially for purposes of the White House staff, it would be helpful if their requests could be put in writing.

Recommendation:

That you sign the memo to Jim Baker at Tab I, asking that such requests be put in writing. mention - is Gale only culprit?

Approve Verbal Disapprove _____

THE WHITE HOUSE

WASHINGTON

MEMORANDUM FOR JAMES A. BAKER, III

FROM: WILLIAM P. CLARK

SUBJECT: Foreign Travel

I would appreciate it if you would remind the White House staff that the President has directed that the foreign travel of all high level U.S. officials be cleared through me in advance. It would be especially helpful if each request is put in writing and submitted with as much advance notice as possible, so that it can be staffed thoroughly and rapidly.

Thank you.

THE WHITE HOUSE

Washington

February 22, 1982

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

SUBJECT: Foreign Travel by U. S. Officials

Foreign travel by high level U. S. officials is essential to the conduct of our nation's business. Such travel, however, is in itself a part of our foreign policy.

Any such foreign travel should be for specific reasons which are consistent with our overall national security policy and should be conducted by a delegation as small as possible.

You have already reviewed your general travel policies and practices as directed in my memorandum of December 16, 1981. This directive establishes procedures for foreign travel by senior officials of the Executive Branch.

Foreign travel proposals of officials at or above the rank of Assistant Secretary (or equivalent rank) of Executive Departments and Agencies are to be submitted to the Assistant to the President for National Security Affairs for my approval.

With as much advance notice as possible, the Assistant to the President for National Security Affairs should be furnished the following information:

- Objectives of the trip
- Names of senior participants
- Itinerary
- List of major events, meetings and appearances

Upon the completion of such trips or, if appropriate, while they are in progress, a report should be submitted to me through my Assistant for National Security Affairs, noting the response of host governments to U. S. proposals and other significant information.

MEMORANDUM

NATIONAL SECURITY COUNCIL

April 5, 1982

MEMORANDUM FOR THE NSC STAFF 82-15

FROM: MICHAEL O. WHEELER MW

SUBJECT: Staffing Foreign Travel Requests

As you know, foreign travel proposals of senior Administration officials must be submitted to the White House for approval. This memo formalizes NSC staff procedures now being followed and describes the new mechanism for obtaining State Department comments on travel proposals.

When the NSC Secretariat receives a travel proposal, the proposal will be tasked as a System I action, i.e., given a control number, a suspense date, and assigned to the appropriate staff officer. The staff officer is responsible for preparing a package which includes an action memo to William P. Clark. When recommending approval of travel, attach to the action memo a transmittal memo from Wheeler to his requesting-agency counterpart, and word the recommendation block of the action memo to Judge Clark accordingly, i.e., recommend that Wheeler be authorized to sign the transmittal memo. When recommending disapproval, attach to your action a memo from the Judge to the head of the requesting agency, conveying the disapproval. For either case, use the phrase "The travel request of _____ has been approved (or disapproved; as appropriate)," as opposed to saying, "Judge Clark has approved," "the NSC Staff has approved," etc. Additionally, if the transmittal memo is conveying disapproval, conclude the memo with the phrase "FOR THE PRESIDENT."

In preparing your recommendation, feel free to communicate informally with your counterpart at State as much as you feel necessary; however, there is no need to formally coordinate your recommendation. State will be given the chance by the NSC Secretariat to comment on each request. It is the responsibility of the NSC Staff Secretary to obtain those comments from State. Do not delay meeting your suspense to accommodate delays in the State response.

The key to this system working is that you be able to expeditiously treat foreign travel requests as you routinely would treat other important actions. Please communicate any questions concerning the procedures to my office.

July 2, 1982

MEMORANDUM FOR THE NSC STAFF 82-24

FROM: MIKE WHEELER MW

SUBJECT: Foreign Travel Requests -- Revised Review Procedures

In my memo of June 24 on secretarial support in the OEOB, I mentioned that one of the ways we hope to cope with the open-ended problem of too much work for too few people is by keeping under review how our procedures might be streamlined. The following revised procedure for staffing foreign travel requests, effective immediately, is designed with that in mind.

