MEMORANDUM FOR THE PRESIDENT

THROUGH:           CHRISS WINSTON *W*  
FROM:               MARK LANGE *ML*  
SUBJECT:            REMARKS TO THE FEDERAL JUDGES ASSOCIATION

I. SUMMARY

Attached are brief remarks for your meeting with roughly 180 members of the Federal bench, in the Rose Garden on Wednesday, May 24, at 4:30 p.m.

Your remarks outline elements of the crime package, and address the inflation-induced pay cut these judges have had to endure. You close after endorsing the 25 percent pay increase for members of the bench.

PRESIDENTIAL REMARKS:       FEDERAL JUDGES ASSOCIATION  
                                  ROSE GARDEN  
                                  WEDNESDAY, MAY 24, 1989  
                                  4:30 P.M.

I am delighted to welcome you to the Rose Garden. Your work touches just about every aspect of American life. But as you know -- perhaps too well -- the job of a judge in this country has gotten tougher in recent years.

Many of you are coping with the wave of violent crime that is breaking out over our cities. Not since Lincoln has a President stood in the White House, and been just a few miles from the front line of a war.

Last week, I announced a comprehensive new offensive for combatting violent crime. I have called for a return to common sense. If we are to deter criminal behavior, we must have a criminal justice system where there is no doubt that if you commit a crime, you will be caught -- and if caught, you will be prosecuted -- and if convicted, you will do time.

The first front of this campaign starts with the so-called "assault" weapons that drug criminals have taken to the streets. I've directed the Attorney General to advise our prosecutors to end plea bargaining for violent federal firearms offenses. And I've asked Congress to support legislation banning the

manufacture, sale, or transfer of gun magazines of more than 15 rounds.

Of course, no criminal justice system will work if we don't have the prison cells to keep criminals out of circulation. So I've also called on Congress to authorize an additional \$1 billion -- over and above the \$500 million already slated for 1990 -- for federal prison construction.

But I must also enlist your help. We've requested funds to hire hundreds of new Federal agents and staff -- as well as 1,600 new prosecutors and staff. And we have requested \$40 million in new funds for the judiciary for 1990. But it will be your dockets that groan under the weight of this new effort.

I know that's a lot to ask, since many of you have passed up much more comfortable, well-compensated professions, in the interest of justice. Each of you here brings pride and honor to the words "Public Servant" -- and each of you renders that service out of a deeply-held commitment to the idea of equal justice for all.

That commitment will be honored by this administration. I know you have seen inflation erode your salaries by as much as 40 percent over the last two decades. Well, I believe that your salaries should not be coupled to those of Congress. It's been an awkward marriage -- one that judges have endured since the dawn of this republic. And it is taking its toll.

Former Chief Justice Warren Burger says that a greater number of federal judges have left the bench for more lucrative

professions since 1969, than in the 180 preceeding years. This is one trend that must end.

If we cannot attract the best people to the bench -- if the power, prestige, and honor of the judgeships become their only currency -- the quality of the federal bench won't be maintained. That must never happen.

So in keeping with the advice of the Volcker Commission, last month I sent legislation to the Hill recommending a 25 percent pay increase for federal judges. I encourage Congress to pass that legislation quickly, to help you make up a least some of the ground you've lost -- and to keep the best people on the bench.

You are the best people: examples of public service at its very finest. What you do happens without great fanfare, without fame -- and heaven knows, without fortune. And yet, your work is absolutely essential to the workings of this Democracy.

Justice William Brennan has said that delayed justice is bad justice. I know that with your continued leadership, America can deliver justice that is fair, efficient -- and effective.

Thank you. And God bless you.

Re: Federal Judges draft

I think this speech is fine; up until the very end.

In the second-to-last graf, we mutate the old saw that "justice delayed is justice denied." Why? I agree that there's something to be said for breaking free of cliches, but we shouldn't do so after we bring up the fact that "it has been said." By doing so we telegraph our coming cliché. To then misquote said cliché makes us look merely ignorant.

WASHINGTON

MEMORANDUM FOR CHRISS WINSTON

FROM: LEE S. LIBERMAN *LSL*  
ASSOCIATE COUNSEL TO THE PRESIDENT

SUBJECT: Federal Judges Association Remarks

My understanding is that there will not be press at this event. For that reason, as well as for others that I will discuss, I would recommend dropping the discussion of the crime package-- that is, everything from the second through the sixth paragraph. I do not think there is much that judges can do to help with that package, and they will be far more interested in hearing about the pay raise. The purpose of this event is to make the judges feel appreciated. Talking to them about something that is not relevant to them and that is somewhat politically charged seems to me not to serve that purpose.

