PRESIDENTIAL REMARKS: FOLLOWING COFFEE WITH OPPOSITION LEADERS
SAN JOSE, COSTA RICA
SATURDAY, OCTOBER 28, 1989, 9:00 A.M.

[together with other democratic leaders of the hemisphere]

I have just met with (Violeta Chamorro, Guillermo Endara, and other) leaders of the political opposition in Nicaragua and Panama. Here in Costa Rica, saluting 100 years of democracy, *sponsored by Costa Rica's main political parties,* these discussions serve as an especially fitting tribute to the spirit of the occasion -- and the spirit of the times.

These courageous *[opposition]* leaders left us with a stronger appreciation of the daily difficulties of the pro-democracy movements in these two countries. I conveyed to them the encouragement, and the admiration, of the American people.

It is ironic that the shining example of Latin American democracy in which we meet, lies between two nations whose rulers have so long and so harshly ignored the will of their own people.

From Cape Horn to the Bering Strait -- from Chile's promising new plebiscite to the Alaska-Soviet border, re-opened after 40 years -- a new breeze of freedom has swept the Americas with hope and opportunity. The world's first completely democratic hemisphere. But *a few* *[two]* nations have been left behind, shackled by failed ideology and failed leadership.

To the south, the outlaw Noriega regime must be replaced. This is not the judgment of Uncle Sam -- it is the judgment of the Panamanian people. And it is the judgment of history.

Today, Noriega may think his lead-pipe politics have won. But he has won nothing more than a hollow victory. Democracy

will triumph in Panama. It is a question of "when" -- not "if." By putting his own personal interests above those of the Panamanian people, Noriega will only continue to lose support internationally, inside the Panamanian Defense Forces, and among the growing number of courageous Panamanians who dare to resist his oppressive rule.

The United States will continue to work with the democracies in this hemisphere, and around the world, to support the struggle of the Panamanian people.

To the north, the Nicaraguan people have waited for democracy since they ended the Somoza dictatorship 10 years ago. Elections are planned for next February. But to date, it's clear that the Sandinistas are stacking the deck in their own favor.

The people of this hemisphere know the difference between real elections, and sham elections. And the people of Nicaragua know the kind of steps the ruling Sandinistas can take to show a real commitment to fair elections.

They have suffered long enough. If the Sandinistas don't allow fair debates and clean elections, they confirm the dictatorship long before the elections even take place. No real democracy is threatened by the voices of its people.

Today, every continent is being swept by the new breeze of political change. The world has watched in wonder as brave men and women have taken to the streets to claim their rights and to proclaim a faith in democracy. Some governments respond with reform. Some with repression. But there is no longer any doubt

which side history is on. The day of the despot, the day of the dictator, is over. The Nicaraguans and Panamanians with whom I have just met are brave and inspiring people. They stand in the vanguard of history. And they deserve the active support of all who support democracy in this hemisphere.

MEMORANDUM FOR THE PRESIDENT

THROUGH: CHRISS WINSTON *cw*
FROM: EDWARD McNALLY *EM*
SUBJECT: STATEMENT FOLLOWING COFFEE WITH OPPOSITION
 LEADERS FROM PANAMA AND NICARAGUA

I. SUMMARY

Attached for your consideration and review are draft remarks for Saturday morning's statement to the press following your meeting with opposition leaders from Panama and Nicaragua.

II. DISCUSSION

On the morning of Saturday, October 28, 1989, you are scheduled to attend a half-hour "coffee" for opposition leaders from Panama and Nicaragua sponsored by Costa Rica's main political parties. Following the meeting, you are scheduled to make a brief statement to the press.

Since all the other scheduled events during this trip are largely ceremonial -- involving participation in Costa Rica's democratic Centennial -- there is expected to be substantial interest in this meeting.

The draft remarks note that while the region has a historic opportunity to create the world's first completely democratic hemisphere (noting, for example, Chile's "promising new plebiscite") -- Panama and Nicaragua have been left behind by their own failed leadership.

On Panama, the statement re-affirms the U.S. view, shared by the democracies of this hemisphere, that Noriega's "outlaw regime" and its "lead-pipe politics" must be replaced.

On Nicaragua, it emphasizes that "the world will be watching" the elections in February, because "No real democracy is threatened by the voices of its own people."

From Cape Horn to the Bering Strait -- from Chile's promising new plebiscite to the Alaska-Soviet border, re-opened after 40 years -- a new breeze of freedom has swept the Americas with hope and opportunity. Bringing us even closer to the world's first completely democratic hemisphere. But a few nations have been left behind, shackled by failed ideology and failed leadership.

To the north, the Nicaraguan people have waited for democracy since they ended the Somoza dictatorship 10 years ago.

Elections are planned for next February. But to date, it's clear that the Sandinistas are stacking the deck in their own favor.

PRESIDENTIAL REMARKS: FOLLOWING COFFEE WITH OPPOSITION LEADERS
SAN JOSE, COSTA RICA
SATURDAY, OCTOBER 28, 1989, 9:00 A.M.

I have just met with (Violeta Chamorro, Guillermo Endara, and other) leaders of the political opposition in Nicaragua and Panama. Here in Costa Rica, saluting 100 years of democracy, these discussions serve as an especially fitting tribute to the spirit of the occasion -- and the spirit of the times.

These courageous opposition leaders left us with a stronger appreciation of the daily difficulties of the pro-democracy movements in these two countries. I conveyed to them the encouragement, and the admiration, of the American people.

It is ironic that the shining example of Latin American democracy in which we meet, lies between two nations whose rulers have so long and so harshly ignored the will of their own people.

From Cape Horn to the Bering Strait -- from Chile's promising new plebiscite to the Alaska-Soviet border, re-opened after 40 years -- a new breeze of freedom has swept the Americas with hope and opportunity. The world's first completely democratic hemisphere ^{is so close to reality.} But two nations have been left behind, shackled by failed ideology and failed leadership.

To the south, the outlaw Noriega regime must be replaced. This is not the judgment of Uncle Sam -- it is the judgment of the Panamanian people. And it is the judgment of history.

Today, Noriega may think his lead-pipe politics have won. But he has won nothing more than a hollow victory. Democracy

will triumph in Panama. It is a question of "when" -- not "if." By putting his own personal interests above those of the Panamanian people, Noriega will only continue to lose support internationally, inside the Panamanian Defense Forces, and among the growing number of courageous Panamanians who dare to resist his oppressive rule.

The United States will continue to work with the democracies in this hemisphere, and around the world, to support the struggle of the Panamanian people.

To the north, the Nicaraguan people have waited for democracy since they ended the Somoza dictatorship 10 years ago. Elections are planned for next February. But to date, it's clear that the Sandinistas are stacking the deck in their own favor.

The people of this hemisphere know the difference between real elections, and sham elections. And the people of Nicaragua know the kind of steps the ruling Sandinistas can take to show a real commitment to fair elections.

They have suffered long enough. If the Sandinistas don't allow fair debates and clean elections, they confirm the dictatorship long before the elections even take place. No real democracy is threatened by the voices of its people.

Today, every continent is being swept by the new breeze of political change. The world has watched in wonder as brave men and women have taken to the streets to claim their rights and to proclaim a faith in democracy. Some governments respond with reform. Some with repression. But there is no longer any doubt

which side history is on. The day of the despot, the day of the dictator, is over. The Nicaraguans and Panamanians with whom I have just met are brave and inspiring people. They stand in the vanguard of history. And they deserve the active support of all who support democracy in this hemisphere.