Henceforth when you receive the action folder for a foreign travel request, there will be a place on the front of the profile sheet (example at Tab I) which reads: "IF YOU RECOMMEND APPROVAL OF THIS FOREIGN TRAVEL, PLEASE INITIAL HERE _____; IF NOT, PREPARE MEMO FOR CLARK." This guidance applies to the action officer; if you have received a copy for concurrence, continue to phone your comments to the action officer as is done presently.

If you recommend approval (which by far is the majority of the cases processed thus far), you need fill out no additional paperwork -- your initial is all that's required. The procedure beyond that point is:

- Action folder is delivered to Staff Secretary's office;
- Staff Secretary's office is responsible for checking whether State also recommends approval (using same procedures as is currently followed);
- Staff Secretary's office will be responsible for preparing a response to the requesting agency, using form at Tab II (this is the new step which should cut down on staff paperwork);
- Staff Secretary's office is responsible for processing the finished package with recommendation, using procedures already established by Judge Clark's office.

If you recommend that the travel not be approved as requested, please follow the same procedures we've been using for the past several months, i.e., an action memo from you to the Judge explaining why you recommend non-approval, with a memo from Wheeler-to-agency counterpart, tailored to the specific request.

SUBJECT: Foreign Travel Request

The following foreign travel request has been approved:

Michael O. Wheeler
Staff Secretary

(151)

MEMORANDUM

NATIONAL SECURITY COUNCIL

November 26, 1982

MEMORANDUM FOR THE NSC STAFF 82-45

FROM: MICHAEL O. WHEELER MW

SUBJECT: Foreign Travel of NSC Staff Members

This memo serves as a reaffirmation of the ground rules for arranging foreign travel, and the activities which are appropriate while you are in a travel status. There is no suggestion intended of any breach of the rules by NSC Staff members; however, travel by other government officials in recent days has raised questions which makes a reminder on the ground rules timely.

Prior to foreign travel, you should make a proposal to the Judge including the itinerary, activities to be conducted at each stop, purpose of the travel, and any special remarks. After the Judge has approved your proposal, the travel should be coordinated with the Department of State. The Department's assistance should be requested for any meetings to be held. No meetings with foreign officials should be arranged without the Department's approval. No encounters should take place with the media unless requested by the Department or in accordance with the guidance of the resident U.S. Ambassador.

Thank you for your cooperation.

MEMORANDUM

NATIONAL SECURITY COUNCIL

February 2, 1983

MEMORANDUM FOR THE NSC STAFF 83-54

FROM: MICHAEL O. WHEELER MW

SUBJECT: Foreign Travel of the NSC Staff Members

We have agreed with the Department of State on new procedures for coordinating foreign travel by NSC staff members. To implement this agreement, the following is effective immediately.

When you submit a foreign travel proposal to Judge Clark for approval, treat it as a System I package and include with your proposal a Wheeler-to-Bremer memo using the attached format. Once your proposal has been approved within NSC, the Wheeler-to-Bremer memo will be signed and transmitted to the State Secretariat which will direct it to the appropriate regional bureau(s) for comment. State has agreed that the bureaus will have 24 hours in which to respond.

As discussed in my memo of November 26, 1982, same subject, our groundrules for your visits to foreign countries require that the resident U.S. Ambassador will approve all meetings between you and foreign officials, and that an Embassy officer will be invited to participate in any such meetings. The Ambassador also will approve all contacts with the media. Speeches and papers for submission to international conferences should be sent to the Department of State beforehand for comment, preferably as attachments to the Wheeler-to-Bremer memo which informs the Department of your proposed travel.

Thank you for your cooperation.

MEMORANDUM

NATIONAL SECURITY COUNCIL

March 17, 1983

MEMORANDUM FOR THE NSC STAFF

FROM: MICHAEL O. WHEELER MW

SUBJECT: Foreign Travel Requests

As you know, last year the President issued a directive requiring all foreign travel by high level U.S. officials in Executive Departments and Agencies to be cleared through NSC. A copy of that directive is attached to this memo.

