MEMORANDUM FOR THE VICE PRESIDENT
THE SECRETARY OF STATE
THE SECRETARY OF THE TREASURY
THE SECRETARY OF DEFENSE
DIRECTOR, OFFICE OF MANAGEMENT AND BUDGET
CHIEF OF STAFF TO THE PRESIDENT
ASSISTANT TO THE PRESIDENT FOR
NATIONAL SECURITY AFFAIRS
DIRECTOR OF CENTRAL INTELLIGENCE
CHAIRMAN, JOINT CHIEFS OF STAFF

SUBJECT: Intelligence Capabilities: 1992-2005 (U)

The NSR-29 assessment of intelligence requirements and capabilities through 2005 is complete. Policy requirements for intelligence support have changed markedly in the past year and more change is inevitable. The priorities reflect a general consensus among policy departments and agencies. A summary of the 1992-2005 requirements is attached. (U)

I approve the NSR-29 requirements as a basis for resource management and production priorities. They should be reviewed periodically to ensure continuing relevance to the dynamic world situation and consonance with policy objectives. (U)

The DCI's recommendation to reallocate resources in FY 1993 and beyond is also approved. I expect additional changes will be recommended in the future, and I encourage a continued strong correlation of resource allocation and policy requirements for intelligence. (U)

I endorse the DCI's changes in the intelligence process and initiatives for improving both human intelligence collection and analysis at CIA. I also approve the DCI's recommendations for comprehensive restructuring of the Intelligence Community, including:

- Abolition of the Intelligence Community Staff, establishment of a DCI Community Management Staff headed by an Executive Director for Intelligence Community Affairs, and measures to strengthen community management of resources and requirements.

- Strengthening the National Intelligence Council and the National Intelligence Officers.
- Improved coordination and management of the four major collection disciplines and the reorganization of the NRO along functional lines.
- Initiatives to enhance support to the military, including establishment of an ADDO/Military Affairs in CIA and an Office of Military Affairs in CIA, and reprogramming measures to enhance Intelligence Community support to military contingencies. ~~(S/TK)~~

These measures, together, represent the most dramatic reconfiguration of the Intelligence Community in decades, affecting structure, process, programs, and management. The program and organization changes must be implemented without delay. (U)

These changes in requirements and capabilities are an important beginning. Policy agencies must remain engaged, demanding customers, if they are to get timely, top-quality support. (U)

Waguespack/Working request

URGENT

Working needs you to set-up a package to Justice to send a copy of NSD 67. It was an oversight. He intended to include Justice. He needs it done as soon as possible. I told him we would get it rolling now and surely it would be approved and out on Monday.

It also needs a little informal note asking that AG's office inform I.C. Smith at the FBI Hqs when received.

thanks.