Should you decide to retain any of these paragraphs, I would strongly recommend eliminating the discussion of the gun control portions of it (the third paragraph). Those provisions will certainly be the subject of litigation (as the import ban on assault weapons is currently), and the judges may accordingly feel uncomfortable about the President's raising it in this context. Yet another argument for leaving that paragraph out is that the description of the President's directive to the Attorney General here differs from the one in the Fact Sheet released May 15 (although it tracks the one given in the President's speech that day).

If you follow my first recommendation and delete all references to the crime control package, I would pick up after the first paragraph with something like the following:

I appreciate the service you are rendering. I know that many of you have passed up much more comfortable, well-compensated professions, in the interest of justice. Each of you here brings pride and honor to the words "Public Servant"--and each of you renders that service out of a deeply-held commitment to the idea of equal justice for all.

I want to help. That's why I've requested an increase of \$40 million in new funds for the judiciary for 1990 beyond President Reagan's original budget request. And that's why I support a pay raise for federal judges now.

Then pick up with the second sentence of the eighth paragraph.

Three other points. First, you may want to change the third sentence in that paragraph to say "Well, I believe that your salaries need not be coupled to those of Congress." I believe some Members of Congress will be there, and "should not" sounds more like an attack on them. Second, I would carefully check the claim that "judges have endured [coupling] since the dawn of this republic." I have not done so, although I would be happy to if you need help with that. Finally, the statistic in the first paragraph of the next paragraph for which you quote the former Chief Justice may well be accurate, but is not particularly meaningful without a comparison of the total number of federal judges in 1969-89 to the total number 1789-1969.

PRESIDENTIAL REMARKS: FEDERAL JUDGES ASSOCIATION  
ROSE GARDEN  
WEDNESDAY, MAY 24, 1989  
4:30 P.M.

I am delighted to welcome you to the Rose Garden. Your work touches just about every aspect of American life. But as you know -- perhaps too well -- the job of a judge in this country has gotten tougher in recent years.

Many of you are coping with the wave of violent crime that is breaking out over our cities. Not since Lincoln has a President stood in the Rose Garden, and been just a few miles from the front line of a war.

Last week, I announced a comprehensive new offensive for combatting violent crime. I have called for a return to common sense. If we are to deter criminal behavior, we must have a criminal justice system where there is no doubt that if you commit a crime, you will be caught -- and if caught, you will be prosecuted -- and if convicted, you will do time.

The first front of this campaign starts with the so-called "assault" weapons that drug criminals have taken to the streets. I've directed the Attorney General to advise our prosecutors to end plea bargaining for violent federal firearms offenses. And I've asked Congress to support legislation banning the

manufacture, sale, or transfer of gun magazines of more than 15 rounds.

Of course, no criminal justice system will work if we don't have the prison cells to keep criminals out of circulation. So I've also called on Congress to authorize an additional \$1 billion -- over and above the \$500 million already slated for 1990 -- for federal prison construction.

But I must also enlist your help. While we've requested funds to hire hundreds of new Federal agents and staff -- as well as 1,600 new prosecutors and staff -- and \$40 million in new funds for the judiciary for 1990 -- it will be your dockets that groan under the weight of this new effort.

I know that's a lot to ask, since many of you have passed up much more comfortable, well-compensated professions, in the interest of justice. Each of you here brings pride and honor to the words "Public Servant" -- and each of you renders that service out of a deeply-held commitment to the idea of equal justice for all.

That commitment will be honored by this administration. I know you have seen inflation erode by as much as 40 percent over the last two decades. Well, I believe that your salaries should not be coupled to those of Congress. It's been an awkward marriage -- one that judges have endured since the dawn of this republic. And it is taking its toll.

Former Chief Justice Warren Burger says that a greater number of federal judges have left the bench for more lucrative

professions since 1969, than in the 180 preceeding years. This is one trend that must end.

If we cannot attract the best people to the bench -- if the power and prestige of the judgeships become their only currency -- some fear that the field may be left to those whose overriding priority is power -- or that the quality of the federal bench won't be maintained. That must never happen.

So in keeping with the advice of the Volcker Commission, last month I sent legislation to the Hill recommending a 25 percent pay increase for federal judges. I encourage Congress to pass that legislation quickly, to help you make up a least some of the ground you've lost -- and to keep the best people on the bench.

It has been said that delayed justice is bad justice. I know that with your continued leadership, America can deliver justice that is fair, efficient -- and effective.

Thank you. And God bless you.