Since the President's directive, several NSC staff instructions have been issued concerning procedures for handling foreign travel requests. Your office should have copies of these, in the form of memos from me to the NSC staff as follows:

- 5 April 1982 -- "Staffing Foreign Travel Requests"
- 2 July 1982 -- "Foreign Travel Requests -- Revised Review Procedures"
- 26 November 1982 -- "Foreign Travel of NSC Staff Members"
- 2 February 1983 -- "Foreign Travel of NSC Staff Members"

If you are missing any of these, please contact my office for a replacement copy.

The key to the system working for travel requests originating outside the NSC is to ensure that all such requests are entered into our computerized tracking environment and staffed accordingly. It is especially important that if you receive a telephonic request from someone planning travel -- including any official in the Executive Office of the President -- that you ask them to put their request in writing, addressed either to the Assistant to the President for National Security Affairs, or to the NSC Staff Secretary for attention of the APNSA. That is the best check we have for ensuring that the request is entered into the system and staffed thoroughly and rapidly.

Thank you.

NSC Procedures

MEMORANDUM

NATIONAL SECURITY COUNCIL

April 5, 1982

MEMORANDUM FOR THE NSC STAFF

FROM: MICHAEL O. WHEELER MW

SUBJECT: Staffing Foreign Travel Requests

As you know, foreign travel proposals of senior Administration officials must be submitted to the White House for approval. This memo formalizes NSC staff procedures now being followed and describes the new mechanism for obtaining State Department comments on travel proposals.

When the NSC Secretariat receives a travel proposal, the proposal will be tasked as a System I action, i.e., given a control number, a suspense date, and assigned to the appropriate staff officer. The staff officer is responsible for preparing a package which includes an action memo to William P. Clark. When recommending approval of travel, attach to the action memo a transmittal memo from Wheeler to his requesting-agency counterpart, and word the recommendation block of the action memo to Judge Clark accordingly, i.e., recommend that Wheeler be authorized to sign the transmittal memo. When recommending disapproval, attach to your action a memo from the Judge to the head of the requesting agency, conveying the disapproval. For either case, use the phrase "The travel request of _____ has been approved (or disapproved, as appropriate)," as opposed to saying, "Judge Clark has approved," "the NSC Staff has approved," etc. Additionally, if the transmittal memo is conveying disapproval, conclude the memo with the phrase "FOR THE PRESIDENT."

In preparing your recommendation, feel free to communicate informally with your counterpart at State as much as you feel necessary; however, there is no need to formally coordinate your recommendation. State will be given the chance by the NSC Secretariat to comment on each request. It is the responsibility of the NSC Staff Secretary to obtain those comments from State. Do not delay meeting your suspense to accommodate delays in the State response.

The key to this system working is that you be able to expeditiously treat foreign travel requests as you routinely would treat other important actions. Please communicate any questions concerning the procedures to my office.

CHRON FILE

MEMORANDUM FOR THE HEADS OF EXECUTIVE DEPARTMENTS AND AGENCIES

SUBJECT: Foreign Travel by U. S. Officials

Foreign travel by high level U. S. officials is essential to the conduct of our nation's business. Such travel, however, is in itself a part of our foreign policy.

Any such foreign travel should be for specific reasons which are consistent with our overall national security policy and should be conducted by a delegation as small as possible.

You have already reviewed your general travel policies and practices as directed in my memorandum of December 16, 1981. This directive establishes procedures for foreign travel by senior officials of the Executive Branch.

Foreign travel proposals of officials at or above the rank of Assistant Secretary (or equivalent rank) of Executive Departments and Agencies are to be submitted to the Assistant to the President for National Security Affairs for my approval.

With as much advance notice as possible, the Assistant to the President for National Security Affairs should be furnished the following information:

- Objectives of the trip
- Names of senior participants
- Itinerary
- List of major events, meetings and appearances

Upon the completion of such trips or, if appropriate, while they are in progress, a report should be submitted to me through my Assistant for National Security Affairs, noting the response of host governments to U. S. proposals and other significant information.

MEMORANDUM FOR THE HEADS OF

EXECUTIVE DEPARTMENTS AND AGENCIES

SUBJECT: Travel by Government Officials, Including Foreign Travel

Few government expenditures are more annoying to taxpayers than travel by government officials when the travel appears not to be necessary. I recognize that most of the $4 billion spent each year for travel by government employees, military dependents and patients at Veterans Administration hospitals is necessary and fully justified. However, there are repeated instances of travel by government officials that raise questions, both as to whether all the travel really is essential and whether the official involved should be away from his usual place of work at the time of the travel. This is particularly true in the case of foreign travel.

As we discussed at a recent Cabinet meeting, I would like to have each of you review the travel policies and practices of your department or agency and report back to me on steps that you have taken to assure that excessive travel does not occur. Please forward a report on your department's efforts to reduce excessive travel to Craig Fuller. The report should cover both foreign and domestic travel. Each department should address the following areas:

1. Documentation of the purpose for trips.

2. Review to determine reasons for more than one person traveling to a particular event.

3. Review to determine the degree to which a trip is devoted to official business versus personal business/pleasure.

4. Explanation of why resort meetings which may involve unnecessary costs and raise legitimate questions of unnecessary expenditures cannot be avoided.

5. Review of the extent to which meetings and conferences are funded by contracts and grants.

I would like to have your report on the findings from your review and the changes you are making in policies and practices by December 30, 1981.

Ronald Reagan

MEMORANDUM

NATIONAL SECURITY COUNCIL

February 17, 1982

ACTION

FOR THE PRESIDENT

FROM: William P. Clark

SUBJECT: Foreign Travel by U.S. Officials SIGNED

Issue

Should we require White House review of foreign travel by Heads and Deputies of Departments and Agencies?

Facts

Previous Administrations required White House approval, but the practice has fallen into disuse during this Administration. As a result, we have had trips by separate departments to the same country or region without full and necessary coordination of trip objectives.

Discussion

There is a need to reinstitute this practice. By doing so, we can ensure that appropriate lateral coordination has been effected, trip objectives are in conformance with current policy, and reduce the likelihood of conflicting signals being sent to other governments.

Recommendation

That you sign the memorandum to the Cabinet Secretaries at Tab A.

MEMORANDUM FOR THE HEADS OF

EXECUTIVE DEPARTMENTS AND AGENCIES

Travel abroad by senior officials of the Federal Government is an important part of the Administration's conduct of foreign policy. To insure that such travel is planned and timed in the best interests of our overall foreign policy, I have asked the Department of State to establish a set of procedures for coordinating travel plans by senior Administration officials (to include Assistant Secretary level and above or the equivalent). When you or senior members of your Department or Agency are contemplating a trip abroad, you should notify the Executive Secretariat of the Department of State at least 10 working days before your trip. Before confirming your travel plans with foreign government representatives, you should tell the Executive Secretariat about the purpose of your trip and the expected date of departure. The Department of State will review the travel plans and, if necessary, will suggest modifications. The Department will keep the Assistant to the President for National Security Affairs informed of travel plans and will consult with the National Security Council in making these decisions. After the trip is cleared, the Department of State will be happy to provide briefings or other sorts of help you may desire.

If you hear no reply from the National Security Council or State Department, or if there are unwarranted delays in their response, you should go ahead with your plans.

Instructions for reporting foreign travel will be provided separately by the Department of State.

MEMORANDUM FOR

ALL DEPARTMENT AND AGENCY HEADS

SUBJECT: Official and Private Travel to the People's Republic of China by Executive Branch Personnel

The President has directed that, until further notice, the following procedures should be observed as regards travel to the People's Republic of China (PRC) by any personnel of the Executive Branch or their dependents:

Official Travel to the PRC by Executive Branch Personnel

Submit to the Secretary of State 45 days in advance of the intended date of application for a PRC visa the travel plans of the individual involved, including the purpose, dates, itinerary, and any contacts with PRC officials or agencies that are contemplated. The Department of State, after consultation with the National Security Council Staff, will notify the applying employee of the action taken on his request. No direct or indirect contact with any PRC agency or official should be made until the Department of State's clearance has been obtained.

Private Travel to the PRC by Executive Branch Personnel and Their Dependents

Submit to the Secretary of State 30 days in advance of the intended date of application for a PRC visa the travel plans of the individual involved, including the purpose, dates, and itinerary. If the Department of State, after consultation with the National Security Council Staff, perceives a foreign policy objection to the intended travel, it will notify the parent agency.

~~CONFIDENTIAL~~

DECLASSIFIED
PER NSC WAIVER, #2017-03
By MB NARA, Date 9/4/19

The Executive Branch personnel and their dependents must travel in a strictly private capacity (taking annual leave or leave without pay), and are prohibited from discussing or transacting any official business while in the PRC.

The foregoing instructions, both for official and private travel, are in addition to existing travel instructions for travel abroad by Executive Branch personnel and their dependents.

MEMORANDUM FOR:

MEMBERS OF THE CABINET

SUBJECT: Coordination of Foreign Travel Plans

On several occasions in the past there have been slight confusions concerning plans for visits to foreign countries by members of the Cabinet. Therefore, I would like to suggest that each of you inform me of such plans as soon as they are proposed so that in a central coordinator capacity I can:

-- Check the travel plans of others to preclude the possibility of two or more senior Administration officials making independent visits to the same foreign country during the same time period.

-- Insure notification of the National Security Council staff.

-- Make the necessary arrangements for whatever briefings you might want or need prior to your departure from Washington.

Thank you.

ADMINISTRATIVELY ~~CONFIDENTIAL~~

MEMORANDUM FOR: MEMBERS OF THE CABINET

SUBJECT: Early Notification of Proposed Foreign Travel Plans by Senior Administration Officials

You may recall that on March 19th and December 4th of last year I sent out reminders of the importance of your informing my office by note or telephone as soon as you or your Under Secretaries contemplate trips to one or more foreign countries ... whether the proposed visits are to be official or unofficial. Because several somewhat confusing situations have developed in the interim, we think it best now to extend the request to all members of the Sub-Cabinet, and to insist upon written notifications.

Therefore, I would like to ask you to bring to the attention of the persons who comprise your key staffs the procedure whereby they too contact me in writing when foreign travel plans of any kind begin to develop -- and in all cases at least before communication is made with representatives of other governments. (Incidentally, these same instructions are being sent today in a similar memorandum to the heads of major agencies, boards and commissions, and to those who direct the organizational elements within the Executive Office of the President.

Full and continual cooperation in this matter will give me time to coordinate carefully with the Assistant to the President for National Security Affairs, and he with the Department of State, to:

-- Ascertain the international political propriety of the planned visits during the particular time periods proposed;

-- Ensure that, when the trips are to be official, other senior members of the Administration are not going to be making independent visits to the same countries on or close to the same dates; and

-- Permit the preparation of briefings which might be of interest and/or benefit to principals and their parties.

MEMORANDUM

NATIONAL SECURITY COUNCIL

March 17, 1983

MEMORANDUM FOR THE NSC STAFF

FROM: MICHAEL O. WHEELER MW

SUBJECT: Foreign Travel Requests

As you know, last year the President issued a directive requiring all foreign travel by high level U.S. officials in Executive Departments and Agencies to be cleared through NSC. A copy of that directive is attached to this memo.

Since the President's directive, several NSC staff instructions have been issued concerning procedures for handling foreign travel requests. Your office should have copies of these, in the form of memos from me to the NSC staff as follows:

- 5 April 1982 -- "Staffing Foreign Travel Requests"
- 2 July 1982 -- "Foreign Travel Requests -- Revised Review Procedures"
- 26 November 1982 -- "Foreign Travel of NSC Staff Members"
- 2 February 1983 -- "Foreign Travel of NSC Staff Members"

If you are missing any of these, please contact my office for a replacement copy.

The key to the system working for travel requests originating outside the NSC is to ensure that all such requests are entered into our computerized tracking environment and staffed accordingly. It is especially important that if you receive a telephonic request from someone planning travel -- including any official in the Executive Office of the President -- that you ask them to put their request in writing, addressed either to the Assistant to the President for National Security Affairs, or to the NSC Staff Secretary for attention of the APNSA. That is the best check we have for ensuring that the request is entered into the system and staffed thoroughly and rapidly.

Thank you.

MEMORANDUM

THE WHITE HOUSE

WASHINGTON

UNCLASSIFIED

February 15, 1984

MEMORANDUM FOR COLONEL LAWRENCE SCHUMANN

FROM: ROBERT C. MCFARLANE

SUBJECT: Automation

I want to welcome you to the White House and take this opportunity to reaffirm the NSC's commitment to the ongoing automation project as stated in Judge Clark's memorandum of July 21, 1982. Since then we have made significant strides in automating the information support system at the National Security Council.

It is crucial that appropriate security measures be taken to insure the complete integrity of the system.

The project is at a very important phase. Although the initial architecture is still valid, it must be continually reviewed and updated to reflect technical advances and our changing requirements. Our experience with this project has shown the importance of implementing a fully integrated automated system which allows the Executive, Professional Officer and Support Staff to interact with compatible equipment and capabilities. In that context, it is very important that the system be developed as user friendly as possible. WHCA should proceed with implementation of such a complete architecture.

During our efforts to provide automated assistance to the White House and NSC, it has become very clear that such capability is equally necessary to support Presidential travel. Appropriate systems should be developed to provide the same automated support capability on the road as it exists at the White House.

It is very important that WHCA expedite the completion of this project as soon as possible.

This automation project could not have been initiated or implemented without the outstanding support of the White House Communications agency. We appreciate your efforts and will continue to rely on you during this critical development period.

UNCLASSIFIED

MEMORANDUM

NATIONAL SECURITY COUNCIL

UNCLASSIFIED

February 16, 1984

MEMORANDUM FOR COLONEL RAYMOND LEE

FROM: ROBERT M. KIMMITT

SUBJECT: Follow-on Requirements for Automation Efforts

This memorandum provides further detail regarding Bud McFarlane's memorandum of February 15, 1984 in which he reconfirmed NSC commitment to the on-going automation project.

SECURITY

As we collectively implement and enhance the automation project, every effort should be taken to insure its complete security. Security measures must be taken to protect the sensitivity of the data, its classification and individual privacy requirements of professional users. The total scope of the program will require a system high SCI environment approved by NSA and Secret Service.

PROFS ON THE ROAD

It is crucial that the appropriate software, hardware and security measures be taken to provide secure PROFS capability on the road. Such support should be provided for the President, APNSA, DAPNSA and Executive Secretary.

NETWORKING

The ongoing effort to provide a network of software and hardware systems to support Professional and Support personnel should continue. The major modification to the initial architecture is the need to provide interface support to all displaywriters.

USER FRIENDLY SYSTEMS

We must impress upon IBM and other support companies, that the user products be friendly and flexible enough to accomodate the unique specifics of NSC and the White House environment. Though the basic PROFS package is fine, there

are numerous areas that could be made more user friendly and tailored to our needs.

OTHER

Efforts to upgrade the software and hardware that supports the Secretariat should continue. Progress should be made to provide appropriate financial, budgetary, graphic and statistical packages for the NSC Administrative Office.

With the successful installation and integration of the Kurzweil Optical Character Reader, you should plan on ordering a second Kurzweil OCR in the next fiscal year to support NSC Archival and Information Policy Review functions.

Any additional procurement to support this effort should allow enough flexibility for growth and equipment maintenance floats.

Thank you for the enthusiastic assistance and cooperation that you and your staff have displayed in all phases of this important project. If we can be of further assistance, please let us know.

THE WHITE HOUSE

WASHINGTON

July 21, 1982

MEMORANDUM FOR COLONEL JOHN S. TUCK
COMMANDER, WHITE HOUSE COMMUNICATIONS AGENCY

SUBJECT: Automation

I appreciate the excellent support that the White House Communications Agency has given the National Security Council. I wish to reconfirm the requirement for early installation of an integrated, automated information processing network in the NSC Staff, built around the IBM PROFS system. Twelve years ago, the RAND Corporation concluded that "an information system that is carefully designed for the NSC Staff could substantially improve the handling while maintaining the privacy of national security matters -- more than could any other change that appears practical." This issue has been studied and restudied. I am convinced that its time has come, and appreciate the enthusiastic support of WHCA in bringing it to fruition.

William P. Clark

MEMORANDUM

NATIONAL SECURITY COUNCIL

July 28, 1982

MEMORANDUM FOR COLONEL JOHN S. TUCK
COMMANDER, WHITE HOUSE COMMUNICATIONS AGENCY

SUBJECT: Automation

This memorandum provides further detail related to Judge Clark's correspondence of July 21, 1982, in which he reconfirmed the requirement for early installation of an integrated, automated information processing network in the NSC Staff.

° security measures - at a minimum, the elements of the network must be TEMPEST treated. Security measures must be taken to protect the sensitivity of the data, its classification, and individual privacy requirements of professional users. The total scope of the program would require upgrading the computer center to handle compartmented intelligence at an early date.

° networking - secretarial word processing equipment should interface with the PROFS systems of the professional staff; an electronic mail capability should connect the professional staff to one another, to the Staff Secretary's office and its subordinate elements (the NSC Secretariat and the NSC Administrative Office), and to the office of the Assistant to the President for National Security Affairs (with its various components in the West Wing). A long-term goal will be to extend this internal networking within the White House Complex to an external network incorporating the various departments and agencies that participate in the National Security Council system. A further long-term goal will be to enable the National Security Adviser to communicate with the NSC Staff when he and/or they are at remote locations, via the Situation Room's interface with this network.

° phased installation - the details of installation are understood to follow roughly the plan proposed by WHCA in June 1982, with refinement as necessary, commencing by the fall of 1982 and concluding by the summer of 1983. We urgently need an integrated word processing and office automation system, and appreciate the timely installation that WHCA has proposed.

° other - we understand that parallel with this effort, ongoing enhancements to the NSC Secretariat (e.g., OCRs, automated copy distribution) will continue, with direct electronic cable distribution as one of the long-term goals. Additionally, individual members of professional staff will require special software (graphics packages, statistics packages, etc.) and access to a range of federal and commercial data banks; the installed systems should have this kind of growth capability.

We appreciate the fact that the program proposed is an ambitious one which will place great demands upon WHCA in designing, installing, and maintaining a uniquely complicated system. However, the earliest achievement of the capabilities described earlier is more than justified by the mission they are to support. The function of the NSC is set by law, "to advise the President with respect to the integration of domestic, foreign, and military policies relating to the national security so as to enable the military services and the other departments and agencies of the Government to cooperate more effectively in matters involving the national security." The significance of that mission speaks for itself.

Thank you for the enthusiastic assistance and cooperation that members of your staff have displayed in the initial phases of this program. If we can be of assistance in helping you obtain the resources needed for this program or in any other way, please let us know.

WHITE HOUSE COMMUNICATIONS AGENCY
THE WHITE HOUSE
WASHINGTON, D.C. 20500-0001

WHCA

2 December 1986

MEMORANDUM FOR Mr Rodney McDaniel, Executive Secretary of the NSC

SUBJECT: WHCA Telecommunications Support to the National Security Council

1. The purpose of this memo is to propose a system of having a single point of contact (POC) within the NSC for requesting support from WHCA. This is necessary because of recent overall increases in the requirements for WHCA to provide telecommunications to various sections of the NSC.

2. The process of requesting telecommunications support at the present time consists of a member of the NSC who desires service submitting an actual paper memo to the WHCA Operations officer, who then forwards it to the necessary action office within WHCA. These requests come from many different people and sections within NSC with no indication of the relative importance of the requests to NSC should there be a conflict for WHCA resources (time, people, material, and funds).

3. We propose a system that would not only speed up the actual process of requesting the telecommunications service using an electronic mail system, but also establish the relative importance of the requests, since the requests would all originate within a single office in NSC. To accomplish this, a terminal operating on computer system "B", using the same Professional Office System (PROFS) that runs on the classified system "A" that supports NSC, would be provided to a single "telecommunications coordinator" you designate. This individual, by filling out a simple pre-designed form in the computer could request any of the various services provided by WHCA. He could then forward the request electronically, have confirmation that it had been received, and know that it had been forwarded to the appropriate action activity within WHCA within a very short time.

4. Attached is an example of a possible "electronic mail" form by which this could be accomplished. Upon your designating a "telecommunications coordinator" final forms could be developed, and a system "B" PROFS terminal provided.

5. POC for this action, should you approve, is LtCol Roth, the Director of Telecommunications and Support, extension 5593.

May 26, 1987

MEMORANDUM FOR PAT McGOVERN

FROM: GRANT S. GREEN, JR.

SUBJECT: Access for Craig Fuller, Chief of Staff to the Vice President, to NSC PROFS

The NSC has reviewed and approves the request by Thomas J. Collamore of the Vice President's staff to provide access for Craig Fuller to the NSC PROFS system.

Please take the appropriate steps to implement this decision.

Thank you.

NATIONAL SECURITY COUNCIL
WASHINGTON, D.C. 20506

ACTION

May 22, 1987

MEMORANDUM FOR GRANT S. GREEN, JR.

FROM: GEORGE VAN ERON

SUBJECT: NSC PROFS for Craig Fuller

You have received a request to approve access to the NSC PROFS system for Craig Fuller, Chief of the Staff to the Vice President. I do not think the NSC has any problem with this request. I have checked with WHCA and they agree. Attached is a memorandum to Pat McGovern of WHCA, who is prepared to implement your approval.

You need, however, to examine the overall issue of requests from non-NSC staff offices for access to NSC PROFS. These requests continue to grow each year. I advised you earlier of OSTP's earnest interest. The question of expanding the NSC PROFS to non-NSC staff offices should be considered by the new computer group that you/Lou Michael have established.

There is a growing need for White House and EOP offices to have secure PROFS communications with the NSC; however, it is equally true that the NSC staff deserves its own in-house, internal, private PROFS system to conduct its own business. As you know, we also append additional functions to PROFS, e.g., NSC meeting calendar, Presidential events, Cables, DOCLOG, of which we do not want to give access to non-NSC staff offices.

Concurrence: Paul Stevens, Lou Michael

Recommendations

That you approve access to PROFS for Craig Fuller, Chief of Staff to the Vice President.

Approve ✓ Disapprove _____

That you sign the memorandum to Pat McGovern at Tab A.

Approve ✓ Disapprove _____

That you authorize me to coordinate with Lou Michael and add to the agenda of the Computer Working Group the question of non-NSC staff access to NSC PROFS and the development of a secure communications link to provide electronic mail capability between the White House, EOP and NSC users.

Approve ✓ Disapprove _____

OFFICE OF THE VICE PRESIDENT

WASHINGTON

May 15, 1987

MEMORANDUM FOR GRANT GREEN, EXECUTIVE SECRETARY
NATIONAL SECURITY COUNCIL

FROM: THOMAS J. COLLAMORE, Thomas J. Collamore
ASSISTANT TO THE VICE PRESIDENT
FOR OPERATIONS

SUBJECT: NSC PROFS

Craig Fuller, Chief of Staff to the Vice President, is currently connected to the Information Resources Management Division (IRMD) System for PROFS. Additionally, we would like to have access provided to him for the NSC system for PROFS.

Please contact me if you have any questions regarding this request.

cc: Craig Fuller
